Mission Statement

The New Jersey Racing Commission (“Commission”) regulates horse racing, pari-mutuel wagering and account wagering in the State of New Jersey. The Commission is tasked with ensuring the integrity of the sport and the wagering thereupon through efficient oversight of all racing and wagering related entities and activities. The Commission also acts to promote the health and safety of the racing participants.

New Jersey Racing Commissioners

Pamela J. Clyne, LCSW, SAC

Chairman

Appointed 2012

Appointed as Chairman April 17, 2014

Pamela J. Clyne has served as the Chairman of the Racing Commission since April 17, 2014. She has a Master’s Degree in Social Work from Rutgers University and is certified in several behavioral healthcare disciplines. One of the focuses of Chairman Clyne’s professional career has been the establishment and operation of an equine therapy practice. As a lifelong equine enthusiast, Chairman Clyne has been able to utilize both her love of horses and her expertise as a licensed clinical social worker to treat those suffering from a wide range of mental illnesses, including autism and post-traumatic stress disorder.

Currently, Chairman Clyne practices behavioral healthcare for veterans suffering from PTSD and children suffering from autism. Some of Chairman Clyne’s practices involve therapeutic horseback riding and equine-assisted psychotherapy.

Formerly, Chairman Clyne was the Executive Director of Reindancer Therapeutic Riding Center where she worked with a group of individuals with a wide range of special needs.

Dr. Michael Arnone, DDS

Appointed 2013

Dr. Michael Arnone attended Seton Hall University and St. Francis College. He received his D.D.S. from Temple University School of Dentistry and practiced dentistry in Red Bank, NJ. Commissioner Arnone was a member of the New Jersey General Assembly from 1989 to 2004 and served as Mayor of Red Bank from 1978 to 1990. Commissioner Arnone has served on several other local government agencies and committees including service as a Commissioner of the Red Bank Fire and Police.

Dr. Arnone also served his country as a member of the United States Army from 1959-1961, achieving the rank of Captain.

Lawrence F. DeMarzo

Appointed July 7, 2021

Lawrence DeMarzo, who has had a lifelong interest in horse racing, was appointed to the Commission in 2021. He is a graduate of Rutgers University and Seton Hall University School of Law.

Commissioner DeMarzo has spent most of his career in public service, specifically New Jersey State government. He has worked with the Legislature as a Chief of Staff, in the Governor's Office as a Senior Policy Advisor and in the Division of Consumer Affairs as both Deputy Director and Acting Director. He currently works as President of Education & Health Centers, a New Jersey non-profit company that provides re-entry services to the New Jersey Department of Corrections and the State Parole Board.

Francis X. Keegan, Jr.

Appointed 2006

Francis X. Keegan, Jr., a lifelong horseman, was appointed to the Commission in 2006. Formerly, he was President of the Thoroughbred Breeders' Association of New Jersey, President of the New Jersey Thoroughbred Horsemen's Association and has held esteemed membership in many national and international horsemen's organizations, including the Thoroughbred Club of America, the Green Mountain Horse Association and the National Hunt Association. He was also a patron of the Monmouth County Hunt.

Commissioner Keegan has bred, owned and raced horses in New Jersey since 1963 and has been a successful consignor at numerous thoroughbred auction sales including those held in Saratoga, NY and Keeneland, KY.

Commissioner Keegan is a graduate of Seton Hall University and attended Fordham Law School. He also served as an infantry officer in the United States Army. After 51 years, Commissioner Keegan retired from his career as a Wealth Management Advisor and First-Vice President of Investments with UBS Financial Services, Inc. In addition to his public service, Commissioner Keegan has served on the board of numerous banks, including Carteret S & L Bank of Commerce and Monmouth Community Bank.

Charles E. Tomaro

Appointed June 25, 2021

Charles E. Tomaro is a graduate of Rutgers University and attended Harvard University's Institute of Politics. He currently works as a sales and marketing representative for Clayton Block Company in Edison where he has been employed for the past 34 years.

Commissioner Tomaro has enjoyed a long career in both public and community service. He has served on numerous local government councils and planning boards, including as an Edison

Township Councilman, President and Vice-President, and currently as a Middlesex County Commissioner. He was on the Board of Directors for the Edison Chamber of Commerce, as Secretary, and the Edison Memorial Tower Commission. Commissioner Tomaro serves the community as a member of the Edison B.P.O. Elks, and as a volunteer and Vice President of the Board of Directors of the Hands of Hope for the Community Food Pantry, as well as participating in other community service organizations.

In addition, Commissioner Tomaro has been bestowed several awards of note, including being named Man of the Year of the North Brunswick Italian Club, Man of the Year of the Edison Elks, Peter Barnes Community Champion of the Metuchen Edison Y.M.C.A. and Town Hero of the United Way of Central New Jersey, amongst other accolades.

