5	Is there anything else you would like to share or highlight regarding the progress and impact of this program? :	Yes

	5a) If yes, please explain:	Total Impact (2024-2025 Funding Cycle) • 520 residents served • 80 events held • Expanded partnerships and outreach strategies to increase engagement and access to recovery resources. Adapting Strategies & Future Considerations • Food pantry outreach: Recognizing increased community need, CiC integrated recovery resources into food distribution efforts. • Addressing engagement challenges: Declining participation among Latino men at Train Station Outreach requires adaptive strategies. • Expanding bilingual outreach: Bilingual Specialist AH and new associates will strengthen peer support efforts. Looking Ahead: 2025-2026 CiC remains committed to delivering peer recovery services through innovative, community-driven approaches. By adapting outreach strategies, strengthening partnerships, and meeting people where they are, PRPU will continue to be a vital resource for Somerset County residents.

2	What is the amount of accrued interest on the total amount of opioid abatement funds that your subdivision has received during the current reporting period (7/1/2025 - 6/30/2026)? Please include dollars and cents (e.g., 100.23):	\$0.00
3	What is the total amount of opioid abatement funds that your subdivision has received since the distribution of opioid abatement funds began in 2022?	\$189,721.95
4	As an eligible subdivision receiving abatement funds, which of the following applies to your current status regarding those funds:	We are a municipality and did not transfer our funds
5	What is the amount of opioid abatement funds that your subdivision transferred to the county during the current reporting period (7/1/2025 - 6/30/2026)?	
6	What is the total amount of opioid abatement funds that your subdivision spent/expended during the current reporting period (7/1/2025 - 6/30/2026)? Please include dollars and cents (e.g., 100.23):	\$10,046.32

	You will be required to answer specific questions about the expenditures below in order for your annual report to be considered complete.	
7	What amount of opioid abatement funds did your subdivision appropriate/encumber but not yet spend during the current reporting period (7/1/2025 - 6/30/2026)?	\$6,376.79
8	What amount of opioid abatement funds did your subdivision spend on administrative expenses during the current reporting period (7/1/2025 - 6/30/2026)?	\$1,000.08
	You must also provide details about administrative expenses in Question 8a below.	
8a.	Provide details regarding any administrative expenses spent during the current reporting period (7/1/2025 - 6/30/2026).	Funds were used for administrative expenses, including payroll associated with program administration, program implementation, and budget reporting.
9	What amount of unspent/uncommitted opioid abatement funds from any reporting year does your subdivision currently have on hand?	\$153,171.30
10	What were your subdivision's overarching goals and values in its use of opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	Our subdivision's overarching goal was to prevent opioid misuse through prevention, outreach, and education programs. These efforts emphasized collaboration and community partnerships with the Municipal Alliance, Health Department, law enforcement, and EMS to increase awareness, promote safe practices, and connect residents with available resources.

11	Which official(s) were involved in deciding how to spend opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	Officials involved in deciding how to spend opioid abatement funds during the current reporting period included the Chair and Vice Chair of the Bernards Township Municipal Alliance Against Substance Abuse; members of the Municipal Alliance, including representatives from law enforcement, Township Committee, Board of Education, and substance use prevention; and the Health Officer and other Bernards Township Health Department staff, including health education and public health nursing.
12	Which resources did your subdivision use when deciding to spend opioid abatement funds during the current reporting period (7/1/2025 - 6/30/2026)?	The subdivision used the following resources when determining how to spend opioid abatement funds during the current reporting period: (1) and (2)
	List all that apply, including, but not limited to, the following:	
	(1) Any evidence-based or evidence-informed practices or strategies;	
	(2) The "Schedule B" list of approved opioid remediation uses attached as Exhibit A to the January 28, 2022 "Memorandum of Agreement Between the State of New Jersey and Local Governments on Opioid Litigation Recoveries" to which your subdivision is a signatory;	
	(3) A needs assessment;	
	(4) A strategic plan; and/or	
	(5) An epidemiological analysis;	
13	During the current reporting year (7/1/2025 - 6/30/2026), did your subdivision engage the public (e.g., through town hall meetings, online surveys, or other means of communicating with stakeholders)	Yes

