SECTION I
INTRODUCTION

FISCAL YEAR 2025

DRAFT TRANSPORTATION CAPITAL PROGRAM

Introduction

The Transportation Capital Program for FY 2025 describes the planned capital investments for the State fiscal year starting July 1, 2024. It represents the annual element of the New Jersey Department of Transportation's and NJ Transit's federal Statewide Transportation Improvement Program (STIP).

Focusing on the Department's and Transit's Core Mission—safety, infrastructure preservation, mass transit, mobility and congestion relief, and operations and maintenance—this Capital Program outlines projects and programs that rebuild the State's bridges and roads, provide mass transit services, and reduce congestion by deploying Intelligent Transportation Systems (ITS) technology.

This Capital Program reflects the need to prioritize spending by carefully evaluating transportation needs and targeting limited resources toward safety, fix-it-first and state-of-good-repair initiatives.

Overview

The FY 2025 Transportation Capital Program totals \$4.859 billion and is funded primarily by the State Transportation Trust Fund (TTF), federal, and third-party resources. The NJDOT total is \$3.180 billion and the NJ Transit total is \$1.679 billion.

State Funds

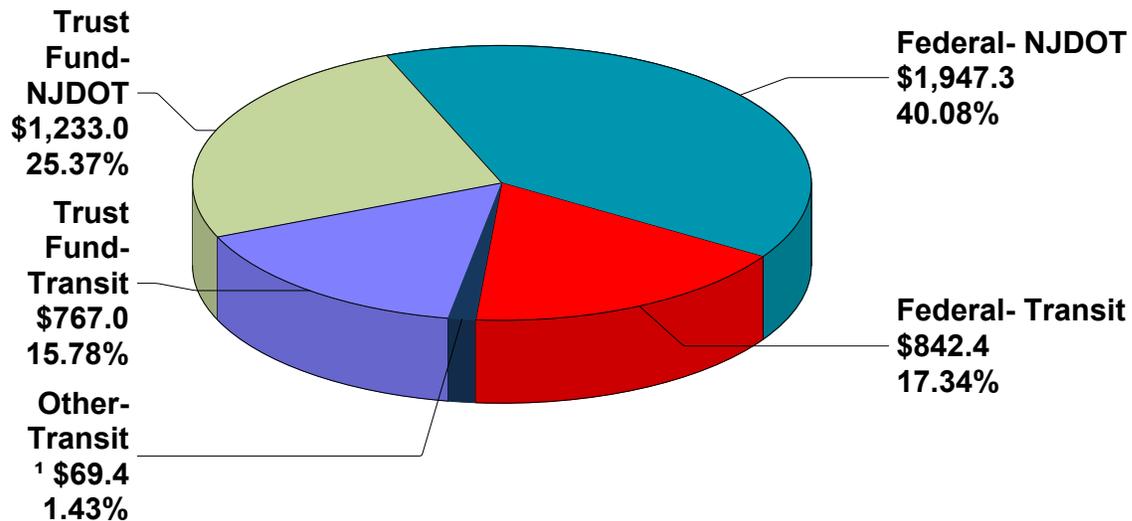

State, or TTF funds, are programmed at \$2.000 billion.

- \$ 833 million NJDOT
- \$ 400 million Local Aid
- \$ 767 million for NJ TRANSIT

Federal Funds

Federal revenues for FY 2025 are projected at \$2.790 billion. NJDOT's share of the federal funding is \$1.947 billion, while NJ Transit's allotment is \$842 million.

Sources of Funds (\$ in Millions)

1. \$42.5M Casino Revenue Funds; \$1.9M Match Funds; \$25M NJ Turnpike Funds

NJDOT

NJDOT's \$3.180 billion Capital Program addresses New Jersey's transportation needs:

- The NJDOT program provides \$1,350 million for state and local bridges. Bridge investments range from funding for high-cost bridges to implementation of a variety of rehabilitation programs and local bridge rehabilitations.
- The NJDOT program provides \$478 million dedicated to road assets, including pavement rehabilitation, reconstruction and resurfacing.
- The NJDOT program provides \$153 million for safety improvements. Key programs

funded include the Crash Reduction Program, Intersection Improvement Program, Pedestrian Safety Initiatives, Rail-Highway Grade Crossings, and Safe Routes to School Program.

- The NJDOT program provides \$252 million in funds to address highway congestion through infrastructure improvements as well as efforts to better manage traffic and respond to incidents.
- The NJDOT program provides \$72 million for multimodal investments that support maritime, freight, and rail initiatives as well as bicycle and pedestrian improvements.

NJ Transit

NJ Transit's \$1.679 billion capital program addresses New Jersey's mass transit needs:

- The program budget allots funds to address NJ Transit's state-of-good-repair needs, debt service obligations, preventive maintenance and local programs. The program continues to provide funding to support ongoing track replacement, bridge and tunnel inspections and improvements, security improvements, signal system upgrades, overhead power line and electric substation upgrades, replacement of buses in NJ Transit's fleet, and other rail station and bus terminal improvements throughout New Jersey.

Local System Support

Local System Support totals \$729 million. NJDOT totals \$662 million in federal and state funded local system support. This amount includes \$400 million in State Local Aid: \$300.0 million State Aid Program for municipalities and counties; \$44.0 million to Local Bridge Future Needs; \$28.0 million for the newly created Local Freight Impact Fund; and \$7.5 million to Local Aid Infrastructure Fund and \$20.5 million to the Local Aid Infrastructure Bank. NJ Transit's local support totals \$67 million. Additionally, funds for programs such as Local Safety, High Risk Rural Roads, Safe Routes to School, and Culvert Inspection are programmed on the local system.

NJDOT PROJECT / PROGRAM DESCRIPTIONS

**FY 2025 DRAFT TRANSPORTATION CAPITAL PROGRAM
New Jersey Department of Transportation Projects**

<i>Program/Project Name</i>	<i>Project ID Numbers: X12 / 800009</i>
Acquisition of Right of Way	

This program funds advanced acquisition and/or demolition of; key right of way parcels, easements, transportation facilities, and access and development rights, in order to preserve transportation corridors for future transportation use.

ADA Curb Ramp Implementation	

This program was initiated from a Federal Highway Administration (FHWA) request of the NJDOT to complete an Americans with Disabilities Act (ADA) Curb Ramp Inventory, and to develop a Curb Ramp Implementation Program. A priority list of locations that are missing ADA curb ramps was developed, and funding provided by this program will be applied to projects that are missing ADA curb ramps statewide.

<i>Program/Project Name</i>	<i>Project ID Numbers: 08415 / 084150</i>
Airport Improvement Program	

This program provides funding for grants awarded by the Commissioner of the NJDOT pursuant to a competitive application process for project types, including but not limited to, safety, preservation, rehabilitation, and capital improvements (such as runway, taxiway and apron improvements, airport lighting and navigational aids, aviation fuel farms, automated weather observation systems, airport security, and airport access roads). Such grants may be used at public-use general aviation airports for; aviation planning purposes, aviation studies, airport feasibility studies, and/or to provide funds which will help match and capture federal funds. This program may also fund capital improvements to airports owned by the state.

<i>Program/Project Name</i>	<i>Project ID Numbers: X185</i>
Bicycle & Pedestrian Facilities/Accommodations	

This is a comprehensive program to insure the broad implementation of the Statewide Bicycle and Pedestrian Master Plan, Complete Streets Policy and the implementation of federal and state policies and procedures pertaining to bicycle, pedestrian, transit and ADA access, mobility, and safety. It includes addressing bicycle, pedestrian, transit and micro-mobility travel needs through the development of improvements on state, county and local roadways either by inclusion in existing capital projects, development of independent projects or through assistance to counties and municipalities. Projects must accommodate the needs of all travelers.

**FY 2025 DRAFT TRANSPORTATION CAPITAL PROGRAM
New Jersey Department of Transportation Projects**

<i>Program/Project Name</i>	<i>Project ID Numbers: N2308 / 233420</i>
Boylan Terrace Neighborhood Pedestrian Connection	

The Borough of Bernardsville is proposing a pedestrian connection between the Bernardsville Train Station and the Borough's downtown area and a large, primarily residential neighborhood located to the south of the Mine Brook and the New Jersey Transit tracks.

