

Construction of upgrades and improvements to the Passaic Valley Sewerage Commission (PVSC) PVSC Agreement No. 2749, (NJWB Project No. S340689-66) - Solar Photovoltaic and Energy Storage System - Phase I, located in Newark, NJ 07105, in the amount of \$13,833,326.00 were financed by the New Jersey Water Bank (NJWB). The NJWB is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Infrastructure Bank (Infrastructure Bank) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the Infrastructure Bank to provide very low interest loans to borrowers for environmental infrastructure projects.

This project will be for the first phase which will provide for 5.1419 MW of solar photovoltaic systems at Passaic Valley Sewerage Commission at 600 Wilson Avenue, Newark, NJ 07105. This project is vitally important for its role in avoiding the potential catastrophic environmental impacts associated with a long-term shutdown of electricity at the PVSC facility.

State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.