	prior to deciding how to use the opioid abatement funds you received?	
13a	If yes, provide details about your public engagement/input efforts.	Public engagement and input were incorporated through ongoing collaboration with community partners, including the Municipal Alliance, Health Department, law enforcement, EMS, schools, and other local stakeholders. These partnerships provided insight into community needs, prevention priorities, and barriers related to opioid misuse and access to resources. Community observations, partner feedback, and engagement with residents helped inform the selection and development of prevention, outreach, education, and resource-based initiatives supported by the opioid settlement funding.
14	For how many years have settlement spending allocations already been decided?	3 - 5 years
15	Does your subdivision have a strategic plan regarding the use of opioid abatement funds?	No, but we plan to in the future
	If yes, choose "Yes" and upload/link to the strategic plan or summarize the plan in Question 15a	
16	Have you completed a Risk Assessment profile for demographic or geographic impact?	No, but we plan to in the future
17	Did your subdivision fund any programs using opioid abatement funds during the current reporting year (7/1/2025 - 6/30/2026)?	Yes

	A) For new programs, use the "Add Program" tab to report on each new program.	
	B) For previously-reported programs, use the "Update" tab in the 'Prior Fiscal Year Programs' section to provide updates on programs reported during prior fiscal years.	
	If you reported spending any opioid abatement funds during the current reporting year (7/1/2025 - 6/30/2026) in Question 6, you must answer the following questions for each program funded by opioid abatement funds.	
	2026 Fiscal Program List	
1	What is the name/title of the program?	Safe Medication Storage Awareness
2	List all agencies, organizations, or entities that received funding for this program.	Bernards Township Municipal Alliance
3	In which category or categories does each agency, organization, or entity that received funding for this program belong? Select all that apply.	County or Municipality (including Departments and Municipal Alliances)
4	What is the primary problem being addressed by this program?	The program addresses the risk of medication misuse, accidental ingestion, and negative effects resulting from medications being stored in unsecured or easily accessible locations. By promoting safe storage practices, the program aims to reduce opportunities for unauthorized access to prescription and over-the-counter medications in the home.

5	Briefly describe the program's purpose and key activities.	The program promotes safe medication storage and responsible medication management to help prevent misuse, accidental ingestion, and other consequences surrounding unsafe medication storage. Key activities include providing residents with medication lock boxes, medication organizers, and educational materials, along with community awareness efforts focused on safe storage practices. Future efforts may include developing lock boxes specifically designed to meet the needs of senior residents.
6	What is the target population for this program?	Children and Young Adults - 19-24 (post-grad through college); Members of the General Public
7	On what date was this program funded? (Use the format MM/DD/YYYY.)	7/1/2025
8	What is the total amount of funding for this program?	\$533.30
8a.	Of the total amount, how much has been spent (in the current reporting year)?	\$533.30
8b.	Of the total amount, how much has been appropriated/encumbered but not yet spent?	\$0.00
9	How often is your subdivision disbursing funds to this program?	Others
9(a).	How often is your subdivision disbursing funds to this program? - Others	On an as needed basis.
10	On what date was this program launched? (Use the format MM/DD/YYYY.)	7/1/2025
11	Choose the duration of the program from the list below.	4-5 years
12	What is the number of unduplicated individuals served by this program?	10000

13	What is the intended impact of this program?	The program is intended to increase the use of safe medication storage practices in residents' homes and reduce opportunities for accidental access, misuse, and diversion of medications. Providing practical storage tools and education will help residents better protect medications and promote safer households.
14	Which key performance indicators are you tracking to ensure success of the program? List all that apply, including, but not limited to, the following:	
	Increased community awareness (please describe):	Success will be measured by the number of residents reached through medication safety education and outreach, including the distribution of lock boxes, medication organizers, and educational materials. Increased awareness and engagement with safe medication storage information will be used to assess whether the campaign is reaching the community and promoting safer storage practices.
15	How frequently are you measuring the key performance indicators listed above?	Annually
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	The program aims to encourage residents to adopt safer medication storage practices and increase the use of tools that limit unauthorized access to medications. Impact will be assessed through distribution and participation data, including the number of lock boxes, organizers, and educational materials provided, as well as feedback from residents and community partners when available.

