He is also the first non-commissioner to be elected to the Association of Racing Commissioners International Board of Directors. In addition to this honor, Mr. Zanzuccki was subsequently elected as an officer of this international organization and served as its chairman from April 2004 through April 2005.

MISSION STATEMENT

The New Jersey Racing Commission (“NJRC”) governs, directs and regulates horse racing and pari-mutuel wagering. The NJRC is a member of the Department of Law and Public Safety and is responsible for regulating the horse racing industry in the State through vigilant oversight of all racing and wagering related activities to ensure the integrity of the sport and the safety of its participants.

Commission Structure

Horse racing in New Jersey is regulated by Commissioners who, by law, are appointed by the Governor, with the advice and consent of the Senate. They set policy and rule on all matters affecting racing such as issuing permits to conduct horse racing meets, approving expenditures and adjudicating licensing matters. They also consider the issuance of licenses for off-track wagering sites, are responsible for the oversight and regulation of account wagering which includes telephone and internet wagering in New Jersey. This year, the following individuals served as Commissioners at year’s end: Anthony T. Abbatiello, Manny Aponte, Dr. Michael Arnone, Pamela Clyne, Peter J. Cofrancesco III, Anthony De Paola, David Gruskos, Francis X. Keegan, Jr. and Peter T. Roselle.

The NJRC employs staff to implement its policy, including an Executive Director who is responsible for overseeing the day-to-day operations of the Commission in accordance with accepted business and financial practices. Frank Zanzuccki serves as the Executive Director.

The NJRC has a full-time staff of 34 employees who conduct the daily functions of regulating horse racing. The Commission also maintains a pool of 33 active hourly workers to supplement staff as needed.

Activities are divided into four functional areas with the FY2015 budget as follows:

Administrative/Financial		\$2,202,308
Racing Operations		\$4,492,998
Licensing	\$1,534,798	
Veterinarians	\$1,041,242	
Chemical Testing	\$1,143,334	
Officials	\$ 773,624	
Pari-Mutuels		\$ 300,603
Investigations		<u>\$ 508,327</u>
Total Operating Budget		\$7,504,236

This year’s budget is 3.3% less than FY2014.

Administrative/Financial

Much of the general administrative functions are performed by the Department of Law & Public Support Services unit specifically organized to streamline the personnel, budget and logistics functions of several State agencies.

Commission personnel perform administrative functions specific to racing matters including rule and regulation composition, staffing and scheduling, communications with and oversight of industry-related organizations, adjudication support, and report writing. Commission staff maintains a horse racing financial system that records and calculates all receipts and payments of funds from pari-mutuel wagering. In addition, it monitors the finances of certain industry organizations as required or requested.

Racing Operations

All matters related to the regulation of the actual “running of the races” are the responsibility of the employees in this functional area.

Each individual and entity associated with horse racing must be licensed by the Commission. All participants must also be fingerprinted. A state-of-the-art computer system networks the Trenton office with all satellite racetrack locations. The Commission has a very successful mail-out program and participates in the Association of Racing Commissioners International multi-jurisdictional licensing program for owners, and is a member of the National Racing Compact.

The Commission employs racing officials who are present at each racetrack to monitor the running of every race in New Jersey. They issue penalties for rule infractions and rule on matters affecting the integrity of racing, including licensing concerns.

Veterinarians are also present at every live race meet to ensure the safety of the animals and to verify that each horse is fit to race.

Race horse samples are tested for the presence of illegal drugs after each race, and on occasion, before a race and in out-of-competition settings. These randomly selected samples undergo a complete chemical analysis at Truesdail Laboratories in California.

Pari-Mutuels

Every wager made on every live and simulcast race is recorded and checked for accuracy and compliance with Commission rules and regulations. Commission staff calculate financial information from these wagers for proper distribution of funds. Racing Commission staff oversee all aspects of pari-mutuel operations to ensure they are conducted with integrity.

Investigations

The investigative staff is responsible for monitoring activities at all New Jersey racetracks, off-track wagering facilities, participating casinos, and off-track stabling facilities.

An in-house investigative unit provides the Commission with the ability to oversee the integrity of racing by conducting investigations into alleged rule violations, performing inspections to determine compliance with regulations, monitoring activity on racetracks and off-track stabling facilities, providing testimony at administrative hearings and much more.

HIGHLIGHTS AND 2015 KEY ISSUES

NOTE: Items in *italics* actually occurred in 2016 but are included here for clarity purposes.

An application for a new Off-Track Wagering (OTW) Facility was approved by the Commission at its September 16, 2015 meeting and was subsequently approved by the Attorney General. The facility, located in a former restaurant in Hillsborough Township, Somerset County, opened October 23, 2015. This is the second OTW owned and operated in Monmouth Park's approved site location area and represents the sixth such facility in the State.

