9	What amount of unspent/uncommitted opioid abatement funds from any reporting year does your subdivision currently have on hand?	\$9,065,883.18

10	What were your subdivision's overarching goals and values in its use of opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	The County of Bergen, in collaboration with its designated committee, utilized a strategic and data-driven process to determine how opioid settlement funds could be most effectively allocated throughout the community. A central component of this process was the review and use of the State's Mental Health and Addiction Services Needs Assessment, which provided valuable information regarding substance use trends, treatment needs, available resources, service gaps, and populations requiring additional assistance. The County and the committee used the Needs Assessment as a foundation for identifying and prioritizing the areas in which opioid settlement funding was most needed. Rather than determining funding priorities solely based upon individual requests or available programs, the County and committee reviewed the identified needs of the community to determine where additional resources could have the greatest impact. Based upon the findings and information contained within the Needs Assessment, the County and committee identified priority areas for investment, including harm reduction, treatment of opioid use disorder (OUD), prevention and intervention related to opioid misuse, services for justice-involved individuals, court diversion programs, case management, recovery support, and connections to treatment and other community-based resources. Once these areas of need were
----	---	--

		identified, the County utilized a competitive Request for Proposals (RFP) process to solicit proposals from qualified local organizations and service providers. The RFP process allowed organizations with experience in behavioral health, substance use treatment, recovery, harm reduction, and related services to propose programs responsive to the priority areas identified through the Needs Assessment. This approach created a direct connection between the County's assessment of community needs and its allocation of opioid settlement resources. The Needs Assessment helped establish where resources were needed, while the competitive RFP process assisted the County in determining which qualified providers and programs could best address those identified needs. The County and committee also recognized that individuals affected by the opioid epidemic often require services at different points along a continuum of care. Some individuals may require immediate harm-reduction services or overdose prevention, while others may need formal OUD treatment, assistance navigating the criminal justice system, court diversion opportunities, intensive case management, recovery support, or help connecting to longer-term services. For this reason, the County sought to fund a range of programs rather than relying upon a single type of intervention. Particular attention was given to populations that may face significant barriers to accessing

		traditional treatment and recovery services. This includes justice-involved individuals, individuals at increased risk of overdose, individuals transitioning from incarceration back into the community, and those requiring additional assistance navigating treatment and supportive-service systems. Through the use of the Needs Assessment, the County and committee were able to make funding decisions based upon documented community needs and identified gaps in services. This helped ensure that opioid settlement funds were targeted toward areas where additional resources were warranted and where programs could expand or strengthen the existing continuum of care. The County's overall objective has been to utilize opioid settlement funding responsibly and strategically to address the documented effects of the opioid epidemic within Bergen County. By combining the Needs Assessment process, the input and review of the committee, a competitive RFP process, and partnerships with experienced local service providers, the County has worked to ensure that settlement resources are directed toward programs designed to reach those most in need, reduce barriers to care, expand access to treatment and recovery services, and improve outcomes for individuals and families affected by opioid use and opioid use disorder.

13a	If yes, provide details about your public engagement/input efforts.	The County held an additional Town Hall Meeting with municipalities and other key stakeholders to provide an update on the opioid settlement funds and the County's plans for utilizing those funds. The meeting also included information regarding any legal updates and guidance the County had received related to the opioid settlement funds. Additionally, the Bergen County Prosecutor's Office provided a presentation on opioid overdose data throughout the County. The presentation highlighted overdose trends and identified communities and areas that have been particularly impacted by the opioid epidemic. This information provided stakeholders with a clearer understanding of the current impact of opioid use within Bergen County and helped support the County's ongoing efforts to direct resources and services to areas of greatest need.

	Increased community awareness (please describe):	The Black Poster Project exists to honor lives lost to any form of substance use and to transform grief into awareness, prevention, and hope. Through hundreds of individual memorial posters, each featuring a beloved person's face and story, the project creates a powerful visual reminder that addiction affects real families, real communities, and real lives — not statistics.
15	How frequently are you measuring the key performance indicators listed above?	Annually