17	Primary Category (Please select the category that fits the primary focus of this program):	Primary Prevention, Education, and Training
18	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above).	None of the above
19	Select the "Schedule B" approved strategy or strategies that best match the primary focus of this program.	Prevent Misuse of Opioids, Prevent Overdose Deaths and Other Harms (Harm Reduction)
20	Describe how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	The program addresses opioid and substance use prevention by reducing opportunities for unauthorized access to medications within the home by both house-hold and non-household members. Promoting secure storage, particularly for prescription medications that may be misused or diverted, is an evidence-informed environmental prevention strategy that can help limit access and support safer medication practices. Providing lock boxes, medication organizers, and education gives residents easily accessible, practical tools to reduce risk while reinforcing responsible medication management. The program also supports broader prevention efforts by connecting medication safety with awareness of substance use risks and the importance of seeking appropriate support when concerns arise.

21	Identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	The program utilized a direct procurement method for medication lock boxes, medication organizers, and related educational materials. Products were identified based on their suitability for safe medication storage, resident accessibility, and program needs, and were purchased through established vendors in accordance with applicable municipal procurement requirements. This method was selected because the program requires practical, readily available materials that can be distributed directly to residents as part of a targeted medication safety and prevention initiative.
22	If you would like to provide any additional details about this program not already included above, you may do so here.	
	2026 Fiscal Program List	
1	What is the name/title of the program?	Community Resource Awareness Campaign
2	List all agencies, organizations, or entities that received funding for this program.	Bernards Township Municipal Alliance
3	In which category or categories does each agency, organization, or entity that received funding for this program belong? Select all that apply.	County or Municipality (including Departments and Municipal Alliances)
4	What is the primary problem being addressed by this program?	This campaign connects residents with accessible mental health and substance use prevention resources available in the community. By sharing information about where to find support, residents are better equipped to access resources when they need them.

5	Briefly describe the program's purpose and key activities.	The program connects residents with community and local resources, with a focus on mental health and substance use prevention. Key activities include sharing resource information through community outreach, educational materials, and public awareness efforts.
6	What is the target population for this program?	Children and Young Adults - 0-13 (through 8th grade); Children and Young Adults - 14-18 (high school aged); Children and Young Adults - 19-24 (post-grad through college); Individuals in Recovery; Individuals in Treatment; Individuals who Use Drugs; Members of the General Public
7	On what date was this program funded? (Use the format MM/DD/YYYY.)	7/1/2025
8	What is the total amount of funding for this program?	\$1,170.75
8a.	Of the total amount, how much has been spent (in the current reporting year)?	\$1,170.75
8b.	Of the total amount, how much has been appropriated/encumbered but not yet spent?	\$0.00
9	How often is your subdivision disbursing funds to this program?	Others
9(a).	How often is your subdivision disbursing funds to this program? - Others	As needed basis
10	On what date was this program launched? (Use the format MM/DD/YYYY.)	7/1/2025
11	Choose the duration of the program from the list below.	5+ years
12	What is the number of unduplicated individuals served by this program?	10000

13	What is the intended impact of this program?	The intended impact is to increase residents' awareness of and ability to access local resources for mental health, substance use prevention, and related support services. By making information easier to find and understand, the program aims to reduce barriers to seeking help and encourage residents to connect with appropriate resources before needs escalate.
14	Which key performance indicators are you tracking to ensure success of the program? List all that apply, including, but not limited to, the following:	
	Increased community awareness (please describe):	Success will be measured by tracking residents' exposure to and engagement with mental health and substance use prevention resources. Indicators may include the number of outreach materials distributed, resource information shared through community channels, social media and website engagement, and community interactions or inquiries related to available resources.
15	How frequently are you measuring the key performance indicators listed above?	Annually
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	Impact will be tracked through outreach and engagement metrics, including the number of materials distributed, community contacts reached, and resource information shared.
17	Primary Category (Please select the category that fits the primary focus of this program):	Primary Prevention, Education, and Training
18	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above).	Harm Reduction and Overdose Prevention; Wraparound and Connected Care Supports

