9	Please state the amount of unspent and/or uncommitted opioid abatement funds from any reporting year that your subdivision has on hand.	\$228,178.64
10	Please share brief information on your subdivisions overarching goals and values to provide context for this year's spending decisions	Evesham Township's spending decisions for opioid settlement funds are guided by broader state and county goals that focus on saving lives, reducing harm, expanding education, and supporting treatment and recovery. Burlington County emphasizes raising awareness of resources, providing naloxone, and reducing stigma, while Evesham's own Municipal Alliance works to promote community health and reduce substance use through local initiatives. In practice, the township has supported recovery-focused events and awareness programs, but experts suggest that long-term impact will come from balancing these efforts with evidence-based strategies like harm reduction, improved access to treatment, and ongoing community engagement. This year's funding choices can be seen in the context of aligning with those larger values while meeting local needs.
11	How did you decide the best way to use the opioid abatement funds your subdivision received this reporting year? For example, did you rely on evidence-based or evidence-informed practices or strategies, the list of Opioid Remediation uses, a needs assessment, a strategic plan, or an epidemiological analysis? If yes, please explain.	This year, the Evesham Township Municipal Alliance used its share of the opioid settlement funds to support community-based programs that raise awareness, encourage recovery, and promote healthy choices. Our decisions reflected the Alliance's mission to foster well-being and reduce substance use through prevention and community engagement. While our funding this year centered on activities that bring people together and highlight recovery, we recognize the importance of strengthening our process with more evidence-based strategies, such as harm reduction services, treatment access, and long-term recovery supports. Going forward, the Alliance is committed to balancing community-driven initiatives with practices proven to save lives and reduce the impact of the opioid crisis.

12	In this reporting year (7/1/2024 - 6/30/2025), did your subdivision engage the public (e.g., town hall meeting, online survey, convened stakeholders) prior to deciding how to use the opioid abatement funds you received?	No, but plan to in the future
13	Please describe your public engagement/input efforts?	While we did not hold a formal public process this year, the Township is developing best practices and procedures to ensure future opioid funding decisions are guided by both community input and evidence-based strategies.
14	Does your county/subdivision have a strategic plan?	No, but we plan to in the future
15	Have you completed a Risk Assessment profile for demographic or geographic impact?	No, but we plan to in the future
16	Did your subdivision fund any new programs using opioid abatement funds in this reporting year?	Yes

1	Program Name/Title	L.E.A.D. Day Camp
2	Agency/Funding Recipient Name	Evesham Municipal Alliance
3	Agency/Funding Recipient Category	County or Municipality (including Departments and Municipal Alliances)
4	Primary problem being addressed by this program:	The LEAD (Law Enforcement Against Drugs) program is a school- and community-based drug and violence prevention initiative in New Jersey. It focuses on educating students about the dangers of drug abuse, bullying, and violence while fostering positive relationships between law enforcement officers and local communities. The program includes evidence-based lessons taught by specially trained police officers, covering topics such as drug and alcohol prevention, anti-bullying strategies, decision-making and leadership skills, and conflict resolution. Community engagement is also a key component, with law enforcement participation in local activities and events.

5	Brief program description:	The 2025 LEAD Camp in Evesham Township was held on May 10, 2025, at Chartwell Family Oasis Swim Club. This inaugural event, organized by the Evesham Township Municipal Alliance, aimed to honor and engage all 5th-grade students in the township. The day featured a variety of activities designed to promote healthy choices, positive peer interactions, and community involvement. The collaboration with Chartwell Family Oasis provided a vibrant setting for these initiatives.

20	Please explain how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	The LEAD program addresses opioid and other substance use disorders, as well as co-occurring mental health conditions, by teaching students about the risks of substance misuse, building resilience and coping skills, and fostering positive decision-making. Using evidence-informed strategies like interactive lessons, role-playing, and supportive relationships with trained law enforcement officers, the program encourages early prevention, peer support, and connection to appropriate resources when needed.
21	Please identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	The procurement for the day camp location with food was over the quote threshold (under pay to play) therefore four quotes were obtained for various locations. Chartwell Gardens came in as the lowest price so they were awarded the contract.

