Photos Fair Lawn's Lyncrest School walk-a-thon

April 23, 2013

To celebrate Earth Day, members of the Lyncrest Elementary School Environmental Club hosted a walk-a-thon to raise awareness of environmental issues on school grounds in Fair Lawn.

The Environmental Club honored the Passaic Valley Sewerage Commission for its continued commitment and dedication to the school and community. The school acknowledged its contribution of educational assemblies, helping to provide cleanup programs enabling students to learn about the Passaic River and for helping to rebuild the outdoor learning center that was destroyed by Hurricane Sandy.

The Environmental Club members also unveiled the art- and science-inspired interactive gallery walk that will highlight the mural they created using recyclable materials.
