

FY 2005 TRANSPORTATION CAPITAL PROGRAM

New Jersey Department of Transportation Projects

<i>ROUTE/PROGRAM</i>	<i>Project ID Number</i>
Access Management	X153

This is the Department's share of funding for highway improvement projects advanced as a result of development and redevelopment. These funds are to be used when the fair share financial contributions obtained from a developer pursuant to N.J.S.A. 27:7-91h are insufficient to implement the improvement. These improvements will encourage economic development and help create jobs.

<i>ROUTE/PROGRAM</i>	<i>Project ID Number</i>
Access Permit Application Review	X166

The Department of Transportation has traditionally used consultants to assist in the review of access applications and on occasion to participate in the permit process to a greater extent. The Department has insufficient personnel to perform all of the work required within the time frames established by the Commissioner, law, and regulation. The timely issuance of access permits helps the State's economy by saving developers' carrying costs.

GEOGIS Soil Boring Management System	03302

The Department will complete the development of the GIS Geotechnical Database for the Soil Boring Management System. This effort will be federally funded. A pilot soil boring management system included approximately 250 soil boring logs and their associated soil boring location maps. There are approximately 60,000 hard copy soil boring logs and 1,000 soil boring location plans that remain to be processed. In addition, the remainder of the effort would include the ability to process digital soil boring location plans and soil logs directly from the soil boring contractors and add them to the system. The soil boring logs will be referenced in the State's GIS through GPS coordinates. The completed Soil Boring Management System will require an ongoing data entry of new soil boring logs and soil boring location maps.

Local CMAQ Initiatives	X065

Under the guidance of the Metropolitan Planning Organizations, local projects will be developed that will enhance air quality. The Congestion Mitigation and Air Quality Improvement Program (CMAQ) was established by ISTEA and is continued under TEA-21. CMAQ funds are allocated to the states for use in non-attainment and maintenance areas for projects that contribute to the attainment of the Clean Air Act standards by reducing emissions from highway sources.

FY 2005 TRANSPORTATION CAPITAL PROGRAM

New Jersey Department of Transportation Projects

<i>ROUTE/PROGRAM</i>	<i>Project ID Number</i>
TRANSCOM/Project Funding	00376

TRANSCOM, a multi-agency coalition of operating transportation agencies in the metropolitan New York area, is deploying an Automatic Vehicle Identification (AVI) system, known as TRANSMIT, for traffic management and surveillance applications. TRANSMIT offers the ability to use vehicles equipped with EZ-Pass transponders to serve as vehicle probes within the traffic stream for traffic surveillance purposes. It requires the installation of readers (small 3-foot antennae) with the capability of identifying the vehicles equipped with EZ-Pass transponders, and measuring travel speeds at periodic intervals along the roadway.

Phase I and II were previously installed on major highways, mainly within New York state, through federal earmark money, and has successfully provided a surveillance system capable of detecting incidents. Phase III expands the system in New Jersey along Route 287, the New Jersey Turnpike, and the Garden State Parkway. The benefits of the system include the ability to track incidents for quick response, and provide real-time information to travelers over variable message signs and various media sources.

The FY 2002 federal appropriations provides \$2,500,000 from Intelligent Transportation Systems funds for this project. The Federal FY 2003 Section 330 Demonstration program provided funding in the amount of \$400,000. The Federal FY 2004 ITS program provided funding in the amount of \$500,000.
