**NJDOT and NJ TRANSIT Seek Public Input for KEEP IT MOVING NJ!  
the 2050 Statewide Long-Range Transportation Plan  
Plan looks at future of transportation for the next 25 years**

**(Trenton)** - The New Jersey Department of Transportation (NJDOT) and NJ TRANSIT want to hear from you! Share your thoughts by completing the KEEP IT MOVING NJ! survey [here](#).

NJDOT and NJ TRANSIT are excited to announce the development of the 2050 Statewide Long-Range Transportation Plan, KEEP IT MOVING NJ! This plan aims to look 25 years ahead to enhance public transit, improve road infrastructure, and expand options for walking, biking, and other forms of active transportation.

“Transportation is essential to New Jersey’s daily life, connecting communities, supporting the economy, and improving quality of life for its over nine million residents. NJDOT is committed to creating a transportation system that meets the needs of all New Jerseyans, now and in the future,” said NJDOT Commissioner Francis O’Connor. “KEEP IT MOVING NJ! is an opportunity for everyone to have a say in shaping our state’s transportation landscape. We encourage all residents and travelers to share their insights through our survey and help us build a better-connected New Jersey.”

KEEP IT MOVING NJ! is a forward-looking initiative designed to tackle New Jersey’s current and future transportation needs. The plan will cover all forms of transportation, including public transit, walking, biking, rail, roadways, waterways, and air travel.

Public input is a key component of KEEP IT MOVING NJ! which will be shaped with feedback from those who live, work, and travel in New Jersey. Throughout the process, there will be numerous opportunities, in-person and online, for the public to share their transportation experiences, needs, and thoughts on the plan’s recommendations.

As part of these outreach efforts, NJDOT and NJ TRANSIT have launched an interactive survey to gather input from those who live, work, travel, and play in New Jersey. Visit [bit.ly/NJ2050](https://bit.ly/NJ2050) to participate in the survey and contribute to KEEP IT MOVING NJ!