16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	Our mission is to: Humanize the epidemic by showing the faces and stories behind the numbers, reminding the world that every life matters. Educate and raise awareness about substance use disorder, recovery, and prevention through public displays, community events, and a special focus on students and school outreach. Support families by giving them a voice and a way to honor their loved ones with dignity and compassion. Reduce stigma surrounding substance use of any kind and mental health by fostering empathy, understanding, and open conversation. Inspire action — encouraging communities, leaders, and individuals to engage in prevention, advocacy, and support efforts. Each poster is a testament to love, loss, and resilience. Together, they form a collective call to end stigma, promote healing, and build a future where no family feels alone in their grief or struggle.
17	Primary Category (Please select the category that fits the primary focus of this program):	Harm Reduction and Overdose Prevention
18	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above).	Primary Prevention, Education, and Training

Our subdivision is strategically allocating funds to support and enhance a range of opioid-related initiatives throughout the County. These investments are directed toward comprehensive programs designed to address prevention, treatment, harm reduction, and recovery. Key areas of funding include: Diversion Court Programs: Supporting alternatives to incarceration for individuals with opioid use disorders, offering rehabilitation and judicial oversight as part of a restorative justice approach. Opioid Treatment Initiatives: Funding evidence-based/evidence-informed treatment proposals aimed at expanding access to medication-assisted treatment (MAT), counseling, and support services. Prevention and Misuse Education Programs: Enhancing community education efforts to prevent opioid misuse, with targeted outreach in schools, healthcare settings, and at-risk populations. Harm Reduction Strategies: Supporting initiatives such as naloxone distribution, syringe exchange programs, and safe use education to reduce the immediate dangers of opioid misuse. Justice-Involved Support Programs: Providing treatment and case management services for individuals within the criminal justice system who are impacted by opioid use. Opioid Case Management Services: Coordinating care and services for individuals dealing with opioid use
----	---	---

		disorder, including connection to treatment, housing, employment support, and long-term recovery resources. These targeted investments reflect our commitment to a holistic, data-driven approach in combating the opioid crisis and improving health outcomes across the County.

	2026 Fiscal Program List	
1	What is the name/title of the program?	Outrun Opioids
2	List all agencies, organizations, or entities that received funding for this program.	Garfield Police Department, in partnership with a private vehicle sponsor and local vendors for vehi
3	In which category or categories does each agency, organization, or entity that received funding for this program belong? Select all that apply.	County or Municipality (including Departments and Municipal Alliances); First Responders, Law Enforcement, and Emergency Services
4	What is the primary problem being addressed by this program?	Reducing stigma around opioid addiction and increasing public awareness of and access to 24/7 treatment and recovery resources through high-visibility community engagement.

5	Briefly describe the program's purpose and key activities.	Outrun Opioids uses a high-visibility, community-donated vehicle wrapped in custom Garfield Police Department graphics and a scannable QR code linking directly to a 24/7 addiction support hotline and recovery resources. Settlement funds were used to cover the cost of the custom vehicle wrap and installation and to produce printed opioid prevention leaflets distributed at public events. The vehicle itself was provided at no cost to Garfield taxpayers. The strategy intentionally uses attention-getting, “purple cow” style marketing to start a conversation on what is often treated as the “boring elephant in the room” opioid abuse, education, and recovery options in a way that draws public curiosity and converts it into awareness of real help. The vehicle is used exclusively for community outreach events, youth programs, and department functions, never for patrol or enforcement.
6	What is the target population for this program?	Children and Young Adults - 0-13 (through 8th grade); Children and Young Adults - 14-18 (high school aged); Children and Young Adults - 19-24 (post-grad through college); Individuals in Recovery; Individuals who Use Drugs; Members of the General Public
7	On what date was this program funded? (Use the format MM/DD/YYYY.)	12/8/2025
8	What is the total amount of funding for this program?	\$5,450.00
8a.	Of the total amount, how much has been spent (in the current reporting year)?	\$5,450.00

8b.	Of the total amount, how much has been appropriated/encumbered but not yet spent?	\$0.00
9	How often is your subdivision disbursing funds to this program?	One time only
10	On what date was this program launched? (Use the format MM/DD/YYYY.)	12/8/2025
11	Choose the duration of the program from the list below.	Others
11(a).	Choose the duration of the program from the list below. - Others	Ongoing the program is still active as of this reporting period, with no set end date.
12	What is the number of unduplicated individuals served by this program?	1500
13	What is the intended impact of this program?	Outrun Opioids set out to start a conversation on a subject communities often avoid opioid abuse, education, and recovery by using an unconventional, attention-getting vehicle as a non-enforcement symbol of compassion and outreach. Through repeated public appearances and extensive media coverage, the program succeeded in generating sustained public conversation and drawing attention to available treatment and recovery resources. As the program is ongoing, a complete outcomes-based statement of impact will be developed as further data becomes available.
14	Which key performance indicators are you tracking to ensure success of the program? List all that apply, including, but not limited to, the following:	

