

# FY 2024 DRAFT TRANSPORTATION CAPITAL PROGRAM

## New Jersey Department of Transportation Projects

### Ocean County

<b>Program/Project Name</b>	<b>Project ID Numbers: 15417 / 154170</b>
<b>ADA Central, Contract 1</b>	

This contract will bring projects into compliance with current ADA design requirements that could not be completed within original design or construction time frame for the following sites:

- 1) Route 71, Sea Girt Avenue to Route 35,
- 2) Route 9, Alexander Avenue to Route 79,
- 3) Route 34/35, Colts Neck and Wall Twps,
- 4) Route 9, Pohatcong Lake Dam and Tuckerton Borough.

<b>Program/Project Name</b>	<b>Project ID Numbers: N1805</b>
<b>Chadwick Beach Island Bridge (No. 1507-007) over Barnegat Bay</b>	

The purpose of the Chadwick Island Bridge project is to restore the structural, geometric and operational integrity of the bridge in compliance with current design standards and to provide a safe, efficient and reliable crossing for all modes of transportation. The existing structurally deficient all timber bridge was originally constructed in the early 1950's as part of the original development of the island community. In 1985 the bridge superstructure was replaced to prolong its service life. The current issues with the existing timber bridge include, moderate to severe deterioration /section loss of load bearing piles, deterioration of substructure cross bracing, deterioration and misalignment of timber deck boards and hardware and inadequate roadway width for vehicular traffic.

<i>Program/Project Name</i>	<i>Project ID Numbers: N1405</i>
<b>Garden State Parkway Interchange 83 Improvements</b>	

Garden State Parkway Interchange 83 Improvements will address the missing interchange movement from the GSP southbound at Interchange 83. It proposes construction of an exit ramp that begins south of the Interchange 83 toll plaza and terminates at a signalized "T" intersection at CR571. In order to accommodate the additional traffic and to improve the operations of the intersection of US 9 and CR 571, improvements to the intersection are proposed. CR 571 will be widened east of the intersection to provide two through lanes in each direction and opposing dual left turn lanes. West of the intersection, CR 571 will be restriped to provide the same lane configuration requiring minor roadway widening.

**COUNTY:** Ocean

**MUNICIPALITY:** Toms River Twp

**MILEPOSTS:** CR 571: 6.05-6.10 & GSP: 84.40-84.80

<b>Program/Project Name</b>	<b>Project ID Numbers: 17403 / 174030</b>
<b>Route 37 On Ramp to Route 35, Missing Move</b>	

This project will be at the entrance to Route 35 Seaside Park from Route 37.

The Route 35/Route 37 interchange is the major southern entrance to the Barnegat Bay barrier island. Vehicles entering the island and travelling south to Seaside Park, Berkeley Township and Island Beach State Park enter the island utilizing Route 37 eastbound to route 35 southbound. Currently this movement consists of making a tight double horizontal curve in the shape of an “S”.

The geometric concerns associated with the S-Curve were identified during the development of the original (Pre-Sandy) project. The preferred solution was to replace the S-Curve with a smooth single curve. The S-Curve wraps around three blocks of residential properties. The straightening of the S-Curve required taking three properties in full and one partially.

The ROW process was on-going when Super Storm Sandy struck in October 2012. An emergency situation was created and the Department moved quickly to reconstruct the battered Route 35 and its associated drainage system. It was decided to put off the smoothing of the S-Curve as the ROW process would take its due course.

The ROW has now been acquired and the Department can move forward to replace the S-Curve with a smooth single curve as originally envisioned.
