Route 206, Southbound Merge Improvements with I-287 Ramp

DB # 02372A UPC 023721
COUNTY: Somerset

MILEPOST(S): 24.14
MUNICIPALITY: Bridgewater Twp.

This project will construct an acceleration lane for Route 202/206 southbound at its merge with the exit ramp from I-287 southbound. The proposed acceleration lane would be approximately 550 feet in length with a 720-foot taper. It would require widening into the grass median along Route 202/206 southbound along with minor curb and drainage modifications. Advance signing is also proposed along I-287 southbound and Route 202/206 southbound at decision points prior to the merge with the intent of directing motorists with destinations along and off of Commons Way to use I-287 southbound so as to avoid the existing down weave movement from Route 202/206 southbound to Commons Way.

Route 287, Glaser's Pond, Long-term Drainage Improvements

DB # 02399 UPC 023990
 COUNTY: Bergen

MILEPOST(S): 67.00 - 68.00

MUNICIPALITY: Franklin Lakes Boro

NJDOT constructed a new outfall into the private pond for the I-287 drainage system. During the construction of I-287, runoff and sediment were conveyed by the drainage system into the pond. The property owners have stated that the pipe system conveys sediment and garbage to the pond and results in the flooding of private property. A study for a long-term solution to this problem as well as other drainage issues in this vicinity will be required. Not ranked in Drainage Management System.
