MEMORANDUM

TO: State Planning Commission
FROM: Donna Rendeiro
RE: Upper Township Plan Endorsement Waiver Request/Renewal
DATE: October 1, 2021

Attached you will find a memorandum, supporting documentation and a presentation from Meghan Wren, Area Planner for Cape May County recommending that the Commission approve waivers for the requirements of an Opportunities and Constraints Report and a Consistency Review.

I support the recommendation for the following reasons:
- Throughout Upper’s current Endorsement period, the Township has demonstrated comprehensive planning and community involvement consistently and has made substantial progress toward implementation of the items identified in the Plan Implementation Agreement.
- The Township has demonstrated significant effort toward resilience planning and has incorporated CAFRA rules into its zoning requirements and land use ordinances. Upper is a Class 5 member of FEMA’s CRS program and will likely become a Class 4 shortly. Additionally, the Township has received bronze certification in the Sustainable Jersey program.
- The Township is relatively stable regarding their land use status and trends. A build out analysis has been completed as recently as 2019, and virtually all of their requirements are kept up to date and relevant.

Upper Township is a good example of a vulnerable community that has kept current on traditional requirements as well as new requirements related to climate change and environmental justice. In granting these waivers, Upper can become the pilot for our proposed re-endorsement rules that are currently under consideration in the rule update. Granting these waivers can also demonstrate the Commission’s commitment to identifying ways to make it easier for municipalities that ensure good land use practices. Keep in mind, that the requirements of good land use planning are not waived by this waiver; rather, it is a recognition that the reporting simply duplicates work already completed.
MEMORANDUM

TO: Donna Rendeiro
FROM: Meghan Wren
RE: Upper Township Plan Endorsement Waiver Request/Renewal
DATE: September 30, 2021

Background

The Township of Upper was first endorsed on February 21, 2007 (the very first NJ municipality to achieve Plan Endorsement) and received extensions for its re-endorsement through January 11, 2022. It is currently working through the Plan Endorsement Process as if they have never been endorsed. In the meantime, OPA works to amend the State Planning Rules to allow for an Endorsement Renewal Process that would acknowledge the past and current work of municipalities following a path of comprehensive planning consistent with the State Plan.

Waiver Requests

Mayor Richard Palombo of Upper Township submitted a waiver request August 23, 2021 asking for relief from the requirements for Step 4 of the Plan Endorsement Process; the Opportunities and Constraints Report (N.J.A.C. 5:85-7.1) The Mayor also asked for a waiver for Step 2 & 5, Advisory Committee and Visioning that was reviewed and approved in a separate action by the Executive Director. OPA has reviewed these waiver requests and is adding a request for relief for the formal Consistency review process, Step 6.

Justification

A waiver for Step 4, Plan Endorsement State agency opportunities and constraints assessment and report, is requested/justified because: “We would request a waiver from Step 4 because there have not been significant changes to Upper Township's status and trends since our original PE in 2007. The current build-out analysis prepared in 2019 as part of the wastewater management plan was
done with more detail than OPA’s typical build out analysis. Upper Township has made significant and meaningful progress on our PIA and are prepared to adopt the new priorities of the state in the way of a revised PIA reflecting key State priorities.

Upper Township has have been a good partner/participant in resiliency planning, affordable housing, and other key interests of the state, implementing center-based development through municipal planning and zoning, incorporating CAFRA requirements into our zoning, adopting relevant ordinances for cluster development, resource protection and other key land use issues; working closely with Cape May County and other regional efforts; and taking a leadership role in resiliency through Coastal Coalition and other collaborations. Upper Township is also a Class 5 Community in the FEMA’s Community Rating System (CRS) and after adoption a watershed management plan later in 2021 we will become a Class 4 Community. The Township has also adopted numerous ordinances that enhance resiliency in our Special Flood Hazard Area including a mandatory bulkhead height of Elevation 8, minimum ground floor/ garage elevation of Elevation 7, and a freeboard requirement of 3-feet above the base flood elevation.”

A waiver for Step 6, Plan Endorsement Consistency review, is requested/justified because: Upper Township went through Plan Endorsement once before and aligned their planning documents and efforts with the State Development and Redevelopment Plan – which has not changed since their endorsement. The Township has only moved closer to sustainability in the ensuing years; implementing a significant number of their Plan Implementation Agreement actions, leading the state in resiliency efforts, achieving Category 5 (and soon 4) in NFIP’s Community Rating System and Bronze Certification through Sustainable Jersey while adding land use plans and ordinances that support center-based communities.

