Report to the New Jersey Legislature  
pursuant to P.L. 2005, c.162  
(Investments in Sudan)

Chapter 162 of the Public Laws of 2005 (the "Act") provides that no assets of any pension or annuity fund under the jurisdiction of the Division of Investment (the "Division") shall be invested in any foreign company with an equity tie to the government of Sudan or its instrumentalities and is engaged in business in or with the same. The provisions shall not apply to the activities of any foreign company providing humanitarian aid to the Sudanese people through either a governmental or non-governmental organization. The Act requires that any investment held in violation of the provisions of the Act must be sold, redeemed, divested or withdrawn.

As previously reported, based upon advice of the Office of the Attorney General received in May 2011, the Division implements the Act in a way that is consistent with and does not conflict with the Sudan Accountability and Divestment Act of 2007 ("SADA"). More specifically, the Division limits divestment to companies engaged in business in the industry-specific categories (power production activities, mineral extraction activities, oil-related activities, and the production of military equipment) stated in SADA, with further exceptions also contained in SADA.

The Act requires that the Director of the Division annually file with the Legislature a report on all investments sold, redeemed, divested or withdrawn in compliance with the Act. The Act requires that each annual report provide a description of the progress made by the Division since the previous report and since the enactment of the Act in implementing the provisions of the Act.

The following chart summarizes all investments sold in compliance with the Act since our last report and our initial report. The pension and annuity funds did not hold securities of any companies on the prohibited list as of the date of this report.