The proposed pedestrian connector will include an at grade sidewalk that will run along the north side of Boylan Terrace from Mount Airy Road to West Street. At the intersection of Boylan Terrace and West Street, the at grade sidewalk will connect to a prefabricated pedestrian bridge structure. The pedestrian bridge will provide a series of ADA compliant ramps that will span the grade change and the Mine Brook. The pedestrian bridge will meet existing grade within the existing parking area to the south of the train tracks at Depot Place. An at grade pedestrian crossing will be required to cross the train tracks and continue to the train station and downtown areas via the existing sidewalk network on Mine Brook Road (Route 202).

The following federal appropriation was allocated to this project: DEMO ID# NJ307.

Bridge Emergency Repair	

This program allows the NJDOT to provide emergency bridge repairs through various Bridge Maintenance Contracts (i.e., Concrete Structural Repair, Structural Steel Repair, and Timber Structure Repair contracts). The program also allows the NJDOT to obtain emergency technical consultant assistance, for inspection and repair design, when the safety of a bridge(s) is compromised due to unavoidable circumstances (a collision, flood damage, etc.) These consultants will be available to assist NJDOT personnel on an as-needed basis.

Camp Meeting Avenue Bridge over Trenton Line, CR 602	

Initiated by the Bridge Management System, this project will replace the "orphan" structure, which is in critical condition, built in 1889 and modified in 1914. The replacement of this structure will be designed so as not to preclude improvements needed to reintroduce passenger service to the West Trenton Line, as well as increasing the height of the bridge to allow the current tracks to be raised to address ongoing railroad operational issues, as identified in the NJTPA Grade Crossing Assessment Study. The current bridge provides a single lane of traffic, has steep grades on the approaches and has substandard vertical sight distance. The new bridge will be wider to accommodate two traffic lanes, and the grade and vertical sight distance will also be improved.

Chadwick Beach Island Bridge (No. 1507-007) over Barnegat Bay	

The purpose of the Chadwick Island Bridge project is to restore the structural, geometric and operational integrity of the bridge in compliance with current design standards and to provide a safe, efficient and reliable crossing for all modes of transportation. The existing structurally deficient all timber bridge was originally constructed in the early 1950's as part of the original development of the island community. In 1985 the bridge superstructure was replaced to prolong its service life. The current issues with the existing timber bridge include, moderate to severe deterioration /section loss of load bearing piles, deterioration of substructure cross bracing, deterioration and misalignment of timber deck boards and hardware and inadequate roadway width for vehicular traffic. This is a bridge replacement project.

<i>Program/Project Name</i>	<i>Project ID Numbers: N1402</i>
Clay Street Bridge over the Passaic River	

Clay Street Bridge over the Passaic River is a swing span and was built in 1908. The bridge carries two 18'-4" foot wide lanes of traffic and two 9'-2.5" wide pedestrian sidewalks. The bridge is structurally deficient due to the serious condition of the superstructure. The overall condition rating of the bridge is "3 – Serious" due to the serious condition of the superstructure and low inventory ratings. It has a sufficiency rating of 33.0. The preferred alternative includes widening and replacement of the Clay Street Bridge along the existing alignment. The proposed structure would be a movable bridge on the existing profile. The movable bridge would span only one of the existing 75-foot wide waterway channels under the Clay Street Bridge. The typical section of the new bridge will be 68'-0", which will include two 12-foot wide eastbound lanes, one 12-foot wide westbound lane, an 8-foot wide outside shoulder in each direction, and a 6-foot wide sidewalk in each direction.

Congestion Relief, Intelligent Transportation System Improvements (Smart Move Program)	

This program provides funding for low-cost, quick-turnaround intelligent transportation system (ITS) improvements, which improve traffic flow and provide traveler information on the state's transportation system. This program will provide for the deployment of these systems through either separate ITS projects, or inclusion of ITS within existing roadway and bridge infrastructure preservation projects to ensure implementation of ITS at a minimum cost and a minimum disruption to traffic during construction. Design support to add ITS components and/or standards may be accomplished through using consultants. ITS equipment are long lead time items and this program will allow procurement to proceed in advance and then to be installed in the first stages to also assist in the mitigation of traffic impacts during construction of those projects. ITS equipment may include Dynamic Message Signs, which provide real time traffic information, in strategic locations to allow the motoring public to make informed decisions on possible alternatives.

CR 508 (Central Avenue), Bridge over City Subway

Central Avenue bridge over the Newark City Subway was built in 1908 and is structurally deficient, functionally obsolete, fracture critical and has an overall sufficiency rating of 31 despite all the efforts by the county to save the structure. The city plans to replace the substructure in front of the existing abutment while eliminating 2 spans with a cantilever abutment. The replacement of the two southernmost trusses (Spans 2 and 3) in the north section of the bridge with one truss. The pier supporting the two trusses will be removed. The truss will span from the south abutment to the existing concrete pier supporting the northernmost trusses (Span 3 and 4) of the north section of the bridge; that pier will be removed and replaced with a pier that meets current standards.

CR 616 (Mill Street) Bridge over South Branch Rancocas Creek Rehabilitation/Replacement	

This project will be conducted as part of DVRPC’s Local Concept Development Program in order to improve the existing bridge in its entirety. The bridge is a concrete encased, single span (36 feet) steel stringer bridge with a reinforced concrete deck. It carries CR 616 over the creek with 2 lanes of opposing traffic and 6’ sidewalks on each side of the road. The out to out width of the bridge is 44.4 feet. The bridge was built circa 1918 and is located in the Vincentown Historic District. The bridge is not historically eligible but is considered a contributing element of the historic district, which has a period of significance ending circa 1930 (source: NJDOT Historic Bridge Survey). The bridge is functionally obsolete due to its existing curb to curb width of 29.8 feet and is scour critical. The structure is in fair condition with localized areas of deterioration and section loss in the deck, superstructure and substructure. It was submerged during the July 2004 and April 2007 flood events and sustained damage. The structure has a sufficiency rating of 66.5.

East Anderson Street Bridge (02C0023A) over the Hackensack River	

The existing bridge is a twin six-span, simply supported structure with a total length of 302'-2". The total width of the bridge is 74'-0". The bridge was constructed in 1971 and carries four (4) 12-foot lanes between curbs bounded by 5-foot wide sidewalks on both sides. The bridge has a 10' wide medium which contains a 5' wide utility bank between the two structures providing for separate eastbound and westbound roadways. The bridge replaced an existing swing span structure. The superstructure consists of 11 adjacent prestressed concrete box beams overlaid with an asphalt wearing course. There is cracking in the grout joints between the adjacent units resulting in reflective cracks in the wearing surface, eventually causing corrosion of the non-prestressed and prestressed reinforcement. This is a bridge replacement project.

Highway Safety Improvement Program Planning	

This item consists of three programs- Safety Management System (SMS) safety work program, Rail-Highway safety work program and any local safety plans or planning assistance needs. SMS, through guidance of the HSIP (23 CFR 924), identifies, prioritizes and implements safety programs and projects associated with the Safety Improvement Programs in an effort to reduce crashes and crash severity on New Jersey’s roadways. The SMS work programs fulfills the staffing needs for the above identified function. The SMS work program also includes funding for Safety Resource center; the development, update, and implementation of the Strategic Highway Safety Plan (SHSP); Highway Safety Improvement Program (on-call) and any staff augmentation contracts. Rail-Highway Program will continue onsite inspection of public grade crossing to identify rail-highway grade crossing hazards to develop and implement rail-highway grade crossing safety improvements. Local safety plans and planning assistance will provide the MPOs with resources to develop plans and safety applications for their sub-regions, if needed.

Intelligent Traffic Signal Systems	

This program will seek to improve mobility on New Jersey’s arterial highways. By dynamically managing NJ’s arterials from NJDOT’s Arterial Management Center, this program supports NJDOT’s Vision to employ technologies to adapt to changing conditions and environments. Existing traffic signals will be strategically, systematically, and programmatically upgraded from stand-alone signals to highly sophisticated, coordinated, adaptive traffic signals. These projects will consist of installing new controllers, intelligent software and algorithms, robust detection, communication, connected vehicle technology, and safety countermeasures at signalized intersections. These projects will aim to reduce congestion, improve air quality, and reduce carbon emissions. This program includes technical and engineering support to maintain and operate NJDOT’s intelligent traffic signal systems and the communication infrastructure that supports those systems. This program also includes annual training for the various traffic signal related software and procedures that are utilized by NJDOT staff.

New Jersey Department of Transportation Projects**

<i>Program/Project Name</i>	<i>Project ID Numbers: D1709 / 174000</i>
Kaighn Avenue (CR 607), Bridge over Cooper River (Roadway and Bridge Improvements)	

The project will make roadway improvements to Kaighn Ave. (CR 607) from Euclid St. to North Park Dr. (CR 628) and include complete bridge replacement of the Kaighn Ave. Bridge. These improvements will decrease travel time, alleviate flooding, reduce annual maintenance costs and provide for a multi-modal connection to The Circuit, Greater Philadelphia's Regional Trail Network.

