JAMES E. MCGREEVEY
Governor

JOHN E. MCCORMAC, CPA
State Treasurer

November 27, 2002

Honorable Governor James E. McGreevey
Members of the State Legislature
New Jersey Citizens

In accordance with the provisions of N.J.S.A. 52:27B-46, we are pleased to transmit to you the Comprehensive Annual Financial Report of the State of New Jersey for the fiscal year ended June 30, 2002. The Office of Management and Budget, Department of the Treasury, which is responsible for data accuracy as well as the completeness and fairness of the presentation, including all disclosures, prepared this report.

This Comprehensive Annual Financial Report, which has earned an unqualified audit opinion, presents the financial position and operating results of the State under generally accepted accounting principles (GAAP) applicable to State and Local governments as established by the Governmental Accounting Standards Board (GASB). The State also participates in the Government Finance Officers Association of the United States and Canada's (GFOA) review program for the Certificate of Achievement for Excellence in Financial Reporting. This is the first year that the State has implemented the new standards provided in GASB Statements No. 34 and No. 35. The objectives of the new reporting model as reflected in these statements are to provide a clear picture of the government as a single unified entity as well as providing traditional fund based financial statements. We are confident that the data is accurate in all material respects, that it is presented in a manner designed to set forth fairly the financial position and results of the State's operations as measured by the financial activity of its various funds, and that all disclosures necessary to enable the reader to gain a reasonable understanding of the State's financial affairs have been included.

As presented in this report, the State has met its constitutionally mandated balanced budget requirement, by having a positive undesignated fund balance in the major budgeted funds which include the General Fund, Property Tax Relief Fund, Casino Revenue Fund, and Casino Control Fund. The undesignated fund balance for the State's budgeted funds is \$292.3 million.

The New Jersey Comprehensive Annual Financial Report for the fiscal year ended June 30, 2002 is organized in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, the State's organization chart, and the 2001 GFOA Certificate of Achievement for Excellence in Financial Reporting. The financial section includes the independent auditor's report on the basic financial statements, management's discussion and analysis which provides an introduction, overview and analysis of the basic financial statements, the government-wide financial statements, the fund financial statements for governmental funds, proprietary funds, fiduciary funds, and component units, together with notes to the basic financial statements as well as additional required supplementary information (Budgetary Schedules), and the other supplementary information (Combining Fund Statements). The statistical section includes the budgetary basis schedules, as well as selected financial and demographic information.

All funds and component units of the entity called the State are included in this Comprehensive Annual Financial Report. These functional areas provide support for a full range of services including education, health and social services, transportation, law and public safety, justice, recreation, community and environmental management, public improvements, and general administrative services. The criteria

utilized to determine the entity for the State of New Jersey are those prescribed in GASB Statement No. 14.

BUDGETARY PROCESS, ACCOUNTING SYSTEMS, AND INTERNAL CONTROLS

The following sections provide a summary of the State's budget process, its accounting system, and its internal controls:

Budgetary Process

The State Constitution as well as certain other New Jersey Statutes contains provisions concerning the budget and appropriation system. On or before October 1st of each year, each Department, Board, Commission, Office or other Agency of the State must file with the Director of the Office of Management and Budget (the "Director") a request for appropriation or permission to spend, specifying all expenditures proposed to be made by such spending agency during the following fiscal year. The Director then examines each request and determines the necessity or advisability of the appropriation request. On or before December 31st of each year, or such other time as the Governor may request, after review and examination, the Director submits the requests, together with findings, comments and recommendations, to the Governor. It is the responsibility of the Governor to examine and consider all requests and formulate budget recommendations. The Governor's Budget Message is then transmitted on or before the third Tuesday following the first meeting of the State Legislature in each year, except in the year when a Governor is inaugurated, when it must be transmitted on or before February 15th, unless otherwise provided through legislation.

During the course of the fiscal year, the Governor may take steps to reduce State expenditures if it appears that revenues have fallen below those originally anticipated. The Governor, with approval from the State Legislature, may enact supplemental appropriations after the adoption of the annual Appropriations Act, should there be sufficient revenues on hand or anticipated, as certified by the Governor, to meet such appropriation.

Over the past two decades, the New Jersey budget process has evolved into a strategic planning process in which the budget is related directly to the program objectives of governmental activities, and the costs and benefits of the programs of each agency are justified at various alternative funding levels.

Accounting Systems

For the various State departments, accounting records are maintained by a central accounting system. The system operations are directed and supervised by the Office of Management and Budget. The State's annual budget is comprised of individual appropriations to departments for specific programs and purposes. Budgetary control is exercised at the department level by individual appropriations and allocations within appropriations to various programs and major expenditure objects. Component units maintain separate accounting systems.

Encumbrance accounting is employed to ensure that expenditures do not exceed appropriations and allocations. Purchase orders, contracts, and other commitments involving monetary expenditures are encumbrances. Any unencumbered and unexpended non-continuing appropriations lapse at the end of the fiscal year.

Internal Controls

Consideration as to the adequacy of internal controls is paramount in developing and maintaining the State's accounting system. Internal accounting controls are designed to provide reasonable assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and that financial records are reliable for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived from its use, and that the evaluation of costs and benefits require managerial estimates and judgments. All internal control evaluations occur within this framework.

AUDIT INFORMATION

The principal auditor of the State's reporting entity is the Office of the State Auditor, which resides in the legislative branch of State government. The State Auditor's examination was conducted in accordance with generally accepted auditing standards and its opinion precedes the Basic Financial Statements. Outside public accounting firms have been used for the audits for separately issued component units and college and university financial statements. In addition, the Office of the State Auditor conducts periodic financial and expanded scope audits of the various State agencies. This audit received an unqualified opinion on the Basic Financial Statements contained in this Comprehensive Annual Financial Report.

COMPONENT UNITS

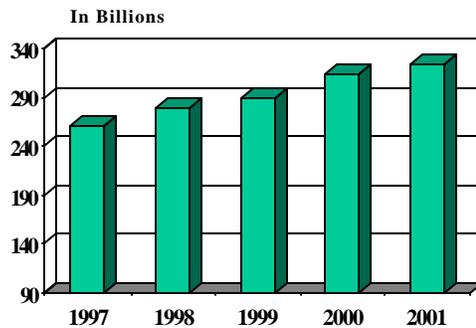

This Comprehensive Annual Financial Report for the fiscal year ended June 30, 2002 includes the accounts of the various public authorities, colleges, and universities in accordance with the requirements of GASB Statement No. 14, The Financial Reporting Entity. These authorities are legally separate entities that are not operating departments of the State. Governing boards are vested with the power to independently manage these component units. Each component unit is established for a specific purpose for the benefit of the State's citizenry, such as economic development, public transportation, subsidized housing, environmental protection, and capital development for health and education purposes. GASB Statement No. 14 provides that the financial statements should emphasize the primary government and permit financial statement users to distinguish between the primary government and its Component Units. As a result, the transmittal letter, management's discussion and analysis, and the financial statements focus on the primary government and its activities, although information pertaining to the Component Units is presented.

ECONOMIC CONDITION AND OUTLOOK

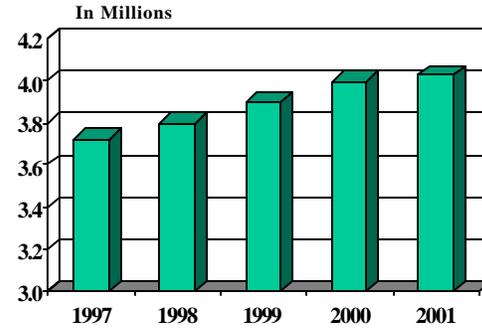

March 2001 marked the introduction of this nation's tenth recession since the beginning of World War II. New Jersey's economy paralleled the nation and entered into recession three months later. Despite the onset of recession, New Jersey employment for calendar year 2001 was 27,200 above the 12-month average for calendar year 2000. By the end of calendar year 2001, the State's labor market reflected the aftereffects of the national recession and mixed impacts from the World Trade Center Attack. After the September 11, 2001 terrorist attacks, the State added jobs in October as displaced New York City businesses scrambled to locate temporary or new permanent operations in New Jersey. On a monthly basis, jobs peaked in February and then paralleled national declines in employment.

New Jersey's personal income growth advanced by an estimated 3.0 percent in calendar year 2001, reflecting tight labor market conditions that existed early in the calendar year. For the beginning of calendar year 2002, personal income growth ranged from 2.0 to 2.5 percent, due to the constraints of sluggish job growth, lower bonuses in the financial sector, and modest wage increases elsewhere. For calendar year 2001, retail sales were negatively impacted by a slowing economy, a drop in home construction, the World Trade Center attacks, and a late season drop in tourism, but were then aided by year-end sales promotions for automobiles.

**New Jersey Personal Income
1997 - 2001**

**New Jersey Employment
1997 - 2001**

Recovery for the New Jersey's economy is expected to occur during calendar year 2003. The likelihood of a moderate recovery is reinforced by a much weakened New York City economy that typically exerts a strong influence on Northern New Jersey businesses.

FISCAL YEAR 2002 REVENUE SUMMARY

The following revenue discussion encompasses the activity of the State's General Fund and four Special Revenue Funds-the Property Tax Relief Fund, the Casino Revenue Fund, the Casino Control Fund, and the Gubernatorial Elections Fund. The amounts included in this section are those anticipated revenues realized in support of the annual appropriations and do not include federal grants or dedicated revolving funds.

Fiscal Year 2002 revenue collections totaled \$20.6 billion, \$387.5 million below Fiscal Year 2001 revenue. Revenue changes in the State's three major taxes over Fiscal Year 2001 levels were as follows: the Sales and Use Tax increased by \$238.1 million or 4.1 percent, including \$89.0 million for tax amnesty; the Gross Income Tax decreased by \$1,152.2 million or 14.4 percent, including \$61.0 million for tax amnesty; and the Corporation Business Tax decreased by \$218.0 million or 15.7 percent, including \$105.0 million for tax amnesty. Overall, Fiscal Year 2002 levels reflect the slowdown of New Jersey's economy.

Collections for the State's three major taxes, as a percentage of Fiscal Year 2002 total receipts, were as follows: the Gross Income Tax represented 33.2 percent; the Sales and Use Tax equaled 29.2 percent; and the Corporation Business Tax represented 5.7 percent. The State's three major taxes represented 68.1 percent of Fiscal Year 2002 total receipts, as compared to 72.2 percent for Fiscal Year 2001.

EXPENDITURES: CATEGORY DESCRIPTIONS AND FISCAL YEAR 2002 SUMMARY

State expenditures encompass the activity of the State's General Fund and four Special Revenue Funds-the Property Tax Relief Fund, the Casino Revenue Fund, the Casino Control Fund, and the Gubernatorial Elections Fund. The amounts listed in this section are on a budgetary basis and do not include federal grants. State expenditures are based on the annual Appropriations Act and are divided into five major categories. They are Direct State Services, Grants-in-Aid, State Aid, Capital Construction, and Debt Service. Each category and its Fiscal Year 2002 expenditure is described below:

- Direct State Services represents those functions operated directly by State Government. Funding consists primarily of the salary and benefits of State employees and operational support of the State's departments, the Executive Office, several commissions, the State Legislature, and the Judiciary. Public services offered by State Government, such as testing laboratories, social services, environmental and community services, legal services, State Police services, and the operation of prisons, psychiatric hospitals, and developmental disability centers are included in this category.
 - Direct State Services accounted for 22.5 percent of total Fiscal Year 2002 expenditures. Direct State Services expenditures increased between Fiscal Year 2002 and Fiscal Year

2001 by \$93.9 million. The largest increases in Direct State Services centered on Human Services and Law and Public Safety.

- Grants-in-Aid represent programs and services provided to the public on behalf of the State by a third party provider. Grants-in-Aid payments are made to individuals and public or private agencies for benefits to which a recipient is entitled by law, or for the provision of services on behalf of the State. These payments include the Homestead Rebate/NJ SAVER programs and the Medicaid program, which reimburses hospitals, nursing homes, and physicians for services rendered to the State's needy population. Community programs for the developmentally disabled, pharmaceutical assistance to the aged and disabled, support for the State colleges and universities, utility credits to senior citizens, financial aid grants to college students, and bus and railroad subsidies to New Jersey Transit are programs that also are under the Grants-in-Aid category.
 - Grants-in-Aid accounted for 32.0 percent of total Fiscal Year 2002 expenditures. This is a \$1,054.1 million increase from the prior fiscal year. Major changes in Grants-in-Aid expenditures were associated with Health and Senior Services, Human Services and Treasury.
- State Aid represents funds that are distributed to municipalities, counties, and school districts. The major portion of the Gross Income Tax revenue is apportioned to State Aid. The largest portion of expenditures in this category is for elementary and secondary school aid. This category also provides funding for the various public assistance programs and county psychiatric hospitals, as well as municipal property tax relief programs.
 - State Aid represented 39.0 percent of total Fiscal Year 2002 expenditures. State Aid expenditures increased between Fiscal Year 2002 and Fiscal Year 2001 by \$426.6 million. State Aid includes aid to public schools, teachers' pensions and social security costs, municipal aid programs, reimbursement to counties for welfare programs, and other miscellaneous programs.
- Capital Construction represents allocations for various construction projects. Included in this expenditure category is the appropriation to the New Jersey Transportation Trust Fund Authority, which is used to fund both New Jersey Transit and the Department of Transportation's annual capital program.
 - Capital Construction represented 4.5 percent of total Fiscal Year 2002 expenditures. Construction for capital projects decreased by \$158.8 million as compared to the prior fiscal year. Primary focus for capital construction projects centered on transportation and environmental areas.
- Debt Service represents interest and principal payments on various voter approved General Obligation Bond Acts. After a general obligation bond act has been both legislatively and voter approved, the State Legislature appropriates capital projects against dollar amounts authorized. General Obligation Bonds are backed by the State's full faith and credit. Projects that have been funded by State General Obligation Bonds include prisons, roads, human services facilities, and various environmental protection projects.