8a.	Please provide details about any administrative expenses.	
9	Please state the amount of unspent and/or uncommitted opioid abatement funds from any reporting year that your subdivision has on hand.	\$101,579.05

10	Please share brief information on your subdivisions overarching goals and values to provide context for this year's spending decisions	As a means to responsibly utilize funds, our committee began with smaller outreach and tabling events. In understanding the larger opportunity based on the volume of funds made available, we are actively working with our police department and school district resource officers and guidance departments to create more programs, materials and equipment to support this program.
11	How did you decide the best way to use the opioid abatement funds your subdivision received this reporting year? For example, did you rely on evidence-based or evidence-informed practices or strategies, the list of Opioid Remediation uses, a needs assessment, a strategic plan, or an epidemiological analysis? If yes, please explain.	As stated above, we began utilizing funds which supported outreach and tabling based on parameters we've used in the past through our local municipal alliance. It is our goal to increase our presence and explore new and efficient program opportunities.
12	In this reporting year (7/1/2024 - 6/30/2025), did your subdivision engage the public (e.g., town hall meeting, online survey, convened stakeholders) prior to deciding how to use the opioid abatement funds you received?	Yes, for one year funding
13	Please describe your public engagement/input efforts?	Opioid settlement funds along with our local municipal alliance meetings coincide with our townships recreation committee meetings and interdepartmental meetings with our police department. These has been the baseline to discuss activities to establish a presence.
14	Does your county/subdivision have a strategic plan?	No
15	Have you completed a Risk Assessment profile for demographic or geographic impact?	Yes
15a	Can we post your risk assessment online?	
16	Did your subdivision fund any new programs using opioid abatement funds in this reporting year?	Yes

13	Please state this program's statement of impact.	The focus of prevention is dedicated to teens that are driving, participating in athletics where injury many times required prescription medication and at an age where they begin meeting new individuals through work, college and social activity. Participating with the school districts end of year awards night provided the appropriate platform to interact with both the students and parents of these young adults. This was an isolated setting where information was targeted to this audience and showed importance as these families will be entering the next chapter of life and prevention and awareness were deemed important and welcomed by the school district, guidance and school resource officers.
14	What key performance indicators are you tracking to ensure success of the program (for example, # of services provided, # of people served, # of naloxone kits distributed)?	

	Number of participants served:	200
	Increased community awareness (please describe):	This outreach touched nearly 200 families and will serve as a reminder for the future. The visibility of the booth and the awareness of the next step in life for the graduates is relatable to what is to come in every day life.
15	How frequently are you measuring the tracked key performance indicators?	Annually
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	Prevention and awareness techniques

11	Please choose the length of time of this program's duration:	One time only
12	What is the anticipated number of unduplicated clients this program will reach annually?	100
13	Please state this program's statement of impact.	Our community enjoys positive turnout from youth and adult volunteers and local organizations during neighborhood activities. This event was a community clean up and pollinator garden educational event. A wide range of individuals attended and it was an appropriate setting to place an outreach booth and provide materials as well as water ice to help to draw visitors. Additionally, our National Night Out Event we hosted a prevention booth and welcomed a face painter to draw families to the booth. The booth had materials and brochures on a variety of prevention items from opioid misuse and prevention to how to keep your children safe on the internet to underage drinking warnings.
14	What key performance indicators are you tracking to ensure success of the program (for example, # of services provided, # of people served, # of naloxone kits distributed)?	
	Number of participants served:	300
	Number of training/education sessions:	1

	Increased community awareness (please describe):	The presence of prevention booths at community events increases outreach efforts and aligns with reaching a wide mix of people from the community. Targeted events are sometimes avoided by people, but a booth aligned with other activity we have found more walk up for information along with other booths.
15	How frequently are you measuring the tracked key performance indicators?	Quarterly
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	Tabling establishes a repeated presence. The more our booth is placed at a community event, the more comfortable individuals will feel visiting the booth and taking information that is geared to help themselves or someone they are about.