Glen Vetrano

Appointed July 26, 2019

Glen Vetrano has been involved in the equine industry for the better part of 30 years. Throughout that time, Commissioner Vetrano has participated in every aspect of the sport including owning, breeding and racing standardbred horses. Commissioner Vetrano presently resides on a small farm in Hampton Township, Sussex County, where he owns and operates a bovine breeding farm. Commissioner Vetrano's service on the Commission stems from a desire to promote the horse racing industry in New Jersey and to create a first class racing product that all New Jersey residents can enjoy while creating a level playing field for all who participate.

Commissioner Vetrano is a retired Battalion Chief of the Paterson Fire Department and has enjoyed a long career in public service, which includes serving as a Freeholder of Sussex County, being selected President of the Boys and Girls Club of Paterson and Passaic, President of the Paterson Firefighters' Association, Board Member of the Sussex County Community College Board of Trustees and the Highlands Water Protection and Planning Council, Director of the Sussex County Farm and Horse Show, Chairman of the John Cocula Memorial Scholarship Foundation and serving as a charter member of Sparta UNICO, amongst other titles and positions of public service.

Further, Commissioner Vetrano has been bestowed several awards of note, including being named Man of the Year for the Red Cross of Sussex County, Man of the Year of the Boys and Girls Club of Paterson and Passaic, Grand Marshal of the Sussex County St. Patrick's Day Parade and Volunteer of the Year of the Sussex County Chamber of Commerce, amongst other accolades.

Judith A. Nason
Executive Director

Appointed July 18, 2018

On May 15, 2019, the New Jersey Racing Commission appointed Judith A. Nason to serve as Executive Director. Ms. Nason served as Acting Director of the Commission since July 18, 2018. Ms. Nason served as Deputy Director of the Commission since November 2014 and, prior to that,

as a Deputy Attorney General beginning in January 1993. As a Deputy Attorney General, Ms. Nason represented and provided legal advice to the Commission for 13 years.

Ms. Nason received a J.D. with Honors from Rutgers Law School-Newark in 1988. Thereafter, she clerked for Chief Justice Robert N. Wilentz of the New Jersey Supreme Court. Ms. Nason was then employed as an associate attorney in New York City with Kaye, Scholer, Fierman, Hays and Handler, specializing in corporate finance, and as a litigation associate in Newark, New Jersey with LeBoeuf, Lamb, Leiby and MacRae where she worked with the Honorable Frederick B. Lacey. Thereafter, Ms. Nason left private practice for a career in public service.

Overview

Composition of Commission Staff

In calendar year 2022, there were 2,662 races conducted in New Jersey and the total handle wagered in New Jersey amounted to \$625,885,006. Horse racing is conducted at three racetracks in the State and wagers can be placed on horse races at the racetracks, the six operating off-track wagering facilities and the casino simulcast facility at the Borgata Hotel Casino and Spa, as well as over the internet or by telephone. The New Jersey Racing Commission regulates horse racing and the wagers placed on the sport.

The Commission, which is a bi-partisan body created by statute, consists of a maximum of nine members. Commissioners are appointed by the Governor, by and with the advice and consent of the Senate, for a term of six years. One such member shall be designated by the Governor to serve as chairman.

Through its regulatory purpose, the Commission is tasked with maintaining the integrity of New Jersey's horse racing industry and acting to protect the health and safety of the racing participants. These aims are achieved through the promulgation and enforcement of regulations. The Commission, which is also charged with oversight of pari-mutuel wagering upon horse races in the State, employs staff members to oversee the calculation and distribution of wagering handles in order to ensure that such wagering is conducted fairly and without incident. Additional functions of the Commission include the issuance of permits and licenses allowing persons or entities to conduct horse racing-related activities.

The Commission has a full-time staff of dedicated employees charged with conducting its daily functions. The full-time staff includes investigators, race officials, financial analysts, veterinarians, executive staff and support personnel. In addition to the full-time employees, the Commission maintains a pool of per-diem employees to supplement staff as needed. Many of the part-time and seasonal employees only work on days when racing is conducted. The staff is led by Executive Director Judith A. Nason who has served in that role since her appointment on July 18, 2018.

New Jersey Racetracks

New Jersey currently has three racetracks in operation and each has its own unique features and history. Monmouth Park is the only exclusive thoroughbred racetrack in the State and hosts the Haskell Invitational, an annual Grade 1 Stakes Race. The Meadowlands conducts both standardbred and thoroughbred racing at its state-of-the-art facility which opened in 2013. The Meadowlands has hosted the Hambletonian Stakes, one of the most prestigious harness races in the world, every year since 1981. Freehold Raceway is the oldest and longest continuously operating racetrack in the United States, having been officially opened for operation in 1854, although races were conducted on the site starting in the mid-1830s.

Other Regulated Facilities

Legislation enacted in 2002 allows for the operation of up to fifteen off-track wagering facilities, which provide members of the wagering public additional locations to place bets and watch simulcast races. As of December 31, 2022, there are six off-track wagering facilities open for business in the State. They are located in Toms River, Hillsborough, Woodbridge, Bayonne, Gloucester Township and Egg Harbor Township. The off-track wagering facility located in Hillsborough temporarily closed as of March 16, 2020 and reopened on November 1, 2022. In addition to the off-track wagering facilities, patrons are able to place bets on simulcast races at the casino simulcast facility located at the Borgata Hotel Casino and Spa, as well as on the internet and over the telephone by utilizing New Jersey's account wagering system.

