2	What is the amount of accrued interest on the total amount of opioid abatement funds that your subdivision has received during the current reporting period (7/1/2025 - 6/30/2026)? Please include dollars and cents (e.g., 100.23):	\$70,015.15
3	What is the total amount of opioid abatement funds that your subdivision has received since the distribution of opioid abatement funds began in 2022?	\$4,899,359.16
4	As an eligible subdivision receiving abatement funds, which of the following applies to your current status regarding those funds:	We are a county and did not transfer our funds
5	What is the amount of opioid abatement funds that your subdivision transferred to the county during the current reporting period (7/1/2025 - 6/30/2026)?	
6	What is the total amount of opioid abatement funds that your subdivision spent/expended during the current reporting period (7/1/2025 - 6/30/2026)? Please include dollars and cents (e.g., 100.23):	\$1,346,210.53

	You will be required to answer specific questions about the expenditures below in order for your annual report to be considered complete.	
7	What amount of opioid abatement funds did your subdivision appropriate/encumber but not yet spend during the current reporting period (7/1/2025 - 6/30/2026)?	\$237,723.04
8	What amount of opioid abatement funds did your subdivision spend on administrative expenses during the current reporting period (7/1/2025 - 6/30/2026)? You must also provide details about administrative expenses in Question 8a below.	\$33,187.42
8a.	Provide details regarding any administrative expenses spent during the current reporting period (7/1/2025 - 6/30/2026).	Administrative Expenses include the following items: Portion of S&W and Fringe for Bart Chou; Passaic County Division of Mental Health & Addiction Services Director. Office supplies: toner, laminating pouches, desk calendar.
9	What amount of unspent/uncommitted opioid abatement funds from any reporting year does your subdivision currently have on hand?	\$3,069,163.59

10	What were your subdivision's overarching goals and values in its use of opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	Passaic County has continued to use opioid settlement funding to address needs that residents, providers, and County partners have identified through the County's planning and outreach work. The County's Supporting Health through Identification, Networking, and Education model remains the framework for this work. During the previous reporting period, settlement funding supported recovery housing, the Training Institute, Office of Recovery outreach, and development of the Passaic County Recovery Program in West Milford. Those efforts addressed different parts of the recovery process: finding people who may need help, making services easier to reach, supporting people already in recovery, and helping providers keep their knowledge and skills current. For 2026, the County added two services through Request for Proposals 25-031. Care Plus Bergen, Inc., doing business as Bergen New Bridge Medical Center, received \$100,000 for adolescent substance use treatment. St. Joseph's Health received \$70,000 to provide yoga as an added service within behavioral health treatment programs. These awards address needs that were not fully covered by the earlier recovery housing, outreach, and training initiatives. The County continues to place importance on access, community participation, sound clinical practice, and responsible use of settlement funds. Programs are reviewed in relation to the need they were

		intended to address and the services actually provided.

11	Which official(s) were involved in deciding how to spend opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	Funding recommendations were developed through the Passaic County Department of Human Services and its Division of Mental Health and Addiction Services. The County's process includes review by Department leadership, Division leadership, the County Purchasing Agent, County Counsel or the County Administrator when required by the procurement process, and final action by the Passaic County Board of County Commissioners for contracts requiring Board approval. Community and professional input was also considered through the Passaic County Local Advisory Committee on Alcoholism and Drug Abuse, Passaic County Mental Health Board, Passaic County Professional Advisory Committee, Passaic County Professional Advisory Committee on Alcoholism and Drug Abuse, and Passaic County Opioid Recovery and Remediation Fund County Advisory Council. For services procured through competitive contracting, the County followed its established purchasing and governing-body review process before an award was made.
12	Which resources did your subdivision use when deciding to spend opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	Passaic County reviewed the approved Schedule B uses under the New Jersey opioid settlement agreement and considered practices supported by available clinical evidence. The County also reviewed what it had learned from existing programs, service gaps reported by providers, and concerns raised by residents during community outreach. Formal input came through the Passaic County Local