10	Please share brief information on your subdivisions overarching goals and values to provide context for this year's spending decisions	Willingboro Township uses National Opioid Settlement Funds to strengthen prevention, education, and wellness across the community. We deliver multigenerational programs, activities, and initiatives that promote education, prevention, and mental health services for residents of all ages. We also equip and support first responders with the tools and resources they need to address substance use and related challenges in their daily work.
11	How did you decide the best way to use the opioid abatement funds your subdivision received this reporting year? For example, did you rely on evidence-based or evidence-informed practices or strategies, the list of Opioid Remediation uses, a needs assessment, a strategic plan, or an epidemiological analysis? If yes, please explain.	We determined the best use of the opioid abatement funds by aligning our approach with evidence-based and evidence-informed practices, as well as the nationally recognized list of Opioid Remediation uses. We reviewed community needs, considered input from residents and stakeholders, and prioritized strategies that strengthen prevention, education, mental health supports, and first responder readiness. Our focus ensures that the funds address both immediate challenges and long-term community wellness in a strategic and responsible manner.
12	In this reporting year (7/1/2024 - 6/30/2025), did your subdivision engage the public (e.g., town hall meeting, online survey, convened stakeholders) prior to deciding how to use the opioid abatement funds you received?	No, but plan to in the future
13	Please describe your public engagement/input efforts?	Our public engagement efforts focus on collaboration with a local organization that works directly with residents in the areas of mental health, addiction services, and related community needs. By partnering with this organization, we are able to gather meaningful input, understand the lived experiences of residents, and ensure that our programs and initiatives reflect the real needs of the community. This approach allows us to engage the public in an ongoing, trusted, and community-centered way.
14	Does your county/subdivision have a strategic plan?	No

15	Have you completed a Risk Assessment profile for demographic or geographic impact?	No, but we plan to in the future
16	Did your subdivision fund any new programs using opioid abatement funds in this reporting year?	Yes
	2025 Fiscal Program #1	
1	Program Name/Title	Mind Matters: A Community Mental Health & Wellness Series
2	Agency/Funding Recipient Name	Willingboro Township
3	Agency/Funding Recipient Category	County or Municipality (including Departments and Municipal Alliances)
4	Primary problem being addressed by this program:	The primary problem this program addressed was the lack of accessible mental health education and support in the community. It aimed to reduce stigma, promote awareness, and connect residents of all ages with resources and tools to improve mental wellness through engaging, age-appropriate events.
5	Brief program description:	The Mind Matters series was created to bring the community together through a variety of programs designed to support mental health and wellness for all ages. Each event focused on a different aspect of mental health — from early education and awareness for children, to empowerment and connection for women veterans, to self-care and stress relief for adults. Together, these events formed a holistic approach to promoting understanding, reducing stigma, and providing access to local resources for mental well-being.
6	Program target population:	Children and Young Adults - 0-13 (through 8th grade); Children and Young Adults - 14-18 (high school aged); Children and Young Adults - 19-24 (post-grad through college); Members of the General Public
7	Date this program was funded (please use MM/DD/YYYY)	03/01/2025

8	Amount of funding for this program.	\$4,910.45
8a.	Amount expended:	\$4,910.45
8b.	Amount encumbered/appropriated:	\$0.00
9	How often are you disbursing funds to this program?	Quarterly
10	Program Launch Date	03/01/2025
11	Please choose the length of time of this program's duration:	1 year
12	What is the anticipated number of unduplicated clients this program will reach annually?	100
13	Please state this program's statement of impact.	This program strengthened community mental health by providing accessible, age-appropriate events that educated residents, reduced stigma, and connected individuals with vital resources. By engaging children, adults, and veterans, it fostered early awareness, encouraged self-care, and built a supportive network focused on long-term mental wellness.
14	What key performance indicators are you tracking to ensure success of the program (for example, # of services provided, # of people served, # of naloxone kits distributed)?	
	Increased community awareness (please describe):	This program measured success by how well it educated residents about mental health and local resources. Progress was shown through strong event attendance, positive feedback, and more residents connecting with services, reflecting greater understanding and reduced stigma in the community.
15	How frequently are you measuring the tracked key performance indicators?	Quarterly
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	Impact was measured through event attendance, participant feedback, and follow-up connections with local mental health services, tracking how many individuals engaged with resources or reported an increased understanding of mental health topics.
