

FY 2007 TRANSPORTATION CAPITAL PROGRAM

New Jersey Department of Transportation Projects

<i>PROGRAM/PROJECT NAME</i>	<i>Project ID Number</i>
Atlantic City Medical Center Heliport	05344

The City Division of the Atlantic City Medical Center is planning an addition that will include a rooftop emergency heliport. The heliport project will include construction of a new rooftop emergency medical heliport and structures related to the heliport.

This project is funded under the provisions of Section 13 of P.L. 1995, c.108. This is a multi-year funded Transportation Trust Fund construction project. Total Transportation Trust Fund needed for construction is anticipated to be \$3,200,000. This project was originally authorized in FY 2006.

FY 2007 TRANSPORTATION CAPITAL PROGRAM

New Jersey Department of Transportation Projects

<i>PROGRAM/PROJECT NAME</i>	<i>Project ID Number</i>
Delilah Road Bridges over Route 30, Railroad and Water Mains, CR 646	98323

This project will provide for the replacement of three structures on the existing alignment along with approach roadway profile improvements, and geometric improvements to Route 30 between mileposts 54 - 54.3. No additional lanes are proposed. The typical section for Delilah Road will include one 12-foot lane and one 10-foot shoulder in each direction.

This project is funded under the provisions of Section 13 of P.L. 1995, c.108. This is a multi-year funded Federal-aid construction project. Total Federal-aid needed for construction is anticipated to be \$32,493,000.

FY 2007 TRANSPORTATION CAPITAL PROGRAM

New Jersey Department of Transportation Projects

<i>PROGRAM/PROJECT NAME</i>	<i>Project ID Number</i>
Eighth Street Bridge over Hospitality Branch	S0615

This project will provide for the replacement of the existing 60-foot, single-panel riveted Warren pony truss structure on Eighth Street over Hospitality Branch approximately 850 feet southwest of Route 322. This structure was built in 1908 on Wheat Road in Folsom Borough and moved to its present location in 1937. The existing bridge carries a single lane with two-way traffic and is considered to be both structurally deficient and functionally obsolete. The replacement structure will be comprised of concrete abutments founded on pilings, prestressed concrete beams, high-performance concrete deck, concrete parapets with bicycle compatible metal railing, and aesthetic treatments for context sensitive design. The new bridge will include one 12-foot lane and one 4-foot shoulder in each direction, for a total curb-to-curb width of 32 feet. The new bridge will be both pedestrian and bicycle compatible.

<i>PROGRAM/PROJECT NAME</i>	<i>Project ID Number</i>
Route 9, Northfield Sidewalk Replacement	S0103A

The roadway consists of two 12-foot travel lanes and variable (five to eight foot) width shoulders. Concrete curbing and sidewalks are provided adjacent to the roadway intermittently throughout the project limits. This project will connect the sidewalks and provide missing curbing throughout the project limits. The sidewalks will be constructed from porous pavement.

FY 2007 TRANSPORTATION CAPITAL PROGRAM

New Jersey Department of Transportation Projects

<i>PROGRAM/PROJECT NAME</i>	<i>Project ID Number</i>
Route 50, Tuckahoe River Bridge (2E 3B)	242

The existing bascule bridge carries two 10-foot travel lanes and a 10-foot shoulder. The replacement will be a fixed structure with a nine-foot, six-inch vertical clearance from Mean High Water Level on the same alignment. The new structure will have two 12-foot travel lanes and 6-foot shoulders, as well as a six-foot sidewalk on the northbound side of the bridge. A temporary structure will be constructed next to the existing structure to maintain traffic during construction. Additional roadway improvements will include signaling the Route 50 and Route 49 intersection as well as providing a 15-foot through lane and 12-foot left-turn lane northbound and a 12-foot through lane and 15-foot right-turn lane southbound. The intersection of Route 50 and Tuckahoe-Mount Pleasant Road will be reconfigured to allow for one-way operation of Tuckahoe-Mount Pleasant Road only. Traffic wishing to access Route 50 will be able to gain safer access to the highway through the reconstructed Marshall Avenue and Kendall Lane intersections. This project will be designed to be bicycle/pedestrian compatible.

This project is funded under the provisions of Section 13 of P.L. 1995, c.108. This is a multi-year funded Federal-aid construction project. Total Federal-aid needed for construction is anticipated to be \$12,640,000.

The following Federal appropriations were allocated to this project. FY06 SAFETEA-LU/HPP \$3,200,000 (available 20% per year)

<i>PROGRAM/PROJECT NAME</i>	<i>Project ID Number</i>
Route 87, Absecon Inlet, Bridge Painting	06329

The existing paint system on this 2,148 foot bridge has completely deteriorated. Given the extreme environmental setting (salt air) of this bridge, immediate repainting is required to halt the progressive nature of corrosion. Significant steel repair costs may be incurred if the repainting of this bridge is not immediately initiated.