	Other:	KPIs are still being developed as the program continues. Anticipated tracking areas include the number of community events/appearances, prevention leaflets distributed, and volume of media coverage, with additional metrics to be defined as the program matures. Specific numeric targets are not being set at this stage given the program's ongoing, exposure-based nature.
15	How frequently are you measuring the key performance indicators listed above?	Others:
15(a).	How frequently are you measuring the key performance indicators listed above? - Others	Not yet formally established to be determined as the program's tracking framework develops.
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	The program aims to reduce stigma and increase public awareness of and access to opioid recovery resources by making a typically avoided topic part of everyday public conversation. Because the program is ongoing, specific measurement methods have not yet been finalized and will be reported in greater detail in a future reporting period.
17	Primary Category (Please select the category that fits the primary focus of this program):	Primary Prevention, Education, and Training
18	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above).	Harm Reduction and Overdose Prevention; Others
19	Select the "Schedule B" approved strategy or strategies that best match the primary focus of this program.	Prevent Misuse of Opioids, Prevent Overdose Deaths and Other Harms (Harm Reduction)

20	Describe how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	The program functions as an awareness and referral mechanism rather than a direct clinical intervention. It increases visibility and accessibility of an existing 24/7 addiction support hotline and recovery resources by using a high-attention community engagement tool to reach individuals who might not otherwise encounter this information, encouraging connection to established, evidence-informed treatment and recovery services.
21	Identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	Custom vehicle wrap design, installation, and a light fixture were purchased directly by the City of Garfield from a licensed vehicle graphics vendor, invoiced directly to the City, totaling \$5,811.06. An additional \$405.00 in settlement funds was spent on printed opioid prevention leaflets purchased from a local print vendor for distribution at public events. Vendors were selected for their ability to deliver specialized custom vehicle graphics and printed materials within the program's public-launch timeline.
22	If you would like to provide any additional details about this program not already included above, you may do so here.	The vehicle used in this program is provided on loan from a private community sponsor at no cost to Garfield taxpayers; settlement funds covered only the wrap/QR code installation and prevention leaflets. The vehicle is not used for patrol or enforcement. The program was designed around a deliberate "trolling," attention-getting marketing approach using an unconventional, eye-catching vehicle to draw public curiosity toward a subject (opioid abuse, education, and recovery) that is often

		overlooked. The initiative has generated substantial local, national, and international press coverage and remains an active, ongoing program.
	2026 Fiscal Program List	
1	What is the name/title of the program?	Night Out 2025 Let's Knock Out Opioid Use Together (Police-Community Partnership)
2	List all agencies, organizations, or entities that received funding for this program.	Garfield Police Department, Community Affairs Division
3	In which category or categories does each agency, organization, or entity that received funding for this program belong? Select all that apply.	County or Municipality (including Departments and Municipal Alliances); First Responders, Law Enforcement, and Emergency Services
4	What is the primary problem being addressed by this program?	Low community awareness of, and limited connection to, local opioid treatment, prevention, and recovery resources; need for positive, non-enforcement engagement between police and residents around the opioid crisis.

5	Briefly describe the program's purpose and key activities.	Garfield Night Out 2025 was a community-wide police-community partnership event held at Century Field, bringing residents together with local service providers to raise awareness of opioid treatment and prevention resources in a festive, accessible setting. The event featured a live DJ, a bounce house and other activities for children, food vendors, a meet-your-first-responders area, and a helicopter landing display. Local service providers tabled the event, including representatives from hospitals, mental health services, rehabilitation/treatment providers, shelters, and law enforcement, offering residents direct access to information and connections to care. The event also promoted a community-wide “porch light” campaign encouraging residents to leave their porch light on to show support for opioid awareness and prevention. Settlement funds were used specifically to cover DJ/microphone rental and bounce house inflatable rentals, both of which supported turnout and family engagement so that more residents were reached with the treatment and prevention resources on site.
6	What is the target population for this program?	Children and Young Adults - 0-13 (through 8th grade); Children and Young Adults - 14-18 (high school aged); Children and Young Adults - 19-24 (post-grad through college); Individuals in Recovery; Individuals in Treatment; Individuals who Use Drugs; Members of the General Public

