

§ 17-54.6. Stream Encroachments.

- a. Any proposed stream diversion or encroachment shall require approval of the New Jersey Department of Environmental Protection, and development approval shall be contingent upon this approval. Consultation with the Planning Board in early planning stages is recommended if such actions are contemplated.
- b. A certified copy of the encroachment application to the Division of Water Resources, New Jersey Department of Environmental Protection, shall accompany the environmental impact statement for any plan for which such permit is required by state law. The applicant shall supply copies of all resource information provided to the Division of Water Resources in support of his application for an encroachment permit.
