

9.0 QUALIFICATIONS OF PREPARERS

Christine Tiernan - Environmental Manager

MA - Limnology/Oceanography - Western Connecticut State University, 1997

BA - Environmental Studies - SUNY, Binghamton, 1986

14 years experience in environmental impact statements, environmental assessments, wetland delineations, impacts and mitigation, site feasibility studies, master planning, threatened and endangered species investigations, wildlife mitigation plans, vegetation surveys and environmental permitting at the local, state and federal levels.

Leslie Roche -Principal Environmental Planner

BA - Anthropology - Drew University, 1982

16 years experience in environmental assessment and analysis, environmental impact statement preparation in accordance with federal and state NEPA requirements, technical studies including wetlands, air quality, and noise, federal and multi-state environmental permitting, public involvement programs, information centers, forums, public meetings, and advisory committees.

Eileen Flarity-Loftus - Senior Environmental Scientist

MA, Environmental Science, Montclair State University, 1997.

BA, Environmental Studies, Montclair State College, 1986.

14 years experience in wetland delineations, impacts and mitigation, site condition analyses, environmental impact statements, environmental assessments, environmental permitting on the local, state and federal levels, threatened and endangered species investigations, natural resource inventories, and site feasibility studies.

Michael Muller - Senior Environmental Scientist

BS, Environmental Planning and Design, Cook College, Rutgers University, 1989.

11 years experience in wetland delineations, impact assessment, mitigation, permitting (local, State, Federal), site feasibility studies, environmental assessments, environmental impact statements, threatened and endangered species surveys, habitat evaluation analysis, and natural resource inventories.

Michael J. Folli - Environmental Scientist

BS, Environmental Science, Cook College, Rutgers University, 1995.

Minor, Natural Resource Management, Cook College, Rutgers University, 1995.

2 years experience in wetland delineations, environmental assessment/impact statements, water quality analysis, environmental permitting, soil and root profiles, vegetative restoration, ecological research, and GIS analysis.