	List all that apply, including, but not limited to, the following:	Advisory Committee on Alcoholism and Drug Abuse, Passaic County Mental Health Board, Passaic County Professional Advisory Committee, Passaic County Professional Advisory Committee on Alcoholism and Drug Abuse, and Passaic County Opioid Recovery and Remediation Fund County Advisory Council. Those discussions helped inform earlier investments in recovery housing, provider training, Office of Recovery services, and the Passaic County Recovery Program. They also provided context for Request for Proposals 25-031, which added adolescent substance use treatment and adjunctive therapy to the County's settlement-funded services. When treatment standards were relevant, the County and funded providers also relied on established clinical guidance, including the American Society of Addiction Medicine criteria.
	(1) Any evidence-based or evidence-informed practices or strategies;	
	(2) The "Schedule B" list of approved opioid remediation uses attached as Exhibit A to the January 28, 2022 "Memorandum of Agreement Between the State of New Jersey and Local Governments on Opioid Litigation Recoveries" to which your subdivision is a signatory;	
	(3) A needs assessment;	
	(4) A strategic plan; and/or	
	(5) An epidemiological analysis;	
13	During the current reporting year (7/1/2025 - 6/30/2026), did your subdivision engage the public (e.g., through town hall meetings, online surveys, or other means of communicating with stakeholders) prior to deciding how to use the opioid abatement funds you received?	Yes

13a	If yes, provide details about your public engagement/input efforts.	The County received public and stakeholder input through community outreach activities and through meetings of the Passaic County Local Advisory Committee on Alcoholism and Drug Abuse, Passaic County Mental Health Board, Passaic County Professional Advisory Committee, Passaic County Professional Advisory Committee on Alcoholism and Drug Abuse, and Passaic County Opioid Recovery and Remediation Fund County Advisory Council. Residents and providers used these settings to raise concerns about access to treatment, recovery housing, overdose prevention, transportation, services for adolescents, and the availability of recovery supports in different parts of the County. County staff considered that information when reviewing existing programs and preparing new funding opportunities. This approach allows the County to compare program experience with what residents and providers are reporting in the community before additional settlement funds are committed.
14	For how many years have settlement spending allocations already been decided?	1 - 2 years
15	Does your subdivision have a strategic plan regarding the use of opioid abatement funds?	Yes
	If yes, choose "Yes" and upload/link to the strategic plan or summarize the plan in Question 15a	
15a	Can we post your strategic plan online?	No

16	Have you completed a Risk Assessment profile for demographic or geographic impact?	No, but we plan to in the future
17	Did your subdivision fund any programs using opioid abatement funds during the current reporting year (7/1/2025 - 6/30/2026)?	Yes
	A) For new programs, use the "Add Program" tab to report on each new program.	
	B) For previously-reported programs, use the "Update" tab in the 'Prior Fiscal Year Programs' section to provide updates on programs reported during prior fiscal years.	
	If you reported spending any opioid abatement funds during the current reporting year (7/1/2025 - 6/30/2026) in Question 6, you must answer the following questions for each program funded by opioid abatement funds.	
	2026 Fiscal Program List	
1	What is the name/title of the program?	Yoga's Impact on Behavioral Health and Substance Use Disorders
2	List all agencies, organizations, or entities that received funding for this program.	St. Joseph's Health
3	In which category or categories does each agency, organization, or entity that received funding for this program belong? Select all that apply.	Others
3(a).	In which category or categories does each agency, organization, or entity that received funding for this	Private nonprofit organization

	program belong? Select all that apply. - Others	
4	What is the primary problem being addressed by this program?	The project addresses anxiety and opioid-use-related symptoms among people who are already participating in behavioral health treatment. The County is funding yoga as an added service to determine whether it helps participants manage symptoms that may interfere with treatment and recovery.
5	Briefly describe the program's purpose and key activities.	St. Joseph's Health will arrange yoga services at four treatment locations in Passaic County. A certified yoga therapist will provide two live sessions each month at every location. The annual service plan includes 96 live sessions and anticipates reaching 200 participants. St. Joseph's Health will also produce recorded sessions that participating treatment programs can make available between live classes. Yoga is being added to the participant's existing treatment. It does not replace counseling, medication, psychiatric care, or another clinical service.
6	What is the target population for this program?	Individuals in Treatment; Others
6(a).	What is the target population for this program? - Others	People currently receiving behavioral health or substance use treatment
7	On what date was this program funded? (Use the format MM/DD/YYYY.)	1/1/2026
8	What is the total amount of funding for this program?	\$70,000.00
8a.	Of the total amount, how much has been spent (in the current reporting year)?	\$0.00