Kaighn Avenue is a heavily traveled regionally significant corridor that transects the Parkside Neighborhood of Camden City and is prone to tidal flooding and plagued by road closings during regular rainfall and high tide events. Flooding is the result of a 40 year old hurricane event that breached a nearby earthen dam and subsequently allows the Cooper River to inundate a low lying area of Farnham Park which is directly adjacent to a 1/3 mile stretch of Kaighn Avenue. Road closing events due to flooding number between 15 – 18 times annually. In addition, the vertical alignment of Kaighn Avenue, as a result of topography, plays a role in the continued flooding. Over time high tides and regular rain fall have led to total washout, undermining the road structure and severe ice wedging. Non-motorized transportation challenges include the sidewalk and multiuse trail being in severe disrepair or continually washed out. This trail provides access to Farnham Park and The Circuit connecting users to Philadelphia and the regions trail.

<i>Program/Project Name</i>	<i>Project ID Numbers: N1601 / 153260</i>
Kingsland Avenue, Bridge over Passaic River	

The structure was built in 1905 and reconstructed in 1986. It consists of a two-span, steel thru-truss swing span with two steel thru-truss approach spans having a total length of 364' and total width of 45'-8" with one 6' sidewalk. The bridge's SI&A is 24.4. The superstructure is in poor condition due to fatigue and the substructure is in satisfactory. The electrical machinery is outdated repair very costly. This is a bridge replacement project.

FY 2025 DRAFT TRANSPORTATION CAPITAL PROGRAM

New Jersey Department of Transportation Projects

<i>Program/Project Name</i>	<i>Project ID Numbers: D1710 / 173920</i>
Lincoln Ave/Chambers Street (CR 626), Bridge over Amtrak & Assunpink Creek	

Project will replace the Lincoln Avenue Bridge over Amtrak Northeast Corridor (NEC) rail line, an inactive rail yard, and Assunpink Creek. Proposed Improvements include the following listed:

1. Complete replacement of the structure to extend the life of the bridge, correct deficiencies, and meet current design requirements;
2. The structure will be replaced with steel multi-girders (structure depth of 51" and maximum girder spacing of 7');
3. The vertical profile and pier locations will be revised to provide the required horizontal and vertical clearance over the railroad tracks;
4. Standard 12-foot wide lanes, 8-foot wide shoulders, which can be used by bicyclists and as a standard bicycle lane, and 6-foot wide sidewalks for pedestrians on structure;
5. Architectural treatments, such as stone facing, veneer or form liners; galvanized and powder coated steel; aesthetic parapet or railing treatments; colored concrete; decorative lighting; etc. are also being considered.

No roadway widening is proposed. Easement agreements will be required for work that is performed outside of the existing right-of-way, such as grading and sidewalk repairs necessary to meet ADA compliance. Lincoln Avenue serves as an important connector across the aforementioned physical barriers and is the first crossing outside of the central business district of Trenton City. The structure, which was built in 1931 and reconstructed in 1965, was rated 'serious', or 3 on a 0 to 9 scale, with 9 being excellent condition and 0 being failed condition/closed facility. Despite its rating of 3, the bridge is still safe for travel. The rating is primarily due to the condition of the superstructure, which suffers from severely rusted steel throughout and large areas of spalled and delaminated concrete on the deck. The County performed short-term fixes on the structure including lighting, deck repairs and an asphalt overlay until the structure could be replaced. The fund type 'OTHER-DVRPC' reflects a commitment by Mercer County of Local County Aid, Local Aid State Infrastructure Bank, and/or Mercer County general funds to the project.

FY 2025 DRAFT TRANSPORTATION CAPITAL PROGRAM

New Jersey Department of Transportation Projects

<i>Program/Project Name</i>	<i>Project ID Numbers: 11407 / 114070</i>
Lincoln Tunnel Access Project (LTAP)	

Under this program, also known as the Lincoln Tunnel Access Program (LTAP), the Port Authority of NY & NJ provided funding support, in the amount of \$1.8 billion, for improvements to three NJDOT facilities: Route 7, Hackensack River (Wittpenn) Bridge; Route 1&9T Extension (New Road); and Route 1&9 Pulaski Skyway including Route 139 (Hoboken and Conrail Viaducts) eastern approach to the Skyway. The State of NJ is also providing funding, from the TTF, to complete work on the projects.

The Route 7 Wittpenn Bridge is being replaced with a new vertical lift bridge. The total project cost is estimated at \$575 to \$625 million. The project is located in Kearny and Jersey City, Hudson County.

The Route 1&9T Extension (New Road) project will provide a new roadway parallel to Route 1&9 along the railroad right-of-way in Jersey City. It will provide intermodal connections to the rail yards and divert trucks off of Tonnelles Circle and Route 1&9, helping to ease congestion and facilitate goods movement throughout the region. The total project cost is estimated at \$400 to \$450 million. The project is located in Jersey City, Hudson County.

The Route 1&9 Pulaski Skyway project is rehabilitating the 3.5 mile-long structure that carries Route 1&9 over the Hackensack and Passaic Rivers, the New Jersey Turnpike, several railroads and industrial facilities. Also included in the Pulaski Skyway project is the Route 139 eastern approach to the Skyway. The Route 139 portion rehabilitated the Hoboken Viaduct, as well as replaced the deck and rehabilitated the superstructure of the Conrail Viaduct. The total Pulaski Skyway project cost is estimated at \$1.9 to \$2.1 billion. The project is located in Jersey City, Kearny, and Newark in Hudson and Essex Counties.

Martin Luther King Avenue Bridge (No. 1400-118) over the Whippany River	

The Martin Luther King (MLK) Avenue Bridge spans over the Whippany River and is located between Flagler Street (M.P. 0.11) and Coal Avenue (M.P. 0.14) in the Town of Morristown. Originally constructed in 1900, and widened in 1928, the 66 foot long bridge has numerous structural and geometric deficiencies. The 121 years old stone arch bridge is significant because it is a secondary commuter route into and out of downtown Morristown with a high volume of pedestrian and vehicular traffic. The Bridge Re-Evaluation Survey Report (Cycle No. 18, dated 7/11/17) concluded that the MLK Avenue Bridge is classified as Structurally Deficient due to the poor condition of the superstructure. This is a bridge replacement project.

Mount. Ephraim Avenue Safety Improvements, Ferry Avenue (CR 603) to Haddon Avenue (CR 561)	

The extent of parking lanes hampers pedestrian visibility/crossings and the lack of shoulders makes bicycling along the corridor undesirable and unsafe. Project limits are broken out into 3 sections: Section 1- Pine Street to the north of Mt. Vernon Street is currently one lane in the northbound direction and two lanes in the southbound direction and parking on the east side of the roadway. The preferred alternative will provide one lane in each direction with bicycle lanes on both sides and parking on the east side.

Section 2- Chestnut Street to Decatur Street is currently one lane in each direction with parking on both sides. The preferred alternative will provide one shared lane (with bicycle) and parking on both sides.

Section 3- Dayton Street to Ferry Avenue is currently two lanes in each direction. The preferred alternative will provide one lane in each direction with bicycle lanes on both sides and parking on the east side. The existing roadway width and sidewalk width in Section 3 will be maintained but roadway width will be reduced to increase the sidewalk width, on the easterly side by two feet in Sections 1 and 2.

The alternative will also install curb extensions (bulb-outs) at every corner through the corridor, to improve visibility of pedestrians and reduce pedestrian crossing distances, except where driveways and / or bus stops limit their installation, with ADA compliant ramps. Parking and bicycle lanes would be striped for delineation. 12 additional on-street parking spaces will be created.

New Jersey Scenic Byways Program	

This program will assist in the advancement of the NJ Scenic Byways Program and the stewardship and enhancement of the scenic, recreational, archaeological, natural, cultural and historic intrinsic qualities associated with the designated byways. Funding will be utilized for planning, design and development of the state program and for the planning, design, development, marketing and implementation of the complete set of byways within the state program. This includes but it's not limited to research leading to the development of themes for byways, activities associated with identifying and marketing tourist amenities on scenic byways on a statewide basis, activities associated with assessing the economic impacts on the set of byways, activities associated in building strong partnerships between the byways and other groups that can assist them in sustaining and promoting their byways. It also includes updating the signage needed to show designation as a National Scenic Byway, All American Road or NJ State Byway.

