8TH HOLE FROM THE TOP

TYPE 1 SOIL ANCHOR PLATE

TYPE 1 STEEL U-POST

This technical drawing shows a side view of a Type 1 Soil Anchor Plate. The plate is a vertical rectangular section with a total height of 3 feet 6 inches. It features a series of 3/8 inch diameter holes spaced 1 inch apart. A specific hole is identified as the 8th hole from the top. The plate is designed to be attached to a Type 1 Steel U-Post, which is shown as a vertical channel section at the bottom. The drawing includes dimension lines and leader lines pointing to the specified features.
