Route 20 daytime lane and shoulder closures tomorrow as safety, drainage, and resurfacing project advances in Passaic County Shoulder closures will remain in place for approximately two weeks

(Trenton) – Route 20 lane and shoulder closures are scheduled to begin tomorrow as the Route 20 Paterson Safety, Drainage, and Resurfacing project advances in Clifton and Paterson, Passaic County.

From 9 a.m. until 3 p.m. tomorrow, Friday, May 19, **the right lane on Route 20 northbound** is scheduled to be closed between the ramp to Route 46 eastbound/Elmwood Park in Clifton and just after the Crooks Avenue overpass in Paterson.

In addition, at the same times, **the right lane on Route 20 southbound** is scheduled to be closed between just after the ramp to Route 46 eastbound/Crooks Avenue/Garden State Parkway and the Route 46 westbound ramp overpass. The closures are necessary to set up construction barrier in the right shoulders for bridge parapet work. The shoulders are expected to remain closed for approximately two weeks.

The \$48.5 million federally-funded Route 20 Paterson Safety, Drainage, and Resurfacing project will make upgrades and repairs along approximately five miles of Route 20 in Clifton and Paterson, Passaic County. In addition to drainage improvements, the project will include repaving, guiderail replacement, lighting and overhead sign installation, and upgrades to traffic signals, curbs and sidewalks. The project is expected to be completed by the fall of 2025.

The precise timing of the work is subject to change due to weather or other factors. Motorists are encouraged to check NJDOT's traffic information website www.511nj.org for construction updates and real-time travel information.
