

NEW JERSEY

Incentive Programs

International Trade Assistance

If You Are:

A New Jersey company looking to do business globally or an international company interested in establishing a business in the state.

You May Be Eligible For:

A comprehensive range of assistance and financing programs designed to promote international trade.

To Be Used For:

The New Jersey Economic Development Authority (EDA) can help your company:

- Access export consulting.
- Identify buyers and new international markets for your products or services.
- Find partners for joint ventures and strategic alliances.
- Take advantage of financing opportunities and site selection services for new investors seeking a corporate presence in New Jersey.

Benefits:

- The EDA can provide customized assistance from consulting and research to successful implementation of the international trade venture.
- The state also offers seamless access to assistance with federal export programs and services.

Program Details:

- The EDA's International Trade Programs include: Export Promotion/Assistance Services, Customized Trade Consulting Services, International Trade Promotion Events, International Business Partnering, Trade Advocacy, Import Assistance, and International Trade Leads.

For more information on International Trade Assistance, visit www.njeda.com.