The State Legislature also appropriates amounts for debt service related to State contract obligations, certificates of participation, and the State's line of credit. These debt instruments have an underlying credit structure that relies on debt service being subject to annual State appropriations made from time to time by the State Legislature. Except for the Capital Construction classified debt service of the New Jersey Transportation Trust Fund Authority, debt service associated with these instruments is included within the Direct State Services category.

- Debt Service on General Obligation Bonds represented 2.0 percent of total Fiscal Year 2002 expenditures. Debt Service expenditures decreased by \$73.8 million primarily due

to the issuance of \$608.3 million of General Obligation Refunding Bonds Series H and I which produced \$27.5 million in debt service savings for Fiscal Year 2002.

Total Fiscal Year 2002 expenditures of \$22.7 billion are \$1.3 billion more than expenditures for the prior fiscal year.

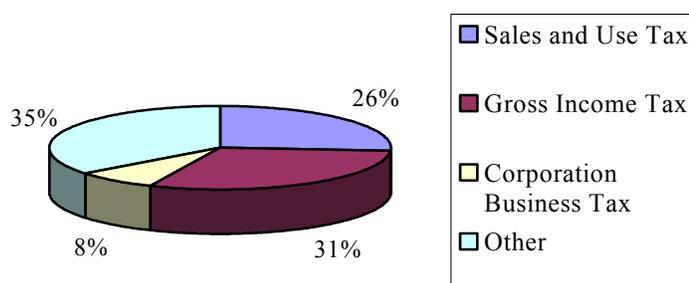

FISCAL YEAR 2003 REVENUE PROJECTIONS

The Fiscal Year 2003 revenue projections are based on estimates of slight economic growth. At the time of the Appropriation Act underlying economic indicators were mixed, with forecasters anticipating a slow growth economy. Prior to the events of September 11, 2001, it had been anticipated that the slowdown experienced in calendar year 2001 would stabilize by year's end leading to relatively low but positive growth for most 2002 economic indicators. It was anticipated that moderate positive growth would resume early in 2002 and continue. However, given the many economic and civic uncertainties unleashed by the events of September 11, 2001 and the reactions to those events, the economic slowdown has continued in calendar year 2002. The State and the nation have experienced further contraction of the economy and the expected 2002 recovery has been delayed. Consumers, investors, and businesses are cautiously assessing the Federal Reserve and the markets to determine whether a bottoming out of the economy has occurred and whether or not a recovery has begun.

Fiscal Year 2003 revenues are projected to be \$23.4 billion, \$2.8 billion above Fiscal Year 2002 revenue. Projected revenue changes in Fiscal Year 2003 for the State's three major taxes over Fiscal Year 2002 are as follows: the Sales and Use Tax is expected to increase by \$175.2 million or 2.9 percent, the Gross Income Tax is expected to increase by \$460.5 million or 6.7 percent, and the Corporation Business Tax is expected to increase by \$658.0 million or 56.2 percent. Substantial growth in the Corporation Business Tax reflects a total tax restructure that effectively closed various tax loopholes.

Fiscal Year 2003 resources, including the Fiscal Year 2003 opening balance, are projected at \$23.7 billion. The State's three major taxes as a percent of total resources are as follows: the Gross Income Tax represents 30.8 percent; the Sales and Use Tax represents 26.0 percent; and the Corporation Business Tax represents 7.7 percent. The State's three major taxes are projected to represent 64.5 percent of total resources.

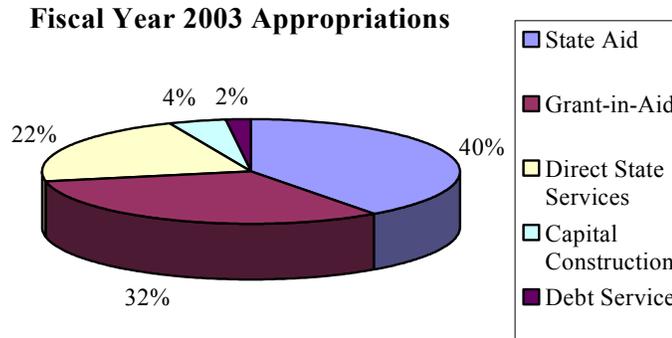

Fiscal Year 2003 Revenue

Fiscal Year 2003 anticipates revenue of \$1,350.2 million from the Tobacco Settlement. This represents \$275.2 million in payments from the Master Settlement Agreement (the "MSA") reached in November 1998 between 46 states and the major tobacco companies. The remainder came from proceeds derived from the sale of \$1.8 billion in Tobacco Settlement Asset-Backed Bonds. This issuance represents a securitization of 50.0 percent of future Tobacco Settlement payments the State is to receive on and after December 1, 2003 to perpetuity or until the bonds are paid off. Of the amount issued, \$1.075 billion is to be deposited into the State's General Fund for Fiscal Year 2003 expenditures while another \$413 million is to be held in reserve.

FISCAL YEAR 2003 APPROPRIATIONS

The total Fiscal Year 2003 appropriation is \$23.4 billion. Of the \$23.4 billion appropriated in Fiscal Year 2003 from the General Fund, the Property Tax Relief Fund, the Casino Control Fund, the Casino Revenue Fund, and the Gubernatorial Elections Fund, \$9.3 billion (39.9 percent) is appropriated for State Aid to Local Governments, \$7.5 billion (32.0 percent) is appropriated for Grants-in-Aid, \$5.1 billion (21.7 percent) for Direct State Services, \$1.0 billion (4.4 percent) for Capital Construction, and \$0.5 billion (2.0 percent) for Debt Service on State General Obligation Bonds.

State Aid to local governments constitutes the most important aspect of Fiscal Year 2003 appropriations. These funds are essential in the funding of local government operating costs as well as property tax relief. In Fiscal Year 2003, \$9,332.5 million will be distributed to municipalities, counties, and school districts. Major State Aid programs are: Aid to School Districts (\$7,620.8 million), Unrestricted Aid to Municipalities and Counties through the Department of Community Affairs (\$985.6 million), and Aid to County Colleges (\$181.3 million).

Grants-in-Aid represent the second largest portion of the State's Fiscal Year 2003 appropriation. In Fiscal Year 2003, \$7,506.3 million has been appropriated. These funds are distributed to individuals, public agencies, or private agencies as direct benefits or to provide services. The largest grants-in-aid programs are: Human Services programs (\$3,200.9 million), Higher Education (\$868.8 million), Health and Senior Services programs (\$810.1 million), Property Tax Relief Programs (\$1,350.8 million), and Public Transportation (\$260.0 million).

The Direct State Services Fiscal Year 2003 appropriation is \$5,070.2 million. These funds support the operating costs of the Executive Departments, the Judiciary, and the State Legislature. The largest appropriations are for the following departments: Corrections (\$772.9 million), Human Services (\$631.4 million), Law and Public Safety (\$450.6 million), Transportation (\$235.5 million), and Treasury (\$400.8 million).

Capital Construction appropriations for Fiscal Year 2003 totals \$1,022.0 million. Of this amount, \$745.0 million is appropriated to the New Jersey Transportation Trust Fund Authority, \$98.0 million is for open space preservation, \$43.5 million is for hazardous substance and underground tank remediation, and \$25.0 million is for shore protection.

Debt Service for General Obligation Bonds is \$470.7 million. This amount reflects the cost of financing various infrastructure and environmental projects that have been approved through prior voter referenda.

SERVICE EFFORTS AND ACCOMPLISHMENTS

The following sections highlight various service efforts and accomplishments the State has achieved during Fiscal Year 2002 as well as some of the goals the State hopes to achieve for Fiscal Year 2003.

Fiscal Year 2002

- The New Jersey Transportation Trust Fund Authority was legislatively reauthorized for an additional four-year period beginning in Fiscal Year 2001, with a total State spending authority of \$3.8 billion. In Fiscal Year 2002, the New Jersey Transportation Trust Fund Authority's annual spending authority totaled \$1,107.5 million, which was \$157.5 million more than originally authorized. The added funding has been used primarily to further advance the Hudson Bergen Light Rail System. For Fiscal Year 2002, when factoring in federal highway and mass transit funds, the total spending authorization exceeded \$2.4 billion, making this fiscal year the largest annual construction program in the Department of Transportation's history.
- The Fiscal Year 2002 Appropriations Act included a \$1,089.4 million appropriation for property tax relief in the form of rebates. The NJ SAVER Program, a five-year plan to provide direct school property tax relief, was accelerated by one year to its fourth year funding level. The \$607.4 million appropriation to the NJ SAVER program was used to offset the school taxes that homeowners pay on the first \$45,000 of assessed value on their homes. This amount represented an average family check of \$500. The Fiscal Year 2002 Appropriations Act included a \$482.0 million appropriation for the Homestead Rebate program. Funding of an additional \$147.5 million maximized the entitlement to \$750 per eligible claimant, from \$500, the first increase to the program in over 10 years.
- The Fiscal Year 2002 State Budget provided a \$110.8 million appropriation for NJ KidCare, a federal and state funded program that provides health insurance for children whose parents cannot afford to purchase it privately. This expansion coverage program is 35 percent state funded and 65 percent federally funded. The NJ KidCare program provides a comprehensive array of health services to qualified children who have been without medical coverage for six months and are not Medicaid-eligible. In addition, health insurance coverage for over 140,000 parents with family incomes below 200 percent of the poverty line and adults without children with income below 100 percent of the poverty line is provided through NJ FamilyCare. NJ FamilyCare was funded with \$181.3 million in Fiscal Year 2002 State appropriations and over \$200 million in federal funds.
- During Fiscal Year 2002, in an effort to combat poverty, the New Jersey Earned Income Tax Credit program was expected to assist approximately 237,000 working families with children. When fully implemented in Fiscal Year 2004, the New Jersey Earned Income Tax Credit program will provide an annual refundable tax credit of over \$800 for a family of one adult and two children earning up to \$10,000 per year, over \$700 for a similar family with an annual income of \$15,000, and \$480 for a similar family with an annual income of \$20,000. The Fiscal Year 2002 cost for this program was \$59.6 million.

Fiscal Year 2003

- The cornerstone to Governor McGreevey's Fiscal Year 2003 education plan is a literacy program that will include the hiring of reading coaches in under-performing elementary schools to ensure that all students are reading at or above grade level by the end of the third grade. A new State appropriation of \$10 million represents the first installment of a four-year, \$40 million commitment. A new federal program, "Reading First," which has the same goal, will supplement State Resources through \$18.4 million in aid.
- Recognizing that the State's approach to early childhood education must be comprehensive, the Fiscal Year 2003 Budget provides a total increase of \$157.4 million for preschool programs. The integration of educational, social, and family programs so that children can develop the academic and social skills needed for kindergarten, higher grades and life after school requires the involvement of both the Department of Education and the Department of Human Services. Of the \$157.4 million, \$142.4 million represents Abbott Preschool Expansion Aid to fund the increased costs between Fiscal Year 2002 and Fiscal Year 2003 for the approved preschool programs for three-and four-year olds in Abbott districts.

- The Office of Counter-Terrorism is being created as part of a \$57 million Homeland Security initiative designed to provide a uniform, cohesive, and coordinated response to the threats posed to New Jersey following the tragic events of September 11, 2001. The Office of the Attorney General, in cooperation with the Domestic Security Preparedness Task Force, is beginning to meet the enormous challenge of coordinating the State's response and intelligence capabilities with federal, State, county, and local law enforcement agencies, as well as the National Guard.
- The Fiscal Year 2003 Budget includes \$33.6 million for cancer research and treatment. Most prominently, an appropriation of \$20 million is earmarked to the Cancer Institute of New Jersey through the Department of Health. Established in 1990, the Cancer Institute is the only center in New Jersey designated by the National Cancer Institute and is one of only 13 National Cancer Institute designated cancer centers in the nation. The International Conference on New Initiatives in Cancer and Chronic Illness have been provided with \$500,000 in new state funds that will highlight new developments in cancer research and treatment and to support a public "SWAT" team to investigate cancer clusters, providing rapid response and analysis.