Commissioners

During calendar year 2022, the following persons served on the Commission: Dr. Michael Arnone, Pamela J. Clyne, Lawrence DeMarzo, Francis X. Keegan, Jr., Charles E. Tomaro and Glen Vetrano. On April 17, 2014, Commissioner Pamela J. Clyne was designated Chairman and has served in that capacity through 2022. At year's end, there are six sitting Commissioners and three vacancies awaiting appointment.

2022 Budget

The Total Operating Budget for fiscal year 2022 was \$7,438,240. This represented an increase of \$423,503, or (6.04%), from the total operating budget of fiscal year 2021 which was \$7,014,737.

For budgetary purposes, operational activities are broken down into four functional areas. The 2022 Fiscal Year Budget for each area is as follows (with the 2021 budget numbers in parenthesis):

Administrative/Regulatory:		\$1,908,332	(\$1,762,705)
Racing Operations:		\$4,610,187	(\$4,413,679)
Licensing:	\$ 782,439		(\$761,324)
Veterinarians:	\$ 1,303,483		(\$1,153,295)
Chemical Testing:	\$ 1,528,697		(\$1,543,344)
Officials:	\$ 995,568		(\$955,716)
Pari-Mutuels:		\$225,971	(\$205,846)
Investigations:		\$693,750	(\$632,507)
Total Operating Budget:		\$7,438,240	(\$7,014,737)

Racing Operations

Oversight of the races conducted in the State and of the racing participants is the responsibility of the racing operations staff members. This group includes executive staff, racing officials, licensing personnel, veterinary staff and administrative staff.

Thoroughbred Racing Officials

The persons who officiate thoroughbred races are known as racing stewards. The Commission employs a Chief State Steward of thoroughbred racing and several associate stewards to officiate the thoroughbred races at Monmouth Park and the Meadowlands. It is the responsibility of these stewards to watch every race from start to finish and ensure that all races are conducted according to the Commission's rules. However, the duties of the stewards extend well beyond the actual running of the races.

A few days prior to a race day, Commission stewards are responsible for verifying entries into each race. On the morning of a race day, prior to any races being run, the stewards are in regular contact with trainers, owners and veterinarians to determine if any horses need to be scratched from that day's races. During each race, three stewards are present in the officiating booth at all times. Two stewards watch the race with binoculars while another studies the live video feeds. These three stewards work in concert to determine if a foul occurs during the race and, if a foul occurs, to determine the appropriate action to be taken.

The Commission has jurisdiction over all licensees and licensed tracks, farms and training facilities, as well as any location in the State where a racehorse is located. The stewards issue penalties and make judgments on all matters involving violations of the Commission's rules. When a violation of a Commission rule occurs, three stewards are empaneled to conduct a hearing at which the violator is present and has an opportunity to explain his or her side of the incident. At the conclusion of the hearing, the panel of stewards determines if a penalty is warranted.

Standardbred Racing Officials

The persons who officiate standardbred races are known as judges. The Commission employs a State Steward of standardbred racing, as well as two presiding judges and several associate judges to officiate standardbred races at Freehold Raceway and the Meadowlands. The job responsibilities of standardbred judges are similar to those of thoroughbred stewards, although there are some minor differences between the two industries. Judges verify the entries into each race and also pick the starting draw. Similar to the thoroughbred stewards, standardbred judges are in contact with the trainers, owners and veterinarians pre-race to determine if any horse must be scratched. Further, there are three judges in the officials' booth during each standardbred race who work together to view the race to ensure that no violations occur during a race and, should a violation occur, confer amongst themselves as to the circumstances involving the violation and the appropriate action to be taken.

Judges are responsible for levying penalties upon licensees and other persons for violations of the Commission's rules. When a violation of one or more of the Commission's rules occurs, three judges are empaneled to conduct a hearing at which the violator is present and has an opportunity to explain his or her side of the incident. At the conclusion of the hearing, the panel of judges determines if a penalty is warranted.

Licensing Personnel

Every person involved in thoroughbred or standardbred racing in New Jersey must be licensed by the Commission. This includes, but is not limited to, owners, trainers, jockeys, drivers, veterinarians, exercise riders and grooms. Further, all vendors, farms, stables and other entities involved in thoroughbred or standardbred racing in New Jersey, including racetrack employees, must be licensed as well.

The responsibilities of granting licenses, overseeing the licensing process and ensuring that all persons required to be licensed have been issued a license, are the responsibilities of the Commission's licensing staff. Licensing staff are present at each of the three racetracks during racing meets and are present year-round at the central office in Trenton.

In order to obtain a license, each prospective licensee must fill out an application, have his or her photo taken by a member of the Commission's licensing staff and be fingerprinted for a criminal background check. The application is then reviewed by staff and photo identification is given to the licensee. Each licensee is required to have photo identification on his or her person while on the grounds of a racetrack, farm or other area under the jurisdiction of the Commission.