New Traffic Light System at Broad Street and East Grand Street / West Grand Street	

The City of Elizabeth is proposing to replace an obsolete traffic light system at the intersections of Broad Street and East / West Grand Street, which will improve pedestrian and vehicular safety; enhance traffic flow; address ADA compliance; and generally increase mobility for all roadway users. The project site is located adjacent to the Elizabeth Midtown Train Station and the improvements would support intermodal transportation, increasing access to transit as well as bus travel, as several stops are in close proximity to the project site. The scope of work also includes milling, resurfacing, replacement of associated striping, pavement markings, signs, and other miscellaneous related work items. Preliminary Engineering, Final Design, Construction match, and Construction Services are funded by the City of Elizabeth.

The following federal appropriation was programmed to this project: DEMO ID# NJ309.

Parkway Avenue (CR 634), Scotch Road (CR 611) to Route 31 (Pennington Road)	

The project's primary goals include: reduce the frequency and severity of crashes within the project corridor; improve mobility and accessibility for bicyclists and pedestrians; and upgrade the corridor to comply with NJDOT, Mercer County, and municipal Complete Streets Policy. In November 2015, the CR 634 (Parkway Avenue) corridor from CR 611 (Scotch Road) to NJ 31 (Pennington Road) was identified as the top candidate in the NJDOT-led Regional Road Diet Pilot Program and as DVRPC's top candidate to advance to Concept Development. The proposed Preliminary Preferred Alternative (PPA) from the 2019 HSIP funded Concept Development study includes elements such as a 3-lane road diet throughout the corridor with TWLTL and bicycle lanes from Scotch Road to Parkside and 2-lane section with bike lanes from Parkside to Olden Avenue; retrofit signalized intersections where possible to accommodate new intersection approaches; and converting five (5) existing signalized intersections at Scotch Road, Lower Ferry Road, Farrell Avenue, Olden Avenue, and Pennington Road to modern roundabouts. Project will also consider improvements for intersections, substandard design elements, ADA compliancy, drainage, and signal upgrades.

Rail-Highway Grade Crossing Program, State	

This program will provide state funding for the elimination of hazards at rail-highway grade crossings by the closure of crossings or the upgrade/improvement of protective warning devices for roads throughout the state. This funding will allow flexibility in allocating monies for emergency repairs as well as to the areas in need regardless of their geographic location (MPO). This program will also allow grade crossing closures without drawing down the federal funds used for grade crossing improvements. Funding will also be provided for the design of traffic detours required for the crossing surface reconstruction projects.

This program will also provide funding for emergency repairs to the riding surface of highway-rail grade crossings identified during inspections or from complaints received. These repairs will be accomplished by an NJDOT contractor as priority situations are identified. These repairs will be limited to surface repairs that do not require railroad infrastructure work, or reconstruction of the crossing. This program will also include the installation of roadway-related items (signs, pavement markings) that have been identified as missing or needing replacement or are required (outstanding work from municipalities and counties) to close out federally funded grade crossing projects from previous years.

Right of Way Full-Service Consultant Term Agreements	

This program will allow for the increased utilization of full service ROW consultant firms to address peak workload demands in the right of way component of the capital program delivery process. Due to staff reduction from retirements and loss of institutional specialists, it may be necessary to provide for supplementary consultant forces to work with the right of way team on specific projects. The task order agreements will be established based on initial funding amounts of \$10,000, with the continued funding of individual task order assignments through project specific state and federal right of way funding accounts.

Safety Programs	

This program uses Highway Safety Improvement Program (HSIP) funding to support eligible Safety Improvement Projects and Pedestrian Safety Improvement Projects, including engineering, ROW and Construction activities intended to reduce fatalities and serious injuries on New Jersey roadways using both hotspot and systemic projects. Examples of some of these improvements are: safety improvements to install safety countermeasures such as utility pole mitigation, roundabouts, road diets, and other FHWA Proven Safety Countermeasures, including innovative technology – in order to reduce crashes and crash severities on New Jersey’s state roads. The state funding is intended for low cost safety improvement projects using in-house design and construction.

South Inlet Transportation Improvement Project	

This project provides improvements to feeder roads in Atlantic City, as identified by the Casino Redevelopment Authority (CRDA). The improvements will maintain, operate and support Atlantic City Expressway Projects of the South Jersey Transportation Authority (SJTA). The project includes; Melrose Avenue between Delaware and Connecticut Avenues, Connecticut Avenue from Melrose to Oriental Avenues, Massachusetts Avenue, and various other intersection and capital improvements. The NJDOT has agreed to provide one-third of the eligible costs, up to \$17 M, plus the additional funds needed to finance bonds. Approximately \$1.5 M of Transportation Trust Fund (TTF) funding will be provided to the SJTA, by the NJDOT, annually for 20 years for this purpose (except for the first year which will be \$1.7 M of TTF funds). The SJTA will issue debt based on the NJDOT's funding guarantee, and provide the funding to CRDA.

Statewide Traffic Operations and Support Program	

This comprehensive Statewide Traffic Operations and support strategies program focuses on reducing non-recurring delays due to incidents, work zones, weather emergencies, poor signal timings, special events, etc. The program includes a Statewide Traffic Management Center (STMC), a Traffic Operations Center South (TOCS), a Safety Service Patrol (SSP), a NJDOT/NJSP Traffic Incident Management (TIM) Unit and a Central Dispatch Unit (CDU). The 24/7 Statewide Traffic Management Center (STMC) serves three primary functions: (1) It is the Traffic Operations Center (TOC) for the northern half of the state, (2) It provides for evening/weekend/holiday operations coverage for the entire state and (3) NJDOT is co-located with the New Jersey State Police and the New Jersey Turnpike Authority at the STMC to provide for a coordinated approach to handling traffic operations statewide. The 16/5 Traffic Operations Center South (TOCS) is responsible for coverage for the southern half of the state and monitors the Route 29 tunnel. The STMC handles coverage for TOCS during week nights (after 8:30 pm) and on weekends and holidays. The Safety Service Patrol (SSP) is deployed on congested corridors statewide to rapidly detect and clear incidents by providing safety for first responders and motorists. SSP also provides emergency assistance to disabled motorists. The 24/7 Central Dispatch Unit (CDU) is NJDOT's Emergency Call Center. The Traffic Incident Management (TIM) program is aimed at reducing delays due to traffic incidents. It provides for: (1) equipment and training for NJDOT's Incident Management Response Team (IMRT); (2) training and outreach for county and local emergency responders on methods to reduce traffic delays caused by incidents; (3) developing, printing and distributing diversion route manuals; (4) developing partnerships and outreach with local and state law enforcement organizations; and (5) maintaining a State Police Traffic Incident Management Unit.

Storm Water Asset Management	

This program maintains NJDOT compliance with USEPA water quality objectives and NJDEP storm water management regulations. It also ensures the state’s infrastructure system is resilient under moderate to severe storm events. The Storm Water Asset Management plan evaluates and prioritizes needed repairs to storm water features, maintaining the integrity of the storm water system. The plan helps to minimize potential roadway flooding, and provides pollution prevention and abatement activities, which address stormwater management and control related to highway construction and/or due to highway runoff. The plan will identify all storm water features/assets owned or operated by NJDOT, assess conditions of the assets, develop plans for needed repairs to preserve the integrity of the assets, prioritize and conduct required repairs, and perform inspections to ensure repairs are completed in accordance with approved plans.

Traffic Signal Replacement	

This program provides funding for; purchase of materials, installation of new and upgraded traffic signals statewide, related improvements to the operation of signals. This program provides for the replacement of traffic signals on an annual basis, and assists regional operations in the rehabilitation and maintenance of the state's highway lighting system. It also includes the conversion to energy efficient LED indicators, and installation of generators to provide auxiliary power, which will enable traffic signals to function during times of extended power outages. Through the Traffic Signal Management System, which provides a condition rating of signal equipment integrated with crash data and Congestion Management System Data, this program (developed via consultant RFP, analyzing corridor segments and creating a safety ranking based on MUTCD compliance, pedestrian facilities, controller capabilities, method of detection, accessibility, and other factors) will prioritize signals for replacement based on the above factors. The results from establishing the priority locations will allow systematic replacement of aging signal equipment, optimization of the operation of signals, and promote maximum efficiency of intersections.