NJ State Planning Rules for Waivers

According to N.J.A.C. 5:85-7.6 (b) “A waiver may be granted ... provided the Executive Director, determines that a petitioner has previously satisfactorily completed the requirement, or has substantially complied with the intent of the requirement. The determination will be based on a consideration of whether standards for plan endorsement ... have been met.”

Step 4 PE State agency opportunities and constraints assessment and report – Intent: NJAC 5:85-7.1

...relevant State agencies shall compare the findings and conclusions of the petitioner’s Self-Assessment Report with the most up-to-date regional and Statewide data, evaluate the report with regard to development, infrastructure, natural resources, social equity and resiliency to climate change, and make an assessment as to whether trend growth apparent in petitioner’s report is sustainable based on the resources and infrastructure available in the municipality, region and State...

...the Office of Planning Advocacy, in consultation with the relevant Federal, State and regional agencies, shall conduct a review of the plan for consistency with the goals, policies and strategies of the State Plan, which shall conclude with issuance of a consistency review report to the petitioner.
... (c) In conducting the consistency review, consideration will be given to the ability .. to achieve the targets and indicators contained in the State Plan ...; the extent to which the activities listed to be undertaken in each planning area can or will achieve consistency with the State Plan goals and implement Statewide sound planning policies, taking into account relevant State agency policies, rules and regulations, and whether the plan is based on current information and data.

Consistency will be evaluated ...with particular emphasis on the following provisions:
1. The Statewide goals, policies and strategies;
2. The policies that apply to all planning areas;
3. The intentions for each relevant planning area;
4. The policy objectives for each relevant planning area;
5. If any change to a planning area boundary is proposed, the delineation criteria, intent and policy objectives for each planning area impacted by any boundary change;
6. The delineation criteria and intent for critical environmental sites and historic and cultural sites, areas vulnerable to flooding and climate change-related hazards, and with special consideration of equity/environmental justice issues;
7. If there is a designated center or a center is proposed for designation, the policies for centers, including the center design policies, and environs; and
8. If a center is proposed to be designated or a change to the boundary of a designated center is proposed, the criteria for designating the type of center that is proposed to be designated or modified.

(d) A consistent municipal plan shall contain... the following mandatory planning documents:
   i. A sustainability statement;
   ii. A land use element;
   iii. A land use inventory or map;
   iv. A zoning ordinance, schedule or map;
   v. Documents detailing recent or upcoming major developments as defined by the MLUL;
   vi. A circulation element and complete and green streets policy and implementation ordinance;
   vii. A municipal stormwater management plan and ordinance;
   viii. A wastewater management plan;
   ix. A housing element;
   x. A petition for substantive certification filed with the Court, compliance with a court-ordered housing plan, or evidence of adequate affordable housing accommodations;
   i. A fair share plan and implementing documents/ordinances;
   ii. A community facilities plan, inventory and map;
   iii. A board of education five-year facilities plan if one exists;
   iv. An open space and recreation plan;
   v. A natural resource inventory;
   vi. A conservation plan and implementing ordinances;
   vii. An environmental justice and social equity action plan;
   ix. A recycling statement of consistency;
   x. A municipal recycling ordinance;
   xi. A hazard mitigation plan or local annex in a county HMP; xix. New Jersey State Police letter approving the local emergency operating plan; and
xx. A capital improvement program

The following conditional items as outlined in the plan endorsement guidelines, which may be required depending on local circumstances;

i. A utility service plan;
ii. floodplain ordinance; A water supply plan
iii. A recreation and open space inventory;
iv. An economic development plan;
v. An agricultural retention plan/farmland preservation plan, agricultural advisory committee, right-to-farm ordinance, and implementation program;
vi. A historic and cultural resources inventory, historic preservation plan, and implementation documents and mechanisms;
vii. Incorporation of hazard mitigation measures into relevant planning documents;
viii. A sustainability element; ix. A historic and cultural resources inventory and historic preservation plan; and
(f) Any additional requirements that are agreed upon between petitioner and the Executive Director, in consultation with the relevant State agencies...

