One-Stop Career Centers offer services free of charge to help you develop the skills you need to succeed in a 21st century work environment.

Transitioning into the Civilian Workforce

Qualified staff at New Jersey's One-Stop Career Centers can help you find a job or get training to meet the needs of New Jersey's employers. If you served in the U.S. military, you may be eligible for veterans services and benefits.

Our veterans' representatives specialize in assisting former military personnel. Local Veterans' Employment Representative (LVERs) and Disabled Veterans' Outreach Placement Specialists (DVOPs) provide a full complement of services to help veterans.

Priority Access for Vets

Our focus is to help veterans overcome barriers to employment. You'll receive first priority referral to all job and training opportunities for which you are qualified. Through a referral system, LVER and DVOP staff help veterans enroll in apprentice or training programs through the U.S. Department of Veteran Affairs.

LVERs and DVOPs stationed in local One-Stop Career Centers will aid in finding the jobs and opportunities for which you qualify. At the center, you can enroll in job search workshops, get help developing a resume, learn about career training programs, and learn about the array of benefits available to veterans through the Veterans Administration and state and local governments. You also get priority access to counseling at One-Stop Career Centers.

By analyzing unemployment trends among veterans, we continually develop workforce strategies to improve employment outcomes for veterans.

Job Fairs and Service Fairs

We host regional "service and job fairs" that give you the opportunity to meet representatives from many veteran-focused agencies, all in one place.

Participants include representatives from:

-  NJ Department of Military & Veterans Affairs
-  U.S. Department of Veterans Affairs (VA)
-  other veteran organizations
-  NJ Department of Labor and Workforce Development (LWD)
-  LWD Division of Vocational Rehabilitation Services
-  LWD Division of Unemployment Insurance
-  interested employers

Because many veterans encounter multiple issues and barriers during and after their transition, we also invite social service providers such as the VA Hospital, Social Security Administration, Legal Services, faith- and community-based agencies, G.I. Go Veterans Transition Center, and NJ Family Care, among others. Activities such as these exemplify the meaning of "one-stop" services.

Transition Assistance Program

The Transition Assistance Program (TAP) is available to returning service members. TAP consists of comprehensive three-day workshops held at select military installations in New Jersey.

Workshop attendees learn about job searches, career decision-making, current occupational and labor market conditions, resume and cover letter preparation, and interviewing techniques. You'll also get an evaluation of your employability relative to

the job market and receive information on the most current veterans' benefits.

Local Veterans' Employment Representative

Veterans have highly marketable skills and experience. LVERs work with other service providers to place veterans in jobs where these skills are needed. They also advocate for employment and training opportunities for veterans with business, industry, and community-based organizations.

Disabled Veterans' Outreach Placement Specialist

DVOPs provide targeted services to special disabled veterans, disabled veterans, disadvantaged veterans and veterans with other barriers to employment. Working with a DVOP, veterans with disabilities can get a full range of employment and training services.