The project focuses on proactively managing the transportation system by addressing recurring and nonrecurring congestion which results in emissions reductions. This effort also engages new partners and new training participants every year. The goal is to promote more efficient and cost-effective use of the existing transportation network and services through enhanced coordination and integration of Intelligent Transportation Systems (ITS) and Transportation Systems Management and Operations (TSMO) strategies in order to create more reliable traffic flow, improved safety, reduced congestion, less wasted fuel, cleaner air, and more efficient use of resources including facilities and funding. This project will provide for the following major components: Transportation Operations Task Force (TOTF), Traffic Incident Management (TIM), Regional Traffic Signal Retiming, TSMO planning efforts, and technical assistance by DVRPC staff.

<i>Program/Project Name</i>	<i>Project ID Numbers: 17419 / 174190</i>
Route 1, Alexander Road to Mapleton Road	

Improvements will help relieve congestion at Route 1 from the “Dinky” railroad bridge to approximately Plainsboro Road by increasing the number of travel lanes from 3 to 4 lanes per direction on Route 1; provide shoulders, deceleration lanes, acceleration lanes, and turn lanes along the corridor for turning vehicles; widen Washington Road at Route 1 to relocate the merge of the 2-lane circle into a single Washington Road lane out of the intersection; increase the Route 1 southbound to Fisher Place jughandle turn; modify existing 3-phase signal at Route 1 and Harrison St. intersection to a 2-phase signal; and provide a Route 1 cross section with 4 lanes per direction at the Millstone River Bridge. This project in West Windsor (Mercer County) and Plainsboro (Middlesex County) is a derivative of the former Rt. 1/CR 571 Penns Neck project (DB #031). The magnitude and scope of work for the Rt. 1 Alexander Rd to Mapleton Rd project is greatly reduced from the Penns Neck project (\$150 M vs. \$35 M).

Route 1&9, Interchange at Route I-278	

The project improves the Rt. 1&9 interchange with I-278 to provide the missing ramp connections from I-278 WB to Rt. 1&9 NB and Rt. 1&9 SB to I-278 EB. Rt. 1&9 SB will connect with I-278 EB via a new forward loop ramp which crosses both directions of Rt. 1&9 on structure and connects to I-278 WB east of Rt. 1&9. The existing I-278 WB connection to Rt. 1&9 SB will remain while the existing I-278 bridge over Rt. 1&9 NB will be replaced with a longer structure allowing the new direct ramp connecting I-278 WB with Rt. 1&9 NB to pass under I-278 WB prior to connecting to Rt. 1&9 NB. The new ramps enter and exit I-278 from the left side of the roadway. The project also improves the level of service of the Rt. 1&9 NB / Park Ave intersection by widening the intersection and providing double left turn lanes from Rt. 1&9 to Park Ave. OTHER funds for the project are provided by Port Authority of New York and New Jersey.

<i>Program/Project Name</i>	<i>Project ID Numbers: 079A / 088032</i>
Route 9/35, Main Street Interchange	

Rt. 9/35 over Main Street Interchange is a breakout from the Rt 9/35 over Main St. Bridge. The lack of an acceleration lane from Rt. 9 Northbound to Rt. 9/35 Northbound ramp has created a safety condition for vehicles attempting to merge. Furthermore, the tight radius and heavy truck traffic from this ramp have contributed to the congestion and the queue on Rt. 9 Northbound which extends for about a mile causing more safety concerns. Rt. 9/35 Southbound to Rt. 9 Southbound ramp is a also a safety problem at this interchange, as this ramp is also substandard and is contributing to the extensive queue which extends from Rt. 9/35 to the Edison Bridge. Both ramps will be investigated separately and may graduate as two individual projects.

<i>Program/Project Name</i>	<i>Project ID Numbers: 355E / 113030</i>
Route 295/42/I-76, Direct Connection, Contract 4	

This project relieves the existing bottleneck at the interchange by constructing; a direct connection on I-295 and other highway improvements that will reduce congestion and enhance traffic operations and safety throughout the project area. The improvements include; a six lane mainline through the interchange, elimination of dangerous merging and weaving movements, upgrades to ramp geometry and the addition of shoulders throughout the interchange. Contract 4 includes the reconstruction of I-76 and Route 42 along the entire project limits; the completion of new Ramps C & F, and the completion the new I-295 Northbound direct connection. Contract 4 is a breakout of "Route 295/42/I-76, Direct Connection, Camden County".

NJ TRANSIT PROJECT / PROGRAM DESCRIPTIONS

FY 2025 DRAFT TRANSPORTATION CAPITAL PROGRAM

New Jersey Transit Projects

<i>Program/Project Name</i>	<i>Project ID Number: T143</i>
ADA--Platforms/Stations	

Funding is provided for the design and construction of necessary repairs to make NJ TRANSIT's rail stations, and subway stations more accessible for the Americans with Disabilities Act (ADA) including related track and infrastructure work. Funding is requested for repairs, upgrades, equipment purchase, platform extensions, and transit enhancements throughout the system and other accessibility repairs/improvements at stations.

COUNTY: Various

MUNICIPALITY: Various

LEGISLATIVE DISTRICT: Various

SPONSOR: NJ TRANSIT

CIS PROGRAM CATEGORY: Mass Transit Assets

CORE MISSION: Mass Transit

MPO	Phase	Fund	Amount
DVRPC	ERC	STATE	\$115,000
NJTPA	ERC	STATE	\$350,000
SJTPO	ERC	STATE	\$35,000

<i>Program/Project Name</i>	<i>Project ID Number: T05</i>
Bridge and Tunnel Rehabilitation	

This program funds the design, repair, rehabilitation, replacement, painting, and inspection of tunnels and bridges. The program funds other work related to the movable bridge program, drawbridge power program, and right-of-way improvements necessary to maintain a State of Good Repair (SOGR) for culverts, bridges, and tunnels.

In the DVRPC area, two bridges are using Flex funding from FHWA Off System Bridge. Ohio Avenue Bridge at \$20.2 million and Old White Horse Pike at \$18.9 million, for a total of \$39.1 million.

In the NJTPA region, four bridges are using Flex FHWA Off System Bridge funding. Yogi Berra Drive at \$20.2 million, Mountain Road at \$18.9 million, Cregar Road at \$8.1 million, and East 32nd Street at \$20.2 million, for a total of \$67.4 million.

In the FY24FY33 STIP, this funding will be obligated and managed as Sec 5307.

SJTPO	ERC	STATE	\$206,212

<i>Program/Project Name</i>	<i>Project ID Number: T111</i>
Bus Acquisition Program	

The Buses and Bus Facilities Section 5339 program provides funds for replacement of transit, commuter, access link, and suburban buses for NJ TRANSIT as they reach the end of their useful life as well as the purchase of additional buses to meet service demands. Pay-as-you-go funding is provided for over 2,300 buses replacements including but not limited to cruiser buses, NABI buses, and articulated buses.

Toll Credit will be used as the non-federal match. An explanation of toll credit can be found in the Introduction Section of the STIP.

FY 2025 DRAFT TRANSPORTATION CAPITAL PROGRAM

New Jersey Transit Projects

<i>Program/Project Name</i>	<i>Project ID Number: T08</i>
Bus Support Facilities and Equipment	

The Buses and Bus Facilities Section 5339 program provides funds through a statutory formula to maintain NJ TRANSIT’s bus fleet, including to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities. This includes technological changes or innovations to modify low or no emission vehicles or facilities. Funding is provided through formula allocations and two discretionary components. Toll Credit will be used as the non-federal match. An explanation of toll credit can be found in the introduction Section of the STIP.

Using Flex funding from FHWA and NJDOT to the FTA and NJ TRANSIT to supplement resources to project development and construction. Projects include Hilton Bus Garage Modernization and Electrification at \$68.1 million, Passaic Bus Terminal at \$15 million, and Meadowlands Garage BEB Depot Phase 1 at \$10.494 million.

In the FY24FY33 STIP, this funding will be obligated and managed as Sec 5307.

Casino Revenue Fund	

Transportation Assistance for Senior Citizens and Disabled program. State law provides 8.5% of the Casino Tax Fund revenues to be appropriated for transportation services for senior and disabled persons and for capital improvements that benefit the senior and disabled populations. The law provides 85% of these funds to be made available to the counties through NJ TRANSIT for capital, operating, and administrative expenses for the provision of locally coordinated para-transit services. The amount each county receives is determined by utilizing an allocation formula based on the number of residents 60 years of age and over as reflected in the most recent U.S. Census Report. Funds may be appropriated from the Property Tax Relief Fund (PTRF), pursuant to budget language.