Review of Requirement and Intent

Step 4 Opportunities & Constraints Report: OPA and Upper Township have met the intent of the Opportunities and Constraints requirement for Upper Township because a build out analysis, which OPA typically prepares as the backbone of an Opportunities and Constraints report, was conducted by the Maser Consulting as part of the township’s wastewater management plan. The data presented offers a clear picture from which state agencies can make consistency evaluations. Additionally, the data and analysis in the other issue areas mandated in an O&C Report are readily available as follows:

- **Development** has been minimal since the last Opportunities and Constraints Report was prepared;
- **Infrastructure** needs and issues are assessed in Upper Township’s own reports;
- **Natural resources** – Upper Township has a Natural Resource Inventory that has been kept up to date and a current complete ROSI;
- **Social equity** - there are no identified social equity issues in Upper township though the community is prepared to address any concerns should they arise;
- **Resiliency to climate change** – Upper Township has completed the ‘Getting to Resiliency’ report, achieved CRS Level 5 (soon to be 4); incorporated climate change impacts in its 2021 Hazard Mitigation Plan Annex and is prepared to adopt the actions identified in the 2020 PE Guidelines as part of its new PIA to address additional resiliency concerns.

Furthermore, there have been no significant land use changes in the years since its Endorsement; the township has implemented much of its original PIA, and worked through plans, programs and ordinances toward its vision of center-based, mixed use, higher density residences, affordable housing, walkability and bike/ped friendly streets in Marmora, Seaville, Petersburg and Tuckahoe while preserving and steering less dense development in its environs outside of the centers.

Step 6 Consistency Review: OPA and the relevant state agencies with Upper Township have and/or will meet the intent of the Consistency Review requirement for Upper Township through careful consideration of submitted documents, reports, current information, and data available. Upper
Township has maintained consistency since its original endorsement in 2007 as evidenced by its continuous progress in sustainable planning.

Consistency has been evaluated... with particular emphasis on the following provisions:
1. The Statewide goals, policies, and strategies: Consistent
2. The policies that apply to all planning areas: Consistent
3. The intentions for each relevant planning area: Consistent
4. The policy objectives for each relevant planning area: Consistent
5. If any change to a planning area boundary is proposed, the delineation criteria, intent and policy objectives for each planning area impacted by any boundary change: Consistent
6. The delineation criteria and intent for critical environmental sites and historic and cultural sites, areas vulnerable to flooding and climate change-related hazards, and with special consideration of equity/environmental justice issues: Consistent
7. If there is a designated center or a center is proposed for designation, the policies for centers, including the center design policies, and environs: Consistent and
8. If a center is proposed to be designated or a change to the boundary of a designated center is proposed, the criteria for designating the type of center that is proposed to be designated or modified: Consistent

(d) A consistent municipal plan shall contain... the following mandatory planning documents:

- A sustainability statement;
- A land use element;
- A land use inventory or map;
- A zoning ordinance, schedule or map;
- Documents detailing recent or upcoming major developments as defined by the MLUL;
- A circulation element and complete and green streets policy and implementation ordinance; *(Partial – to be enhanced through PIA)*
- A municipal stormwater management plan and ordinance;
- A wastewater management plan; *(Awaiting DEP Approval)*
- A housing element;
- A petition for substantive certification filed with the Court, compliance with a court-ordered housing plan, or evidence of adequate affordable housing accommodations;
- A fair share plan and implementing documents/ordinances;
- A community facilities plan, inventory and map;
- A board of education five-year facilities plan if one exists; *(To be supplied if exists)*
- An open space and recreation plan;
- A natural resource inventory;
- A conservation plan and implementing ordinances;
- An environmental justice and social equity action plan; *(To be established through PIA)*
- A climate action plan that addresses: a. climate adaptation and resiliency, and b. Greenhouse Gas emissions reduction; *(To be established through PIA)*
- A recycling statement of consistency;
- A municipal recycling ordinance;
- A hazard mitigation plan or local annex in a county HMP; xix. New Jersey State Police letter approving the local emergency operating plan; and
- A capital improvement program

Page 5 of 6
The following **conditional** items as outlined in the plan endorsement guidelines, which may be required depending on local circumstances;

- i. A utility service plan;
- ii. floodplain ordinance; A water supply plan
- iii. A recreation and open space inventory;
- iv. An economic development plan;
- v. An agricultural retention plan/farmland preservation plan, agricultural advisory committee, right-to-farm ordinance, and implementation program; *(Through CM County)*
- vi. A **historic and cultural resources inventory**, historic preservation plan, and implementation documents and mechanisms; *(Partial)*
- vii. Incorporation of hazard mitigation measures into relevant planning documents;
- viii. A sustainability element; *(To be established through PIA)*

(f) Any additional requirements that are agreed upon between petitioner and the Executive Director, in consultation with the relevant State agencies...