Certain licenses require approval of the State Steward, while others require the taking and passing of a written examination. It is the responsibility of the licensing staff to keep track of this process and maintain such records.

In the year 2022, 9,553 licenses were issued by the Commission. A breakdown of each individual license granted for both thoroughbred and standardbred racing is attached to this report. When submitting an application for a racing license, each applicant is required to submit a licensing fee, the amount of which is different for each respective class of license. In 2022, the total revenue, in the form of licensing fees, generated through the licensing process was \$432,205, representing a 2.9% increase from the 2021 licensing revenue of \$419,910.

Veterinary Staff

The Commission employs veterinarians who operate under the supervision of the Chief State Veterinarian. It is the responsibility of the Commission's veterinarians to safeguard the health of racehorses in the State and to minimize the risk of any injury or harm that may befall human and equine race participants.

On race day, the Commission's veterinarians perform a pre-race examination of every horse that is entered to race. During this general exam, the veterinarians check each horse to

determine if there are any indications of illness or lameness. To conduct the exam, a veterinarian will enter the stall and check the horse's physical condition and will also watch the horse jog to make certain there is no evidence of lameness or unsoundness in the horse's gait. Should any horse present illness or lameness, the veterinarian has the discretion to contact the stewards or judges and recommend that the horse be scratched from racing that day. Should the horse be scratched, the horse is placed on a list maintained by the veterinary staff and cannot race until that horse undergoes a thorough evaluation by a Commission veterinarian and is determined to be free of illness or injury.

During each race, Commission veterinarians are positioned in the paddock area and along the racetrack in order to observe the horses as they run. Should an accident or injury occur, the veterinarians are immediately on hand to treat the horse and have the authority to order the horse removed by equine ambulance or euthanized, if necessary. In addition to observation of the races themselves, Commission veterinarians are responsible for taking post-race blood samples from selected horses which are then tested for the presence of any drugs or substances foreign to the natural horse. When not observing races, it is the responsibility of the veterinarians to maintain a presence in the stabling and paddock areas. The Commission has a veterinary office at each racetrack in the State.

The veterinarians are responsible for keeping apprised of any equine health issues that may be occurring in New Jersey and neighboring jurisdictions and report any issues to the executive staff as well as to the racing stewards and judges. The veterinarians also research national trends and standards in equine veterinary practice so that they may be informed of the treatments being used in the private sector.

Testing Procedures

As mentioned previously, Commission veterinarians are responsible for collecting post-race samples for testing. Further, the veterinarians also collect samples prior to the date of the race for testing. The collection of these samples for out-of-competition testing will be tested to ascertain the presence of Erythropoietin, Epopogen and other blood doping agents.

In addition to the Commission veterinarians, the Commission employs several part-time animal health inspectors who work at the racetracks. After each race, some or all of the horses that competed in the race are sent to the detention barn to undergo post-race testing. The veterinarians and animal health inspectors procure blood and urine samples, respectively. The veterinarian or animal health inspector label and seal the samples they have procured and place the samples into locked storage. The samples are then shipped to a laboratory, which is under contract with the Commission, to be tested for the presence of drugs and substances foreign to the natural horse. Industrial Laboratories in Wheat Ridge, Colorado serves as the testing laboratory.

In addition to equine testing, persons who may influence the outcome of a race may be tested for the presence of alcohol or drugs. This includes, but is not limited to, jockeys, trainers, drivers, grooms and the Commission's own stewards and judges.

In calendar year 2022, the Commission tested 14,388 equine samples and 87 human samples. Due to the abundance of standardbred racing in New Jersey, the majority of equine samples, or 11,755 samples, were taken from standardbred horses, while 2,633 samples were taken from thoroughbred horses. In total, there have been 30 equine positives from standardbred horses and thoroughbred horses combined. There were also 2 human positives. A complete breakdown of the total testing numbers and the specific drugs found is attached to this report.

Pari-Mutuel Wagering

The Commission is tasked with ensuring the integrity of the sport and the wagers made thereupon. Every wager placed in New Jersey is recorded and checked for accuracy and compliance with the Commission's rules. Commission staff oversees the calculation of financial information from these wagers to ensure proper distribution of funds. Staff also regulates all operational aspects of pari-mutuel wagering and account wagering to best ensure the integrity of the wagering aspects of the sport. Under the direction of the Supervisor of Mutuels, Commission staff oversee the operation of the totalisator, a device that computes the incoming wagers on a particular race in real time, calculates the odds on each race and transmits those odds to the racetracks. This sophisticated computer system is housed at the Quantum Data Center East in Mt. Laurel, New Jersey ("Data Center"). The Commission's Supervisor of Mutuels and staff are located at the Data Center in order to maintain a constant presence and to ensure that all of the systems are being operated according to the Commission's rules. In 2022, Global Tote US, LLC ("Global"), formerly known as Betmakers US, LLC, was the entity licensed to operate the Data Center.