7	On what date was this program funded? (Use the format MM/DD/YYYY.)	8/5/2025
8	What is the total amount of funding for this program?	\$2,600.00
8a.	Of the total amount, how much has been spent (in the current reporting year)?	\$2,600.00
8b.	Of the total amount, how much has been appropriated/encumbered but not yet spent?	\$0.00
9	How often is your subdivision disbursing funds to this program?	One time only
10	On what date was this program launched? (Use the format MM/DD/YYYY.)	8/5/2025
11	Choose the duration of the program from the list below.	One time only
12	What is the number of unduplicated individuals served by this program?	1500
13	What is the intended impact of this program?	By combining a fun, family-friendly community event with direct access to treatment, prevention, and recovery resources, Garfield Night Out 2025 reached approximately 1,500 residents far more than a standalone informational session would typically draw. Family-oriented activities such as the DJ and bounce house increased turnout and dwell time at the event, giving local service providers (including hospitals, mental health services, rehabilitation providers, shelters, and law enforcement) meaningful opportunities to engage residents, answer questions, and connect them to available resources in a low-barrier, welcoming environment.
14	Which key performance indicators are you tracking to ensure success of the program? List all that apply,	

	including, but not limited to, the following:	
	Number of participants served:	1500
	Number of harm reduction supplies distributed (e.g naloxone kits, drug disposal packets):	1500
	Other:	Additional KPIs (e.g., resource materials distributed, on-site referrals or conversations with providers) were not formally tracked at this event but are being considered for future events.
15	How frequently are you measuring the key performance indicators listed above?	Others:
15(a).	How frequently are you measuring the key performance indicators listed above? - Others	At the time of the event (one-time event)
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	The program aims to increase community awareness of opioid treatment, prevention, and recovery resources, and to strengthen trust and connection between residents and local service providers and law enforcement. Impact was measured this year by overall attendance (approximately 1,500 community members) and the range of local service providers present. Future events may incorporate more formal tracking, such as resource materials distributed or provider-reported engagement.
17	Primary Category (Please select the category that fits the primary focus of this program):	Primary Prevention, Education, and Training
18	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above).	Harm Reduction and Overdose Prevention; Recovery Supports

19	Select the "Schedule B" approved strategy or strategies that best match the primary focus of this program.	Connections to Care, Prevent Misuse of Opioids, Leadership, Planning and Coordination
20	Describe how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	The event functioned as a community-based awareness and referral platform rather than a direct clinical intervention. By bringing hospitals, mental health providers, rehabilitation/treatment providers, shelters, and law enforcement together in one accessible setting, the program increased residents' visibility into, and ability to connect with, existing evidence-informed treatment and recovery services for opioid use disorder and co-occurring conditions.
21	Identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	DJ and microphone equipment were rented directly for the event at a cost of \$400.00; bounce house inflatables were rented directly at a cost of \$2,200.00. Both were procured as standard event-support rentals to increase family attendance and engagement time at the resource fair, maximizing the number of residents reached by on-site treatment, prevention, and recovery resources.
22	If you would like to provide any additional details about this program not already included above, you may do so here.	The event was held at Century Field, 60 Elizabeth St., Garfield, NJ, from 6:00 PM to 9:00 PM on August 5, 2025 (no rain date). In addition to the DJ and bounce house, the event included food vendors, a meet-your-first-responders area, a helicopter landing display, and a pop-up party area, alongside tables from local service providers spanning hospitals, mental health services, rehabilitation/treatment providers, shelters, and law enforcement. The event also promoted a community

		“porch light” campaign, encouraging residents to leave their porch light on to visibly show support for opioid awareness and prevention.
	2026 Fiscal Program List	
1	What is the name/title of the program?	Opioid/Fentanyl Field Testing Equipment (Sirchie)
2	List all agencies, organizations, or entities that received funding for this program.	First Responders, Law Enforcement, and Emergency Services
3	In which category or categories does each agency, organization, or entity that received funding for this program belong? Select all that apply.	First Responders, Law Enforcement, and Emergency Services
4	What is the primary problem being addressed by this program?	Officer safety and evidence-handling risk when encountering unknown substances suspected to contain opioids or fentanyl analogs during field investigations, arrests, and evidence processing; need for reliable, non-contact identification tools to protect officers from accidental exposure while supporting accurate case documentation.

