ADA Improvements, Contract 1

DBNUM: D1505A / UPC: 203320

This project will continue the complete reconstruction of existing or construction of new ADA compliant sidewalk, curb ramps, and associated structures at approximately 400 various locations in the City of Camden. Crosswalks will be constructed as required or appropriate to connect opposite ADA compliant ramps at street intersections.

Camden County Bus Purchase

DBNUM: D0601 / UPC: 068082

In the DVRPC region, a combination of fixed route, subscription, and demand responsive transit services are provided in Camden County by Sen-Han Transit and South Jersey Transportation Authority (SJTA). A variety of trip purposes are served by these special transit providers including employment, non-emergency medical, nutrition, personal business, and shopping trips. This project provides funds for purchasing new capital equipment, usually lift-equipped vehicles.

Camden County LINK Trail

DBNUM: D2403 / UPC: 243340

This project will construct a 12' wide paved, all ages and abilities shared-use path which will act as the centerpiece of the County's eventual 550 mile bicycle and trail network. The LINK will begin at the recently completed Benjamin Franklin Bridge bicycle/pedestrian ramp in the City of Camden, extend through 16 suburban municipalities, and end in the Winslow Wildlife Management Area at the Gloucester County line. The proposed trail, which is intended for both transportation and recreational use, will provide an economic stimulus to Camden County; will connect dense and diverse populations to numerous communities, businesses, employment opportunities, parks and open spaces; and will bisect the urban, suburban, and rural transect of the county.

Erial Rd and College Drive Intersection

DBNUM: D2204 / UPC: 223030

This project consists of improvements to the intersection to reduce the high crash rate at the signalized intersection and allow it to operate in a safe, usable manner for all modes of transportation, including pedestrian and non-motorized modes, by improving traffic flow through the area. The intersection improvements consist of widening the intersection approaches in order to provide additional lanes for turning movements and through traffic. An additional dedicated left turn lane will be provided for both the NW bound and NE bound approaches. Additionally, the intersection will be improved with better striping and pavement markings to properly channelize and guide motorists through the intersection. Further, a multi-use path for pedestrians and bicyclists will be provided along the northern side of the intersection and its approaches to advance Camden County’s multimodal transportation initiatives.

Kaighn Avenue (CR 607), Bridge over Cooper River (Roadway and Bridge Improvements)

DBNUM: D1709 / UPC: 174000

The project will make roadway improvements to Kaighn Ave. (CR 607) from Euclid St. to North Park Dr. (CR 628) and include complete bridge replacement of the Kaighn Ave. Bridge. These improvements will decrease travel time, alleviate flooding, reduce annual maintenance costs and provide for a multi-modal connection to The Circuit, Greater Philadelphia's Regional Trail Network.

Kaighn Avenue is a heavily traveled regionally significant corridor that transects the Parkside Neighborhood of Camden City and is prone to tidal flooding and plagued by road closings during regular rainfall and high tide events. Flooding is the result of a 40 year old hurricane event that breached a nearby earthen dam and subsequently allows the Cooper River to inundate a low lying area of Farnham Park which is directly adjacent to a 1/3 mile stretch of Kaighn Avenue. Road closing events due to flooding number between 15 – 18 times annually. In addition, the vertical alignment of Kaighn Avenue, as a result of topography, plays a role in the continued flooding. Over time high tides and regular rain fall have led to total washout, undermining the road structure and severe ice wedging. Non-motorized transportation challenges include the sidewalk and multiuse trail being in severe disrepair or continually washed out. This trail provides access to Farnham Park and The Circuit connecting users to Philadelphia and the regions trail.

New Jersey Regional Signal Retiming Initiative

DBNUM: D1601 / UPC: 163170

This project reduces congestion and improves air quality by optimizing progression on signalized 500 and 600 routes in DVRPC’s New Jersey counties. These improvements are designed to enhance mobility and promote integrated corridor management strategies. Corridors will be selected by representatives of DVRPC member governments, DVRPC, and NJDOT, with reference to the current Regional Transportation Operations Master Plan and other appropriate data. After obtaining supportive MOUs from signal owner-operators along a selected corridor, signal timing plans will be developed and implemented by consultants to DVRPC for peak hour, off-peak, weekend, event, and emergency operations, as appropriate. After implementation, signal system owner-operators will be responsible for maintaining the timing plan and implementing related physical improvements, if recommended

Route 42 and Atlantic City Expressway (ACE) widening

DBNUM: 25380 / UPC: 253800

To improve the overall traffic operations and general safety, the South Jersey Transportation Authority (SJTA) is advancing design of the widening of the Atlantic City Expressway (ACE). The project will add a third lane in each direction from milepost (MP) 31.6 (Interchange 31) to the western terminus at State Route 42 MP 44.2 (Interchange 44) in Washington Township, Gloucester County, and Gloucester and Winslow Township, Camden County. In coordination with the NJDOT, the SJTA will also be constructing the extension of an additional North bound lane between Exit 7 (Sicklerville Road) and Exit 7B (College Drive) on Route 42. The project will also replace the superstructure of the Sicklerville Road Overpass structure to increase the vertical clearance on Sicklerville Road. Upon the completion of this project, the entire ACE corridor will be a continuous third-lane section. The project will include the improvement of two mainline bridges over Route 42 and two mainline bridges over the Great Egg Harbor River, and the widening of the Rt 42 Bridge over Sicklerville Road.

The project will provide operational and safety improvements for future travelers while aiming to minimize environmental, right-of-way, and structural impacts.

Route 295/42/I-76, Direct Connection, Contract 3

DBNUM: 355D / UPC: 113020

This project relieves the existing bottleneck at the interchange by constructing a direct connection on I-295 and other highway improvements that will reduce congestion and enhance traffic operations and safety throughout the project area. The improvements include a six lane mainline through the interchange, elimination of dangerous merging and weaving movements, upgrades to ramp geometry and the addition of shoulders throughout the interchange. Contract 3 will include the completion of the new I-295 North bound and Southbound structures over I-76, Route 42, Ramps C and E, and Browning Road; the new Ramp A (Route 42 Northbound to I-295 Northbound) bridge will be completed under this contract along with a portion of Ramp F (I-76 Eastbound to I-295 Southbound); and the new I-295 Southbound direct connection and Ramp A will be opened to traffic upon completion of this contract. Contract 3 is a breakout of "Route 295/42/I-76, Direct Connection, Camden County".
