## **I-295 southbound lane and ramp closures at Exit 34/Route 70 required for emergency bridge repairs in Cherry Hill Closures will continue through the evening commute**

**(Trenton)** – New Jersey Department of Transportation (NJDOT) officials today announced lane and ramp closures on I-295 southbound and the Exit 34/Route 70 interchange for emergency bridge repairs in Cherry Hill, Burlington County.

Beginning at approximately 9 a.m. this morning, NJDOT's contractor, I.E.W. Construction Group, closed the entrance ramp from Route 70 westbound to I-295 southbound. The two right lanes on I-295 southbound also were closed near Exit 34. These closures will allow the contractor to replace damaged expansion joints on the bridge carrying I-295 southbound over Route 70.

At least one lane of I-295 southbound traffic will be maintained. The closures are anticipated to continue through the evening commute. Motorists are advised to follow the signed detours and to expect delays.

The precise timing of the work is subject to change due to weather or other factors. Motorists are encouraged to check NJDOT's traffic information website [www.511nj.org](http://www.511nj.org) for construction updates and real-time travel information.
