DATE: July 23, 2025**PROJECT NAME:** NJDOT Long-Life Pavement Marking/Raised Pavement Markers**Documents Received:** Application received June 25, 2025.

The Delaware and Raritan Canal Commission has reviewed the referenced application for a General Permit authorization pursuant to the requirements of the Regulations for the Review Zone of the Delaware and Raritan Canal State Park at N.J.A.C. 7:45-6.2. The proposed project is authorized by General Permit No. 1, which authorizes projects in Zone A that are necessary to carry out the repair, rehabilitation, maintenance or reconstruction of a structure, road, utility line, or stormwater management measure or basin lawfully existing prior to January 1980 or approved under this Chapter by the Commission.

The project authorized under this general permit shall not be put to any use other than as specified in any approval authorizing its original construction. Projects authorized under the general permit shall not visibly change, expand, widen or deepen the feature, and shall not deviate from any plans of any prior project approvals, except for minor deviations due to changes in materials or construction techniques. Any such deviations must be shown as necessary to fulfill the purpose of the proposed project and must be consistent with the Master Plan.

Description of the authorized project: The NJDOT proposes to install long-life pavement markings, which are thermoplastic lane markings that contain embedded glass beads, which are more durable and better at reflecting headlights than traditional highway paint, and raised pavement markers, which are devices embedded in the roadway that enhance visibility by retroreflecting automotive headlights, at the above referenced sections of two highways.

The project would not result in the creation of any new impervious surface coverage, or disturb any land.

Permit Conditions: The project allowed by this authorization shall comply with the following conditions. Failure to comply with these conditions shall constitute a violation of the “Delaware and Raritan Canal State Park Law of 1974” (N.J.S.A. 13:13A-1 et seq.).

1. This authorization is valid for five years from the date of this letter unless more stringent standards are adopted by rules prior to this date.
2. The project as described shall be constructed and/or executed in conformity with the application.
3. No change in plans or specifications shall be made except with prior written permission from the Commission.
4. The permittee shall allow the Commission the right to inspect the construction site and shall provide the Commission with written notification seven days prior to the start of the authorized work.
5. A complete, legible copy of this permit shall be kept at the work site and shall be exhibited upon request of any person.
6. The issuance of this permit shall not be deemed to affect in any way other actions by the Commission on any future application.

DRCC#: 25-6280

3

DATE: July 23, 2025

PROJECT NAME: NJDOT Long-Life Pavement Marking/Raised Pavement Markers

Expiration Date: July 23, 2030.

Appeal of Decision: In accordance with N.J.A.C. 7:45- 7.1, any person who is aggrieved by this decision may request a hearing within 30 days of the date of decision.

If you have any questions regarding this authorization, please contact the Commission at (609) 397-2000 and reference the above file number.

Sincerely,

A handwritten signature in black ink, appearing to read "John Hutchison", with a long horizontal flourish extending to the right.

John Hutchison
Executive Director