19	Select the "Schedule B" approved strategy or strategies that best match the primary focus of this program.	Connections to Care, Prevent Misuse of Opioids, Prevent Overdose Deaths and Other Harms (Harm Reduction)
20	Describe how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	The program supports prevention and early intervention by making residents more aware of resources that can help address opioid use disorder, other substance use concerns, and related mental health needs. Resource information will be shared through trusted community channels, in-person, and through social media to reduce barriers to finding appropriate support, including treatment, recovery, crisis, and prevention services. The program uses an evidence-informed public health approach by increasing access to accurate, timely information and promoting awareness of services before a concern becomes a crisis (primary prevention). It also recognizes the connection between mental health and substance use and helps residents identify resources that address these needs together.
21	Identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	Resources and educational materials were identified based on community needs and obtained through pre-existing relationships with local agencies, community organizations, and trusted resource providers. This method was used because the program's primary purpose is to connect residents with existing services and information, making collaboration and timely access to established community resources more appropriate and cost-effective than procuring a whole separate service provider.

22	If you would like to provide any additional details about this program not already included above, you may do so here.	
	2026 Fiscal Program List	
1	What is the name/title of the program?	REACH Out: By Being a Lifeline
2	List all agencies, organizations, or entities that received funding for this program.	Ridge Education Action & Community Health (REACH)
3	In which category or categories does each agency, organization, or entity that received funding for this program belong? Select all that apply.	County or Municipality (including Departments and Municipal Alliances)
4	What is the primary problem being addressed by this program?	The primary problem addressed by the program is the lack of awareness and understanding of overdose prevention, emergency response, and available protections for individuals experiencing drug- or alcohol-related emergencies. When young people experience a drug- or alcohol-related emergency, they will sometimes neglect to call 911 or emergency services out of fear of getting in trouble, which could lead to more drug- or alcohol-related injuries, overdose, or death. The program also addresses the risks of prescription medication misuse by promoting safe medication storage and disposal to help prevent opioid misuse and overdose.

5	Briefly describe the program's purpose and key activities.	The purpose of "REACH Out: Be a Lifeline" is to increase awareness of overdose prevention, emergency response, and laws that protect individuals who seek help during drug- or alcohol-related emergencies. Key activities include educating students and adults about the 911 Lifeline Law and Overdose Prevention Act, promoting the importance of calling 911 and staying with someone experiencing an emergency, and distributing educational materials and safe medication disposal resources such as Deterra and DisposeRx. The program will also promote the local medication drop box and safe medication storage practices.
6	What is the target population for this program?	Children and Young Adults - 14-18 (high school aged); Children and Young Adults - 19-24 (post-grad through college); Members of the General Public
7	On what date was this program funded? (Use the format MM/DD/YYYY.)	5/1/2026
8	What is the total amount of funding for this program?	\$7,500.00
8a.	Of the total amount, how much has been spent (in the current reporting year)?	\$2,342.19
8b.	Of the total amount, how much has been appropriated/encumbered but not yet spent?	\$1,376.79
9	How often is your subdivision disbursing funds to this program?	Others
9(a).	How often is your subdivision disbursing funds to this program? - Others	As needed.
10	On what date was this program launched? (Use the format MM/DD/YYYY.)	5/16/2026

11	Choose the duration of the program from the list below.	Less than 1 year
12	What is the number of unduplicated individuals served by this program?	10000
13	What is the intended impact of this program?	The intended impact of REACH Out: Be a Lifeline is to increase community knowledge of overdose prevention, emergency response, and legal protections so students and adults feel empowered to act quickly during drug- or alcohol-related emergencies. The program also aims to reduce prescription medication misuse and overdose risk by increasing awareness of safe medication storage and disposal practices and available community resources.
14	Which key performance indicators are you tracking to ensure success of the program? List all that apply, including, but not limited to, the following:	
	Increased community awareness (please describe):	"REACH Out" increased community awareness through outreach at Charter Day, local football games, and other community tabling events. A large banner displaying information about the 911 Lifeline Law and Overdose Prevention Act was also displayed in town, and wallet-sized information cards were distributed to all graduating seniors to ensure students received this important information before leaving high school.
15	How frequently are you measuring the key performance indicators listed above?	Annually

