State Highways are generally in good condition, but the storm is not over and crews are still working. If you don't have to go out today, please stay home. If you have to go out, motorists should continue to use extreme caution and drive carefully as there could be slippery roadways.

Our crews will continue to work through the day to make sure roads are in good condition for the morning commute tomorrow.

If you must drive today, remember to clear snow and ice from your vehicle before you drive, plan extra travel time, and maintain a safe following distance from other vehicles. Stay clear of plows, spreaders and emergency responders so they are able to do their jobs safely.

NJDOT will be using Variable Message Signs throughout the storm to provide updates. For winter weather and preparedness updates, motorists are encouraged to check the New Jersey Office of Emergency Management's website, www.Ready.NJ.gov and NJDOT's traffic information website www.511nj.org for real-time travel information.