INVESTMENTS

The State's Division of Investments was legislatively created in 1950 in order to centralize all functions relating to the purchases, sales, or exchanges of securities for the State's diverse funds under experienced and professional management. The statute provides investment authority to the State Investment Council and to the Director of the Division. The State Treasurer appoints the Director from a list of candidates proposed by the State Investment Council. The role of the State Investment Council is to formulate investment policies and procedures to be followed by the Director. State legislation provides that the State Investment Council may issue regulations, which specifically approve and authorize any form of investment. The State Investment Council has taken the position that the Division of Investment is bound by law to make prudent investments for the sole and direct financial benefit of the beneficiaries of the various funds under its supervision, and that the Division of Investment may not make any concession as to the rate, risk, or terms which would benefit any other party at the expense of the beneficiaries of the funds.

PENSION FUND ADMINISTRATION

The State operates seven retirement plans. Public Employees' Retirement System and Teachers' Pension and Annuity Fund are the principal plans. The other systems are Police and Firemen's Retirement System, Consolidated Police and Firemen's Pension Fund, State Police Retirement System, Judicial Retirement System, and Prison Officer's Pension Fund. State law regulates the administration of the pension fund systems and requires actuarial valuations every year and actuarial experience investigations every three years. Such valuations and investigations are designed to insure that these programs adequately recognize the additional costs resulting from experience or legislative changes in the benefits to be paid.

As of June 30, 2002, the State's seven retirement plans had a combined \$66.3 billion in total assets, with a combined total liability of \$389.0 million, leaving the State's pension fund system with net total assets of 65.9 billion.

For further information about the State's Pension Fund Systems, please refer to Notes No. 14 and No. 15 of this Comprehensive Annual Financial Report.

CASH MANAGEMENT

Unused cash is invested primarily in the New Jersey Cash Management Fund. The fund provides the State, its authorities and agencies, local municipalities, and school districts with a vehicle for short-term investment. For the fiscal year ended June 30, 2002, the New Jersey Cash Management Fund's average

daily-annualized rate of return for participating State accounts was 2.93 percent. For "Other-than-State" participants, such as municipalities and school districts, the average daily-annualized rate of return, which includes charges for administrative and operating expenses, was 2.75 percent for the same timeframe.

RISK MANAGEMENT

New Jersey's risk management function is performed within the Department of the Treasury and operates to reduce the adverse impact of catastrophic loss on State operations and budget through a combination of risk management and loss prevention techniques. The Office of Risk Management administers claims against the State and its employees under the Tort Claims Act, Workers Compensation statute, and various Federal laws, as well as claims on behalf of the State against others responsible for damage to the State, its employees, and its property.

CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING

The GFOA awarded the Certificate of Achievement for Excellence in Financial Reporting to the State of New Jersey for its Comprehensive Annual Financial Report for the year ended June 30, 2001.

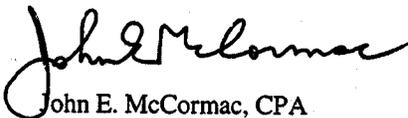

In order to qualify for the Certificate of Achievement, a governmental entity must publish an easily readable and efficiently organized comprehensive annual financial report, the contents of which conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

The State of New Jersey has received this award every year since 1993. It is our belief that this Comprehensive Annual Financial Report for the fiscal year ended June 30, 2002 continues with this fine tradition and conforms to the Certificate of Achievement Program requirements.

ACKNOWLEDGEMENTS

Finally, we would like to express our appreciation to the many dedicated professionals in the Office of Management and Budget and the Office of the State Auditor whose efforts made possible the preparation of this report. We believe that their combined efforts have produced a report that will provide a means for government, the financial community, decision makers, and concerned citizens to better understand and evaluate the State's financial condition.

Sincerely,

John E. McCormac, CPA

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of New Jersey as of and for the year ended June 30, 2002, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State of New Jersey's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the component units, is based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of New Jersey as of June 30, 2002, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1 to the financial statements, the State of New Jersey adopted the provisions of the Governmental Accounting Standards Board Statements No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, and No. 35, *Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities* as of July 1, 2001. In addition, as described in Note 1 to the financial statements, the State of New Jersey has implemented Governmental Accounting Standards Board Statements No. 37, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments: Omnibus*, and No. 38, *Certain Financial Statement Note Disclosures* as of July 1, 2001.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 27, 2002 on our consideration of the State of New Jersey's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis, the budgetary comparison schedules, and the funding progress schedule for all pension trust funds are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consist principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of New Jersey's basic financial statements. The Combining Fund Statements and Schedules - Non-Major Funds, Other Supplementary Information, Schedules of Anticipated and Appropriated Revenue and the Schedule of Appropriations and Expenditures are

presented for the purposes of additional analysis and are not a required part of the basic financial statements. These statements and schedules have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory section and the statistical section listed in the table of contents have not been audited by us, and accordingly, we express no opinion thereon.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following narrative provides an overview and analysis concerning New Jersey State Government's financial performance of its activities for the fiscal year ended June 30, 2002. Readers should consider this information in conjunction with the transmittal letter, which precedes Management's Discussion and Analysis, and the State's financial statements, which follow.

For the fiscal year ended June 30, 2002, the State of New Jersey implemented new accounting standards as outlined in the Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. This Comprehensive Annual Financial Report provides new reporting standards that have significant changes in content and structure. Therefore, a majority of the information provided is not easily comparable to prior reporting periods. Year-to-year comparisons will be provided in future years' Comprehensive Annual Financial Reports. It is the intent of GASB Statement No. 34 to provide meaningful comparisons that will further explain the State's financial position and results of operations.

FINANCIAL HIGHLIGHTS

Government-wide

- The primary government's assets total \$25.6 billion. Major increases were the result of the inclusion of capital assets, net of depreciation associated with the implementation of GASB Statement No. 34. As of June 30, 2002, assets exceeded liabilities by \$2.9 billion. This calculation, commonly known as net assets, represents 1.1 percent of total assets. The State's unrestricted net assets, which represent net assets that have no statutory commitments and are available for discretionary use, totaled a negative \$8.3 billion. The negative balance is primarily a result of financing unfunded actuarial liabilities in the State's pension fund systems, financing unfunded actuarial liabilities in uninsured motorist funds, and financing local elementary and high school construction.

- June 30, 2002 Component Unit assets exceeded Component Unit liabilities by \$10.5 billion. Total Component Unit assets grew to \$27.4 billion.

Fund Level

- The State's governmental funds reported June 30, 2002 combined ending fund balances of \$5.6 billion, a decrease of \$2.0 billion from the prior fiscal year. Of this amount, \$874.8 million represents unreserved fund balances with the remainder reserved for specific, legislated purposes, management reserves, and constitutional dedications. The General Fund's total ending fund balance is \$1.9 billion, with \$292.3 million unrestricted.

- Proprietary Funds reported June 30, 2002 net assets of \$2.9 billion. During the fiscal year, this amount decreased by \$617.9 million.

Long-term Debt

- The State's long-term debt obligations increased 5.8 percent, to \$17.2 billion, which includes a net increase in bonded debt of \$555.9 million.

- During the fiscal year, the State issued \$3.6 billion in bonds. New money issuances represented \$1.2 billion for transportation and education system improvements, while \$2.4 billion represented four refunding transactions that provided the State with \$81.2 million in net present value savings. During the fiscal year ended June 30, 2002, the State paid \$1.5 billion in debt service on its general obligation bonds, revenue bonds, installment obligations, capital leases, and certificates of participation.

- Non-bonded portions of the State's long-term debt total \$2.8 billion. This amount represents a \$392.1 million increase from the prior fiscal year and is mainly attributable to capital leases for State office facilities.

OVERVIEW OF THE FINANCIAL STATEMENTS

Management's Discussion and Analysis serves as an introduction to the State of New Jersey's basic financial statements. This report, for the first time, includes GASB Statement No. 34 requirements for government-wide financial statements.

Basic Financial Statements

The basic financial statements include Government-wide financial statements and Fund financial statements. Both statements present different views of the State's financial information. The Comprehensive Annual Financial Report includes Notes to the Financial Statements; Required Supplementary Information (Budgetary Schedules) as well as Other Information.

- **Government-wide Financial Statements**

Government-wide financial statements provide a broad view of the State's operations conforming to private sector accounting standards and provide both short-term and long-term information regarding the State's overall financial position through the fiscal year end. The statements are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. The government-wide financial statements include the following two statements:

- **The Statement of Net Assets** Shown on page 33, the Statement of Net Assets presents all of the State's assets and liabilities and calculates net assets. Increases or decreases in the State's net assets over time may serve as a useful indicator as to whether or not the State's overall financial position is improving or deteriorating.
- **The Statement of Activities** Shown on pages 34 and 35, the Statement of Activities presents how the State's net assets changed during Fiscal Year 2002. All changes in net assets are reported when the underlying event occurs giving rise to the change, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal periods. This statement also presents a comparison between direct expenses and program revenues for each State function.

Both the Statement of Net Assets and the Statement of Activities have separate sections that report three activities:

- **Governmental Activities** The majority of State operated functions fall into this category, which includes Executive, Legislative, and Judicial Branch operations. Governmental activity functions rely heavily on State taxes and federal grant receipts for funding their respective programs and functions.
- **Business-Type Activities** Certain State operations that are legislatively able to charge fees to external users to recover all or a portion of the cost of the services that are provided are classified as business-type activities. The State Lottery Fund and the Unemployment Compensation Fund are two such examples.
- **Component Units** Legally separate operations and organizations for which the State has financial accountability are considered component units. The State has 20 authorities, of which the New Jersey Building Authority and the New Jersey Transportation Trust Fund Authority are blended into governmental activities, and 12 colleges and universities that are reported as component units. These component units operate as business-type activities and are presented in two categories, major and non-major which is determined,

generally, by the relative size of the entity's assets, liabilities, revenues, and expenses when compared to the total of the related component units. A list of the State's component units is shown in Notes 1B – Significant Accounting Policies – Financial Reporting Entity and Note 16 – Component Units in the Notes to the Financial Statements. Audit reports of the individual component units can be obtained from their respective administrative offices.

The Comprehensive Annual Financial Report includes two schedules (shown on pages 37 and 39) that reconcile the amounts reported on the governmental fund financial statements (modified accrual basis of accounting) with government-wide financial statements (accrual basis of accounting). The following summarizes the financial reporting impact of transitioning from a modified accrual basis of accounting to a full accrual basis of accounting:

- Capital assets used in governmental activities are not reported on governmental fund financial statements.
- Certain tax revenues that are not earned, but are available, are reported as revenue on the governmental fund financial statements, but are classified as deferred revenue on the government-wide financial statements.
- Any liability relating to funding certain pension trust funds below the amount required (net pension obligation) is recorded only in the government-wide financial statements.
- Deferred issue costs are capitalized and amortized in the government-wide financial statement, but are reported as expenditures in the governmental fund financial statements.
- Except for the current portion of long-term debt which is reported in the fund financial statements, long-term liabilities, such as capital lease obligations, compensated absences, bonds and notes payable, and others appear as liabilities in the government-wide financial statements only.
- Capital outlay spending results in capital assets on the government-wide statements, but are reported as expenditures on the governmental fund statements.
- Bond and note proceeds result in liabilities on the government-wide financial statements, but are recorded as other financing sources on the governmental fund financial statements.
- Interest expense on long-term debt is recorded in the government-wide financial statements in the period when incurred. In the governmental fund financial statements, interest expense on long-term debt is recorded in the period it is paid.
- Certain other outflows represent either increases or decreases in liabilities on the government-wide financial statements, but are reported as expenditures on the governmental fund financial statements.

The Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide financial statements and fund financial statements. The notes can be found on pages 54 to 94 of this Comprehensive Annual Financial Report for the fiscal year ended June 30, 2002.

- **Fund Financial Statements**

Fund financial statements begin on page 36. A fund is a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the

purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. The State's fund financial statements reflect financial reporting practices in accordance with this definition. The State entity is divided between funds and component units, with State's funds divided into three categories – governmental, proprietary, and fiduciary.

- **Governmental Funds Financial Statements** Most Direct State Services are financed through governmental funds, which are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. The governmental funds financial statements focus on current inflows and outflows of expendable resources and the unexpended balances at the end of a fiscal year that are available for future spending. Governmental fund information helps determine whether or not there was an addition or a reduction in financial resources that can be spent in the near future to finance State programs.

The State's governmental funds are the General Fund, Debt Service Fund, Special Revenue Funds, and Capital Projects Funds. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The basic governmental funds financial statements can be found immediately following the government-wide financial statements.