New Jersey Transit Projects

<i>Program/Project Name</i>	<i>Project ID Number: T538</i>
Portal North Bridge	

Funding is for the design, engineering, construction and other necessary initiatives or items to complete the proposed replacement of the existing Portal North Bridge with a new high-level, two track, fixed structure bridge on a new rail alignment. The new bridge will be approximately 1,200 feet long and will have a clearance that accommodates current and forecasted maritime traffic, thereby eliminating the need for a movable span that interrupts rail operations and results in delays due to mechanical failures. This will improve reliability, allowing NJ TRANSIT to operate longer and higher capacity trains. Additionally, trains will be able to cross the bridge at 90 miles per hour, up from 60 miles per hour today.

\$373M in Amtrak funds will be applied to the Portal North Bridge (PNB) project once the funds are administered to NJ TRANSIT.

\$57M in CMAQ funds are committed to purchase up to 25 commuter rail vehicles to support the PNB project. Refer to DB T112- Rail Rolling Stock Procurement where funds for supporting all rail rolling stock purchases are listed and explained. In addition, NJ TRANSIT is committing up to \$14M in local match for the CMAQ funds (through NJTTF) to support the PNB project.

NJ TRANSIT was awarded \$766.5M under FTA’s Section 5309 Capital Investment Grants Program. \$600M in New Jersey Economic Development Authority (NJEDA) proceeds are committed to the PNB Project.

Security Improvements	

This program provides funds for continued modernization/improvements of NJ TRANSIT Police and other security improvements. Today, the NJ TRANSIT Police Department is the only transit policing agency in the country with statewide authority and jurisdiction. The Department was created on January 1, 1983, and it evolved as a result of the passage of the Public Transportation Act of 1979 and subsequent legislation on the state and federal levels.

New Jersey Transit Projects

<i>Program/Project Name</i>	<i>Project ID Number: T50</i>
Signals and Communications/Electric Traction Systems	

This project provides funding for continued modernization/improvements to the signal and communications systems, including signal/communication upgrade of interlockings, and other communication improvements. This project also provides funding for systemwide electric traction general upgrades including: substation replacement, wayside hot box detection system, rail microwave system upgrades, replacement of substation batteries and electric switch heaters, emergency power backup systemwide, rehabilitation of systemwide overhead catenary structures and foundations including but not limited to acquisition of properties and any items or services needed to support the acquisition. In addition, funding will be provided for Positive Train Control training facilities including but not limited to equipment purchasing, engineering, design, planning, construction, acquisitions and other associated costs.

Transit Enhancements/Transp Altern Prog (TAP)/Altern Transit Improv (ATI)	

Funding is provided for projects or project elements that are designed to enhance mass transportation service or use and are physically or functionally related to transit facilities as outlined in FTA Circular 9030.1E., including funding for a Statewide Bus Signs and Shelter Maintenance Upgrade Program and historic restoration of NJ TRANSIT facilities. Federal assistance was awarded for the U.S. Route 9 Bus Rapid Transit project in the amount of \$470,000. Funds are being funded with FHWA STP funds for the Newark Intermodal project in the amount of \$500,000.

Toll Credit will be used as the non-federal match. An explanation of toll credit can be found in the introduction section of the STIP.

Per previous NJTPA Board Action, reflects the transfer of Carbon Reduction funds in the amount of \$27.306M to the Greenway and Transitway project.

In the FY24FY33 STIP, this funding will be obligated and managed as Sec 5307.

FY 2025 DRAFT TRANSPORTATION CAPITAL PROGRAM

New Jersey Transit Projects

<i>Program/Project Name</i>	<i>Project ID Number: T300</i>
Transit Rail Initiatives	

This program provides funding for transit expansion projects, including River Line Glassboro-Camden Light Rail Improvements, new station construction, ferry program, fixed guideway improvements (Rail, Light Rail, BRT, and Ferry), and related vehicle and equipment acquisition. Also included are FTA new starts projects authorized under New Jersey Urban Core or SAFETEA-LU. Potential projects in this category include (in no rank order): Northern Branch Rail; HBLR Extension to Secaucus; HBLR Secaucus-Meadowlands Connector; Passaic-Bergen rail service on the NYS&W east of Hawthorne using Diesel Multiple Unit (DMU) passenger equipment; Restoration of commuter rail service on the NYS&W west of Hawthorne; Port Morris Improvements; West Shore--Hoboken to West Haverstraw; NERL Elizabeth Segment from NJ TRANSIT'S Northeast Corridor Midtown Elizabeth Station to Newark Liberty International Airport via the Elizabeth Waterfront; Restoration of commuter rail service on the West Trenton line; River LINE LRT Capitol Extension; Second Phase of River LINE LRT/PATCO Extension; Glassboro-Camden Light Rail; Route 1 BRT, Second Phase of NERL (Newark Penn Station to Newark Liberty International Airport); Commuter rail extension in Monmouth and Ocean Counties; Lehigh Third Track Capacity Improvements; Extension of Cape May Seashore Line north to Hammonton (to Atlantic City Rail Line); Commuter Rail extension to Phillipsburg, improvements on the Atlantic City Rail Line, new rail station improvements such as Atlantic City Line/River LINE connection, Moynihan Station, Penn Station New York access improvements and platform extensions, Penn Station New York Central Concourse, Penn Station New York West End Concourse, E-yard expansion, Bus Rapid Transit Initiatives, Park and Rides and Smart Card Technology Program along with other new systemwide, rail, bus, and light rail initiatives arising during the year.

The narrative above governs how the state Transportation Trust Funds that are appropriated in the state budget to "Transit Rail Initiatives" can be used. The Transit Rail Initiatives project is a state funded effort that is displayed here only for information purposes in order to give a better understanding of total transportation funding. As shown below, there is no Federal funding allocated to the Transit Rail Initiatives project in the first four constrained years. In compliance with the state budget and the language above, state Transit Rail Initiatives funds will be used to advance the projects listed above, some of which are also authorized under Federal law, but not yet funded with Federal dollars.

Funding is also provided to advance projects dependent on other non-federal (including private) funding, and/or state resources available beyond planned levels including but not limited to acquisition of properties and any items or services needed to support the acquisition.

Section 5 Metropolitan Planning Organizations

GLOSSARY

The following serves as a guide to terms used in the Transportation Capital Program:

SECTION 1 CAPITAL INVESTMENT STRATEGY CATEGORIES

The New Jersey Statewide Capital Investment Strategy (SCIS) classifies projects according to the type of work to be done.

Airport Assets

Includes work that is intended to preserve, maintain, and improve aviation facilities, for the development of an efficient air transportation system that responds to the needs of its users and the public. Administering the aviation system includes public-use airports that consist of a complex system of facilities operated by state, county, municipal and private entities.

Bridge Assets

Includes projects which are designed to keep existing bridges functioning and in a state of good repair, including work which rehabilitates or replaces existing bridges to meet current design standards. Examples of work included within this category are:

- Bridge capital maintenance
- Bridge deck rehabilitation and replacement
- Bridge management
- Bridge rehabilitation and replacement
- Dams

Capital Program Delivery

Includes program implementation costs for various phases of projects, including construction, contractor support, planning programs and studies, scoping and design, right-of-way, utility work, and quality assurance.

Congestion Relief

Includes work that improves the flow of people and goods along roadways. Specific programs under this heading include highway operational improvements, bottleneck improvements, missing links, major widening, intelligent transportation systems and travel demand management.

Local Systems Support

Provides for development and implementation of transportation improvements on local roadway networks. Examples of program categories within this heading are local aid to counties, local aid to municipalities, bicycle/pedestrian, regional planning, and project development.

Mass Transit Assets

Includes light rail, and rail and bus physical assets required to maintain the transit system in a state-of-good-repair. Examples of work within this category include:

- Electric Traction
- Rail Stations, bus terminals, shelters
- Rolling Stock, rail cars and buses
- Signaling
- Structures
- Track

Multimodal Programs

Includes work that addresses improvements in/provisions for alternative modes of transportation. Program categories within this heading include goods movement, bicycle/pedestrian, ferries, paratransit, intermodal connections, rail, and maritime.

