Reminder: Pulaski Skyway full closure this weekend to set up traffic to shift to the northbound lanes next week

(Trenton) – New Jersey Department of Transportation (NJDOT) officials today are reminding motorists that the Pulaski Skyway will be closed in both directions this weekend to set up a crossover onto a portion of the newly completed northbound lanes that will begin on Monday, April 4.

In order to establish the crossover, NJDOT's contractor, CCA Civil Inc., is scheduled to close the Skyway in both directions beginning at 11 p.m. tonight, Friday, April 1 through 5 a.m. Monday, April 4 at the off-ramp to I-280/Route 7 and Route 1&9 southbound.

The full closure includes most on and off ramps, including the southbound on ramp from Tonnele Circle. The ramp from the Route 139 westbound to I-280/Route 7 and Route 1&9 southbound will remain open. NJDOT has created a [video](#) that shows options for alternate routes to help motorists navigate the closures, which can be found on the [NJDOT YouTube channel](#).

The following detours will be in place:

Southbound Traffic (toward Newark):

Leaving the Holland Tunnel, motorists will have the following options:

- Stay to the far right and take the NJ Turnpike-Hudson County Extension to all destinations west and south, including I-78.
- Stay to the left and follow signs for Route 139 West, then stay left to Route 1&9 Truck southbound towards Newark, Route 7 and I-280.
- Motorists should avoid the ramp from Route 139/Covered Roadway that leads into the Tonnele Circle because of expected heavy congestion.

Local Traffic for Jersey City:

- Stay to the middle to take Route 139 Upper Roadway and follow signs to Kennedy Boulevard/Jersey City, to best access many local Jersey City locations and other points north (Secaucus).

Northbound Traffic (toward Jersey City):

Northbound traffic will continue to utilize the same Skyway alternate routes that have been in effect since the northbound lanes were closed last year:

- NJ Turnpike-Hudson County Extension
- Route 1&9 Truck northbound
- Communipaw Avenue to access local Jersey City Locations.

Crossover to the northbound lanes starting Monday

Beginning Monday morning, southbound traffic will be shifted to the northbound lanes in two places – the first shift will take place before the Broadway Ramp and continue to just before the bridge span over the Hackensack River where traffic will be shifted back to the southbound lanes. The second shift will move traffic from the southbound lanes back to the newly constructed northbound lanes just past the Passaic River span through the end of the Skyway where traffic will merge back onto Route 1&9 southbound.

Motorists are reminded to slow down and use caution as they get accustomed to the new traffic pattern.

NJDOT has created [a video that shows the crossover](#) to help motorists navigate the traffic shift, which can be found on the [NJDOT YouTube channel](#). As more of the northbound lanes are completed, additional traffic shifts will be implemented.

Raymond Boulevard Exit Closure

In conjunction with the second crossover at the west end of the Skyway, the Raymond Boulevard exit in Newark will be closed for the duration of the project. The following detour will be in place:

Raymond Boulevard Exit Detour

Southbound Skyway traffic will continue on Route 1&9 southbound to the Wilson Avenue Exit. Motorists will need to be in the local lanes and then take Wilson Avenue eastbound past the New Jersey Turnpike to Doremus Avenue northbound to Raymond Boulevard.

NJDOT created a project-specific website - www.pulaskiskyway.com - which contains a wealth of information about the Skyway and the project, and will be updated with relevant new information as work progresses. The Department is carefully coordinating the Pulaski Skyway project with other regional transportation infrastructure projects to minimize traffic congestion.

The Department has a project hotline telephone number, 973-776-7400, and email, Pulaski.Skyway@dot.nj.gov. Anyone who has questions, concerns, or suggestions is encouraged to contact the Project Outreach Team as work progresses.

NJDOT will be using Variable Message Signs to provide advance notification to motorists of traffic pattern changes associated with the work. Follow us on Twitter @Skywayrehab and visit www.511nj.org for travel advisories.
