The New Jersey State Council on the Arts is committed to the professional development of individual artists, providing financial support for the pursuit of artistic excellence. We are proud to sponsor this exhibition which features the work of fellowship recipients from fiscal years 1985 and 1986. The paintings, sculpture, photography, graphics, and mixed media on view are a testimony to the wealth of creative talent in New Jersey.

Special thanks go to the artists and to The Morris Museum for coordinating this exhibition and for the important contributions it has made to the state's thriving arts scene. We look to the future for more shows highlighting the vibrant energy of the visual arts in New Jersey.

Jeffrey A. Kesper

Executive Director

New Jersey State Council on the Arts

The Visual Arts Fellowship Program at the New Jersey State Council on the Arts is designed for the support and encouragement of the many visual artists residing in the state. This exhibition gives the public an opportunity to see the work of fellowship recipients from 1985 and 1986 and provides the artists with statewide exposure and acknowledgement.

It was a great pleasure to work with Robert Ferguson, assistant director of The Morris Museum on the organization of this exhibition. I would like to congratulate the artists for their perseverance and commitment to their work. I look forward to working with them again and with future visual arts fellowship recipients.

Tom Moran

Visual Arts Coordinator

New Jersey State Council on the Arts

The Morris Museum is pleased to join with the New Jersey State Council on the Arts in honoring this distinguished group of New Jersey artists.

The exhibition also furthers the museum's commitment to support a vital New Jersey resource, its artists, and to provide our community the opportunity to observe their work.

John D. Peterson

Director

The Morris Museum

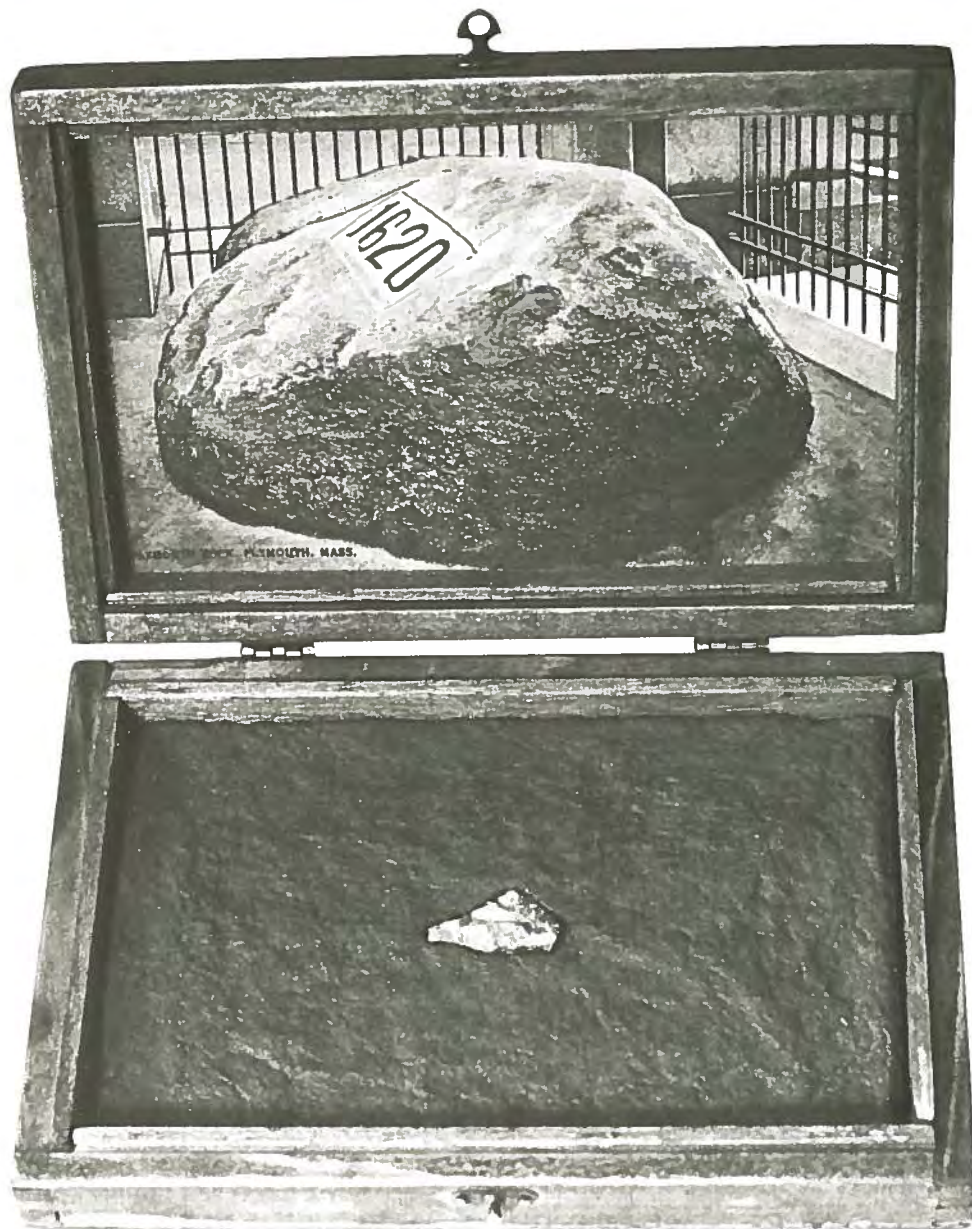

The purpose of the contemporary art exhibition program at The Morris Museum is to illuminate the concerns of today's artists and to increase the appreciation for local art. This exhibition surveys a large number of artists living and working in New Jersey and is reflective of the variety of options for visual expression as practiced today. Large-scale exhibitions, which are broad in scope, such as this one, establish the parameters from which smaller and more focused studies can be drawn.

In short, the 1985–86 Fellowship Exhibition is a celebration for those artists who have received fellowship awards and a recognition of the talent that resides in New Jersey.
