*FUN SCIENCE – Students in the Saint Dominic Academy Chemistry Honors and AP Chemistry classes visited the Passaic Valley Sewerage Commission on Feb. 1 for Lab Day. Accompanied by Dr. Ronald Schreck and Ms. Cristina Manuel, the students toured the water treatment facility and the water analysis lab. According to the PVSC, “the primary objective of the event was to showcase various careers within the sciences, raise awareness of the important role labs play in society, and specifically educate the students regarding lab procedures and responsibilities.”*
