The existing surface from Route 83 to CR 628 is in need of resurfacing as it is over 25 years old. The road surface is rated as fair to poor on the 2019 PCI pavement assessment. The roadway services numerous container trash trucks in route to the CMCMA landfill. It also services numerous residences along the road including subdivisions. The roadway connects to existing seasonal campgrounds and a bicycle path that is part of the countywide network. The road is seeing more bicycle and pedestrian use due to the completion of the bike path. It also provides access to two golf courses that form a portion of the tourist economy. The roadway provides a connection to both Sea Isle and Avalon barrier islands to the central part of the county and an eventual link to Route 55.

Roosevelt Boulevard (CR 623) (DBNUM: S2312; UPC: 233270) County: Cape May													
Roosevelt Boulevard is one of two routes servicing Ocean City that can accommodate legal truck loadings. It is the most travelled connector to the business district and southern portion of the island. It also has direct access to the Garden State Parkway and Route 9. Roosevelt Boulevard is the key corridor for tourist access to Ocean City, the busiest tourist destiny in Cape May county and consistently ranked as one of the premiere resorts in the nation. The corridor also serves as a critical evacuation route. The roadway is in need of reconstruction as the underlying concrete sub base has heaved and the asphalt overlay has buckled. In addition, the roadway needs to be elevated in order to provide resiliency against nuisance flooding and potential sea level rise. The work that is proposed is the removal of the existing sub base concrete and replacement with DGA, and the milling and resurfacing of the roadway with a new 7 1/2" paving section so that the proposed grade can be elevated approximately 12" above the existing elevation. This project is being proposed in concert with another project, the raising of the easterly portion of 34th Street as part of a joint venture between the County and City. The expectation is that the roadway will be elevated approximately 12" to provide for added evacuation serviceability while not adversely impacting business access. The roadway is also of critical importance as it is listed a an NHS route. The roadway is classified as a Rural Principal Collector.
