July 11, 2022

Attached is a report of private sector wage changes compiled by the New Jersey Department of Labor and Workforce Development ("NJLWD"). Further information compiled by the NJLWD can be obtained at its website: [www.nj.gov/labor](http://www.nj.gov/labor).

The first table shows changes in average wages in employment for major industry groups in New Jersey between 2020 and 2021. The calculations were made by dividing total wages paid by covered private sector employers in particular industry groups by the number of jobs reported by those employers at their work sites. The first table also shows changes in the average wages of state and local government jobs covered under the state's unemployment insurance system, as well as changes in the average wages of federal government jobs in New Jersey covered by the federal unemployment insurance system. The North American Industry Classification System ("NAICS") was used to assign and tabulate economic data by industry.

The second table shows changes in the average wages of private sector jobs covered under the state's unemployment insurance system between 2020 and 2021. Statistics are broken down by county and include a statewide average. These calculations were made by dividing total wages paid by covered private sector employers by the number of jobs reported by those employers at their work sites.

The charts depict the average annual wage and percentage change in average annual wage for private, federal, state and local employees in New Jersey.

**PRIVATE SECTOR  
AVERAGE ANNUAL WAGES  
FOR JOBS COVERED BY UNEMPLOYMENT INSURANCE  
BY COUNTY  
2020 and 2021**

County	2020	2021	% Change
