Route 3, Hackensack River (eastbound and westbound) Rehabilitation

DB # 99417 UPC 994170 MILEPOST(S) 8.49 - 8.50
 COUNTY: Bergen Hudson MUNICIPALITY: East Rutherford Boro Secaucus Town

A design and construction contract is required to repair and slow the rate of deterioration to these structures. These bridges exhibit severe deterioration; if no significant repairs are initiated, the useful service life of these structures is compromised. Since the complete replacement of these structures is considered to be unfundable, it is recommended that this rehabilitation effort be undertaken. The rehabilitation design may likely result in more than one construction contract; however, at this time only one construction project is shown.

This project is multi-year funded under the provisions of Section 13 of P.L. 1995, c.108. Total construction funding needed is anticipated to be \$50.0 million.

Route 3, Park Avenue Bridge Replacement

DB # 799B UPC 078028

MILEPOST(S) 5.1 - 5.3

COUNTY: Bergen

MUNICIPALITY: Rutherford Boro Lyndhurst Twp.

This project proposes to replace the existing Park Avenue structure over Route 3 with a single span structure. Various ITS elements will be included in the design, including two dynamic message signs, cameras, and transmit readers to assist in future traffic operations.

Route 3, Passaic River Crossing

DB # 799 UPC 970173 MILEPOST(S) 3.83 - 6.36
 COUNTY: Bergen Passaic MUNICIPALITY: Rutherford Boro Lyndhurst Twp. Clifton City

The project focuses on the replacement of the Route 3 structure over the Passaic River. The Structural Inventory and Appraisal ratings indicate that the Passaic River structure is both structurally deficient and functionally obsolete. Combined with a sufficiency rating of 39.5, the structure has been placed on the Select List with the recommendation that the bridge be replaced.

In addition to the replacement of the Passaic River Bridge, the project also focuses on safety and operational improvements throughout the corridor. High traffic volumes combined with substandard geometry, lack of acceleration/deceleration lanes and shoulders have resulted in numerous accidents with high incidence of injury and congestion. The accident rate within the project limits is four times the statewide average. Route 3 at this location is the most congested freeway section in New Jersey.

The existing Route 3 structure and approaches consist of three travel lanes in each direction without shoulders. The proposed highway section will consist of three travel lanes in each direction with the addition of shoulders, acceleration lanes and deceleration lanes. In addition, collector-distributor roads will better facilitate local traffic.

This project is multi-year funded under the provisions of Section 13 of P.L. 1995, c.108. Total funding needed for construction is anticipated to be \$235.4 million.

Structure Numbers: 1601160, 1601161, 1601162, 1601163, 1601164, 0203151, 0203152, 0203153

Route 3, Route 46, Valley Road and Notch/Rifle Camp Road Interchange

DB # 059 UPC 950189 MILEPOST(S) Rt. 3: 0 - 0.50; Rt. 46: 59.2 - 60.3
 COUNTY: Passaic MUNICIPALITY: Little Falls Twp. West Paterson Boro Clifton Ci

From Notch/Rifle Camp Road to the Valley Road interchange, Route 46 will be widened to provide shoulders and acceleration/deceleration lanes. An express/local configuration will also be provided along eastbound Route 46. The Notch Road/Rifle Camp Road structure will be replaced and the ramp system will be reconstructed to form a full diamond interchange. Access is provided to Rt. 46 WB via an overpass at Clove Road.

At the intersection of Route 46 and Route 3, a three-lane section will replace the existing two-lane connections. Route 46 will be realigned to converge with Route 3 from the right (not from the left as presently exists). Complete interchange upgrades will be made. The project will require the removal of four structures and replacing them with five new bridge structures. Each of these structures will be designed to meet minimum vertical underclearance of 16 feet, 6 inches. Four culverts will be impacted as well.

Structure Numbers to be replaced: 1606172, 1607150, 1607151 (replace with two structures), 1606167; Culverts to be extended: 1606170, 1606171, 1606173; Culverts to be abandoned: 1606168, 1606169. This project is multi-year funded under the provisions of Section 13 of P.L. 1995, c.108. Total Federal aid needed is anticipated to be \$ 8.51 million for right of way.
 The following special Federal appropriation was allocated to this project. FY06 SAFETEA-LU, HPP, \$9,600,000 ,ID# NJ170,(available 20% per year).