The accounting staff is also responsible for calculating the breakdown of bets from each of the many wagering locations and modalities throughout the state and separating the shares of these wagers accordingly. Each type of wager has different statutory and regulatory requirements that determine which parties receive percentages of the total wagering handle. In very broad terms, wagers can be made on two types of races: live races and simulcast races. A wager on a live race must necessarily take place at the racetrack where the race is being held. All bets made on races occurring at racetracks other than where the bettor is located are considered simulcast wagers and are governed by the Simulcasting Racing Act, N.J.S.A. 5:5-110 et seq. All wagers made at an off-track wagering facility, or by the account wagering system, are governed by the Off-Track and Account Wagering Act, N.J.S.A. 5:5-127 et seq. Revenue is collected from the total handle amounts based upon a statutory scheme created for such purpose.

Live Wagering

Live pari-mutuel wagering can occur at any of the three racetracks on days when races are held. Live bets are taken at teller windows and self-service machines at the tracks and are most commonly redeemed at the tracks as well. Each of the three racetracks employ security personnel to safeguard all areas where money is being transacted or stored. As mentioned earlier, the Commission has staff members present at every racetrack during racing hours.

Simulcast Wagering

Simulcast wagering, which is pari-mutuel wagering on simulcasted races, can occur at any of the three racetracks, six off-track wagering facilities or the Borgata Hotel Casino and Spa. Simulcast wagering can also occur by internet or telephone when utilizing the account wagering system. Simulcasting conducted at the three racetracks is identified as either interstate or intrastate simulcasting, depending on the location of the race being wagered upon.

Pari-Mutuel Handles

The Commission oversees the pari-mutuel system and maintains accounting records of every dollar wagered on horse racing in the State. A full statistical analysis of the wagers made at each racetrack, off-track wagering facility and casino simulcast facility, as well as each wager made using the account wagering system, are attached to this report.

In 2022, the total live wagering handle was \$29,972,075. This represents a 10.12% increase from the total live wagering handle in 2021, which was \$27,217,612. Monmouth Park's total live handle in 2022 was \$17,753,795 representing a 24.88% increase from Monmouth Park's 2021 live wagering handle of \$14,216,978. Thoroughbred racing at the Meadowlands' total live handle in 2022 was \$464,725 representing a 21.97% increase from thoroughbred racing at the Meadowlands' 2021 live wagering handle of \$381,008. Harness racing at the Meadowlands' 2022 live wagering handle was \$8,922,958 representing a 4.87% decrease from the Meadowlands' 2021 live wagering handle of \$9,379,606. Freehold Raceway's 2022 fall meet live wagering handle was \$1,338,106, representing a 2.86% decrease from Freehold's 2021 fall meet live wagering handle of \$1,377,526. Freehold Raceway's 2022 spring meet live wagering handle was \$1,492,491, representing a 19.87% decrease from Freehold's 2021 spring meet live wagering handle of \$1,862,494. The Far Hills Special Steeplechase Meet on October 15, 2022 had a live wagering handle of \$0 because all wagering was conducted through a mobile application. The 2021 Far Hills Special Steeplechase Meet also had a live wagering handle of \$0 for the same reason.

In 2022, the total intrastate simulcasting handle was \$6,952,786, representing a 14.46% decrease from the 2021 intrastate wagering handle of \$8,128,071. In 2022, the total interstate simulcasting handle was \$161,620,279, representing a 5.65% decrease from the 2021 interstate wagering handle of \$171,296,356.

In 2022, the total off-track and account wagering handle was \$370,993,683, representing a 5.1% decrease from the 2021 total off-track and account wagering handle of \$390,915,918. Account wagering accounts for \$263,381,414 of this 2022 handle, a decrease of 5.86% from the 2021 account wagering handle of \$279,785,936. Off-track wagering accounts for \$107,612,269 of the 2022 handle, a decrease of 3.17% from the 2021 off-track wagering handle of \$111,129,982. In 2022, Woodbridge was the off-track wagering facility that generated the largest handle, while Hillsborough was the facility that generated the lowest handle.

In 2022, the casino simulcasting handle was \$19,836,401, representing less than a 1% decrease from the 2021 casino simulcasting handle of \$19,699,775.

Regulatory Affairs

Horse racing in New Jersey is a highly regulated activity. The Commission directly regulates the industry through the promulgation and enforcement of rules.

It is the responsibility of the executive staff to monitor and determine how best to regulate each area of the industry. Executive staff meets with the Presiding Steward, Presiding Judges, the Chief Veterinarian and the Chief Investigator to better understand what rules may need to be amended, created or repealed based on the current needs and trends of the industry. The executive staff is responsible for keeping abreast of the current rulemaking trends in other racing jurisdictions throughout North America in order to help New Jersey remain a leader in the international racing community.

Other than Commission-initiated rule changes, the executive staff also receives petitions for rulemaking from members of the industry or from members of the public. When such a petition for rulemaking is received it is the responsibility of the executive staff to research the request and determine whether the suggested rule should be considered. Additionally, the Legislature may adopt statutes requiring the Commission to promulgate rules.

