**Ocean Drive (CR 619), 62nd Street to 80th Street**

**DBNUM: S1710 / UPC: 173700**

The project consists of milling and resurfacing 0.96 mile section of County Road No. 619. Cross slopes of the asphalt pavement will be made compliant with AAHSTO standards. The curb ramps at each intersection with sidewalks will be brought into compliance with ADA requirements. Long life pavement stripes and markings will be installed upon completion of the paving. Additional stormwater drainage facilities will be provided to reduce the spread of ponding water in the gutter. Stormwater management and bicycle compliant grates and frames will be installed on existing catch basins.

**Third Avenue (CR 619), 96th Street (CR 657) to 80th Street**

*DBNUM: S1910 / UPC: 193450*

The project will involve the replacement of the existing curbs, gutters, and sidewalks along with handicap access upgrades. The existing paving will be replaced with a new 7 1/2" thick bituminous surface. The existing roadway grade and cross slopes will be upgraded to conform to current standards, and drainage will be upgraded to accommodate the 10 year storm event. High visibility traffic stripes and markings will be installed, as will pedestrian crosswalks and cross walk safety features. The project is needed in order to restore the roadway to current engineering standards. County Road 619 is an evacuation route leading to the only non-load posted causeway off of this barrier island in the event of an emergency. Numerous storm events, in addition to constant wear, have created the need to restore and upgrade this section of critical road infrastructure. In addition, the roadway serves as a primary pedestrian connector to the municipal streets and serves as a vital commercial corridor for the influx of tourists at this resort island. This has increased the need for upgraded pedestrian crossings and traffic safety measures.