- **Proprietary Funds Financial Statements** Proprietary funds are used to account for State business-type activities. Since these funds charge fees to external users, they are known as enterprise funds. Proprietary funds provide the same information as government-wide financial statements and use the accrual basis of accounting.
- **Fiduciary Funds Financial Statements** Fiduciary funds, which include State pension fund systems, are used to account for resources held by the State for the benefit of parties outside of State government. Fiduciary funds are reported using the accrual basis of accounting, in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets as shown on pages 44 to 47. Government-wide financial statements exclude fiduciary fund activity and balances since the assets are legislatively restricted in purpose and do not represent discretionary assets the State can use to fund its operations.
- **Component Units** The government-wide financial statements present information for the component units in a single column of the Statement of Net Assets. The Combining Statement of Net Assets and Changes in Net Assets and the Combining Statement of Cash Flows provides detail for each major component unit and the non-major component units in the aggregate.
- **Notes to the Financial Statements** Beginning on page 54, the Notes to the Financial Statements provide additional background information that assist the reader in understanding the data provided in the government-wide financial statements and fund financial statements.
- **Required Supplementary Information** The basic financial statements are followed by a section of required supplementary information. This section includes budgetary schedules that reconcile the statutory intent of the program with fund balances in accordance with generally accepted accounting principles at fiscal year's end as well as variances between the final budget and actual results on a budgetary basis. Also there is a Schedule of Funding Progress for all Pension Trust Funds.
- **Other Information** Combining financial statements for non-major governmental funds, proprietary funds, fiduciary funds, and non-major component units are shown in this section. They are not reported

individually, as with major funds, on the Governmental Fund Financial Statements. The Schedule of Appropriations and Expenditures, shown in this section details the comparison of expenditures at the legal level of control to the final budget. The Schedule of Anticipated Revenue and the Schedule of Appropriated Revenue provide detailed information on major and miscellaneous taxes, fees and other revenues. The Schedule of Anticipated Revenue provides further analysis by showing dollar and percentage variances of actual collections as compared to the original budget certification.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Assets

The State's fiscal year ended combined net assets totaled \$2.9 billion. Fiscal Year 2002 activities showed a \$2.4 billion decrease in combined net assets, with net assets of governmental activities decreasing by \$1.8 billion, and business-type activities decreasing by \$617.9 million.

Total Net Assets	\$ (37.0)	\$ 2,914.9	\$ 2,877.9

Invested in capital assets, net of related debt is the largest component of the State's net assets. Capital assets, net of depreciation are used by the State to provide services to citizens; consequently these assets are not available for future spending. Land, land improvements, buildings and improvements, machinery and equipment, infrastructure (roads, bridges and other immovable assets), and construction in progress are shown less any related debt used to acquire these assets that is still outstanding.

Changes in Net Assets

The State's net assets for Fiscal Year 2002 decreased by \$2.4 billion. This amount is indicative of the State's current economic picture where revenue collections softened while expenditures remained constant. Approximately 49.0 percent of the State's total revenue came from general taxes, while 27.2 percent was derived from operating grants. Charges for services amounted to 19.1 percent of total revenues, while other items such as governmental subsidies and grants, capital grants, interest and investment earnings, and miscellaneous revenues accounted for the remainder. State expenditures cover a range of services. The largest expense, 25.5 percent was for educational, cultural, and intellectual development. Physical and mental health amounted to 22.7 percent of total expenditures, while government direction, management, and control amounted to 12.5 percent. Other major expenditures focused on economic planning,

development, and security, public safety and criminal justice, and community development and environmental management. During Fiscal Year 2002, governmental activity expenses exceeded program revenues, resulting in the use of \$22.2 billion of general revenues (mostly taxes). Net expenses from business-type activities in Fiscal Year 2002 exceeded revenues by \$139.4 million.

The deficit in unrestricted governmental net assets arose primarily as a result of deferring certain tax revenues that were received during Fiscal Year 2002 but not earned until a future time period, recording depreciation expense related to the capital assets, and recording certain liabilities that are required to be included in the government-wide financial statements.

The deficit in the unrestricted business-type activities net assets resulted from an excess of claims over available resources existing in the Health Benefits Local Government Employers Program Fund. Contribution rates have been increased to offset this deficit.

Governmental Activities – Revenues and Expenditures

The following pie charts depict governmental activities for revenues and expenditures for the fiscal year ended June 30, 2002:

**Revenues – Governmental Activities
Fiscal Year Ended June 30, 2002**

**Expenditures – Governmental Activities
Fiscal Year Ended June 30, 2002**

Effective January 1, 2002, the State's Corporation Business Tax has been restructured to wipe out a myriad of loopholes and tax shelters, restore simplicity, and provide a lower tax rate for small businesses. An alternative minimum assessment will be based on corporate sales or gross profits at the payor's option. The minimum assessment will also apply to out-of-state companies that have significant economic presence in New Jersey but currently pay no New Jersey corporate taxes. Loopholes in the Corporation Business Tax are now closed that allow larger corporations to shelter income and pay only the minimum \$200 to the State. Other significant, structural tax changes include 70 cents per pack increase in the Cigarette Tax. In addition, the State has securitized part of its share in the Tobacco Settlement by issuing \$1.8 billion in Tobacco Settlement Asset-Backed Bonds. The bond proceeds are to be used to fund State expenditures during Fiscal Years 2003 and 2004. There are no significant structural changes being made to the State's two other major taxes, the Gross Income Tax and the Sales and Use Tax.

Business-Type Activities

For the fiscal year ended June 30, 2002, net assets of business-type activities totaled \$2.9 billion, a \$617.9 million decrease over the prior fiscal year. The major factor contributing to this decrease was an increase in claims and a decrease in revenues in the Unemployment Compensation Fund and excess claims in the Health Benefits Local Employers Program Fund.

FINANCIAL ANALYSIS OF THE STATE'S MAJOR FUNDS

The focus of the State's major governmental funds reported in the fund financial statements is on near term inflows, outflows, and balance of expendable resources, which are essential elements in assessing the State's financing needs and serve as useful measures of the government's net resources available for future spending.

The State's governmental funds reported June 30, 2002 fund balances of \$5.6 billion. Of this amount, \$874.8 million, or 15.7 percent constituted unreserved fund balances.

General Fund

The General Fund is the State's chief operating fund and is the fund into which all State revenues, not otherwise restricted by statute, are deposited. The General Fund's fiscal year ending fund balance totaled \$1.9 billion, of which, \$1.2 billion represented unreserved fund balances. During Fiscal Year 2002 total fund balance was reduced by \$1.6 billion primarily as a result of lower tax collections from a slowing New Jersey economy. By the end of Fiscal Year 2002, net General Fund revenues increased 6.7 percent from the prior fiscal year.

- **General Fund Highlights**

Lower State revenues reflected New Jersey's economic performance. During Fiscal Year 2002, the State's original budget was adjusted in order to reflect lower revenue collections. The following summarizes major variances between the final budget and the actual amounts (on a budgetary basis):

- General revenues of \$21.3 billion were \$1.8 billion lower than the final certifications. Positive variances of \$1.1 billion from taxes and other revenue were offset by reductions in federal and other grants of \$2.0 billion and service and assessments of \$0.9 billion.
- Total expenditures were \$3.6 billion lower than original appropriations set forth in the budget enacted during June 2001 plus supplemental appropriations during the fiscal year. This amount includes \$1.0 billion from physical and mental health, \$600.8 million from government direction, management, and control, \$589.6 million from economic planning, development, and security, and \$525.9 million from community development and environmental management. Lesser reductions of \$390.3 million came from public safety and criminal justice, and \$360.9 million from educational, cultural, and intellectual development.

- The Surplus Revenue Fund is an account within the State’s General Fund. It is used to account for excess revenues from prior fiscal years that is legislatively reserved for current year’s appropriations in the event that anticipated revenues in the General Fund are estimated to be less than those certified by the Governor upon approval of the annual Appropriations Act. During Fiscal Year 2002, the State released \$720.0 million to the General Fund in order to offset lower revenue collections.

Property Tax Relief Fund

The Property Tax Relief Fund accounts for revenues from the New Jersey Gross Income Tax. Appropriations from this fund must be used exclusively for the constitutional purpose of reducing or offsetting property taxes.

- **Property Tax Relief Fund Highlights**
During Fiscal Year 2002, \$8.5 billion of property tax relief expenditures were made. The Property Tax Relief Fund’s Fiscal Year 2002 ending undesignated fund balance is zero.

The following table presents a comparison of the components of the ending undesignated fund balances for Fiscal Year 2002 and Fiscal Year 2001:

**Fund Balance Comparison
2002 Versus 2001
(Expressed In Millions)**

Total	<u>\$ 292.3</u>	<u>\$ 1,289.5</u>	<u>\$ (997.2)</u>

The State’s governmental funds reported June 30, 2002 fund balances of \$5.6 billion. Of this amount, \$2.6 billion, or 46.1 percent constituted unreserved fund balances.

State Lottery Fund

Monies derived from the sale of State lottery tickets are deposited into this fund. Disbursements are authorized for the payment of prizes to holders of winning lottery tickets and for the administrative expenses of the Division of State Lottery. The balance of funds is paid to the State’s General Fund in support of the amounts annually appropriated for State institutions and for education. The present value of obligations for future installment payments of lottery prizes funded by the purchase of deposit fund contracts is accounted for in this fund.

In Fiscal Year 2002, gross revenues totaled \$2.1 billion, of which 55.0 percent was returned in prizes, 36.3 percent went to State education and institutions, 7.6 percent was paid to sales agents and ticket vendors, and 1.1 percent covered Lottery operational and promotional expenses. As of June 30, 2002, the Lottery has generated over \$30.4 billion in gross revenues, \$15.4 billion in prizes, and contributed \$12.4 billion to the State.

Unemployment Compensation Fund

The Unemployment Compensation Fund accounts for monies deposited from contributions of employers and employees for unemployment compensation, amounts credited or advances made by the

Federal Government, and amounts received from any other source. After consideration is given to any claim for refund of overpayment of contributions, the remainder is transferred by the Division of Employment Security to the Treasurer of the United States for credit to the State of New Jersey Unemployment Compensation Fund.

Component Units

Combined operating revenues and expenses for the State’s component units for Fiscal Year 2002 amounted to \$8.1 billion and \$6.7 billion respectively. Total operations along with other financing sources and uses contributed to total combined net assets at fiscal year end of \$10.5 billion.

Appropriations of \$2.0 billion were made from the State to the component units during Fiscal Year 2002.

CAPITAL ASSET AND DEBT ADMINISTRATION

Administration of the State’s capital assets falls under the purview of the Department of the Treasury. Capital assets are recorded under the State’s General Fixed Asset System in the New Jersey Office of Management and Budget. The New Jersey Office of Public Finance is responsible for issuing the State’s short-term and long-term debt obligations as well as overseeing the State’s credit ratings.

Capital Assets are shown in the table below. The State’s investment in capital assets, net of accumulated depreciation, totaled \$12.3 billion as of June 30, 2002. Depreciation charges for Fiscal Year 2002 totaled \$395.8 million.

More detailed information about the State’s capital assets is presented in Note 6 – Capital Assets, in the Notes to the Financial Statements.

Fiscal Year 2003 Capital Plan

Exclusive of the State’s school construction program, the State’s Fiscal Year 2003 capital budget projects a spending authorization of \$1.8 billion. Of this amount, the New Jersey Transportation Trust Fund Authority’s authorization totals \$1.1 billion, with \$535.0 million reserved for Department of Transportation projects and \$573.0 million reserved for New Jersey Transit projects. Other major projects that are to be funded include the State Police multipurpose building for its Troop “C” headquarters, and the State Police emergency operations center.

Debt Administration

As of June 30, 2002, New Jersey's long-term debt totaled \$17.2 billion. This amount represents a \$948.0 million increase over the prior fiscal year. The State's long-term debt is broken into several categories as follows:

- **General Obligation Bonds** The State is empowered by voters to authorize, issue, and incur debt subject to certain constitutional restrictions. General obligation bond acts are both legislatively and voter-approved and are backed by the State's full faith and credit.
- **Revenue Bonds** This debt classification represents bond issuances whose segment of debt service comes solely from legally restricted revenues. Revenue bonds include debt issued by the New Jersey Building Authority for the purpose of erecting office structures to support State operations and the New Jersey Transportation Trust Fund Authority for the purpose of constructing various transportation and transit-related projects.
- **Installment Obligations** This debt classification represents obligations whose debt service is subject to and dependent upon the State Legislature making future appropriations from time to time. Installment obligations include debt issued to help fund the State's school construction program, and fund colleges and universities for the installation of dormitory fire suppression equipment.
- **Certificates of Participation** Certificates of Participation are debt issuances used primarily to finance State equipment needs under the State's master lease program. Currently, the State uses a line of credit as its preferred financing method for equipment.
- **Capital Leases** Capital Leases represent long-term contractual obligations that the State has entered into for the purpose of utilizing office space for State operations and program usage.
- **Loans Payable** Loans Payable represent amounts received by the New Jersey Automobile Insurance Guaranty Fund, from the New Jersey Property-Liability Insurance Guaranty Association. The loans were made in an effort to depopulate the New Jersey Automobile Insurance Guaranty Fund and to help satisfy its unfunded liability.

More detailed information about the State's long-term obligations and its debt limitations is presented in Note 9 – Long-term Obligations in the Notes to the Financial Statements.

Short-term Debt

The State's short-term note program provides effective cash flow management of imbalances that occur in the timing of collections and disbursements of State revenues and expenditures during the fiscal year. The State Treasurer is authorized to issue short-term debt instruments without it constituting a general obligation of the State, or a debt, or a liability within the meaning of the State Constitution. All short-term notes must be retired within twelve months of their issuance date. During Fiscal Year 2002, the State issued and retired \$1.3 billion in commercial paper and short-term notes.

More detailed information about the State's short-term debt program is presented in Note 8 – Short-term Debt, in the Notes to the Financial Statements.