In 2022, the Commission adopted and readopted several rules by publication in the New Jersey Register.

N.J.A.C. 13:74 et seq., which was readopted on February 15, 2022, establish the rules regulating off-track wagering and account wagering in New Jersey, as well as general standards of practice within the industry.

N.J.A.C. 13:72 et seq., which was readopted on August 30, 2022, establish the rules regulating casino simulcasting in New Jersey, as well as general standards of practice within the industry.

N.J.A.C. 13:74A-1.1, 2.1, 2.2, 3.1, 4.1, 4.2, 5.1, 5.2, 6.1 and 6.2, which became effective on October 3, 2022, implement the statutory provisions in N.J.S.A. 5:5-65.1 and 65.2 that authorize persons who perceive themselves to be problem gamblers to request that their names be placed on the self-exclusion list maintained by the Commission. As a result of the entry of a person's name on such list, that person would be prohibited from wagering on horse racing in person at the racetracks, OTWs and through the New Jersey account wagering system.

N.J.A.C. 13:70-6.5 and N.J.A.C. 13:71-4.1, 7.13, 16.5, 20.8 and 27.16, which became effective on October 3, 2022, eliminate the requirement that all horses trained by the same trainer or owned by the same owner be coupled as an entry for wagering purposes when entered in the same race in New Jersey. As a result, the new rules will likely maximize the number of betting interests per race, generate larger betting pools and increase handle while continuing to safeguard the integrity of the race and protect the wagering public through the enforcement of other existing rules that remain in place.

Further, the Horseracing Integrity and Safety Act of 2020, 15 U.S.C. §§3051 et seq. (“Act”) created the Horseracing Integrity and Safety Authority (“HISA”), which is a private, independent, self-regulatory, nonprofit corporation. Id. at §3052(a). The Act grants HISA exclusive authority to implement a horseracing anti-doping and medication control program and a racetrack safety program for thoroughbred horses. Although HISA deferred its anti-doping and medication control program until 2023, it adopted racetrack safety rules which became effective on July 1, 2022.

HISA’s racetrack safety rules require the presence of regulatory veterinarians at all thoroughbred racetracks to conduct pre-race examinations of the horses, place horses on the Veterinarians’ List and perform other duties. HISA adopted additional rules, such as a riding crop rule, claiming rule and human drug testing rule, which must be enforced by stewards.

The Commission entered into a services agreement with HISA for calendar year 2022. The Commission agreed to provide the services of its regulatory veterinarians, who continued to perform the services they performed at Monmouth Park racetrack in June 2022, and to undertake reasonable efforts to carry out the duties and responsibilities of the Regulatory Veterinarian. The Commission also agreed to provide the services of its stewards to enforce HISA’s racetrack safety rules and to conduct hearings for violations that occur in New Jersey. In addition, the Commission’s stewards will inspect and approve the racetrack emergency warning system, administer HISA’s uniform National Trainers Test, maintain a drug and alcohol testing program for jockeys and perform the services they currently perform at Monmouth Park regarding the concussion management program for jockeys. HISA agreed to compensate the Commission for the actual cost and expenses incurred by the Commission for the services provided.

Investigative Staff

The Commission employs a staff of investigators to monitor the activities at the racetracks, off-track wagering facilities, the casino simulcast facility, farms, training facilities and the Data Center.

Commission investigators are responsible for maintaining a presence at all areas over which the Commission has jurisdiction. Investigators regularly appear at licensed farms and training facilities to ensure that the licensees present are complying with the Commission’s rules. Further, the Commission investigates incidents involving racehorses. Investigators are responsible for producing reports of any incident or rule violation discovered in the course of their duties. The investigative staff has the authority to access any area subject to the Commission’s jurisdiction.

Violations

In 2022, there were 336 documented violations of the Commission’s rules.¹ For a full listing of the violations, please visit <https://www.njoag.gov/about/divisions-and-offices/nj-racing-commission-home/njrc-official-rulings> and enter the appropriate date range. When found in

¹ This number does not include seven documented violations of HISA’s rules.

violation of the Commission's rules, the violators have the right to appeal. When an appeal is submitted, the Commission transmits the matter to the Office of Administrative Law ("OAL") for a hearing. The Commission currently has a number of matters pending before the OAL.

Sports Wagering

Following the favorable resolution in Philip D. Murphy, Governor of New Jersey, et al. v. NCAA, et al., 138 S. Ct. 1461 (2018), the Legislature authorized the licensure of sports wagering facilities in the State. The Commission is the body responsible for issuing the initial sports wagering license to the existing racetracks and former racetracks as defined by the statute. As of December 31, 2022, the permit holders at all three racetracks operate a sports wagering facility on racetrack grounds.

New Jersey Horse Racing Injury Compensation Board

The New Jersey Horse Racing Injury Compensation Board ("Board") is in, but not of, the Department of Law and Public Safety. The Board has no staff of its own and Commission staff is responsible for maintenance of the Board's files and promulgation of the Board's rules. Additionally, the Executive Director of the Commission currently serves as the Commission's representative on the Board.