16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	The program aims to increase knowledge of the 911 Lifeline Law and Overdose Prevention Act, increase awareness of overdose signs and appropriate emergency response, and encourage individuals to call 911 and remain with someone experiencing an alcohol- or drug-related emergency. The program also aims to increase awareness and use of safe medication storage and disposal resources, including Detera, DisposeRx, and the local medication drop box. Impact will be tracked through the number of community outreach events and individuals reached, materials and disposal resources distributed, and feedback or informal knowledge assessments collected during educational and tabling activities.
17	Primary Category (Please select the category that fits the primary focus of this program):	Harm Reduction and Overdose Prevention
18	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above).	Primary Prevention, Education, and Training
19	Select the "Schedule B" approved strategy or strategies that best match the primary focus of this program.	Prevent Misuse of Opioids, Prevent Overdose Deaths and Other Harms (Harm Reduction)

20	Describe how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	REACH Out: Be a Lifeline addresses opioid use disorder and co-occurring substance use by using evidence-informed prevention, education, and harm-reduction strategies. The program provides education on recognizing opioid overdose and other substance-related emergencies, encourages timely emergency response and use of the 911 Lifeline Law and Overdose Prevention Act, and promotes safe medication storage and disposal to reduce access to unused medications. Through peer-led outreach, community education, and distribution of Deterra and DisposeRx resources, the program increases protective knowledge and connects individuals and families with resources that can help prevent misuse and overdose.
21	Identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	The procurement process was informed by community needs identified through collaboration with Ridge Education Action & Community Health (REACH) students. Through discussions and anecdotal feedback, students identified concerns that peers may hesitate to call 911 during alcohol- or drug-related emergencies because they are nervous about potential consequences. Based on this identified need, the program prioritized educational and outreach materials focused on the 911 Lifeline Law, Overdose Prevention Act, overdose response, and safe medication disposal. The program is intended to reach not only current youth, but also provide them with knowledge and resources they can carry with them into college and

		adulthood. This approach was used to ensure that purchased materials directly addressed a locally identified need and supported long-term overdose prevention and community education.
22	If you would like to provide any additional details about this program not already included above, you may do so here.	
	2026 Fiscal Program List	
1	What is the name/title of the program?	Community Recovery Champion
2	List all agencies, organizations, or entities that received funding for this program.	Community in Connection/Community in Crisis
3	In which category or categories does each agency, organization, or entity that received funding for this program belong? Select all that apply.	Community Based Organizations/Non-Governmental Organizations
4	What is the primary problem being addressed by this program?	The program works to increase awareness of recovery resources, reduce stigma surrounding substance use and recovery, and connect individuals to appropriate

		support services within the community.
5	Briefly describe the program's purpose and key activities.	The Community Recovery Champion (CRC) program aims to increase awareness of and access to recovery resources for individuals and families affected by substance use. Key activities include connecting residents with local recovery services, providing education and outreach about available resources, reducing stigma, and increasing community awareness and support for recovery. The CRC brings recovery services and resources directly to community members by participating in community programs and events throughout Bernards Township, including outreach tables at the library, Charter Day, and other town-wide events.
6	What is the target population for this program?	Children and Young Adults - 14-18 (high school aged); Children and Young Adults - 19-24 (post-grad through college); Individuals in Recovery; Individuals who Use Drugs; Members of the General Public

	Number of training/education sessions:	22
	Number of services provided/encounters:	22
	Increased community awareness (please describe):	The CRC program increases community awareness by bringing recovery and harm reduction resources directly to residents through outreach tables, community events, and educational activities throughout Bernards Township. The CRC provides information about local treatment and recovery services, overdose prevention, Narcan, fentanyl test strips, and other available resources, helping residents better understand substance use disorder and how they

		can support individuals and families in recovery.
	Number of referrals to treatment	
15	How frequently are you measuring the key performance indicators listed above?	Quarterly
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	The program aims to increase community awareness of and access to recovery resources, reduce stigma surrounding substance use and recovery, and connect individuals and families with appropriate local support services. The CRC's impact is tracked through a detailed report that includes key measures such as engagement analytics, estimated individuals reached, Narcan and fentanyl test strips distributed, tabling and outreach events, police-to-peer support, and other recovery-related activities. These measures help assess the program's reach, community engagement, and effectiveness in connecting residents with recovery resources.
17	Primary Category (Please select the category that fits the primary focus of this program):	Recovery Supports
18	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above).	Harm Reduction and Overdose Prevention; Primary Prevention, Education, and Training; Treatment;

