SECTION II	SUBSECTION C	DATE
PROJECT SCOPING TO CONTRACT AWARD	ENVIRONMENTAL PERMIT REVIEW	08/07/2012

Permit Application Review

Prior to submittal of a permit application to a permitting agency, the Bureau of Landscape Architecture and Environmental Solutions (BLAES) will submit the permit plans and applicable scheduling/staging documents to the Bureau of Construction Management (BCM) for review. The BCM will review the submission for constructability regarding the anticipated permit restrictions and the scheduling/staging documents. The BCM will provide a memorandum stating if the project is constructible or if not, the reasons it is not, to the Manager of the BLAES.
