Pinelands Development Credits may be redeemed in all of the municipalities and zoning districts shown below. Typically, PDCs are used to obtain bonus residential density (an increase in the number of housing units with defined ranges). In some zoning districts, however, PDC use is mandatory for a specific percentage of the proposed units. In others, PDCs may be used in association with nonresidential development. The table below indicates where these special provisions apply.

Details of the bonus densities and PDC requirements for the zoning districts on the table may be found in municipal ordinances. Many Pinelands municipal ordinances are accessible at [www.generalcode.com](http://www.generalcode.com) or [www.codedsystems.com](http://www.codedsystems.com) or through the municipality's own website.