### Other Considerations

This review encompasses one of the three waiver requests submitted by Upper Township which, taken together with the waiver request initiated by OPA, would essentially provide a pilot case for an expedited Plan Endorsement renewal procedure. OPA recognizes the major planning and compliance work that Upper did in the years leading up to its initial endorsement and the continuation of that planning and incremental accomplishments toward its vision since then.

Upper township is in good standing for its Affordable Housing and has conducted its own build-out analysis as part of its wastewater planning that is more comprehensive than OPA’s status and trends analysis. Upper Township is a leader in resiliency planning in NJ – leading the largest Public Participation Information network in the country as part of its CRS program (soon to be Category 4) through the Coastal Coalition and it has achieved Bronze Certification through the Sustainable Jersey program evidencing its commitment to climate change adaptation and other sustainability issues.

### Conclusion/Recommendation for Approval

In light of the aforementioned considerations and hard work by Upper Township, I recommend approving these requests for waivers for PE Step 4 and Step 6 as they have provided sufficient evidence that we/they have **substantially complied with the intent of the requirement** for the Opportunities and Constraints assessment and report and Consistency Review.

Additionally, OPA and the agencies will have an opportunity to add considerations to the Plan Implementation Agreement should they have additional items of concern.

As the first Endorsed community, engaged in perennial responsible planning for the past fifteen years, this community is the ideal test for the proposed expedited Renewal process.
Location
Present Centers and Planning Areas
Populations have decreased over the past 20 years – especially losing younger folks and gaining % seniors but the 2020 census shows a 1% increase from 2010 to 12,539.

Seasonal populations especially on the barrier island expand 8-10 fold in the summer.

96.3% White, 2.2% Hispanic population - increasing.

4.8% poverty rate.
Land Use Considerations

Incorporated in 1798

68.5 Square miles/43,830 Acres
(approx. 50% open water & wetlands; 3 large parks/wildlife management areas and preserved T&E habitat)

33% of Township land is in the Pinelands
(not addressed in OPA Mapping/Planning)

CAFRA Zone
(if it is not in the Pinelands, it is in CAFRA)

General Character
Rural villages, suburban development and center clusters especially on Rt 9. Predominately single family homes, most dense on the barrier island community of Strathmere. Mining and agriculture inland. Much history and historic architecture.

Major Highways/Throughways/Commercial Corridors
(Garden State Parkway, Routes 9, 49 & 50 and Roosevelt Blvd)
Township of Upper was endorsed 2/21/2007: the first NJ municipality to achieve Plan Endorsement. Upper’s endorsement expires 1/11/2022. It is currently working through the Plan Endorsement Process as if it was never endorsed. In the meantime, OPA works to amend the State Planning Rules to allow for an expedited Endorsement Renewal Process for certain municipalities.
Waiver Requests as Test of Expedited Renewal Process

Upper Township Mayor Richard Palombo submitted a waiver request August 23, 2021 asking for relief from Plan Endorsement steps:

Step 2 Advisory Committee,
Step 4 Opportunities and Constraints Report, and
Step 5 Visioning.

OPA Added a request for a waiver of Step 6 Consistency Review.
2 Waivers Approved by OPA; 2 Waiver Requests for SPC

OPA Approved 9/15/2021
Step 2 Advisory Committee – OPA Approved
Step 5 Visioning – OPA Approved

Approved by PIC for SPC

Consideration:
Step 4 Opportunities & Constraints Analysis and Report
Step 6 Consistency Review

Upper Township Planning since 2007 Endorsement

- 2008 Affordable Housing Trust Fund Spending Plan (Amended 2012)
- 2010 Form-based Code Report
- 2011 Conservation Plan Element
  Master Plan Re-exam
- 2012 Marmora Traffic Analysis Report including Form Based Code adoption
  Wastewater Management Plan update which included build-out analysis
- 2014 Land Use and Zoning Changes
- 2015 Getting to Resiliency
- 2016 All Hazard Mitigation Plan (With annual updates 2017-2019)
  Vulnerable Populations identified for emergencies
  Building Ecological Solutions to Coastal Community Hazards (with National Wildlife Foundation)
- 2017 Formed an Economic Development Council to work with the business community
- 2018 Master Plan Reexam
  Housing Element
  Achieved Bronze Certification with Sustainable Jersey
- 2019 Wastewater Management Plan update which included build-out analysis
  Bicycle Plan
  Complete Streets for All Policy
  Beach Management Plan
  Achieved Bronze Certification with Sustainable Jersey
- 2020 Master Plan Reexam with public meetings discussing vision and Plan Endorsement
  Municipal Public Access Plan
  Achieved Bronze Certification with Sustainable Jersey
  Community Asset Map
  Annex for All Hazard Mitigation Plan (including Climate Change and Sea Level Rise)
  Updated Fair Share Housing Plan after Final Judgement of Compliance and Repose
- 2021 Prepared a Redevelopment Plan for BL England
  Currently CRS Level 5 awaiting advancement to Level 4 this year
  Stormwater Plan & Pollution Prevention Updated
OPA and Upper Township have met the intent of the Opportunities and Constraints requirement for Upper Township through several avenues:

**Analysis:** a build out analysis, which OPA typically prepares as the backbone of an Opportunities and Constraints report, was conducted by the Maser Consulting as part of the township’s wastewater management plan. The data presented offers a clear picture from which state agencies can make consistency evaluations.

And...
Data and analysis of issues mandated in an O&C Report as follows:

**Development** has been minimal since the last Opportunities and Constraints Report was prepared;

**Infrastructure** needs and issues are assessed in Upper Township’s own reports;

**Natural resources** – Upper Township has a Natural Resource Inventory that has been kept up to date and a current complete ROSI;

**Social equity** - there are no identified social equity issues in Upper township though the community is prepared to address any concerns should they arise;

**Resiliency to climate change** – Upper Township has completed the ‘Getting to Resiliency’ report, achieved CRS Level 5 (soon to be 4); incorporated climate change impacts in its 2021 Hazard Mitigation Plan Annex and is prepared to adopt the actions identified in the 2020 PE Guidelines as part of its new PIA to address additional resiliency concerns.
Also:

- There have been no significant land use changes in the years since its Endorsement;
- the township has implemented much of its original PIA,
- and worked through plans, programs and ordinances toward its vision of center-based, mixed use, higher density residences, affordable housing, walkability and bike/ped friendly streets in Marmora, Seaville, Petersburg and Tuckahoe while preserving and steering less dense development in its environs outside of the centers.
Step 6
Consistency Review

OPA and the relevant state agencies with Upper Township have and/or will meet the intent of the Consistency Review requirement for Upper Township through careful consideration of submitted documents, reports, current information, and data available.

Upper Township has maintained and improved consistency since its original endorsement in 2007 as evidenced by its continuous progress in sustainable planning.

Before presentation for Endorsement; a PIA will be agreed upon with any actions needed to maintain consistency.
Consistency

Consistency has been evaluated ...with particular emphasis on the following provisions:

1. The Statewide goals, policies, and strategies: Consistent
2. The policies that apply to all planning areas: Consistent
3. The intentions for each relevant planning area: Consistent
4. The policy objectives for each relevant planning area: Consistent
5. If any change to a planning area boundary is proposed, the delineation criteria, intent and policy objectives for each planning area impacted by any boundary change: Consistent
6. The delineation criteria and intent for critical environmental sites and historic and cultural sites, areas vulnerable to flooding and climate change-related hazards, and with special consideration of equity/environmental justice issues: Consistent
7. If there is a designated center or a center is proposed for designation, the policies for centers, including the center design policies, and environs: Consistent
8. If a center is proposed to be designated or a change to the boundary of a designated center is proposed, the criteria for designating the type of center that is proposed to be designated or modified: Consistent
A consistent municipal plan shall contain... the following mandatory planning documents:

i. A sustainability statement; (3 SJ certs in 3 years)

ii. A land use element; (in place)

iii. A land use inventory or map; (in place)

iv. A zoning ordinance, schedule or map; (in place)

v. Documents detailing recent or upcoming major developments as defined by the MLUL; (in hand)

vi. A circulation element and complete and green streets policy and implementation ordinance; (Partial 2016 – to be enhanced through PIA)

vii. A municipal stormwater management plan and ordinance; (in place)

viii. A wastewater management plan; (Awaiting DEP Approval)
Mandatory planning documents (cont.):

ix. A housing element; (in place)

x. A petition for substantive certification filed with the Court, compliance with a court ordered housing plan, or evidence of adequate affordable housing accommodations; (approved)

i. A fair share plan and implementing documents/ordinances; (in place)

ii. A community facilities plan, inventory and map; (in place)

iii. A board of education five-year facilities plan if one exists; (in hand)
iv. An open space and recreation plan; (in place)

v. A natural resource inventory; (in place)