Existing legislation (N.J.S.A. 5:5-186) authorizes wagering on horse races through electronic wagering terminals located in a limited number of eligible taverns, restaurants, and similar venues. This law, known as the "Pilot Program," limits the placement of electronic wagering terminals in no more than 12 locations in the northern part of the State. Specifically, Bergen, Hudson, Essex, Passaic, Union, Morris, Somerset, Hunterdon, Warren, Sussex, northern Middlesex and northern Ocean counties. One application was received for the Pilot Program from the New Jersey Thoroughbred Horsemen's Association (NJTHA) that would open such a facility in Clifton, Passaic County. This application was reviewed by the Commission and a license to operate was approved at the May, 13, 2015 meeting. As of December 31, 2015, the applicant has not implemented the Pilot Program mainly since the vendor who was to supply the electronic wagering terminals withdrew from the program. The NJTHA has advised they are in negotiations with another vendor and hope to begin this program in 2016.

Exchange Wagering N.J.A.C. 13:74C

"Exchange" is a system operated by the exchange wagering licensee in which the exchange wagering licensee maintains one or more markets in which residents of New Jersey may back or lay a selected outcome on horse races conducted within and outside of New Jersey. "Exchange Wagering" is a form of parimutuel wagering in which two or more persons place identically opposing wagers in a given market. Exchange Wagering regulations became effective on April 20, 2015.

A license to operate exchange wagering was approved at the Commission's November 16, 2015 meeting. This license was granted to the New Jersey Sports & Exposition Authority. An exchange wagering management agent license was granted to Darby Development, LLC and the exchange

wagering services agent license was granted to Betfair US LLC, subject to the terms and conditions set forth in the Final Determination and Order. *On May 10, 2016 the "Exchange Wagering" system became operational in New Jersey, the first state to authorize such a system.*

At the Commission's November meeting, the following 2016 race dates were approved: Freehold Raceway 110, Monmouth Park 57, Monmouth Park at the Meadowlands (Thoroughbred) 14 and Meadowlands (Harness) 90.

Atlantic City Race Course permanently ceased all operations on January 16, 2015 at 4:00 p.m. By letter dated January 22, 2015, the Executive Director informed Atlantic City Racing Association (ACRA) that its closure rendered the Commission's November 19, 2014 determination to issue a thoroughbred racing permit for six race dates and a simulcasting license null, void and of no effect. ACRA continues to own and operate the Favorites at Vineland OTW.

The Commission continued its comprehensive drug testing program during the year. Truesdail Laboratory, LLC (Truesdail) is under contract to conduct such testing for the Commission. Truesdail is an accredited laboratory and utilized state-of-the-art equipment and methodologies to analyze specimens. Instrumental testing is one such methodology that is applied to all specimens and is capable of detecting a much wider array of drugs at significantly lower levels. In addition to the post-race testing program, the Commission was one of the first states to implement an out-of-competition testing program in 2007. The Commission collects specimens on non-race days from horses located on grounds under the jurisdiction of the Commission as well as from horses located in other states. This program is designed to detect the use of illegal drugs that can affect performance but cannot be detected on race day. In 2015, the Commission collected more than 128 specimens to be tested under this program.

Truesdail tested 27,735 post-race blood and urine specimens collected from horses with 33 testing positive for the presence of illegal drugs during the calendar year. The lab also tested 340 specimens taken from humans with 10 being positive for the presence of illegal substances.

Several court cases of note were processed this year:

ALVIN CALLAHAN V. NJRC, OAL DOCKET NO. RAC 05328-2014N, MARVIN CALLAHAN V. NJRC, OAL DOCKET NO. RAC 05333-2014N & JOHN HOLLINGSWORTH V. NJRC, OAL DOCKET NO. RAC 05336-2014N

On March 1, 2014, Alvin Callahan, a licensed trainer, Marvin Callahan, a licensed groom and John Hollingsworth, a licensed groom, were transporting race horses to the Meadowlands. An investigator for the Meadowlands was at a rest stop on the New Jersey Turnpike and witnessed a horse trailer being pulled off into a secluded area. The investigator observed both Callahan's enter the horse trailer while Hollingsworth, who stood by the tailgate, open the bottom door but left the top doors closed. The investigator witnessed Marvin Callahan throw a white bag into a trash can upon exiting the trailer. The white bag was found to contain syringes and hypodermic needles with blood residue on them, and those items along with specimens collected from the 2 horses were sent to the lab for

analysis. This analysis determined that the drugs ACTH, Vitamin K, Flucort and Winstrol were injected into the racehorses.