5	Briefly describe the program's purpose and key activities.	Funded the purchase of opioid/fentanyl field testing equipment and supplies from Sirchie for use by Garfield Police Department officers. The equipment allows officers to safely identify suspected opioids and fentanyl analogs encountered in the field without direct physical contact, reducing risk of accidental exposure during searches, arrests, and evidence collection, while supporting accurate documentation for investigations. Equipment is stored at police headquarters until deployed or needed in the field.
6	What is the target population for this program?	First Responders, Law Enforcement and other Emergency Responders
6(a).	What is the target population for this program? - Others	
7	On what date was this program funded? (Use the format MM/DD/YYYY.)	8/19/2025
8	What is the total amount of funding for this program?	\$1,310.64
8a.	Of the total amount, how much has been spent (in the current reporting year)?	\$1,310.64
8b.	Of the total amount, how much has been appropriated/encumbered but not yet spent?	\$0.00
9	How often is your subdivision disbursing funds to this program?	One time only
10	On what date was this program launched? (Use the format MM/DD/YYYY.)	8/19/2025
11	Choose the duration of the program from the list below.	Less than 1 year
12	What is the number of unduplicated individuals served by this program?	68

13	What is the intended impact of this program?	Funded the purchase of opioid/fentanyl field testing equipment and supplies from Sirchie for use by Garfield Police Department officers. The equipment allows officers to safely identify suspected opioids and fentanyl analogs encountered in the field without direct physical contact, reducing risk of accidental exposure during searches, arrests, and evidence collection, while supporting accurate documentation for investigations. Equipment is stored at police headquarters until deployed or needed in the field.
14	Which key performance indicators are you tracking to ensure success of the program? List all that apply, including, but not limited to, the following:	
	Number of participants served:	68
	Number of harm reduction supplies distributed (e.g naloxone kits, drug disposal packets):	68
	Other:	supply usage replenishment
15	How frequently are you measuring the key performance indicators listed above?	Others:
15(a).	How frequently are you measuring the key performance indicators listed above? - Others	TBD
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	The program aims to reduce officer exposure incidents involving fentanyl/opioids and improve safe, accurate field identification of suspected substances. Impact will be tracked through incident reports and supply usage/replenishment records; formal measurement cadence TBD.
17	Primary Category (Please select the category that fits the primary focus of this program):	Diversion and Re-entry Support

18	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above).	Primary Prevention, Education, and Training; Workforce Development and Capacity Building; Others
18(a).	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above). - Others	harm reduction
19	Select the "Schedule B" approved strategy or strategies that best match the primary focus of this program.	First Responders
20	Describe how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	While primarily an officer-safety tool rather than a direct treatment intervention, this equipment supports safe, accurate identification of opioids/fentanyl in the field, which can inform appropriate follow-up referrals and reduces risk to officers who often serve as first points of contact for individuals with OUD.
21	Identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	Direct purchase from Sirchie, a specialized forensic and law enforcement field-testing equipment supplier, selected as a sole-source vendor due to the specificity of opioid/fentanyl-safe field testing products required for law enforcement use. Purchases will recur bi-annually starting 1/1/2026 to maintain adequate supply levels.
22	If you would like to provide any additional details about this program not already included above, you may do so here.	Equipment is stored at Garfield Police Department headquarters until deployed or needed in the field. Covers all 68 sworn officers department-wide.

9	What amount of unspent/uncommitted opioid abatement funds from any reporting year does your subdivision currently have on hand?	\$403,387.85
10	What were your subdivision's overarching goals and values in its use of opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	Our overarching goals are to prevent substance misuse, support community members, and strengthen community awareness and education. We value collaboration with local partners, evidence-informed practices, and youth engagement as essential strategies for long-term prevention. These guiding principles shaped this year's spending decisions, which focused on prevention education, community outreach, and youth programming to address the opioid crisis proactively and sustainably

