

## Internship Program and Available Internships

### **New Jersey State Parole Board Internship Program**

The New Jersey State Parole Board (SPB) Internship Program (IP) seeks to provide meaningful work-learning experiences to qualified individuals currently attending area colleges and universities as well as graduates entering the job market that will benefit both the individuals and the SPB. The IP provides individuals with the opportunity to put theory into practice while gaining an understanding of the SPB and exploring potential career options. The IP benefits the SPB by providing talented, enthusiastic individuals who bring new knowledge and skills to the workforce.

#### **How IP benefits interns:**

- It offers skills building through practical "on-the-job" experience
- It allows interns to apply academic theory into workplace practice
- It is an outcome-based experience that prepares interns for jobs in the Criminal Justice field
- It is an opportunity to network and build professional relationships
- It offers supervision from experienced agency staff

#### **How IP benefits the SPB:**

- It provides extra workforce for completion of project work & increases agency's productivity
- It provides staff the opportunity to train potential employees
- It brings new technology & ideas from the classroom to the agency
- It adds diversity in the agency's workforce
- It is cost-effective
- It provides the agency an opportunity to assist interns in developing a "tool box" of skills that will benefit them if they work in the criminal justice system in the future.

## **Fields of Study**

The SPB Internship Program provides a number of work-learning experiences related to the following major fields of study:

**Criminal Justice and Law Enforcement** These placements are reserved for individuals who are seeking careers in a) law enforcement, such as juvenile or adult corrections officer or juvenile or adult parole officer; b) non-law enforcement careers with criminal populations, such as parole and corrections counselor, hearing officer in both secure and non-secure facilities; or c) similar careers in Juvenile Justice, including parole counselors or program counselor in Juvenile Justice Commission's community based programs or any other federal, state or local/county program serving juvenile offender populations.

**Social Work** Individuals majoring in Social Work are placed in sites that offer exposure to Correctional Case Management, Correctional Social work, Health Education, Psychology, Health Services, Research, Addictions Counseling, Corrections Counseling, and Clinical Social Work careers.

**Psychology/Sociology** Individuals who are majoring in Psychology (General), Forensic Psychology, Clinical Psychology, Organizational Psychology, Industrial Psychology, School Psychology, Social Psychology, as well as Developmental Psychology and Health Psychology or Sociology are offered exposure to the role of parole counselors in the secure institutions or the Community Programs Division, working with offenders who are challenged daily with mental and emotional disorders.

**Law** Individuals who are focusing on Public Interest Law, Government Counsel, Administrative Law, Civil Litigation, Constitutional Law, Corporate Law, Criminal Law, Business Law, Civil Service, Finance, Journalism, and Policy Analysis may be assigned to the Legal Support Unit at Central Office Headquarters to assist the Board with legal issues and prepare documentation related to appeals and other hearings.

**Community Corrections** Individuals majoring in Criminal Justice may be assigned to one of the District Offices or a community-based reentry program throughout the state that supports parolees as they prepare to return home from prison. These programs are usually part of the conditions for community release imposed on convicted adults or adjudicated juveniles by a court or by the State Parole Board. Community corrections programs are usually operated and monitored by probation or parole agencies and can

include general community supervision as well as day reporting centers, half-way back programs, half-way houses, and other community-based residential, and work release programs. All community corrections programs have the multiple goals of providing offender accountability, delivering rehabilitation services and surveillance, and achieving fiscal efficiency.

**Communications** Individuals majoring in journalism, reporting, Public Relations, public speaking, media communications, and interpersonal communications are candidates for placement with the Public Relations Office and assist with creating the agency newsletter, updating agency web applications.

**Information Technology** Individuals majoring in Computer/Information Technology, Computer/Information Sciences, Computer Programming and other related fields are offered a position in the Information Technology Unit to gain experience working with computer programming, application development and maintenance, and an increased understanding of computer operations, software installation procedures, and basic knowledge of computer networking.

## **SPB Internship Program (IP) Opportunities**

Below is a description of each of the SPB Divisions or Units that host interns. Please review each Division or Unit as the tasks, responsibilities, and experiences are unique to each work site. Applicants are asked to identify, in their application, the area of interest or site location they would most like to be assigned. Although the IP Review Committee will make every effort to place applicants in the area or location requested, there is no guarantee that applicants will be assigned to the requested site. When the requested site does not have an opening for an intern, the IP Review Committee will consider the applicant's major field of study, place of residence and the availability of internship positions that are similar to the applicant's request. Assigned supervisors at each worksite location will work closely with the interns to ensure they meet all academic requirements and hours specified by the IP and college or university (when applicable), fulfill work assignments and task within the scheduled work hours, and acquire an understanding of the agency.

**Please note: Due to the nature of the work performed by staff in these Divisions and Units, interns may be exposed to or handle documentation or information regarding the offender that is classified as Confidential. SPB policy requires the Office of Professional Standards (OPS) to conduct a criminal history background verification for all individuals participating in an internship with the SPB, including all contracted programs. All applicants will be expected to pass a criminal history background verification. Having a conviction does not automatically preclude you from an internship with the SPB. However, failure to disclose any criminal history will automatically result in your application being denied.**
