IV. GENERAL INFORMATION

The DOI was created by the New Jersey Legislature in 1950. An important objective of the statute creating the DOI was to centralize all functions relating to purchases, sales or exchanges of securities for the State's diverse funds under experienced and professional management.

As of December 31, 2019, total assets under DOI management totaled approximately \$93.1 billion (unaudited), which is comprised of the State's Pension Funds, Cash Management Fund, and various other funds. The DOI manages the assets of certain pension funds through the use of common trust

funds, including the State of New Jersey Common Pension Fund D, a common trust fund which invests in global equities and fixed income securities.

State law created the State Investment Council (“the Council”) and the Board of Trustees of the Police and Firemen’s Retirement System of New Jersey (the “Board”) to formulate policies governing the investment of funds by the Director of DOI, and to consult with the Director with respect to the work of the Division. New regulations adopted by the Council and the Board are filed with the Office of Administrative Law and published in the New Jersey Register for public comment prior to adoption.

Implementation of investment policies is vested in the Director of the DOI. The Director is subject to the standards of prudent investment set forth in N.J.S.A. 52:18A-89.

The legal entities that will invest in the Taiwan securities market are: the State of New Jersey Common Pension Fund D and the State of NJ Police & Firemens Retirement System (the Funds). The State of New Jersey Common Pension Fund D is registered with the Taiwan Stock Exchange (TWSE) and possesses a Foreign Institutional Investor (FINI) account number, utilizing Standard Chartered Bank (Taiwan) Limited – Taipei (SCB) as the sub-custodian and local agent. The State of NJ Police & Firemens Retirement System is in the process of engaging SCB to register with the TWSE and obtain a FINI account number. Each of the Funds will have multiple operating subaccounts that may transact in the local Taiwan market under a Multiple Trading Accounts (MTA) structure; these subaccounts are managed internally and by external advisers that may execute transactions in the local market on behalf of the Funds. The purpose of the operating subaccounts is solely to track performance and they are not separate legal entities.

Currently, the State of New Jersey Common Pension Fund D has TWD 379,839,517 in custody resulting from previous sales of securities in the local Taiwan market. DOI intends to repatriate these monies.