Credit Ratings

Standard & Poor's Corporation, Moody's Investors Service, and Fitch Investors Service rate the State's debt. As of June 30, 2002, the State's short-term and long-term credit rating are as follows:

<u>Rating Agency</u>	<u>Short-Term Rating</u>	<u>Long-Term Rating</u>
Standard & Poor's Corporation	SP-1+	AA
Moody's Investors Service	MIG 1	Aa2
Fitch Investors Service	F1+	AA

ECONOMIC CONDITION AND OUTLOOK

Downturns in the United States economy as well as the effects of terrorist attacks on September 11, 2001 have had a negative effect on the State. During Fiscal Year 2002, the State's economic performance has left New Jersey government with declining revenues. The State has undertaken several budgetary initiatives geared to address the current economic climate. These initiatives include an early retirement program, and the planned utilization of the Surplus Revenue Fund.

In recognizing the current and future New Jersey economic climate, the State has initiated the restructuring of the Corporation Business Tax as well as the partial securitization of Tobacco Settlement receipts.

**STATE OF NEW JERSEY
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET ASSETS
JUNE 30, 2002**

Total fund balances-governmental funds \$ 5,580,257,515

Amounts reported for governmental activities in the statement of net assets are different as a result of the following items:

The State has receivables which are not current resources and therefore are not reported in the fund perspective. 522,976,307

In the government-wide statements deferred issuance costs are capitalized and amortized over a period of years, but are reported as expenditures in the fund perspective. 8,120,703

Capital assets used in governmental activities are not financial resources and therefore are not reported in the fund perspective. These assets consist of:

Infrastructure assets	\$ 14,046,375,615	
Land and land improvements	609,833,522	
Other capital assets	2,947,341,065	
Accumulated depreciation	<u>(5,343,777,418)</u>	12,259,772,784

In the government-wide statements certain revenues are deferred based on the period in which they are earned, but are reported as revenue in the fund perspective. (642,593,836)

Some liabilities are not due and payable in the current period and therefore are not reported in the fund perspective. Those liabilities consist of:

Current Liabilities:		
Refunds due to taxpayers	\$ (412,000,000)	
Accrued interest	<u>(169,084,448)</u>	(581,084,448)

**STATE OF NEW JERSEY
RECONCILIATION OF THE CHANGE IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
JUNE 30, 2002**

Net change in fund balance - total governmental funds \$ (1,997,642,961)

Amounts reported for governmental activities in the statement of activities are different as a result of the following items:

Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their useful lives as depreciation expense. In the current period, these amounts are:

Capital outlay	\$ 1,564,243,650	
Depreciation expense	(395,779,596)	
Excess of capital outlay over depreciation expense		1,168,464,054

Bond proceeds provide current financial resources to governmental funds. However, issuing debt increases long-term liabilities in the statement of net assets. In the current period, proceeds were received from revenue bonds. (1,015,000,000)

Some capital additions were financed through capital leases, certificates of participation and installment obligations. In governmental funds these arrangements are considered a source of financing, but in the statement of net assets, these arrangements are reported as a liability. (566,137,050)

Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. In the current year these amounts consist of:

Bond principal retirement	522,148,129	
Capital lease payments	47,423,428	
Installment obligation retirement	236,784,838	
Certificates of participation retirement	43,516,155	
Total long-term debt repayment		849,872,550

Because some revenues will not be collected for several months after the State's fiscal year ends, they are not considered "available" revenues and are not accrued in the governmental funds. The Fiscal Year 2002 receivable balances declined by this amount. (62,271,873)

In the government-wide statements certain revenues are deferred based on the period in which they are earned, but are reported as revenue in the fund perspective. The Fiscal Year 2002 deferred revenue balance increased by this amount. (21,320,424)

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures or reductions of revenue in governmental funds. These activities consist of:

Net decrease in accrued interest	12,075,248	
Increase in compensated absences and other	(108,992,070)	
Increase in revenue refunds payable	(57,518,000)	
Total additional expenditures and revenue reductions		(154,434,822)

Change in net assets of governmental activities \$ (1,798,470,526)

**STATE OF NEW JERSEY
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). In 1999 the GASB issued Statement No. 34, Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments, and Statement No. 35, Basic Financial Statements – and Management’s Discussion and Analysis – for Public Colleges and Universities. These Statements establish new financial reporting requirements for state and local governments and public colleges and universities throughout the United States. They require new information and restructure much of the information that governments have presented in the past. The State has implemented these standards for the fiscal year ending June 30, 2002.

Other GASB Statements are required to be implemented in conjunction with GASB Statements No. 34 and No. 35. Therefore, the State has implemented, in the current fiscal year, Statement No. 37 – Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments: Omnibus, and Statement No. 38 – Certain Financial Statement Note Disclosures.

The financial statements have been prepared primarily from accounts and records maintained by the State Comptroller. The financial data for the various public benefit corporations, authorities, commissions, colleges and universities has been derived from reports prepared by those organizations based on their independent accounting systems.

B. Financial Reporting Entity

For financial reporting purposes the State of New Jersey includes all fund types, departments, and agencies of the State, as well as boards, commissions, authorities, colleges and universities, for which the State is financially accountable. The following circumstances set forth the State’s financial accountability for a legally separate organization:

1. The State is financially accountable if it appoints a voting majority of the organization's governing body and (a) it is able to impose its will on that organization or (b) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the State.
2. The State may be financially accountable if an organization is fiscally dependent on the State regardless of whether the organization has (a) a separately elected governing board or (b) a jointly appointed board.

Entities for which the State is financially accountable such as boards, commissions, authorities, colleges and universities are considered component units. These component units are included in the State's reporting entity because of the significance of their operational or financial relationships with the State. Component units are either discretely presented or blended. Discrete presentation entails reporting component unit financial data in columns separate from the financial data of the primary government (the State). Blending requires the component unit's balances and transactions to be reported in a manner similar to the balances and transactions of the State.

The following organizations comprise the State's component units. The New Jersey Building Authority and the New Jersey Transportation Trust Fund Authority are blended component units since they provide services entirely, or almost entirely to the State. Additional pertinent information related to them is disclosed in the notes of the primary government. All other component units have been discretely presented. Descriptions of the discretely presented component units and addresses from which complete financial statements of the respective component units can be obtained is detailed in Note 16.

C. Government-wide and Fund Financial Statements

The government-wide financial statements (the statement of net assets and the statement of activities) report information of all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these government-wide statements. Governmental activities, which normally are supported by taxes and intragovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component units for which the primary government is financially accountable.

The statement of net assets measures not just current assets and liabilities, but also long-term assets and liabilities such as capital assets (including infrastructure assets) and general long-term debt. The difference between the State's assets and its liabilities is its net assets. Net assets are displayed in three components - invested in capital assets, net of related debt; restricted; and unrestricted. Net assets are restricted when constraints placed on them are either externally imposed or are imposed by constitutional provisions or enabling legislation. When both restricted and unrestricted resources are available for use, generally it is the State's policy to use restricted resources first, then unrestricted resources as they are needed.

The statement of activities is presented in a format that reports the net (expense) revenue of the State's individual functions. The net (expense) revenue format reports the relative financial burden of each of the State's functions on its taxpayers. This format identifies the extent to which each function of the government draws from the general revenues of the State or is self-financed through licenses, fees, permits, and other revenues.

Program revenues originate from the program or from parties other than the government's taxpayers or citizens as a whole and reduce the expenses of the function to be financed by general revenues. Categories of program revenues that are separately reported in the statement are charges for services, program specific operating grants and contributions, and program specific capital grants and contributions. Charges for services are revenues from exchange or exchange-like transactions with external parties that purchase, use, or directly benefit from the program's goods, services, or privileges. These revenues include fees charged for specific services, licenses and permits, and operating special assessments, as well as payments from exchange transactions with other governments. Program specific operating and capital grants and contributions are revenues from mandatory and voluntary nonexchange transactions with external parties that are restricted for use in a particular program. All other revenues are general revenues, including all taxes, even if levied for a specific purpose. A special item is a significant transaction or other event within the control of management that is either (1) unusual in nature, or (2) infrequent in occurrence. An extraordinary item is a transaction or other event that is both (1) unusual in nature and (2) infrequent in occurrence.

In the statement of activities, all expenses are reported by function except those that are special or extraordinary items. Each function reports direct expenses – those specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Some functions, such as government direction, management and control, include expenses that are indirect expenses of other functions. The State does not allocate indirect expenses to the other functions.

Separate financial statements are provided for governmental funds, proprietary funds, fiduciary funds, and component units. However, the fiduciary funds are not included in the government-wide statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

D. Measurement Focus and Basis of Accounting

Government-wide Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The government-wide financial statements report all financial and capital assets (including infrastructure assets), short and long-term liabilities, revenues, expenses, gains, and losses using the economic resources measurement focus and the accrual basis of accounting. Activity and balances resulting from exchange and exchange-like transactions are recognized when the exchange takes place; those resulting from nonexchange transactions are recognized based on the provisions of GASB Statement No. 33.

Governmental Fund Financial Statements – The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the current financial resources measurement focus, only current assets and liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.

In accordance with the modified accrual basis, revenues are recognized when they become susceptible to accrual; that is, when they become both measurable and available to finance expenditures of the fiscal period. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. These revenues which are considered to be susceptible to accrual include amounts received during the twelve month period subsequent to June 30 that were earned as of June 30. Those revenues which are considered to be susceptible to accrual include sales tax, individual income taxes, corporate income taxes, and federal grants. Licenses, fees, permits and other sources are recognized when received since they normally are measurable only at that time. Revenue refunds payable are recorded as other liabilities. Unapplied overpayments of Corporation Business Tax are recorded when a final determination is made as to the ultimate disposition of the overpayments.

Expenditures are recognized when the related fund liabilities are incurred. Expenditures for compensated absences, claims, and judgments are recorded to the extent they would normally be liquidated with available financial resources.

Disbursements for prepaid expenses, inventory items, and fixed assets are recorded when expenditures are incurred. Expenditures for principal and interest on general obligation long-term debt are recognized when due.

Proprietary Funds, Fiduciary Funds, and Component Units Financial Statements - The financial statements of the proprietary funds, fiduciary funds, and component units are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the government-wide statements previously described.

Each proprietary fund has the option under Governmental Accounting Standards Board (GASB), Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting, to elect to apply all Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989 unless FASB conflicts with GASB. The State has elected to not apply FASBs issued after the applicable date.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The State's largest enterprise funds are the Unemployment Compensation Fund and the State Lottery Fund.

The Unemployment Compensation Fund's principle ongoing operations consist of collecting contributions from employers and employees and the subsequent disbursement of monies to persons entitled to receive unemployment benefits. Collections and disbursements to eligible recipients are classified as operating revenues and expenses. The State Lottery Fund's principle ongoing operations, which are classified as operating revenues and expenses, consist of receipts from lottery ticket sales and subsequent disbursements of monies to lottery winners.

In addition, the State records two other enterprise funds, the Health Benefits Local Government Employers Program Fund and the Prescription Drug Local Government Employers Program Fund. For these funds, the principle ongoing operations, classified as operating revenues and expenditures, consist of member and employer contributions which are used to pay health care and prescription costs on behalf of eligible employees and their dependents.

E. Fund Accounting

The financial activities of the State are recorded in individual funds, each of which is deemed to be a separate accounting entity. The State uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts, which represent the fund's assets, liabilities, equity, revenues, and expenditures or expenses. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements, with non-major funds being combined into a single column.

1. Major Funds

The State reports the General Fund and the Property Tax Relief Fund as major governmental funds. The State also reports the Unemployment Compensation Fund, and the State Lottery Fund as major enterprise funds. Descriptions are as follows:

- a. General Fund - The fund accounts for all State revenues, not otherwise restricted by statute. The largest part of the total financial operations of the State is accounted for in the General Fund. Most revenues received from taxes, federal sources, and certain miscellaneous revenue items are recorded in this fund. The Appropriations Act enacted by the Legislature provides the basic framework for the operations of the General Fund.
- b. Property Tax Relief Fund – This fund accounts for revenues from the New Jersey Gross Income Tax. Revenues realized from the Gross Income Tax are dedicated by the State Constitution. All receipts from taxes levied on personal income of individuals, estates, and trusts must be appropriated exclusively for the purpose of reducing or offsetting property taxes. Annual appropriations are made from the fund, pursuant to formulas established by the Legislature, to counties, municipalities, and school districts.

- c. Unemployment Compensation Fund – This fund accounts for monies deposited from contributions of employers and employees for unemployment compensation, and amounts credited or advances made by the Federal government to be used to provide benefits to eligible unemployed workers.
- d. State Lottery Fund – This fund accounts for monies derived from the sale of lottery tickets and the subsequent payment of prizes to holders of winning lottery tickets.

2. Governmental Fund Types

- a. Special Revenue Funds - Are used to account for the proceeds of specific revenue sources (other than special assessments, private-purpose trusts, or major capital projects) that are legally restricted to expenditure for specific purposes such as education, environment and health care.
- b. Debt Service Fund - Accounts for the accumulation of resources for, and the payment of, general long-term debt principal and interest. Amounts provided by the General Fund are deposited with banks that serve as paying agents.
- c. Capital Projects Funds - Account for financial resources, usually general obligation bonds, to be used for the acquisition or construction of major capital facilities for State use such as mental health, educational and correctional facilities, and public transportation projects. Funds granted to other units of government are not classified as capital projects funds and are included as expenditures of special revenue funds.

