LARGE TRUCK MAP

Legend :

Designated Travel Routes For 102-inch Wide Trucks and Double-Trailer Truck Combinations

- N.J. Access Network
- National Network
- Trucks Prohibited

The large truck route designations depicted in this map are for illustrative purposes and pertain to permissible widths only. A complete description of the Large Truck Networks and the proposed applicable restrictions may be found in the New Jersey Access Code at N.J.A.C. 16:32.

Note: Designation within the regulations and/ or as depicted on the map does not always guarantee free movement of all double-trailer truck combinations and 102-inch wide standard trucks on a road. Some double-trailer truck combinations and 102-inch wide standard truck movements may be restricted on a route because of route or bridge weight restrictions and/or vertical clearance restrictions.
