July 12, 2016

Attached is a report of private sector wage changes compiled by the New Jersey Department of Labor and Workforce Development ("NJLWD"). Further information compiled by the NJLWD can be obtained at its website: [www.state.nj.us/labor](http://www.state.nj.us/labor).

The first table shows changes in average wages in employment for major industry groups in New Jersey between 2014 and 2015. The calculations were made by dividing total wages paid by covered private sector employers in particular industry groups by the number of jobs reported by those employers at their work sites. The first table also shows changes in the average wages of state and local government jobs covered under the state's unemployment insurance system, as well as changes in the average wages of federal government jobs in New Jersey covered by the federal unemployment insurance system. The North American Industry Classification System ("NAICS") was used to assign and tabulate economic data by industry.

The second table shows changes in the average wages of private sector jobs covered under the state's unemployment insurance system between 2014 and 2015. Statistics are broken down by county and include a statewide average. These calculations were made by dividing total wages paid by covered private sector employers by the number of jobs reported by those employers at their work sites.

The chart depicts the average annual wage for private, federal, state and local employees in New Jersey from 2003-2015.

<b>NEW JERSEY</b>				
<b>AVERAGE ANNUAL WAGES</b>				
<b>FOR JOBS COVERED BY UNEMPLOYMENT INSURANCE</b>				
<b>BY NAICS INDUSTRY SECTOR</b>				
<b>2014 and 2015</b>