8b.	Of the total amount, how much has been appropriated/encumbered but not yet spent?	\$70,000.00
9	How often is your subdivision disbursing funds to this program?	Others
9(a).	How often is your subdivision disbursing funds to this program? - Others	Monthly
10	On what date was this program launched? (Use the format MM/DD/YYYY.)	1/1/2026
11	Choose the duration of the program from the list below.	Others
11(a).	Choose the duration of the program from the list below. - Others	1 year for the 2026 service period. The original competitive contracting procurement also contains annual option periods through 2029.
12	What is the number of unduplicated individuals served by this program?	108
13	What is the intended impact of this program?	The project is designed to answer two practical questions. The first is whether participants show less anxiety after taking part in yoga. The second is whether substance-use screening results improve over the course of participation. St. Joseph's Health previously studied yoga within its own behavioral health programs and reported that 87 to 97 percent of participants in the groups studied experienced a decrease in anxiety after yoga sessions. The County-funded project will extend the service to additional treatment locations.
14	Which key performance indicators are you tracking to ensure success of the program? List all that apply, including, but not limited to, the following:	

	Other:	The County will track the number of yoga sessions provided and the number of service units delivered at participating substance use and behavioral health treatment programs. The County will also look at whether the added yoga service is helping participants remain engaged in treatment and manage symptoms that may affect recovery. St. Joseph's Health will measure changes in anxiety over time and will review substance use screening results when appropriate. These measures are directly related to the purpose of the award. The County funded yoga as an added treatment service for programs serving individuals with substance use disorders, including opioid use disorder. The goal is to determine whether the service can help reduce stress and anxiety, strengthen coping during treatment, and support continued participation in recovery services.
15	How frequently are you measuring the key performance indicators listed above?	Others:
15(a).	How frequently are you measuring the key performance indicators listed above? - Others	Service activity will be reported monthly. Clinical outcome measures will be reviewed every three months.

16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	St. Joseph's Health will complete a Generalized Anxiety Disorder screening before participation and repeat the measure every three months. A lower score over time will be used as an indicator of improvement in anxiety symptoms. Substance-use outcomes will be followed with an appropriate screening instrument. Depending on the participant, the provider may use the Alcohol, Smoking and Substance Involvement Screening Test, Alcohol Use Disorders Identification Test, or Drug Abuse Screening Test. Attendance and participation records will provide the service-use information for the project.
17	Primary Category (Please select the category that fits the primary focus of this program):	Treatment
18	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above).	Recovery Supports
19	Select the "Schedule B" approved strategy or strategies that best match the primary focus of this program.	Treat Opioid Use Disorder (OUD), Support People in Treatment and Recovery
20	Describe how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	Participants will receive yoga in addition to the treatment they are already receiving from a behavioral health provider. St. Joseph's Health previously introduced yoga within its own Partial Hospitalization programs and conducted an Institutional Review Board-approved study of its effect on anxiety. The provider reported decreases in anxiety among 87 to 97 percent of the participants studied. The County-funded project uses that prior experience as the basis for offering the service at four additional treatment locations and

		collecting outcome information during the new program period.
21	Identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	St. Joseph's Health was selected through competitive contracting under Passaic County Request for Proposals 25-031. The County publicly solicited proposals for adjunctive therapy services that could be brought into existing behavioral health treatment programs. Proposals were reviewed under the qualifications, program, management, and cost requirements stated in the procurement. Competitive contracting allowed the County to consider the provider's experience and proposed treatment approach along with cost when selecting the service.
22	If you would like to provide any additional details about this program not already included above, you may do so here.	This project gives the County an opportunity to evaluate an adjunctive service within existing treatment settings rather than create a separate program for participants to attend. The service will be offered at four locations, and the County will have both participation data and clinical screening results available for future review.
	2026 Fiscal Program List	

1	What is the name/title of the program?	Evergreen Outpatient – Teen T.H.R.I.V.E. Partial Hospitalization and Intensive Outpatient Program
2	List all agencies, organizations, or entities that received funding for this program.	Care Plus Bergen, Inc., doing business as Bergen New Bridge Medical Center
3	In which category or categories does each agency, organization, or entity that received funding for this program belong? Select all that apply.	Others
3(a).	In which category or categories does each agency, organization, or entity that received funding for this program belong? Select all that apply. - Others	Private nonprofit organization
4	What is the primary problem being addressed by this program?	The program addresses substance use among adolescents who need a more intensive level of care than routine outpatient counseling. It also serves adolescents whose substance use occurs together with mental health, family, school, or behavioral concerns.
5	Briefly describe the program's purpose and key activities.	Bergen New Bridge Medical Center will use the County award to provide substance use treatment for adolescents between the ages of 13 and 17. The Partial Hospitalization service is the higher-intensity option. Adolescents attend during the day and receive clinical groups, individual counseling, recreational therapy, school-related educational time, and regular case management with families and referral sources. The Intensive Outpatient service is offered on evening tracks. Participants receive group treatment, individual counseling, family sessions, and case management while remaining at home and continuing school or other