3. Fiduciary Fund Types

- a. Pension (and other employee benefit) Trust Funds - These funds report resources that are required to be held in trust for members and beneficiaries of defined benefit pension plans, defined contribution plans, other post-employment benefit plans, and other employee benefit plans, such as the deferred compensation plan.
- b. Investment Trust Fund - This fund reports an investment pool that consolidates monies from municipalities, counties, school districts, and any other public body, corporate or politic.
- c. Private-purpose Trust Funds - These funds report all other trust arrangements for which principal and income benefit individuals, private organizations, or other governments.
- d. Agency Funds - These funds report resources held by the State in a purely custodial capacity. These funds typically involve only the receipt, temporary investment, and remittance of the resources to external parties.

4. Proprietary Fund Types

Enterprise Funds – These funds may be used to report any activity for which a fee is charged to external users for goods and services. Activities are required to be reported as enterprise funds if laws or regulations require that the activity’s costs of providing services be recovered with fees and charges, rather than with taxes on similar revenues.

F. Budgetary Process

Annual budgets are adopted for the General Fund and certain special revenue funds (Casino Control, Casino Revenue, Gubernatorial Elections, and Property Tax Relief Funds). The Legislature enacts the Budget through passage of specific departmental appropriations, the sum of which may not exceed estimated resources. It is a constitutional requirement that the Budget be balanced. The Governor certifies the revenues. Before signing the Appropriations Act, the Governor may veto or reduce any specific appropriation, subject to Legislative override. Once passed and signed, the Appropriations Act becomes the State's financial plan for the coming year. During the year, the spending authority contained in the Appropriations Act may be revised by supplemental appropriations approved by both the Legislature and the Governor. Expenditures are presented on the accompanying budgetary basis financial statements by statewide program classifications, not by the legal level of budgetary control. Detail at the departmental level is presented on the accompanying Schedules of Appropriations and Expenditures.

For the General Fund and budgeted special revenue funds, budgetary control (legal control) is maintained within the department (as indicated on the organization chart) at the appropriation line item level. Appropriations Act revisions during the year, reflecting program changes or interdepartmental transfers of an administrative nature, may be effected with certain executive and legislative branch approvals. Under the “General Provisions” section of the State’s Annual Appropriation Act, management may amend the budget within a department with the approval of the Director of the Office of Management and Budget. Items in excess of \$300,000 must be further approved by the Office of Legislative Services. Only the Legislature, however, may transfer appropriations between departments. Transfers within a department are permitted within certain guidelines and management approval.

Appropriations are authorized for expenditure during the fiscal year and for a period of one month thereafter, and unencumbered appropriations lapse at the end of the fiscal year, unless otherwise specified by the Appropriations Act.

The State’s budgetary basis of accounting differs from that utilized to present fund financial statements in conformance with generally accepted accounting principles (GAAP). The main differences between the budgetary basis and the GAAP basis used to present fund financial statements, are that under the budgetary basis encumbrances are recognized as expenditures, the federal revenue related to such encumbrances is also recognized, and the budgetary basis reflects transactions only for the current fiscal year. In addition, under the GAAP basis used to present fund financial statements, certain grants and other financial assistance are required to be recorded as revenues and expenditures.

G. Appropriations and Outstanding Debt

The State Constitution provides that the Legislature may not create a debt (where total outstanding debt would exceed one percent of total appropriations for the year) unless such law has been submitted to the people at a general election and approved by a majority of the legally qualified voters. After approval by the electorate, and prior to any bond sale, the Legislature may make appropriations up to the legally authorized amount of such bonds, which enables the State to enter into contracts with vendors.

H. Assets

1. Cash and Cash Equivalents

Deposits encompass the State’s cash on deposit with financial institutions and several cash equivalents, including certificates of deposit. All deposits including cash equivalents that are subject to federal or state depository insurance generally are classified as deposits. Only investments with an original maturity of three months or less are considered to be cash equivalents. See Note 3 for details.

2. Investments

Statutes of the State of New Jersey and regulations of the State Investment Council authorize the Division of Investment to invest in obligations of the U.S. Treasury, foreign governments, agencies, municipal or political subdivisions of the State, commercial paper, bankers acceptances, revenue obligations of public authorities, debt instruments of banks, collateralized notes and mortgages, certificates of deposit, repurchase agreements, equity and convertible equity securities, and other common types of investment securities.

In addition to the amounts invested directly, most of the funds included herein participate in the State of New Jersey Cash Management Fund wherein amounts also contributed by other units of government are combined into a large scale investment program. The Pension Trust Funds also participate in a Common Pension Trust Fund pool whereby amounts contributed by the various Pension Trust Funds are combined for the purpose of investment. Participation in the Cash Management Fund investment pool and the Common Pension Trust Fund investment pool by State funds is reflected as investments in the Balance Sheets of the respective funds. Amounts contributed to the Cash Management Fund investment pool by local governments and other entities which are not part of the State’s reporting entity, are reflected as investments in the Balance Sheet of the State of New Jersey Cash Management Fund-External Portion.

Amounts contributed to the Cash Management Fund investment pool are recorded at cost, which approximates fair value. Any differences between cost and fair value for Cash Management Fund pool investments are immaterial. Other investments are recorded at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. See Note 4 for additional details.

3. Receivables

Receivables in the State's governmental, fiduciary, and proprietary funds, Component Units - Authorities, and Component Units - College and University Funds are stated net of allowances for uncollectable amounts and primarily consist of federal revenues, taxes, loans, interest, contributions due from employers and members to the respective pension funds, mortgages, and other receivables. See Note 5 for details.

4. Capital Assets

Capital assets are tangible and intangible assets that are used in operations and that have initial useful lives that extend beyond a single reporting period. Capital assets are reported in the statement of net assets at cost or historical cost based on appraisals or other acceptable methods when historical cost information is not available. Donated fixed assets are recorded at estimated fair value at the time of donation. The State's capital assets consist of:

- a. All land, including parks and forests.
- b. Infrastructure assets such as roads, bridges, dams, highway lands, and rights-of-way.
- c. All general government buildings, including hospitals, care, and correctional facilities.
- d. Land improvements, machinery and equipment, and motor vehicles used in general operations, with unit costs above \$25,000, \$20,000, and \$30,000 respectively.
- e. Capital projects in the process of construction.

To measure depreciation expense, the State used the straight-line method, whereby the historical cost (or other capitalized amount) of depreciable assets, less their estimated salvage values, is allocated in equal annual amounts over the estimated useful lives of the assets. To estimate the useful lives of its capital assets, the State uses guidelines from industry organizations. There is no depreciation recorded for land, construction in progress, and rights-of-way.

Capital leases which are classified as capital assets are recorded in amounts equal to the lesser of the fair value of the asset or the present value of the future net minimum lease payments at the inception of the lease.

The State does not capitalize works of art, historical treasures, and similar assets. Capital assets utilized in the governmental funds are recorded as expenditures in the governmental fund financial statements.

5. Interfund/Intrafund Transactions

Interfund Transactions - During the course of normal operations, the State has numerous routine transactions between funds, including expenditures, and transfers of resources to provide administrative services, program services, debt service, and compliance with legal mandates, such as legislation requiring the transfer of investment earnings from a capital project fund to the General Fund. In the fund financial statements, these transactions generally are recorded as transfers to/transfers from other funds and due to/due from other funds. Operating transfers represent legally authorized transfers from a fund receiving revenue to the fund through which the resources are to be expended and do not represent reimbursement of expenses.

Intrafund Transactions - Intrafund transactions, as a result of contracts among departments within the same fund, are considered expenditures by the contractor and revenues by the contractee in the fund financial statements.

As a general rule, intrafund revenues and expenditures, interfund transfers, and interfund receivables and payables have been eliminated in the government-wide financial statements. An exception is the net residual amounts due between governmental and business-type activities, which is recorded as internal balances. Receivables from and payables to fiduciary funds are recorded in the statement of net assets as receivable from and payable to external parties.

I. Liabilities

1. Deferred Revenue

Deferred revenues at the fund level arise when potential revenue does not meet the available criterion for recognition in the current period. Deferred revenues also arise when resources are received by the State before it has a legal claim. In subsequent periods, when the revenue recognition criterion is met, or when the State has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet and revenue is recognized. Deferred revenues at the government-wide level arise only when the State receives resources before it has a legal claim to these resources.

Deferred revenue in the General Fund, at both levels, consists principally of amounts due from the Port Authority of New York and New Jersey and food stamp inventory (in accordance with the provisions of GASB Statement No. 24, Accounting and Financial Reporting for Certain Grants and Other Financial Assistance).

2. Deferred Compensation

The State offers its employees a deferred compensation plan (the Plan) created in accordance with Internal Revenue Code Section 457. The Plan, which is administered by the Department of the Treasury, Division of Pensions and Benefits, permits participants to defer a portion of their salary until future years. Amounts deferred under the Plan are not available to employees until termination, retirement, death, or an unforeseeable emergency.

Under current Internal Revenue Service regulations, all monies that are deferred and any other assets or income of the Plan shall be held in trust for the exclusive benefit of the participating employees and their beneficiaries. The State has no liability for losses under the Plan but does have the duty of due care that would be required of an ordinary prudent investor.

The State's Employees' Deferred Compensation Plan is reported as a pension (and other employee benefits) trust fund in the fund financial statements. The Plan is fiduciary in nature, and thus is not reported in the government-wide financial statements.

3. Accumulated Unpaid Sick and Vacation Benefits

Cash payments for accumulated sick leave balances are made to retiring employees upon regular retirement. The payment is based on fifty percent of the employee's sick leave accumulation, at the pay rate in effect at the time of retirement up to a maximum of \$15,000. Employees separating from State service prior to retirement are not entitled to payments for accumulated sick leave balances. Cash payments for sick leave at retirement are made from annual legislative appropriations on a "pay-as-you-go" basis. Sick leave accumulations may also be used by an employee for a personal illness or injury as a means of continuing regular pay.

Employees annually earn 12 to 25 vacation days based on years of service and are permitted to carry over those days earned within a one-year period. The liability for accumulated employee sick leave and for accumulated vacation pay is reflected in the government-wide financial statements and the proprietary fund financial statements as noncurrent liabilities.

4. Other Long-term Obligations

In addition to accumulated unpaid sick and vacation benefits, other long-term obligations include general obligation bonds, revenue bonds, capital leases, installment obligations, certificates of participation, loans payable, and other liabilities of a long-term nature. The liability for long-term items described above is reflected in the government-wide financial statements and the proprietary fund financial statements as noncurrent liabilities, due in more than one year.

Bond and note premiums and discounts are amortized to interest expense based on the straight-line method. Bonds and notes payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges in other assets and are amortized over the term of the related debt.

In the governmental fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts

are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

J. Net Assets

1. Invested in Capital Assets, Net of Related Debt - This component of net assets consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted - Net assets are reported as restricted when constraints placed on net asset use are either: (1) externally imposed by creditors, grantors, contributors, or laws or regulations of the other governments, or (2) imposed by law through constitutional provisions or enabling legislation.
3. Unrestricted - Unrestricted net assets consist of net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”
4. Held in Trust for Employees’ Pension Benefits and Other Purposes - Used to accumulate all active member, State, and other employer contributions and investment income from which all benefit payments are made; also used to accumulate resources received as a result of trust arrangements or to accumulate resources held for investment.

K. Fund Balances

1. Reserved Encumbrances - Used to segregate a portion of fund balance to provide for expenditure upon vendor performance of purchase agreements.
2. Reserved Other - Used to earmark a portion of the fund balance to indicate it is either a resource currently unavailable for appropriation or expenditure, or a statutory restriction on current fund balance.
3. Unreserved - General Fund, Special Revenue Funds, Debt Service Fund, and Capital Projects Funds - Represents the following:
 - a. Unreserved Designated - Continuing Appropriations - Used to represent that portion of fund balance which has been appropriated by the Legislature, as well as those portions of fund balance of non-budgeted governmental funds so designated by management.
 - b. Unreserved Designated - Debt Service - Used to identify that portion of the fund balance of the New Jersey Transportation Trust Fund which is made available to satisfy the debt service requirements of the subsequent period.
 - c. Unreserved Designated - Unrealized Gains - Used to represent the portion of fund balance that resulted from the fair value reporting of investments, i.e., the difference between investments reported at fair value and the amortized cost of those investments.
 - d. Unreserved Undesignated – Used to represent that portion of fund balance resources available for appropriation.

B. Restatement of Fund Balance

1. Fund Financial Statements

The following schedule details the effect of fund type reclassifications on fund balances due to the adoption of GASB Statement No. 34 (expressed in millions).

<u>Fund</u>	<u>As Previously Reported June 30, 2001</u>	<u>Adjustment</u>	<u>As Restated June 30, 2001</u>
Atlantic City Parking Fees Fund	\$ --	\$ 1.6	\$ 1.6
Atlantic City Tourism Promotion Fund	--	0.3	0.3
Capital City Redevelopment Loan and Grant Fund	--	2.0	2.0
Luxury Tax Fund	--	0.9	0.9
Unclaimed Insurance Payments on Deposit Accounts Fund	--	2.0	2.0

In addition, the opening fund balance of the New Jersey Building Authority of \$135.4 million has been reduced by \$23.1 million to reflect corrections of prior year amounts related to net assets. The adjusted balance is \$112.2 million.