11	Which official(s) were involved in deciding how to spend opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	This year, the City of Hackensack convened with key stakeholders and the Municipal Alliance to determine the most effective use of the funds. Through these discussions, we began developing a strategic plan and budget guided by evidence-informed strategies and community needs. The plan emphasizes supporting the police department in prevention education, enhancing community awareness, and expanding youth programs to address opioid misuse and promote long-term resilience.
12	Which resources did your subdivision use when deciding to spend opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	During this reporting year, the City of Hackensack utilized evidence-based and evidence-informed prevention practices and strategies, the Schedule B list of approved opioid remediation uses, and a strategic planning process to guide decisions regarding the use of opioid abatement funds. The City engaged key stakeholders, including members of the Municipal Alliance and community partners, to identify priorities and ensure funding decisions supported appropriate and approved uses. These discussions, along with established prevention strategies and Schedule B guidance, informed the development of a strategic plan and budget focused on prevention education, community awareness, youth programming, and other initiatives designed to reduce the impact of substance use and opioid-related harms within the community. Moving forward, the City plans to further strengthen its strategic planning process by expanding public engagement through methods such as town hall meetings and community surveys,
	List all that apply, including, but not limited to, the following:	
	(1) Any evidence-based or evidence-informed practices or strategies;	
	(2) The "Schedule B" list of approved opioid remediation uses attached as Exhibit A to the January 28, 2022 "Memorandum of Agreement Between the State of New Jersey and Local Governments on Opioid Litigation Recoveries" to which your subdivision is a signatory;	
	(3) A needs assessment;	
	(4) A strategic plan; and/or	
	(5) An epidemiological analysis;	

		helping ensure continued transparency and alignment with evolving community needs.
13	During the current reporting year (7/1/2025 - 6/30/2026), did your subdivision engage the public (e.g., through town hall meetings, online surveys, or other means of communicating with stakeholders) prior to deciding how to use the opioid abatement funds you received?	Yes
13a	If yes, provide details about your public engagement/input efforts.	We engaged the public and community partners through the Municipal Alliance and stakeholder meetings to discuss priorities for the funds. In addition, there were opportunities for public engagement and input through community education programming, participation in National Night Out, and involvement in other local wellness events.
14	For how many years have settlement spending allocations already been decided?	Other
14a.	Please specify other.	1 to 2 years.
15	Does your subdivision have a strategic plan regarding the use of opioid abatement funds?	No, but we plan to in the future
	If yes, choose "Yes" and upload/link to the strategic plan or summarize the plan in Question 15a	
16	Have you completed a Risk Assessment profile for demographic or geographic impact?	No
17	Did your subdivision fund any programs using opioid abatement funds during the current reporting year (7/1/2025 - 6/30/2026)?	Yes

	A) For new programs, use the "Add Program" tab to report on each new program.	
	B) For previously-reported programs, use the "Update" tab in the 'Prior Fiscal Year Programs' section to provide updates on programs reported during prior fiscal years.	
	If you reported spending any opioid abatement funds during the current reporting year (7/1/2025 - 6/30/2026) in Question 6, you must answer the following questions for each program funded by opioid abatement funds.

11(a).	Choose the duration of the program from the list below. - Others	1-2 years

12	What is the number of unduplicated individuals served by this program?	150
13	What is the intended impact of this program?	The Cordico Wellness App increases access to confidential mental health, substance misuse prevention, and wellness resources for Hackensack first responders and their families. The program promotes early intervention, reduces barriers to seeking assistance, and supports overall behavioral health and resiliency.
14	Which key performance indicators are you tracking to ensure success of the program? List all that apply, including, but not limited to, the following:	
	Number of participants served:	
	Other:	Key Informant Interviews; Number of app logins
15	How frequently are you measuring the key performance indicators listed above?	Annually
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	• Outcomes: Increased awareness and utilization of mental health and substance misuse resources; improved access to confidential support; increased help-seeking and early intervention; and improved awareness of available crisis, treatment, and prevention resources. • Measurement: App utilization will be monitored through participation and login data, resource engagement metrics, and annual program review. Key informant interviews and feedback from first responders and program stakeholders will also be used to assess awareness, accessibility, effectiveness, and opportunities for improvement.

17	Primary Category (Please select the category that fits the primary focus of this program):	Primary Prevention, Education, and Training
18	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above).	Harm Reduction and Overdose Prevention

20	Describe how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	The Cordico Wellness App utilizes evidence-informed strategies focused on early intervention, prevention, resiliency, behavioral health education, and reducing barriers to seeking help. By providing confidential, 24/7 access to mental health, substance misuse, crisis, and wellness resources, the program helps first responders and their families recognize concerns early and connect with appropriate support. These strategies address risk factors associated with opioid and other substance misuse while supporting co-occurring mental health and behavioral health needs.