At the hearing conducted by the Board of Judges assigned to the Meadowlands, the parties stipulated they were on their way to the Meadowlands with racehorses “Twinscape” and “Dointimetgether” who were entered to race that day. In the horse trailer, Marvin Callahan injected both horses with foreign substances, including drugs referred to as “Vitamin K,” “Glucor,” and “Estron.” Alvin Callahan permitted and assisted Marvin Callahan in doing so as did Hollingsworth who acted as a lookout.

The Board of Judges determined that Alvin Callahan and Marvin Callahan violated N.J.A.C. 13:71-7.29 (conduct detrimental to racing); N.J.A.C. 13:71-23.1 (intent of medication rules); N.J.A.C. 13:71-23.6 (trainer responsibility rules); N.J.A.C. 13:71-23.9 (possession of drugs or drug instruments); and N.J.A.C. 13:71-26.5 (conspiracies). The Judges suspended the Callahans for 5 years and fined each \$5,000. With the exception of N.J.A.C. 13:71-23.9 (possession of drugs or drug instruments), the Judges determined that John Hollingsworth violated the same regulations and suspended him for 1 year and fined him \$1,000.

The parties appealed the determination of the Board of Judges and the matter was transmitted to the Office of Administrative Law (OAL) as a contested case. The Administrative Law Judge (ALJ) determined that the sole issue before the court was the appropriateness of the penalties imposed by the Judges as there were no facts in dispute. The ALJ concluded that the Commission sustained its burden of proof as to all the charges against all of the licensees and further concluded that the suspensions and fines imposed upon Marvin and Alvin Callahan were warranted. As to Hollingsworth, “given his level of involvement and lack of any prior violations.” the ALJ upheld the 1-year suspension but reduced the fine from \$1,000 to \$250.

At its meeting on May 13, 2015, the Commission adopted the initial decision of the ALJ as the agency’s final administrative decision.

RONALD ABRAMS V. NJRC, OAL DOCKET NO. RAC 13694-2014S

On July 22, 2014, licensed owner/trainer Ronald B. Abrams was found in possession of a loaded hypodermic syringe on the grounds of Monmouth Park Racetrack containing the drug “Banamine.”

The Board of Stewards at Monmouth Park Racetrack conducted a hearing and issued a three-month suspension and \$1,000 fine on the license of Ronald Abrams for violation of NJAC 13:70-1.15 (Acts detrimental to racing) and 13:70-14A.8 (Possession of drugs or drug instruments), in connection with possession of a loaded hypodermic syringe. Abrams appealed the determination of the Board of Stewards and the matter was transmitted to the Office of Administrative Law as a contested case. Prior to the hearing, the parties entered into a Settlement Agreement that imposed a 75 day suspension and \$1,000 fine against Abrams. At its September 15, 2015 meeting, the Commission approved the Settlement Agreement as the agency’s final administrative decision.

ADRIAN WISHER V. NJRC, OAL DOCKET NO. RAC 15445-13

Licensed standardbred trainer Adrian Wisher was the program trainer of the mare “Love You Always,” which won the 7th race at the Meadowlands Racetrack on Friday, May 17, 2013. A post-race urine sample tested positive for “Methylhexanamine,” a drug banned by the U.S. Food and Drug Administration. Wisher requested that a split sample be analyzed and Industrial Laboratories confirmed the presence of the drug. After a hearing before the Board of Judges at the Meadowlands, the Judges suspended Wisher for one year, fined him \$1,000 and ordered loss of purse. Wisher appealed the determination of the Judges and the matter was transmitted to the Office of Administrative Law as a contested case. The Administrative Law Judge (“ALJ”) affirmed the action of the Board of Judges finding that the penalties imposed were “reasonable and appropriate.” The Commission, at its July 15, 2015 meeting, voted to accept the ALJ’s initial decision as the agency’s final administrative decision.

NEW JERSEY HORSE RACING INJURY COMPENSATION BOARD

Note: Item in italics occurred in 2016 and is included here for accuracy.

Pursuant to N.J.S.A. 34:15-129, the New Jersey Horse Racing Injury Compensation Board was created. This Board provides group workers' compensation insurance for the horse racing industry. The Board consists of representatives of the public and private sector including members of horse race organizations, Risk Management, State Banking and Insurance Department, the Attorney General and the Commission. The program covers employees of the Board, namely drivers, jockeys, exercise riders and thoroughbred trainers' employees, with 2015 premiums established at \$1.7 million *but increased to \$2.2 million as a result of a payroll audit conducted in 2016*. In 2015, the Board continued in the Assigned Risk Program with New Jersey Manufacturers Insurance Co. being the provider.
