Baseline Document Change Announcement

Working Drawings Manual, 2012

BDC12T-07

June 11, 2012

SUBJECT: Release of the *Working Drawings Manual, 2012*

It has been brought to our attention that the Implementation Code stated on the BDC Announcement, Revision to the Working Drawings Procedure, dated December 7, 2011 has raised some concerns regarding its intent. In order to resolve this issue, the BDC Announcement dated December 7, 2011 is hereby superseded by this Announcement (dated June 11, 2012).

The Working Drawings Manual, 2012 released hereby contains revised submittals for moveable bridges, and changes to the number of copies to the various units.

The following announcements are hereby superseded: BDC11T-03, dated December 7, 2011 entitled "Revision of the *Working Drawings Procedure*", and BDC05T-03, dated May 16, 2005, entitled "Release of Procedure for Processing Working Drawings".

Implementation Code S (SPECIAL)

Changes must be implemented immediately in all applicable Department projects requiring processing of Working Drawings as stated in the Baseline Document Change Announcement, and the Workings Drawings Manual, 2012.