21	Identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	The Cordico Wellness App is a specialized wellness technology platform designed specifically for first responders and public safety agencies. The City followed its established municipal purchasing and procurement procedures to obtain the annual subscription. The procurement method was appropriate because the program requires a specialized platform capable of providing confidential, first-responder-specific mental health, wellness, substance misuse, peer support, and crisis resources. The annual renewal allows the Police Department to maintain continuity of access to the existing platform and resources for first responders and their families.
22	If you would like to provide any additional details about this program not already included above, you may do so here.	
	2026 Fiscal Program List

9	What amount of unspent/uncommitted opioid abatement funds from any reporting year does your subdivision currently have on hand?	\$122,933.17
10	What were your subdivision's overarching goals and values in its use of opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	The Borough of Lodi implemented a comprehensive prevention strategy that focused on education, early intervention, harm reduction, officer training, and community engagement. These initiatives reached residents of all ages from elementary school students to older adults while strengthening partnerships with schools, healthcare professionals, and community organizations. Collectively, these programs increased awareness of opioid misuse, expanded access to prevention resources, enhanced

		emergency preparedness, and reinforced the Borough's commitment to reducing the impact of substance use disorders through proactive, community-based policing.
11	Which official(s) were involved in deciding how to spend opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	Borough Manager, Community Relations Division Police LT.
12	Which resources did your subdivision use when deciding to spend opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	We relied on local data and community needs assessments, including opioid related overdose and response data, law enforcement and emergency response trends, input from local community partners, and guidance regarding eligible opioid abatement strategies under the opioid settlement agreements. We also considered recommendations and resources provided by state and federal agencies and reviewed evidence-based practices for opioid prevention, treatment, recovery, and harm reduction when determining how to allocate opioid abatement funds.
	List all that apply, including, but not limited to, the following:	
	(1) Any evidence-based or evidence-informed practices or strategies;	
	(2) The "Schedule B" list of approved opioid remediation uses attached as Exhibit A to the January 28, 2022 "Memorandum of Agreement Between the State of New Jersey and Local Governments on Opioid Litigation Recoveries" to which your subdivision is a signatory;	
	(3) A needs assessment;	
	(4) A strategic plan; and/or	
	(5) An epidemiological analysis;	

13	During the current reporting year (7/1/2025 - 6/30/2026), did your subdivision engage the public (e.g., through town hall meetings, online surveys, or other means of communicating with stakeholders) prior to deciding how to use the opioid abatement funds you received?	Yes
13a	If yes, provide details about your public engagement/input efforts.	Input was gathered through ongoing interactions with residents, community organizations, schools, healthcare and social-service partners, and law enforcement personnel who regularly encounter individuals and families affected by substance use. The Police Department's Community Relations efforts provided an additional avenue for identifying community concerns and needs related to opioid misuse, prevention, education, treatment, and recovery. Department personnel also considered information obtained through community outreach, public education efforts, and interactions with individuals and families impacted by substance use disorders. We used this feedback, together with local opioid-related trends and information from community partners, to help identify areas where opioid abatement resources could have the greatest local impact. Public input was considered alongside evidence-based practices and eligible opioid-abatement strategies when determining funding priorities.
14	For how many years have settlement spending allocations already been decided?	3 - 5 years

15	Does your subdivision have a strategic plan regarding the use of opioid abatement funds?	Yes
	If yes, choose "Yes" and upload/link to the strategic plan or summarize the plan in Question 15a	
15a	Can we post your strategic plan online?	No
16	Have you completed a Risk Assessment profile for demographic or geographic impact?	No, but we plan to in the future
17	Did your subdivision fund any programs using opioid abatement funds during the current reporting year (7/1/2025 - 6/30/2026)?	Yes
	A) For new programs, use the "Add Program" tab to report on each new program.	
	B) For previously-reported programs, use the "Update" tab in the 'Prior Fiscal Year Programs' section to provide updates on programs reported during prior fiscal years.	
	If you reported spending any opioid abatement funds during the current reporting year (7/1/2025 - 6/30/2026) in Question 6, you must answer the following questions for each program funded by opioid abatement funds.
