New Jersey Department of Transportation Projects

ROUTE/PROGRAM	S3-M-2003	3/24/2003	Project ID No.	TIP No.
56	Maurice River Bridge Replacement		98356	98356

This project will provide for the replacement of the existing structure along the same alignment. The existing structure has one 12-foot travel lane, one 3-foot outside shoulder and one 6-foot sidewalk in each direction. There will be one 12-foot travel lane and one 10-foot shoulder in each direction. In addition, because of the close proximity of the structure to the Route 55/56 interchange, missing acceleration/deceleration lanes on Route 56 from and to Route 55 will be provided. Guiderail upgrades will be made in the immediate vicinity of the structure and will extend along the Route 55 southbound ramp to Route 56 westbound, as well as the Route 56 eastbound to Route 55 southbound ramp. This project will be designed to be bicycle/pedestrian compatible via use of the shoulder.
