12	What is the number of unduplicated individuals served by this program?	4000

13	What is the intended impact of this program?	To engage with the youth of the municipality prior to the development of a drug addiction disorder and educate them. To have our officers be engaged with the youth and foster a healthy community policing environment where residents feel safe and engaged in positive ways with local police.
14	Which key performance indicators are you tracking to ensure success of the program? List all that apply, including, but not limited to, the following:	
	Number of participants served:	4000
	Number of training/education sessions:	4
	Increased community awareness (please describe):	To engage with the youth of the municipality prior to the development of a drug addiction disorder and educate them. To have our officers be engaged with the youth and foster a healthy community policing environment where residents feel safe and engaged in positive ways with local police.
15	How frequently are you measuring the key performance indicators listed above?	Annually
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	To reduce the number of youth who take up drugs in the first place and get themselves into legal trouble. To foster a healthy relationship between the police and the community at large. Science based programs have been proven to reduce numbers compared to traditional programs like D.A.R.E. Education about addiction science and chemistry is more effective

		than fear mongering drug addiction consequences.

9	What amount of unspent/uncommitted opioid abatement funds from any reporting year does your subdivision currently have on hand?	\$97,813.87

10	What were your subdivision's overarching goals and values in its use of opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	Our subdivision's overarching goal in utilizing opioid abatement funds was to reduce opioid-related harm through prevention, education, early intervention, and expanded access to lifesaving resources. We focused on using these funds in a manner that was community-centered, evidence-informed, and responsive to the areas and populations most affected by opioid misuse. A primary objective was increasing opioid awareness among community members, with a particular emphasis on school-age children in the Galloway Township Public School system. Through age-appropriate education and outreach, we sought to provide students with a better understanding of the dangers associated with opioids, counterfeit medications, and substance misuse. These efforts were intended to encourage healthy decision-making, reduce stigma, and ensure that students understood how and where to seek assistance for themselves, a family member, or a peer; specifically while promoting 1-844-REACHNJ and our local Atlantic County JTAC organization. We also prioritized increasing access to naloxone, in locations where the risk of an opioid-related emergency was considered elevated. High-risk areas were identified through local incident data, overdose trends, calls for service, and input from public safety and community partners. Narcan was then made more readily available in strategic locations via the usage of medicine cabinets and narcan access points to improve the likelihood of an immediate response before emergency medical personnel arrived. The values guiding these efforts included prevention, accessibility, collaboration, accountability, and compassion. Our approach recognized opioid use disorder as a significant public health and public safety concern and emphasized education and lifesaving intervention rather than stigma. Ultimately, the opioid abatement funds allowed our subdivision to strengthen community awareness, provide young people with
----	---	---

		important prevention information, and expand access to Narcan in areas where it could have the greatest impact.
11	Which official(s) were involved in deciding how to spend opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	Our Police Administration working with our Community Services Unit, and input from our CFO.

12	Which resources did your subdivision use when deciding to spend opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	Our subdivision used opioid abatement funds to support data-driven overdose prevention, community outreach, and youth education initiatives. Data-Driven Narcan Distribution: We analyzed overdose and call-for-service data from our computer-aided dispatch system to identify locations experiencing a higher incidence of suspected drug overdoses. Using this information, we targeted specific high-risk locations, primarily local businesses, and provided secure medicine cabinets stocked with free and readily accessible naloxone, commonly known as Narcan. This initiative was designed to improve access to lifesaving medication and allow bystanders to respond quickly during an opioid-related emergency. Homelessness and Addiction Outreach: The Police Department and Galloway Township partnered with Absecon City and Church by the Bay, a local nonprofit organization, to host several outreach events for individuals experiencing homelessness, substance use disorders, or other related challenges. These events provided meals, shower facilities, housing assistance, addiction treatment information, recovery resources, and connections to supportive services. School-Based Opioid Awareness: We partnered with the Galloway Township Public Schools and educators to conduct opioid awareness events for school-age children. Police officers and teachers worked together to provide age-appropriate education regarding the dangers of opioids, counterfeit medications, and substance misuse. The events also included positive interactions with law enforcement, educational resources, and promotional materials highlighting statewide and local assistance programs, including 1-844-REACHNJ and