		Wraparound and Connected Care Supports
19	Select the "Schedule B" approved strategy or strategies that best match the primary focus of this program.	Support People in Treatment and Recovery, Connections to Care, Prevent Misuse of Opioids, Prevent Overdose Deaths and Other Harms (Harm Reduction)
20	Describe how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	The program will address opioid use disorder and co-occurring substance use and mental health needs through peer recovery support, recovery coaching, treatment navigation, mental health peer support, and harm-reduction services. These evidence-informed strategies include connecting residents to treatment and community resources, providing Narcan and fentanyl test strips, and maintaining ongoing peer support through community outreach and partnerships with law enforcement, public health, faith-based organizations, and other community providers.
21	Identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	The program was procured through a contracted service agreement with the Community in Crisis (CiC) to provide Community Recovery Champion services. The Health Department reviewed the organization's ability to provide community-based recovery outreach and support and entered into a service contract for the CRC Program. This procurement method was used because CiC has the appropriate expertise, established community connections, and experience providing recovery-

		focused services, allowing the program to be implemented effectively and reach residents directly.

This year we again relied on the list of Opioid Remediation uses, directing the money toward education law enforcement and funding the CredibleMinds platform which assists individuals with mental health disorders as well as those with drug and alcohol addiction by providing a private, digital gateway to curated educational resources, self-assessments, and local professional services.
	List all that apply, including, but not limited to, the following:	
	(1) Any evidence-based or evidence-informed practices or strategies;	
	(2) The "Schedule B" list of approved opioid remediation uses attached as Exhibit A to the January 28, 2022 "Memorandum of Agreement Between the State of New Jersey and Local Governments on Opioid Litigation Recoveries" to which your subdivision is a signatory;	
	(3) A needs assessment;	
	(4) A strategic plan; and/or	
	(5) An epidemiological analysis;	
13	During the current reporting year (7/1/2025 - 6/30/2026), did your subdivision engage the public (e.g., through town hall meetings, online surveys, or other means of communicating with stakeholders) prior to deciding how to use the opioid abatement funds you received?	Yes
13a	If yes, provide details about your public engagement/input efforts.	We have an Opioid Advisory Committee, which consists of key stakeholders in our community: High School Nurses, Police Officers,

		Public Health Officials, and community residents.
14	For how many years have settlement spending allocations already been decided?	1 - 2 years
15	Does your subdivision have a strategic plan regarding the use of opioid abatement funds?	No, but we plan to in the future
	If yes, choose "Yes" and upload/link to the strategic plan or summarize the plan in Question 15a	
16	Have you completed a Risk Assessment profile for demographic or geographic impact?	No, but we plan to in the future
17	Did your subdivision fund any programs using opioid abatement funds during the current reporting year (7/1/2025 - 6/30/2026)?	Yes
	A) For new programs, use the "Add Program" tab to report on each new program.	
	B) For previously-reported programs, use the "Update" tab in the 'Prior Fiscal Year Programs' section to provide updates on programs reported during prior fiscal years.	
	If you reported spending any opioid abatement funds during the current reporting year (7/1/2025 - 6/30/2026) in Question 6, you must answer the following questions for each program funded by opioid abatement funds.

The program will address opioid use disorder and other substance use disorders through prevention, early intervention, youth mentoring, and mental health support. The Extended Day Support/Mentoring Program will strengthen students' social-emotional skills, positive relationships, and coping strategies, while the mental health program will provide education and support related to anxiety, stress management, mental health awareness, and drug abuse prevention. These evidence-informed strategies address risk factors for substance misuse, strengthen protective factors, and promote early identification and support for at-risk youth.

21	Identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	The Township entered into a three-year funding agreement with the Board of Education to support youth mentoring and mental health programs. The agreement was approved by the Township and BOE and establishes the funding and program requirements. This method was used because the BOE is directly responsible for serving the Township's youth and is positioned to administer these programs.
22	If you would like to provide any additional details about this program not already included above, you may do so here.
