Part II - Major Long-Term Care Issues

A. Describe the priority long-term care issues which your program identified and/or worked on during the reporting period. For each issue, briefly state: a) the problem and barriers to resolution, and b) recommendations for system-wide changes needed to resolve the issue, or how the issue was resolved in your State. Examples of major long-term care issues may include facility closures, planning for alternatives to institutional care, transition of residents to less restrictive settings, etc.

In an effort to better meet the advocacy needs of nursing home residents throughout the state, the Office of the Ombudsman for the Institutionalized Elderly (OOIE) has increased its focus on recruiting and retaining volunteer ombudspersons. OOIE has operated a successful volunteer program since the mid-1990s. Since its inception, the program was outsourced to a non-profit agency. However, in recent years the program under this system was stagnating, maintaining a level of about 150–160 [active] volunteers. The decision was made in late calendar year 2010 to bring the volunteer program in-house and to make a concerted effort to recruit volunteers in the southern portion of the state. In addition, Ombudsman McCracken has personally advocated for the volunteer program through a series of speaking engagements and recruitment events. A marketing campaign was launched during the summer of 2011 that has resulted in a 12% increase in volunteers in fiscal year 2011. The Ombudsman has set a goal of having an active volunteer in 80% of the state’s nearly 400 nursing homes by the end of calendar year 2013.

OOIE is working with the NJ Department of Human Services (NJ DHS) and the NJ Department of Health and Senior Services to assist the state’s rebalancing effort through the federal Money Follows the Person Demonstration Project (MFP). NJ DHS (the lead agency for MFP) is seeking additional supplemental funding to increase nursing facility and state institution transitions to community-based settings. It is envisioned that the Ombudsman MFP staff will help educate nursing facility residents, facility staff, family members and the larger community on community-based care options and will advocate to residents who express a desire to return to the community to ensure that their rights are being recognized and upheld.
**Part III - Program Information and Activities**

### A. Facilities and Beds:

ALERT: AoA recommends that your program regularly enter into your data collection system all licensed facilities and beds in your state covered by your program and keep this information updated. In the event this is not being done in your program, the totals for Part III.A should be obtained from an outside source, such as the state licensing agency, and entered into the ORT manually.

1. How many nursing facilities are licensed in your State?  
   - 394

2. How many beds are there in these facilities?  
   - 54,520

3. Provide the type-name(s) and definition(s) of the types of board and care, assisted living, residential care facilities and any other similar adult care home for which your ombudsman program provides services, as authorized under Section 102(18) and (32), 711(6) and 712(a) (3)(A)(i) of the Older Americans Act. If no change from previous year, type "no change" at space indicated.

Part III - Program Information and Activities

B. Program Coverage

Statewide Coverage means that residents of both nursing homes and board and care homes (and similar adult care facilities) and their friends and families throughout the state have access to knowledge of the ombudsman program, how to contact it, complaints received from any part of the State are investigated and documented, and steps are taken to resolve problems in a timely manner, in accordance with federal and state requirements.

B.1. Designated Local Entities

Provide for each type of host organization the number of local or regional ombudsman entities (programs) designated by the State Ombudsman to participate in the statewide ombudsman program that are geographically located outside of the State Office:

Local entities hosted by:

| Area agency on aging       | 0 |