vi. A conservation plan and implementing ordinances; (in place)

vii. An environmental justice and social equity action plan; (To be established through PIA)

viii. A climate action plan that addresses:
   a. climate adaptation and resiliency, (partially in place) and
   b. Greenhouse Gas emissions reduction; (To be established through PIA)
ix. A recycling statement of consistency;  
(in place)

x. A municipal recycling ordinance;  
(in place)

xi. A hazard mitigation plan or local annex in a  
county HMP;  
(in place)

xix. New Jersey State Police letter approving  
the local emergency operating plan;  
(in hand)  
and

xx. A capital improvement program  
(in place)
We are working toward map consensus with DEP and the Township. Of particular interest is the future of the recently closed B.L England site.
Next Steps

Should Waivers for Step 4 Opportunities & Constraints and Step 6 Consistency review be granted, OPA and the partner agencies would need to follow the proposed expedited renewal process including:

1. OPA & Agencies review/analyze all documents and identify any additional issues for PIA;
2. OPA, Agencies & Upper Twp reach consensus on final map;
3. OPA, Agencies & Upper Twp reach consensus on final PIA;
4. PIC review recommendation
5. SPC approve Endorsement

ATTN: Meghan Wren, Area Planner

RE: Request for Waiver from PE Process  
Upper Township, Cape May County

Dear Ms. Wren:

Upper Township would like to request for a waiver for the following three Plan Endorsement (PE) steps; Step 2 Plan Endorsement Citizens’ Advisory Committee (N.J.A.C. 5:85-7.8), Step 4 Opportunities and Constraints Report; and Step 5 Visioning.

A waiver for Step 2 Citizens' Advisory Committee is justified because Upper Township has been committed to public engagement in our planning activities which have been numerous over the past ten years including recent opportunities for citizen involvement in the Municipal Self Assessment (MSA), Masterplan Reexaminations in 2018 & 2020, Bicycle Plan and the All-Hazard Mitigation Plan.

A waiver from Step 4 is justified because there have not been significant changes to Upper Township's status and trends since our original PE in 2007. The current build-out analysis prepared in 2019 as part of the wastewater management plan was done with more detail than OPA's in 2019. Upper Township has made significant and meaningful progress on our PIA and are prepared to adopt the new priorities of the state in the way of a revised PIA reflecting key State priorities.

Upper Township has have been a good partner/participant in resiliency planning, affordable housing, and other key interests of the state, implementing center-based development through municipal planning and zoning, incorporating CAFRA requirements into our zoning, adopting relevant ordinances for cluster development, resource protection and other key land use issues; working closely with Cape May County and other regional efforts; and taking a leadership role in resiliency through Coastal Coalition other collaborations. Upper Township is also a Class 5 Community in the FEMA's Community Rating System (CRS) and after adoption a watershed
management plan later in 2021 we will become a Class 4 Community. The Township has also adopted numerous ordinances that enhance resiliency in our Special Flood Hazard Area including a mandatory bulkhead height of Elevation 8, minimum ground floor/ garage elevation of Elevation 7, and a freeboard requirement of 3-feet above the base flood elevation.

A waiver for Step 5 is justified because the Township has been doing numerous planning activities related to our original plan endorsement petition approval on February 21, 2007. The visioning the Township did as part of the original PE process remains the vision for Upper Township.

Upper Township included thoughts on visioning in our Municipal Self Assessment (MSA) and we have worked on numerous planning efforts to support and enhance our initial vision include:

- Fair Share Plan in 2008 and updated in 2020 after receiving a Final Judgement of Compliance and Repose from the Court
- Conservation Plan in 2011
- Marmora Transportation Plan in 2012
- Getting to Resiliency in 2015
- Township formed an Economic Development Council to work with the business community in 2107
- Working with National Wildlife Foundation in Building Ecological Solutions to Coastal Community Hazards in 2016/2017
- Wastewater Management Plan update which included build-out analysis in 2012 & 2019
- 2018 & 2020 Master Plan Reexaminations where the Planning Board and Township Committee held public meetings to discuss Plan Endorsement, MSA and the vision of the Town Centers
- Prepared a Bicycle Plan in 2019
- All-Hazard Mitigation Plan in 2020
- Prepared a Redevelopment Plan for BL England in 2021

Thank you for considering these waiver requests. I appreciate this opportunity to continue to work with the Office of Planning Advocacy. Please contact me or Paul Dietrich, Township Engineer, if you have any questions or need any additional information.

Respectfully submitted,