		daily activities. The proposal also includes meals and transportation for participating adolescents. The annual service plan anticipates 30 adolescents in Partial Hospitalization and 70 in Intensive Outpatient treatment.
6	What is the target population for this program?	Others
6(a).	What is the target population for this program? - Others	Adolescents - Passaic County adolescents between the ages of 13 and 17 who have a substance use disorder and may also have mental health, family, school, or behavioral needs that should be addressed during treatment.
7	On what date was this program funded? (Use the format MM/DD/YYYY.)	1/1/2026
8	What is the total amount of funding for this program?	\$100,000.00
8a.	Of the total amount, how much has been spent (in the current reporting year)?	\$0.00
8b.	Of the total amount, how much has been appropriated/encumbered but not yet spent?	\$100,000.00
9	How often is your subdivision disbursing funds to this program?	Others

9(a).	How often is your subdivision disbursing funds to this program? - Others	Monthly
10	On what date was this program launched? (Use the format MM/DD/YYYY.)	1/1/2026
11	Choose the duration of the program from the list below.	4-5 years
12	What is the number of unduplicated individuals served by this program?	100
13	What is the intended impact of this program?	The County expects adolescents in the program to reduce or discontinue substance use and to leave treatment with a practical plan for avoiding a return to use. The provider will also look for changes in problems connected to substance use, such as declining school performance, probation involvement, or conflict at home. A second area of focus is whether adolescents become more involved in school, family life, treatment, and other positive activities while participating in the program.
14	Which key performance indicators are you tracking to ensure success of the program? List all that apply, including, but not limited to, the following:	
	Other:	The County will review how many adolescents enter each level of care and how many remain through completion or an appropriate transfer. The provider will also report relapse-prevention planning, urine screening when clinically used, family participation, school-related progress, and the disposition of each adolescent when treatment ends. Referrals to another level of care will be included when they are part of the discharge plan.

15	How frequently are you measuring the key performance indicators listed above?	Monthly
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	The program is intended to help adolescents reduce or discontinue the use of mood-altering substances and improve how they function at home, in school, and in the community. For substance use outcomes, the provider will look for completion of an individualized relapse prevention plan, better recognition of triggers, stronger coping skills, and fewer problems related to substance use, such as probation involvement, failing grades, or conflict at home. Progress will be reviewed through urine screening when clinically appropriate, the adolescent's self-report, and information from family members or community partners involved in treatment. The program will also look at whether adolescents become more engaged in treatment and other positive activities. This includes participation in individual and group sessions, improved school involvement, and family participation in treatment. The provider will compare Behavioral Assessment Questionnaire results from the beginning of treatment through completion to help measure change over time. The County will review these measures together with monthly service data to determine whether the program is reaching the intended population and whether participants are showing meaningful progress during treatment.

17	Primary Category (Please select the category that fits the primary focus of this program):	Treatment
18	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above).	Recovery Supports; Wraparound and Connected Care Supports
18(a).	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above). - Others	
19	Select the "Schedule B" approved strategy or strategies that best match the primary focus of this program.	Treat Opioid Use Disorder (OUD), Support People in Treatment and Recovery, Connections to Care
20	Describe how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	Each adolescent receives a biopsychosocial assessment before the provider determines the appropriate treatment level. The provider uses the American Society of Addiction Medicine criteria to support that decision. Treatment is then provided through either Partial Hospitalization or Intensive Outpatient services. Families and referral sources are involved when appropriate, and an adolescent who needs a different level of care is referred rather than kept in a program that does not meet the clinical need. The program also uses relapse-prevention work, substance-use monitoring, family contact, and discharge planning to support the adolescent's transition back to school and the community.

