BULLETIN C

Bidder must acknowledge receipt of this Bulletin on bid form in the space provided therefor.

This Bulletin is issued for the purpose of amending certain requirements of the original Contract Documents, as noted hereinafter, and is hereby made part of and incorporated in full force as part of the Contract Documents. Unless specifically noted or specified hereinafter, all work shall comply with the applicable provisions of the Contract Documents.

- A) Since this is the first mini-bid associated with the T3104 contract, the State had expected specific questions, specific issues, concerns and/or examples of addendums that the Vendor pool would request in an effort to make the approved PPA form of agreement work with their business model and/or industry standard. To date, the State has not received any specifics to requested addendums, etc.

Please note that any specific changes (addendum details) to the PPA form of agreement need to be requested during the question period for the specific mini-bid. The details of the request will be reviewed by the appropriate State agency and a determination can be issued for all bidders to reference, prior to submitting their bid. The State wants to be sure that when the best value vendor is selected, that the PPA form of agreement language for the specific bid, does not change. As such, the deadline for specific questions associated with the PPA Form of Agreement **ONLY** has been extended to **Friday, September 18, 2020 at 4:30pm**. All questions are to be e-mailed with a specific attachment of the addendum request and details why this change is necessary in the industry.
