The mission of the New Jersey Office of Faith Based Initiatives (OFBI) is to eliminate barriers to funding and other resource opportunities, create greater access for partnership and enhance the capacity of faith and community-based organizations (FBCOs) to create and implement innovative approaches that are designed for community and economic transformation.

The NJOFBI will partner with faith and community-based organizations to implement strategies that address social issues in new and exciting ways. More than ever nonprofit leaders need to be entrepreneurs. The job of operating a nonprofit organization has become increasingly complicated. Nonprofit leaders face government funding cuts and rising demands for performance and serious questions about the effectiveness and appropriateness of traditional charitable remedies for social problems. These changes pose both opportunities and challenges.

The underlying focus of the SE<sup>2</sup>D Project is to support Faith and Community Based Organizations (FBCOs) to develop and launch social enterprise ventures that employ earned income strategies to directly address social needs through goods and services.
