

NEW JERSEY

Incentive Programs

Renewable Energy Incentive Program (REIP)

If You Are:

A resident, business owner, local government official, facility manager, or developer building with onsite renewable energy projects using solar, wind, and biopower technologies.

You Can Apply For:

Financial incentives and support services under the Renewable Energy Incentive Program.

In The Amount Of:

Varies according to the type of project, type of building, type of equipment, and other factors:

- Up to \$1.00/Watt for commercial, government, or municipal solar photovoltaic projects up to 50 kW
- Up to \$3.20/kWh for wind systems
- Up to \$4.00/Watt for sustainable biomass systems

To Be Used For:

Onsite renewable energy projects.

Benefits:

The REIP can provide rebates to reduce the upfront cost of renewable energy system installations that will yield substantial energy savings well into the future. In addition, renewable energy projects:

- Reduce pollution, preserve natural resources, and make a long-term commitment to the planet's future
- Stabilize electric costs and increase self-reliance
- Increase local jobs and economic development

Program Details:

- The REIP is part of New Jersey's Clean Energy Program™ administered by the New Jersey Board of Public Utilities.