Regulated Entities

The entities whose actions are regulated by the Commission include, but are not limited to, the permit holders that operate the racetracks and conduct race meetings, the off-track wagering licensees that operate the off-wagering facilities, the licensees that operate the New Jersey account wagering systems and the casino simulcast licensee that operates the casino simulcast facility at the Borgata Hotel Casino and Spa.

Permit Holders

The Commission is responsible for granting permits to allow persons or entities to conduct thoroughbred and standardbred racing in the State of New Jersey. Pursuant to N.J.S.A. 5:5-44, each permit must be renewed annually. Each entity that held a permit to conduct race meetings in 2022 submitted an application for a renewal of their respective permits for 2023. The New Jersey Thoroughbred Horsemen's Association ("NJTHA") submitted three applications to conduct race meetings. These included one application each for thoroughbred race meetings to be conducted at Monmouth Park and the Meadowlands. The third application requested a special permit for conducting a one-day steeplechase meeting in Far Hills, NJ. FR Park Racing, LP submitted two applications to conduct harness race meetings, both of which will take place at Freehold Raceway. New Meadowlands Racetrack, LLC submitted one application to conduct a harness race meeting at the Meadowlands. The Commission granted the renewal of the requested permits at its November 16, 2022 public meeting except for the one-day steeplechase meeting. The Commission

had to table action on this permit because the statutory notice period required in N.J.S.A. 5:5-38.2 had not yet concluded. The Commission ultimately granted the renewal of the special permit for the one-day steeplechase meeting at its January 25, 2023 public meeting.

Off-Track Wagering Licensees

As of December 31, 2022, there are six operating off-track wagering facilities in New Jersey and it is the Commission's responsibility to license these facilities and the operators thereof. The operators of each of the off-track wagering facilities applied for a renewal of their respective licenses for 2023. At its November 16, 2022 public meeting the Commission voted to grant each of these licensees a renewal of their respective off-track wagering licenses.

Casino Simulcasting

The only casino licensed to conduct simulcasting of horse races is the Borgata Hotel Casino and Spa. The Commission renewed this license for 2023 at its November 16, 2022 public meeting and continues to jointly regulate wagering at the facility with the Division of Gaming Enforcement.

Account Wagering

The account wagering license is held by the New Jersey Sports and Exposition Authority. Darby Development, LLC manages the account wagering system and TVG provides the platform services necessary for operation. All three entities had their licenses renewed for 2023 at the Commission's November 16, 2022 public meeting.

Totalisator

The totalisator for New Jersey horse racing wagers is operated by Global, and is housed at Global's Quantum Data Center East, located in Mt. Laurel, New Jersey. Global had its license renewed for 2023 at the Commission's November 16, 2022 meeting.

Race Dates and Purse Subsidies

The Commission is empowered to allocate race dates for the ensuing year to each of the permit holders. When allocating race dates, the Commission is directed by statute to consider the public interest, which consists of factors such as the protection of State revenues, providing for the continuity of racing and year-round racing to promote the racing industry and the employment the industry provides in the State, the recreational opportunity the presence of live horse racing provides members of the public in the areas where racetracks are located and the maintenance of the State's competitive position in relation to neighboring racing jurisdictions.

The Commission must also consider N.J.S.A. 5:5-156(a), which requires that the thoroughbred permit holder at the Meadowlands and the permit holder at Monmouth Park shall, in

the aggregate, schedule not fewer than 141 thoroughbred race dates in a calendar year. The statute also requires that the standardbred permit holder at the Meadowlands shall schedule no fewer than 151 standardbred race dates at the Meadowlands and that the permit holders at Freehold Raceway schedule no fewer than 192 standardbred race dates.

The statute provides the ability for each permit holder to schedule fewer dates if each permit holder is able to obtain written consent to do so from the relevant industry's horse men's association. N.J.S.A. 5:5-156(a) allows the permit holder at Monmouth Park and the thoroughbred permit holder at the Meadowlands to schedule a minimum of 50 thoroughbred race dates in the aggregate if the permit holder receives written consent from the NJTHA. N.J.S.A. 5:5-156(b) allows the permit holder at the Meadowlands to schedule a minimum of 75 standardbred race dates if the permit holder receives written consent from the Standardbred Breeders and Owners Association of New Jersey ("SBOA"). Likewise, N.J.S.A. 5:5-156(c) allows the permit holders at Freehold Raceway to schedule a minimum of 75 standardbred race dates, in the aggregate, at Freehold Raceway if the permit holders receive written consent from the SBOA.

At its September 21, 2022 meeting, the Commission allocated the \$25 million in purse subsidies appropriated for fiscal year 2023. Pursuant to N.J.S.A. 5:5-99.1, the Commission allocated \$12.5 million to Monmouth Park, \$7.5 million to New Meadowlands Racetrack, \$2 million to Freehold Raceway, \$1.5 million to the New Jersey Sire Stakes, \$750,000 to standardbred purse bonuses for New Jersey sired horses and \$750,000 to standardbred breeders awards purses for fiscal year 2023.

