The first map is from Highlands Water Protection Planning Act for Ogdensburg Sussex County taken from the web site in 12/06.

The second map is from Highlands Water Protection Planning Act 1/07. The change was done by Senator Littell, why? I was told by John Eskilson that the lines drawn were permanent. This was reiterated by my freeholders on 1/07.

The area changed was the water supply for Ogdensburg and may be needed again. It is steep, rocky, and wet and contains a brook that runs all year. No structures are on this site.

It appears that only builders are considered when lines are changed . No considerations are made for farmers or individuals and neither are compensated. There is no logical reason for this change. I am totally disgusted. Is the Highlands Water Protection Planning Act a sham?