Road Assets

Includes projects which are designed to keep the existing highway system functioning and in a state of good repair, including work which upgrades segments of the system to meet current design standards (e.g., safety treatments that are part of a general roadway project - such as; signs, guiderail, barrier curb, and traffic signals - as opposed to individual line-item programs, that include specific signs and/or traffic signals). Examples of work included in this category are:

- Drainage Management
- Environmental Remediation
- Highway Rehabilitation and Reconstruction
- Landscape
- Pavement Management System
- Resurfacing

Safety Management

Includes safety programs that are aimed at reducing the frequency and severity of crashes, and promoting the all-round engineering, education, and enforcement approach of "Safety First". "Safety First" is further reflected in several other NJDOT supported programs that utilize the 4E's (Engineering, Education, Enforcement, and Emergency Medical Services (quicker response and care)), and in other measures to enhance safety and reduce crashes. Examples of safety management programs are:

- ADA Curb Ramp Implementation
- Betterments, Safety
- Bicycle & Pedestrian Facilities/Accommodations
- Crash Reduction Program
- Highway Safety Improvement Program Planning
- Intersection Improvement Program (Project Implementation)
- Motor Vehicle Crash Records

- Pedestrian Safety Improvement Design and Construction
- Pedestrian Safety Improvement Program
- Rail Highway Grade Crossing, Federal
- Rail Highway Grade Crossing, State
- Restriping Program & Line Reflectivity Management System
- Rockfall Mitigation
- Safe Routes to School Program
- Safe Streets to Transit Program
- Segment Improvement Program
- Traffic Signal Replacement
- Transportation Safety Resource Center (TSRC)

Transportation Support Facilities Assets

Includes projects designed to preserve, maintain, and improve physical plant infrastructure, including office buildings, rest areas, maintenance facilities, toll plazas and existing park and ride locations. (Bus stops and train stations are included under Mass Transit Assets).

SECTION 2 CORE MISSION

The NJDOT's overall mission has been divided into five distinct Core Missions as part of the Performance Budgeting Initiative, while NJ Transit's focus is Mass Transit. Performance data and expenditures are tied to the Core Missions listed below.

10 - Infrastructure Preservation

Projects and programs with a primary focus on preserving, rehabilitating, or reconstructing existing physical assets, such as roads and bridges.

20 - Safety

Projects and programs with a primary focus on improving public health and safety of motorists, pedestrians, cyclists, and other users of the transportation network by reducing transportation-related fatalities and injuries.

30 - Operations and Maintenance

Routine and regular expenditures required to: keep the highway surfaces, shoulders, roadsides, structures, and traffic control devices in usable condition; maintain facilities; purchase winter operations equipment, light trucks, cars, and construction equipment; and respond to winter storms and emergencies. Operations and Maintenance also includes administrative operations that support the other core missions (such as human resources, budget, and accounting).

40 - Mobility and Congestion Relief

Projects and programs with a primary focus on maintaining or increasing the movement of passengers and goods. These projects and programs may provide a safety and/or infrastructure preservation benefit, however, their goal is improving quality of life.

50 - Mass Transit

Projects or programs designed to move relatively large numbers of people at one time; utilizing passenger transportation services that operate on established schedules, along designated routes, or lines, with specific stops.

SECTION 3 PHASES OF WORK

The stages of project development that occur during the project delivery process. The current NJDOT project delivery process, in order of occurrence, is Problem Statement (PS), Concept Development (CD), Preliminary Engineering (PE), Final Design (DES), Right of Way (ROW), Utilities (UTI), and Construction (CON). The terms apply to these various phases of work.

CAP - Capital Acquisition

The acquisition of rolling stock by NJ TRANSIT.

CD/LCD - Concept Development

The Concept Development phase identifies and compares reasonable alternatives and strategies that address a well-defined and well-justified Purpose and Need Statement and establishes a Preliminary Preferred Alternative (PPA). The PPA is selected based on the following factors: environmental impacts, constructability, cost effectiveness, and length of time for construction. CD involves data collection, internal and external stakeholder coordination, and alternatives analysis. Along with the PPA, key products that are produced in this phase include the Purpose and Need Statement, the National Environmental Policy Act (NEPA) classification, and the Concept Development Report. CD denotes NJDOT's Concept Development phase; LCD denotes a Concept Development phase by a local entity (MPO, county, municipality).

CON - Construction

The Construction phase is the period of work involving the actual building of a project.

DES- Final Design

The purpose of the Final Design phase is to produce the project's construction contract documents (i.e., final plans, specifications, and cost estimate (PS&E)) for use in soliciting bids from prospective contractors and advancing the project to the Construction phase. DES includes the continuation and completion of environmental and engineering tasks initiated in the Preliminary Engineering phase (i.e., roadway design, bridge design, right of way and access engineering, utility engineering, environmental permits and clearances, and community outreach). The completion of those tasks will involve various internal

and external project stakeholders. Stakeholder coordination ranges from on-board project review meetings with internal offices, to efforts with local officials, the general public and other state and federal agencies. Efforts involving the public and local officials are guided by a project-specific public involvement action plan. DES is completed when the project is authorized for construction, which initiates the Construction phase of project delivery.

EC - Design and Construction

Funding is provided for design and/or construction costs.

ERC - Design, Right of Way, and Construction

Funding is provided for design, right of way, and/or construction costs.

PE/LPE - Preliminary Engineering

The Preliminary Engineering phase involves performing engineering tasks and technical environmental studies to obtain formal community consensus (through a public information center) of the studies and to secure the approval of the environmental document. If a design exception is necessary on a project, preparation and approval of the Design Exception Report will occur during the PE phase. During PE a number of activities are simultaneously set in motion, based on the PPA, such as community involvement (meetings with affected property, business owners), agency consultation, environmental documentation, design level mapping, and the development of geometric design. PE denotes NJDOT Preliminary Engineering phase; LPE denotes preliminary engineering by a local entity (MPO, county, municipality).

PLS - Planning Study

A phase or type of work involving traffic studies needs analyses, corridor studies, and other work in advance of project development. See also "Concept Development."

ROW - Right of Way

A general term denoting land, property, or an interest therein, usually in a strip acquired for, or devoted to, transportation purposes.

SWI – Statewide Initiatives

Statewide Initiatives to enhance security.

UTIL - Utility

In some cases, the utility relocation work associated with a project must be programmed separately from the actual construction phase of work. These items are shown under the "Utility" category.

SECTION 4 FUNDING CATEGORIES

Projects are funded under various funding categories, depending on the type of work.

a. NJDOT FUNDING CATEGORIES

BFP - Bridge Formula Program

This federal-aid funding category established under the Infrastructure Investment and Jobs Act (IIJA), provides funds to replace, rehabilitate, preserve, protect, and construct bridges on public roads.

BFP-OS-BRDG

This federal-aid funding category established under the Infrastructure Investment and Jobs Act (IIJA), provides funds to replace, rehabilitate, preserve, protect, and construct bridges on public roads. This funding is used for bridges that are off the federal-aid system.

CMAQ - Congestion Mitigation and Air Quality

This federal-aid funding category was established under the federal Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) to provide funding for projects that improve air quality and/or relieve congestion without adding new highway capacity. These funds are especially targeted for states, like New Jersey, with serious air quality problems to help meet their Clean Air Act obligations.

CR – Carbon Reduction Program

This federal-aid funding category established under the Infrastructure Investment and Jobs Act (IIJA), provides funds for projects to reduce transportation emissions or the development of carbon reduction strategies.

CRRSAA - Coronavirus Response and Relief Supplemental Appropriations Act

This federal-aid funding category was established under The Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSAA) and appropriated funds by geographic regions.

DEMO - Demonstration Funds

Federal transportation acts sometimes target specific projects in various states in addition to general programs for federal support. This funding category includes "demonstration" funding provided under ISTEA, as well as "high priority project" funding provided under Transportation Equity Act for the 21st Century (TEA-21) and Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). Projects with "demonstration", or "high priority project", funding often have special rules of use.

DEMO-R - Demonstration Funds- Repurposing

This fund type represents repurposing of unobligated DEMO funds originally earmarked for specific projects. The fund limitations put in place are to ensure the funds are obligated promptly and used in the same geographic area as the original earmark to provide funding for the eligible projects.

FBP- FHWA Ferry Boat Program

Federal funds are allocated for improvements to ferry boats and ferry terminal facilities throughout the state.

HIP-BRR - Highway Infrastructure Program- Bridge Replacement and Rehabilitation Program

This federal-aid funding category, established under the Infrastructure Investment and Jobs Act (IIJA), provides funds for highway bridge replacement and rehabilitation projects on public roads.

HSIP - Highway Safety Improvement Program

This federal-aid funding category was established under SAFETEA-LU with the purpose of significantly reducing traffic fatalities and serious injuries on all public roads in a comprehensive and strategic manner consistent with the State's Strategic Highway Safety Plan.

HSIP-VRUS - Highway Safety Improvement Program- Vulnerable Road User Safety Special Rule

This federal-aid funding category, established under the Infrastructure Investment and Jobs Act (IIJA), provides funding for projects which emphasize minimizing road users' risk of injuries or fatalities.

