

*THRIVE (Wellness ERG) has launched the “**Letters of Hope**” initiative, a collection of original works including poetry, artwork, and letters. Each piece shares a unique story of courage, awareness, and hope. Contributors offer personal experiences, creating a powerful narrative about the impact of breast cancer on our lives.*

The purpose of “Letters of Hope” is to raise awareness about breast cancer, offer support to those affected by the disease, encourage continued strength, and inspire others to express themselves through creativity — whether through words or art.

This initiative highlights the importance of community, creativity, and resilience in the face of challenges.