Thoroughbred Horsemen's Association

The NJTHA conducted a total of 61 days of racing at Monmouth Park between May 7 and September 18, 2022. The race dates included every Saturday and Sunday during this timeframe, as well as Fridays from June 3 to September 2. Monmouth Park also offered live racing on Monday, May 30 and Monday, July 4, as well as every Monday from August 1 to September 5. The NJTHA originally anticipated 60 days of live racing at Monmouth Park. On March 23, 2022, the Commission approved the NJTHA's request to revise its racing schedule at Monmouth Park. The racetrack added live racing dates on September 11 and 18. Live racing was cancelled on May 7 due to inclement weather.

The NJTHA originally scheduled 11 days of thoroughbred racing at the Meadowlands in 2022, but actually conducted a total of 8 days of thoroughbred racing. On March 23, 2022, the Commission approved the NJTHA's request to revise its racing schedule and cancel live racing on October 28 and 29. Racing occurred on September 23, 24 and 30, and October 7, 8, 14, 21 and 22, 2022, with October 1 being cancelled due to adverse weather conditions. The NJTHA conducted a one-day special steeplechase meet at Moorland Farm in Far Hills, New Jersey on October 15, 2022.

New Meadowlands Racetrack, LLC

New Meadowlands Racetrack, LLC conducted 87 days of standardbred racing at the Meadowlands between January 7 and December 31, 2022. New Meadowlands Racetrack, LLC

had been allotted 90 racing days for the 2022 calendar year. During the time periods January 7 to August 6, and September 1 to December 31, 2022, New Meadowlands Racetrack, LLC conducted races on Fridays and Saturdays, as well as on the following Thursdays: June 30, July 7, August 4, September 1 and 8 and December 1, 2022. The Meadowlands did not conduct live racing on December 23 and 24 due to the Christmas holiday.

On August 31, 2022 the Commission approved the New Meadowlands Racetrack, LLC's request to add live racing on September 1 and cancel live racing on December 8. Live racing was cancelled on January 28 and 29 and February 25, 2022 due to inclement weather.

FR Park Racing, LP

FR Park Racing, LP conducted 82 days of racing over the course of two meets at Freehold Raceway in 2022. FR Park Racing, LP had been allotted 85 racing days for the 2022 calendar year. The first meet was scheduled between January 1 and May 28, 2022, and the second meet occurred between August 26 and December 31, 2022. The first meet consisted of 44 racing days, which were scheduled on Thursdays, Fridays and Saturdays from January 1 to 29, and on Fridays and Saturdays from February 4 to May 28. Live racing was cancelled on January 7 and 29, and on February 5 due to adverse weather conditions. The second meet consisted of 38 racing days, and was comprised of the Fridays and Saturdays during that timeframe.

Far Hills Special Steeplechase Meet

Legal pari-mutuel wagering took place on the special steeplechase meet held at Moorland Farm in Far Hills, New Jersey on October 15, 2022. The meet was held pursuant to N.J.S.A. 5:5-38.2, which authorized the Commission to issue a special steeplechase permit to the NJTHA. The issuance of the special steeplechase permit authorized legal pari-mutuel wagering to be conducted onsite in Far Hills. The permit also authorized the simulcasting of the steeplechase races to racetracks and other sites within and outside of New Jersey where pari-mutuel wagering took place. The special steeplechase permit caused the race meet to fall within the regulatory authority of the Commission which licensed the race participants, conducted drug testing and provided officials, veterinarians, investigators and other staff.

2023 Race Dates

At its November 16, 2022 and January 25, 2023 public meetings, the Commission allotted the following race dates to each permit holder for the year 2023.

The NJTHA was allotted 51 race dates at Monmouth Park, 10 race dates at the Meadowlands and 1 steeplechase race date at Moorland Farm. A calendar of the approved race dates is attached.

New Meadowlands Racetrack, LLC was allotted 90 race dates at the Meadowlands. A calendar of the approved race dates is attached.

FR Park Racing, LP plans to race two meets at Freehold Raceway and was allotted 42 race dates for the first meet and 43 race dates for the second meet. A calendar of the approved race dates is attached.

Horsemen's Consent

In 2022, the NJTHA received written consent from the respective horsemen's association, which is the NJTHA, to run fewer than the minimum dates required by N.J.S.A. 5:5-156 in 2023.

In 2022, the SBOA granted written consent to both FR Park Racing, LP and New Meadowlands Racetrack, LLC to allow each permit holder to run fewer than the minimum dates required by N.J.S.A. 5:5-156 in 2023.

Contact Information

Racetracks

Each of the operating racetracks in New Jersey, along with their addresses and important contact information, is listed below.

Freehold Raceway

130 Park Avenue
Freehold, NJ 07728
(732) 462-3800
www.freeholdraceway.com

Freehold Raceway is owned by Pennwood Racing, Inc. and operated by FR Park Racing, LP.

The Meadowlands

1 Racetrack Drive
East Rutherford, NJ 07073
(201) 843-2446