HWI - Highway Infrastructure

This federal-aid funding category was established under The Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSAA), title IV of division M, Public Law (Pub. L.) 116-260, appropriated additional funds for Highway Infrastructure Programs (HIP), by geographic regions.

LTAP - Local Technical Assistance Program

Federal funds that are allocated for LTAP centers that provide information and training to local governments and agencies to foster a safe, efficient, and environmentally sound surface transportation system by improving skills and increasing knowledge of the transportation workforce and decision makers.

NEVFP – National Electric Vehicle Formula Program

This federal-aid funding category established under the Infrastructure Investment and Jobs Act (IIJA), provides funds for electric vehicle charging infrastructure and to establish an interconnected network to facilitate data collection, access, and reliability.

NHFP-HWY - National Highway Freight Program

As established by the FAST Act, the National Highway Freight Program provides funding to improve the efficient movement of freight on the National Highway Freight Network (NHFN). NHFP supports several goals, including: infrastructure and operational improvements that strengthen economic competitiveness, reduce congestion, reduce the cost of freight transportation, improve reliability, and increase productivity; improving the safety, security, efficiency, and resiliency of freight transportation in rural and urban areas; improving the state of good repair of the NHFN; using innovation and advanced technology to improve NHFN safety,

efficiency, and reliability; improving the efficiency and productivity of the NHFN; improving State flexibility to support multi-State corridor planning and address highway freight connectivity; and reducing the environmental impacts of freight movement on the NHFN.

NHPP - National Highway Performance Program

As established by MAP-21, the National Highway Performance Program provides support for the construction of new facilities on the National Highway System (NHS), the condition and performance of the NHS, and achieving performance targets, as set by that State's asset management plan.

OTHER

Funding provided from sources other than Federal and State, including, but not limited to, bi- state and autonomous authorities, private entities, and local governments.

OTHER-DVRPC

Funding provided directly to the MPO from sources other than Federal and State, including, but not limited to, bi- state and autonomous authorities, private and government entities.

FFP – PROTECT Formula Program

This federal-aid funding category established under the Infrastructure Investment and Jobs Act (IIJA), provides funds for planning, resilience improvements, community resilience and evacuation routes, and at-risk coastal infrastructure.

PL/PL-FTA - Planning

A federal-aid funding category that provides funds for the federally mandated transportation Planning process conducted within each Metropolitan Planning Organization.

RAISE – Rebuilding American Infrastructure with Sustainability and Equity

This federal funding category, awarded on a competitive basis, is a supplementary grant investing in projects that will complete critical freight and passenger transportation infrastructure projects.

RHC - Rail-Highway Grade Crossings Program

A federal funding category is intended to develop and implement safety improvement projects to reduce the number and severity of crashes at public highway-rail grade crossings. Eligible program activities include signing and pavement markings at crossings, active warning devices, crossing surface improvements, sight distance improvements, grade separations, and the closing and consolidation of crossings.

RTP - Recreational Trails Program

Provides grants to public agencies and non-profit organizations for a variety of trail projects. The NJ Department of Environmental Protection, Division of Parks and

Forestry, administers the program.

SPR/SPR-FTA - Statewide Planning and Research

Federal law requires that a percentage of the funds that are allocated to states for highway improvements be devoted to planning and research activities.

STATE

The "STATE" or "TTF" category is used to show the disposition of funding received from the New Jersey Transportation Trust Fund.

STBGP - Surface Transportation Block Grant Program

A federal funds category established under the Intermodal Surface Transportation Efficiency Act (ISTEA), which encompasses funding made available to areas delineated by geographic boundaries and/or population limits.

STBGP-OS-BRDG

This federal-aid funding category provides funds for the rehabilitation or replacement of bridges defined as structurally deficient and/or functionally obsolete according to federal definitions. This funding is used for bridges that are off the federal-aid system.

TA - Transportation Alternatives Program

Consolidates funding from FHWA's former Transportation Enhancements, Recreational Trails, and Safe Routes to School programs. MAP-21 eliminated the 10 percent set-aside under STBGP for "transportation enhancements" and replaced it with the "transportation alternatives" program. Provides funding for programs and projects defined as transportation alternatives, including on- and off-road pedestrian and bicycle facilities, infrastructure projects for improving non-driver access to public transportation and enhanced mobility, community improvement activities, and environmental mitigation; recreational trail program projects; safe routes to school projects; and projects for the planning, design or construction of boulevards and other roadways largely in the right-of-way of former Interstate System routes or other divided highways.

b. NJ TRANSIT FUNDING CATEGORIES

NJ Transit funding categories are generally indicated by reference to federal statutory categories and are identified as follows:

ASAP – All Stations Accessibility Program

Federal competitive funding to assist in the financing of capital projects to upgrade the accessibility of legacy rail fixed guideway public transportation systems for persons with disabilities, including those who use wheelchairs. Increase the number of existing (as of November 15, 2021) stations or facilities for passenger use that meet or exceed the standards for new construction under Title II of the Americans with Disabilities Act of 1990 (42 U.S.C. 12131 et seq.), as incorporated into Appendix A of 49 CFR Part 37. Eligibility is designated recipients that operate or allocate funds to inaccessible pre-ADA—or “legacy” — rail fixed guideway public transportation systems.

CASINO REVENUE

Annual allocation of 8.5% from the Casino Revenue Fund which is appropriated specifically for transportation services for senior citizen and disabled residents.

CMAO - Congestion Mitigation and Air Quality

This federal-aid funding category was established under ISTEA to provide funding for projects that improve air quality and/or relieve congestion without adding new highway capacity. These funds are especially targeted for states, like New Jersey, with serious air quality problems to help meet their Clean Air Act obligations.

MATCH

Local funds that are needed in order to receive a match in federal funding (Job Access and Reverse Commute (JARC) and SECT 5311).

METRO-NORTH

Funding received from the Metro-North Railroad of the New York Metropolitan Transportation Authority.

NJ TURNPIKE

Funding agreement with NJ Turnpike.

SECT 5307 – Section 5307

Under MAP-21, this program has been consolidated to include the JARC program (formally SECT 5316). Federal Transit Administration (FTA) Urbanized Area Formula Program, including funding for Transportation Enhancements (SECT 5307-TE), Transportation Alternatives Program (SECT 5307-TAP), and Associated Transit Improvements (SECT 5307-ATI).

SECT 5310 – Section 5310

Provides formula funding to increase the mobility of seniors and persons with disabilities. The former New Freedom Program (SECT 5317) was folded into this program.

SECT 5311 – Section 5311

Federal funding is provided for rural public transportation programs (formerly known as the Section 18 Program). JARC program funds are also eligible under the Rural Area Formula Program.

SECT 5337 – Section 5337

MAP-21 established a new formula-based State of Good Repair grant program dedicated to repairing and upgrading the nation's rail transit systems along with high-intensity motor bus systems that use high-occupancy vehicle lanes, including bus rapid transit (BRT). This program replaces the Fixed Guideway Modernization program (SECT 5309). Projects are limited to replacement and rehabilitation, or capital projects required to maintain public transportation systems in a state of good repair. Projects

must be included in a Transit Asset Management Plan to receive funding. The new formula comprises: (1) the former Fixed Guideway Modernization formula; (2) a new service-based formula; and (3) a new formula for buses on HOV lanes.

SECT 5339 – Section 5339

A formula grant program which replaces Section 5309. This capital program provides funding to replace, rehabilitate, and purchase buses and related equipment, and to construct bus-related facilities. Funds are eligible to be transferred by the state to supplement urban and rural formula grant programs (SECT 5307 and SECT 5311, respectively).

STATE

The "STATE" category is used to show the disposition of funding received from the New Jersey Transportation Trust Fund.

SECTION 5 METROPOLITAN PLANNING ORGANIZATIONS

Metropolitan Planning Organizations (MPOs) serve as the forum for cooperative transportation decision making for metropolitan planning areas as required by federal regulations. MPOs consist of representatives of state and local governments and major transportation agencies. There are three MPOs in New Jersey:

DVRPC - Delaware Valley Regional Planning Commission

The MPO covers the counties of Mercer, Burlington, Camden, and Gloucester.

NJTPA - North Jersey Transportation Planning Authority

The MPO covers the counties of Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Sussex, Union, and Warren.

SJTPO- South Jersey Transportation Planning Organization

The MPO covers the counties of Cape May, Atlantic, Cumberland, and Salem.