2. Government-wide Statements

The implementation of GASB Statement No. 34 requires the presentation of two new financial statements, a statement of net assets and a statement of activities, prepared using the economic resources measurement focus and the accrual basis of accounting. As a result, the net assets of governmental activities as of July 1, 2001 has been restated to \$1.8 billion in order to show the cumulative effect of applying GASB Statement No. 34.

C. Deficit Fund Balances

It is anticipated that bond sales during Fiscal Year 2003 will relieve deficit fund balances in the following funds (expressed in millions).

Energy Conservation Fund	\$	0.1
Resources Recovery and Solid Waste Disposal Facility Fund		31.8
State Land Acquisition and Development Fund		1.0
1999 Statewide Transportation and Local Bridge Fund		135.7

In addition, deficit fund balances exist in the Health Benefits Local Government Employers Program Fund (\$59.7 million) and the Korean Veteran’s Memorial Fund (\$1.1 million). It is anticipated that private and public charitable donations during Fiscal Year 2003 will relieve the deficit in the Korean Veteran’s Memorial Fund. Calendar year 2003 contribution rates were increased in order to offset the deficit in the Health Benefits Local Government Employers Program Fund.

D. Joint Ventures

**The Port Authority of New York and New Jersey
225 Park Avenue South
New York, NY 10003-1604**

Joint ventures are independently constituted entities generally created by two or more governments for a specific purpose such as contracting and maintaining an interstate bridge. Pursuant to current financial reporting standards, the State does not record its equity in joint ventures. The only significant joint venture in which the State of New Jersey participates is the Port Authority of New York and New Jersey. Individually published financial statements may be obtained by writing the Port Authority of New York and New Jersey at the above mentioned address. Other joint ventures are immaterial.

The Port Authority is a municipal corporate instrumentality of the States of New York and New Jersey created by compact between the two states in 1921 with the consent of the Congress of the United States. It is authorized and directed to plan, develop, and operate terminals and other facilities of transportation and commerce, and to advance projects in the general fields of transportation, economic development, and world trade that contribute to promoting and protecting the commerce and economy of the Port District, defined in the compact, which comprises an area of about 1,500 square miles in both states, centering about New York Harbor. The Governor of each State appoints six of the twelve members of the governing Board of Commissioners, subject to confirmation by the respective State Senate. Each Governor has from time to time exercised the statutory power to veto the actions of the commissioners from their state.

The commissioners serve six-year overlapping terms as public officials without compensation. They establish Authority policy, appoint an Executive Director to implement it, and also appoint a General Counsel to act as legal advisor to the Board and to the Executive Director. The Authority undertakes only those projects authorized by the two states.

The compact envisions the Port Authority as being financially self-sustaining and, as such, it must obtain the funds necessary for the construction or acquisition of facilities upon the basis of its own credit, its reserve funds, and its future revenues. The agency has neither the power to pledge the credit of either state or any municipality nor to levy taxes or assessments.

Consolidated financial statements for the Port Authority for the fiscal year ended December 31, 2001 disclosed the following (expressed in millions):

	Financial Position		
	<u>Port Authority</u>	<u>PFC Program</u>	<u>Combined Total</u>
Total Assets	\$ 14,603.8	\$ 1,028.4	\$ 15,632.2
Total Liabilities	10,452.8	--	10,452.8
Net Assets	<u>\$ 4,151.0</u>	<u>\$ 1,028.4</u>	<u>\$ 5,179.4</u>
	Operating Results		
Operating Revenues	\$ 2,714.8	\$ 113.5	\$ 2,828.3
Operating Expenses	(1,745.8)	--	(1,745.8)
Depreciation and Amortization	(705.2)	(7.9)	(713.1)
Income from Operations	263.8	105.6	369.4
Financial Income (Expense), Net	(154.6)	0.9	(153.7)
Net Income	<u>\$ 109.2</u>	<u>\$ 106.5</u>	<u>\$ 215.7</u>
	Changes in Net Assets		
Balance January 1, 2001	\$ 3,630.0	\$ 921.8	\$ 4,551.8
Net Income	109.2	106.5	215.7
Government Contributions in Aid of Construction	411.7	--	411.7
Balance December 31, 2001	<u>\$ 4,150.9</u>	<u>\$ 1,028.3</u>	<u>\$ 5,179.2</u>

Except for Special Project Bonds, the Authority's debt is secured by its full faith and credit, its reserve funds, or a pledge of future revenues. Special Project Bonds are secured by a mortgage on the financed properties. At December 31, 2001, Port Authority debt consisted of the following (expressed in millions):

Bonds, Notes and Other Obligations

Consolidated Bonds and Notes	\$ 6,092.7
Special Project Bonds	1,457.7
Operating Asset Financing	537.7
Capital Asset Financing	1,137.9
	<u>9,226.0</u>
Less: Unamortized Discount and Premium	(166.7)
Total	<u>\$ 9,059.3</u>

E. Risk Management and Insurance Coverage

The State is self-insured and self-administered for tort, workers’ compensation, and automobile liability claims. As of June 30, 2002 no liability for unpaid claims has been established since the amount of loss cannot be reasonably estimated. However, any unpaid claims are not expected to be material. Claims are reported as expenditures in the General Fund in the year they are paid. Amounts expended for tort, workers’ compensation, and automobile liability claims for Fiscal Year 2002 and Fiscal Year 2001 are detailed below (expressed in millions):

<u>Type of Claim</u>	<u>Fiscal Year 2002</u>	<u>Fiscal Year 2001</u>
Tort	\$ 8.3	\$ 24.9
Workers' compensation	17.4	18.7
Automobile	1.5	2.8

Property exposure is handled by a commercial insurance carrier. There were no reductions in commercial insurance coverage during the fiscal year ended June 30, 2002. No settlements exceeded commercial insurance coverage during each of the past three fiscal years. The State does not participate in any risk pools.

The State has obtained a financial guaranty policy insurance commitment to cover potential permanent losses on investments by non-state participants in the State of New Jersey Cash Management Fund-External Portion (Investment Trust Fund). The State is liable for reimbursement to the issuer of the financial guaranty policy insurance commitment for any payments made. This financial guaranty policy insurance commitment expires on December 1, 2012.

F. Other

In accordance with Governmental Accounting and Financial Reporting Standards (GASB) Codification L20.126, "Leases between State and Local Governments and Public Authorities", the debt and assets of the New Jersey Building Authority have been reduced for presentation herein in the amount of \$641.8 million, the amount of the present value of future lease payments by the State to the New Jersey Building Authority as of December 31, 2001.

In accordance with GASB Statement 24, "Accounting and Financial Reporting for Certain Grants and Other Financial Assistance," an additional \$314.8 million in federal grant revenues and economic planning, development, and security expenditures and \$0.8 million in other assets and deferred revenues relating to the State's food stamp program have been recorded.

NOTE 3 - CASH AND CASH EQUIVALENTS

All funds maintain their own individual bank account(s) except for the Casino Control, Casino Revenue, Gubernatorial Elections, Special Transportation, and Property Tax Relief Funds which are in the General Fund bank accounts. The balances of cash for these funds held in the General Fund, after receipt and disbursement transactions, are accounted for and reflected in the respective due from or due to accounts on the balance sheet presented in the fund financial statments.

New Jersey Revised Statutes (52:18-16.1) set the policy that the State Treasurer must follow when depositing State funds and for the collateralization of such funds. The relationship between the face amount of the collateral and the amount of a deposit is not statutory but is stipulated by the State Treasurer. All bank accounts in which the State Treasurer deposits funds must be collateralized. Securities pledged as collateral must consist of obligations of, or be guaranteed by, the United States or the State of New Jersey. Securities are pledged in the State Treasurer's name and held by a custodian bank under a custodian agreement.

Collateral requirements for demand accounts and time accounts for banks having less than \$15 million in State deposits per month require 100% coverage of the highest daily balance of the preceding month. For banks that have State deposits which total \$15 million or more per month, the amount of collateral required is 120% of the total average daily balance on deposit in the bank during each calendar quarter of the year.

The State Department of the Treasury monitors the level of collateral required to be maintained by the banks.

The Governmental Accounting Standards Board Statement 3 requires the bank balances of deposits to be categorized to indicate the level of risk assumed by the entity. Category 1 consists of deposits that are insured or collateralized with securities held by the entity or by its agent in the entity's name. Category 2 consists of deposits collateralized with securities held by the pledging financial institutions trust department or agent in the entity's name. Category 3 consists of deposits which are uncollateralized.

Cash and cash equivalents are categorized below for all funds excluding discretely presented component units (expressed in millions):

	<u>Category 1</u>	<u>Category 2</u>	<u>Category 3</u>	<u>Total Bank Balance</u>	<u>Total Carrying Amount</u>
Cash	\$ 124.7	\$ --	\$ 3.4	\$ 128.1	\$ 92.8
Certificates of deposit and related items	<u>--</u>	<u>--</u>	<u>1,345.9</u>	<u>1,345.9</u>	<u>1,345.9</u>
Totals	<u>\$ 124.7</u>	<u>\$ --</u>	<u>\$ 1,349.3</u>	<u>\$ 1,474.0</u>	<u>\$ 1,438.7</u>

Negative book balances representing a managed overdraft have been reclassified as accounts payable. Carrying amount balances and negative book balances for all fund types excluding discretely presented component units are reported on the Government-wide Statement of Net Assets and Statement of Fiduciary Net Assets as follows (expressed in millions):

	<u>Total Carrying Amount</u>	<u>Negative Book Balances</u>
Governmental activities	\$ 95.7	\$ 303.4
Business-type activities	4.7	78.3
Fiduciary funds	<u>1,338.3</u>	<u>31.8</u>
Total	<u>\$ 1,438.7</u>	<u>\$ 413.5</u>

NOTE 4 - INVESTMENTS

Statutes of the State of New Jersey and regulations of the State Investment Council authorize the Division of Investment to invest in obligations of the U.S. Treasury, foreign governments, agencies, municipal or political subdivisions of the State, commercial paper, bankers acceptances, revenue obligations of public authorities, debt instruments of banks, collateralized notes and mortgages, certificates of deposit, repurchase agreements, equity and convertible equity securities, and other common types of investment securities. Investee institutions and organizations are prescribed by the statutes and regulations based on such criteria as minimum capital, dividend paying history, credit history, and other evaluation factors.

The purchase, sale, receipt of income, and other transactions affecting investments are governed by custodial agreements between the investing funds through the State Treasurer and custodian banks as agents for the funds. State laws and policies set forth the requirements of such agreements and other particulars as to the size of the custodial institution, amount of the portfolio to be covered by the agreements, and other pertinent matters.

Federal securities, including those held as collateral on repurchase agreements, are maintained at Federal Reserve Banks in Philadelphia and New York through the custodian banks, in trust for the State of New Jersey. A significant portion of corporate equity and debt securities are maintained by the Depository Trust Company (DTC) through the custodian banks in trust for the State of New Jersey.

Securities not maintained by the Federal Reserve Banks or DTC are in the name of a designated nominee representing the securities of a particular State fund which establishes the State fund's unconditional right to the securities. The

custodian banks, as agents for the State funds, maintain internal accounting records identifying the securities maintained by the Federal Reserve Banks and the DTC as securities owned by or pledged to the State funds.

In addition to the amounts invested directly, most of the funds included herein participate in the State of New Jersey Cash Management Fund wherein amounts also contributed by other units of government are combined into a large scale investment program. The Pension Trust Funds also participate in a Common Pension Trust Fund pool whereby amounts contributed by the various Pension Trust Funds are combined for the purpose of investment. Participation in the Cash Management Fund investment pool and the Common Pension Trust Fund investment pool by State funds is reflected as investments in the Balance Sheets of the respective funds. Amounts contributed to the Cash Management Fund investment pool by local governments and other entities which are not part of the State's reporting entity, are reflected as investments in the Statement of Fiduciary Net Assets, Investment Trust Fund.

Amounts contributed to the Cash Management Fund investment pool are recorded at cost, which approximates fair value. Any differences between cost and fair value for Cash Management Fund pool investments are immaterial. All other investments are recorded at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The State of New Jersey, Department of the Treasury, Division of Investment, issues publicly available financial reports that include the financial statements of the State of New Jersey Cash Management Fund and the Common Pension Funds. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Investment, P.O. Box 290, Trenton, New Jersey 08625-0290.

Casino Control, Casino Revenue, Gubernatorial Elections, Special Transportation, and Property Tax Relief Funds do not maintain separate investment accounts. Since cash transactions are handled by and through the General Fund as described in Note 3, any available cash balances for these funds reside in the General Fund and are combined with other balances for either participation in the State of New Jersey Cash Management Fund or direct investment as part of the General Fund large scale investment program. Except for the Casino Revenue Fund and the Casino Control Fund, investment earnings for these funds accrue to the General Fund.