21	Identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	The County selected the provider through competitive contracting under Passaic County Request for Proposals 25-031. The County issued a public solicitation for adolescent substance use treatment and reviewed responsive proposals under the evaluation requirements established in the procurement. The review considered the provider's qualifications, proposed program, management capacity, and cost. Competitive contracting was used because the County was selecting a provider for specialized professional services where program quality and experience were important considerations in addition to price.
22	If you would like to provide any additional details about this program not already included above, you may do so here.	This award adds a treatment service specifically for adolescents to the County's existing opioid settlement programs. Earlier investments addressed outreach, recovery housing, provider education, and adult recovery resources. The Bergen New Bridge Medical Center program addresses a different point in the service system by providing a higher level of treatment for adolescents who need more than routine outpatient care.

	B) For previously-reported programs, use the "Update" tab in the 'Prior Fiscal Year Programs' section to provide updates on programs reported during prior fiscal years.	
	If you reported spending any opioid abatement funds during the current reporting year (7/1/2025 - 6/30/2026) in Question 6, you must answer the following questions for each program funded by opioid abatement funds.	
	2026 Fiscal Program List	
1	What is the name/title of the program?	MX908 Opioid and Hazardous Substance Detection Program
2	List all agencies, organizations, or entities that received funding for this program.	City of Clifton Fire Department

3	In which category or categories does each agency, organization, or entity that received funding for this program belong? Select all that apply.	County or Municipality (including Departments and Municipal Alliances); First Responders, Law Enforcement, and Emergency Services
4	What is the primary problem being addressed by this program?	The need for first responders to safely and rapidly identify fentanyl, opioid analogs, narcotics, and other hazardous substances during emergency incidents.
5	Briefly describe the program's purpose and key activities.	The City purchased an MX908 handheld chemical-detection system, operator training, sampling supplies, and related accessories. The equipment improves the Fire Department's ability to rapidly identify fentanyl, opioid analogs, narcotics, and other hazardous substances in the field.
6	What is the target population for this program?	First Responders, Law Enforcement and other Emergency Responders; Members of the General Public
6(a).	What is the target population for this program? - Others	
7	On what date was this program funded? (Use the format MM/DD/YYYY.)	10/21/2025
8	What is the total amount of funding for this program?	\$94,460.28
8a.	Of the total amount, how much has been spent (in the current reporting year)?	\$94,460.28
8b.	Of the total amount, how much has been appropriated/encumbered but not yet spent?	\$0.00
9	How often is your subdivision disbursing funds to this program?	One time only
10	On what date was this program launched? (Use the format MM/DD/YYYY.)	10/24/2025
11	Choose the duration of the program from the list below.	One time only

12	What is the number of unduplicated individuals served by this program?	0
13	What is the intended impact of this program?	The program is intended to improve the City's ability to rapidly identify fentanyl, opioid analogs, narcotics, and other hazardous substances while protecting first responders and the public from accidental exposure.
14	Which key performance indicators are you tracking to ensure success of the program? List all that apply, including, but not limited to, the following:	
	Other:	Number of MX908 chemical-detection systems purchased and placed into service: 1
15	How frequently are you measuring the key performance indicators listed above?	Annually
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	The program aims to improve the speed and accuracy of hazardous-substance identification, strengthen responder safety, and enhance the City's response to opioid-related incidents. The City will track deployment of the MX908, personnel trained, training sessions completed, and incidents in which the equipment is used.
17	Primary Category (Please select the category that fits the primary focus of this program):	Harm Reduction and Overdose Prevention
18	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above).	Primary Prevention, Education, and Training; Workforce Development and Capacity Building
18(a).	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above). - Others	
19	Select the "Schedule B" approved strategy or strategies that best	Prevent Overdose Deaths and Other Harms (Harm Reduction),

	match the primary focus of this program.	First Responders, Training
20	Describe how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	The program supports evidence-informed harm-reduction and first-responder safety practices by providing rapid field identification of fentanyl, opioid analogs, and other hazardous substances. The equipment and operator training help personnel follow appropriate safety precautions and make informed response decisions during suspected opioid-related incidents.
21	Identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	The MX908 system was purchased from Safeware, Inc. through Bergen County Cooperative Contract #BC-BID-24-62. The City used the cooperative purchasing contract because Safeware was an authorized vendor under an existing competitively awarded public contract. The purchase was authorized by Resolution #521-25 in accordance with the Local Public Contracts Law.
22	If you would like to provide any additional details about this program not already included above, you may do so here.