Approximately \$1.1 billion of investments represents deposit fund contracts for future installment payments of lottery prizes due beyond one year from the balance sheet date. Lottery prizes are funded by the purchase of deposit fund contracts which, when matured, will provide amounts sufficient for future payment of installment prizes. Purchases of deposit fund contracts are recorded as an expenditure in the State Lottery Fund in the year of purchase. Annuity contracts are carried at their current contract values which are based upon their original purchase price adjusted for credited interest and amounts already received. The estimated fair value of annuity contracts approximates the carrying value reflected in the balance sheet. In the event of default in making future payments by the insurance company from which the contracts were purchased, the State Lottery Commission would be liable for such future payments. The projected future costs of installment prize obligations amount to \$1.7 billion which are due in installments ranging from ten years to the lifetime of the recipient.

The Governmental Accounting Standards Board Statement 3 requires investments be categorized to indicate the level of risk assumed by the entity. Category 1 consists of investments that are insured or registered or for which the securities are held by the entity or its agent in the entity's name. Category 2 consists of uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the entity's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty or by its trust department or agent but not in the entity's name. Investments for all funds are classified as Category 1 and are detailed as follows (expressed in millions):

	Amount Reported As Investments
Common stock	\$ 29,386.9
Finance companies - senior debt	1,856.3
Foreign government bonds and notes	1,638.3

NOTE 5 - RECEIVABLES

Fiduciary funds' receivables are not disclosed in the statement of net assets. However, these receivables are disclosed in the fund financial statements and consists primarily of amounts due from employers and employees and accrued earnings on investments. Receivables presented in the statement of net assets are described below.

A. Federal

Federal government grant awards are established against State appropriations. Most Federal government receivables are comprised of amounts expended against grant awards, the expenditure of which is the basis of reimbursement. Since all amounts due from the Federal government are considered to be collectible, no allowance has been established for doubtful collections. Also see Note 17 - Contingent Liabilities.

These Federal receivables are reported in conformance with generally accepted accounting principles as defined in Statement No. 2 - Grant, Entitlement and Shared Revenue Accounting and Reporting by State and Local Governments published by the National Council on Governmental Accounting. Inasmuch as encumbrances do not constitute expenditures, and since recognition of grants and entitlements as revenue is primarily based on expenditures, there is an additional \$2.6 billion of Federal government awards consisting of encumbrances and appropriation balances which are considered unearned and unrecorded as of June 30, 2002.

Federal receivable balances in the Unemployment Compensation Fund (\$2.8 billion) represent unemployment contributions transferred to the Federal Reserve Bank for deposit in the Federal Unemployment Trust Fund. All monies are invested by the Federal Government and interest earnings are credited to the Unemployment Compensation Fund.

B. Departmental

Departmental accounts receivable of \$2.8 billion include amounts which were substantially collected within the one month period subsequent to June 30 and include most major tax revenues. Amounts included in these receivables but not collected within the one month period subsequent to June 30 are deemed to be collectible, and are reflected net of allowances (\$258.0 million).

C. Loans

Loans receivable of \$901.7 million are reduced by allowances of \$12.6 million and include \$810.6 million due from local units of government and other recipients for environmental projects, \$38.3 million loaned for economic development within local units of government, and \$15.0 million loaned for housing and mortgage assistance.

D. Other

Other receivables totaling \$1,185.5 million are reduced by allowances of \$393.8 million and include tax receivables due of \$419.6 million, \$210.2 million due from the Port Authority of New York and New Jersey, contributions due from employers and members to the Health Benefits Local Government Employers Program Fund of \$72.6 million and \$25.4 million of accrued earnings on investments and accrued interest on loans to third parties.

NOTE 6 - CAPITAL ASSETS

A summary of capital assets and related accumulated depreciation by category as of June 30, 2002 is as follows (expressed in millions):

*The opening balance has been restated to reflect the infrastructure assets and the accumulated depreciation on all capital assets, in conformity with GASB Statement No. 34.

A. Items Not Capitalized and Depreciated

The State possesses certain capital assets that have not been capitalized and depreciated because the assets cannot be reasonably valued and/or the assets have inexhaustible useful lives. These assets include works of art and historical treasures; such as statues; monuments; historical documents; paintings; forts and lighthouses; rare library books; various capitol-related artifacts and furnishings; and the like.

B. Depreciation and Useful Lives

Capital assets are depreciated using the straight line method, with one half of the year's depreciation charged in the year of acquisition and in the year of disposal. The State assigned useful lives that were most suitable for the particular assets. Estimated useful lives were assigned as follows:

<u>Asset</u>	<u>Years</u>
Land improvements	10-25
Building and improvements	12-45
Machinery and equipment	5-15
Infrastructure	8-70

Depreciation was charged to functions of the primary government as follows (expressed in millions):

	<u>Amount</u>
Public safety and criminal justice	\$ 29.6
Physical and mental health	7.8
Educational, cultural, and intellectual development	4.1
Community development and environmental management	5.8
Economic planning, development, and security	2.5
Transportation programs	303.7
Government direction, management, and control	42.2
Special government services	0.1
	<u>\$ 395.8</u>

NOTE 7 - INTERFUND TRANSACTIONS

During the course of normal operations, the State has numerous routine transactions between funds, including interfund loans, expenditures, and transfers of resources to provide administrative services, program services, debt service, and compliance with legal mandates, such as legislation requiring the transfer of investment earnings from a capital project fund to the General Fund. In the fund financial statements, these transactions generally are recorded as transfers in/transfers (out) and due to/due from other funds. Operating transfers represent legally authorized transfers from a fund receiving revenue to the fund through which the resources are to be expended and do not represent reimbursement of expenses.

A. Due From/Due To Other Funds

The balance of current interfund receivables and payables at June 30, 2002 are presented below (expressed in millions):

NOTE 8 - SHORT-TERM DEBT

Tax and Revenue Anticipation Notes

The State issues short-term notes in the form of tax and revenue anticipation notes in advance of income tax and corporation business tax collections, depositing the proceeds in the General Fund. These notes are used to provide effective cash management to fund the imbalances that occur in the collection and disbursement of the General Fund and Property Tax Relief Fund revenues. The \$1.3 billion of borrowings was repaid in full prior to the end of the fiscal year. Short term debt activity for the year ended June 30, 2002 was as follows (expressed in millions):

	Outstanding July 1, 2001	Issued	Redeemed	Outstanding June 30, 2002
Tax And Revenue Anticipation Notes	\$ --	\$ 1,300.0	\$ (1,300.0)	\$ --

Unamortized deferral on refunding	(45.6)	(59.4)	(105.0)
Total	\$ 3,176.5	\$ 5,875.9	\$ 9,052.4

The general obligation bonded debt outstanding as of June 30, 2002 is \$3.2 billion which is secured by the State's (the General Fund) full faith and credit.

The New Jersey Transportation Trust Fund issued \$2.2 billion in bonds during fiscal year 2002.

The amount provided by the General Fund to the Debt Service Fund for interest and principal payments for the fiscal year ended June 30, 2002 was \$451.2 million. This is reflected in the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds, as a transfer between the General Fund and Non-major Funds (Debt Service Fund).

In prior years, the State has refunded various bond issuances by creating separate irrevocable trust funds. Refunding debt has been issued and the proceeds have been used to purchase United States Treasury Obligations--State and Local Government Series that were placed in the trust funds. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and therefore removed as a liability from the State's long-term debt. As of June 30, 2002, the amount of defeased general obligation debt outstanding, but removed from the long-term debt amounted to \$1.1 billion.

During Fiscal Year 2002, the State advance refunded various general obligation bond issues. The State issued \$608.3 million of general obligation refunding bonds to provide resources to purchase securities that were placed in escrow for the purpose of generating resources for all future debt service payments of the refunded debt. As a result, the refunded bonds are considered to be defeased and the liability has been removed from long-term debt. This advance refunding was undertaken to reduce total debt service payments over the next 18 years by \$33.4 million and to obtain an economic gain of \$7.7 million.

During Fiscal Year 2002, the State advance refunded revenue bonds with a revenue bond refunding. The State issued \$1.191 billion of revenue refunding bonds to provide resources to purchase securities that were placed in escrow for the purpose of generating resources for all future debt service payments of the refunded debt. As a result, the refunded bonds are considered to be defeased and the liability has been removed from long-term debt. This advance refunding was undertaken to reduce total debt service payments over the next 18 years by \$51.3 million and to obtain an economic gain of \$26.0 million.

In addition, the State (the General Fund) has assisted the New Jersey Sports and Exposition Authority with two types of debt. The first involves use of the State's guarantee on certain bonds issued by the New Jersey Sports and Exposition Authority. The State's liability is contingent upon the Authority's inability to meet such debt service requirements through derived revenues. The State believes that the revenue of the Authority will be sufficient to provide for the payment of debt service on these obligations without recourse to the State's guarantee. The amount outstanding on these bonds as of December 31, 2001, is \$71.5 million. The State has never had to make any State guaranteed debt service payments. The second type of debt involves the issuance of State Contract Bonds. The State has contracted with the New Jersey Sports and Exposition Authority to provide annual appropriations to the Authority in amounts sufficient to provide for the debt service on the bonds. During the year, the New Jersey Sports and Exposition Authority issued \$136.8 million in variable-rate, State Contract Bonds that were used for refunding purposes. While the bonds bear a weekly interest rate mode, the State converted the bonds by entering into a fixed-rate option. As of June 30, 2002, the amount outstanding on New Jersey Sports and Exposition Authority State Contract Bonds was \$699.5 million.

The State may be required to provide appropriations to meet any annual deficiencies in debt service for the South Jersey Port Corporation and the New Jersey Housing and Mortgage Finance Agency. However, the Legislature is not legally bound to make such appropriations for these "moral obligation" bonds. Furthermore, the New Jersey Housing and Mortgage Finance Agency has not had a deficiency in debt service reserve which required the State to appropriate funds.

The State provides the South Jersey Port Corporation with funds to cover all debt service and property tax requirements when the Corporation's earned revenues are anticipated to be insufficient to cover these obligations. On December 1, 2001, the Corporation certified that it would be unable to provide sufficient funds from operations for debt reserve and, therefore, required a State appropriation for Fiscal Year 2002 in the amount of \$5.2 million.

C. Capital Lease and Installment Obligations

The State has entered into various lease and installment purchase agreements as a means of acquiring capital assets.

The following is a schedule, by fiscal year, of future minimum lease payments under capital leases together with the present value of the net minimum lease payments as of June 30, 2002 (expressed in millions):

<u>Fiscal Year</u>	<u>Amount</u>
2003	\$ 82.9
2004	82.7
2005	82.9
2006	79.7
2007	78.6
2008-2012	316.2
2013-2017	127.7
2018-2022	63.0
2023-2027	25.6
	<hr/>
Total minimum lease payments	939.3
Less: Amount representing interest	391.0
	<hr/>
Present value of lease principal payments	<u>\$ 548.3</u>

Installment obligations represent agreements between the State and several authorities which have issued their obligations to purchase or construct facilities to be rented by the State or to provide financing for other State projects. The State agrees to make payments equal to the debt service of the respective authorities' funds, subject to and dependent upon appropriations being made by the State Legislature for such purchases. At the conclusion of the term of the installment agreements, title to the various facilities is to be transferred to the State. The following is a schedule, by fiscal year, of future installment payments together with the present value of net minimum installment payments, as of June 30, 2002 (expressed in millions) for both installment purchases as well as various other installment obligations of the State:

<u>Fiscal Year</u>	<u>Amount</u>
2003	\$ 410.9
2004	431.2
2005	417.4
2006	430.4
2007	449.0
2008-2012	2,400.5
2013-2017	2,414.3
2018-2022	2,938.4
2023-2027	2,619.6
2028-2033	<u>1,015.9</u>
Total minimum installment payments	13,527.6
Less: Amount representing interest	8,211.2
Add: Unamortized premium	<u>8.2</u>
Total principal payments	<u><u>\$ 5,324.6</u></u>

Those obligations identified as certificates of participation represent a series of master lease agreements with a trustee from the sale of certificates of participation. The State is required to make payments that approximate the principal and interest payments to be made by the trustee to certified holders. The following is a schedule, by fiscal year, of future payments together with the present value of net minimum payments, as of June 30, 2002 (expressed in millions):

<u>Fiscal Year</u>	<u>Amount</u>
2003	\$ 43.8
2004	36.3
2005	19.4
2006	4.9
2007	2.6
2008-2012	5.8
2013-2017	<u>2.3</u>
Total minimum certificates of participation payments	115.1
Less: Amount representing interest	<u>14.1</u>
Total principal payments	<u><u>\$ 101.0</u></u>

D. Loans Payable

The New Jersey Automobile Insurance Guaranty Fund has received a loan of \$1.3 billion from the New Jersey Property-Liability Insurance Guaranty Association. This loan will be repaid to the Association when the financial obligations of the Joint Underwriters Association (JUA) have been fully satisfied.

E. Net Pension Obligation

As of June 30, 2002, the net pension obligation (NPO) for the State Police Retirement System and the Consolidated Police and Firemen's Retirement System amounted to \$81.7 million.

F. Other

This obligation is claims that represent unmatured long-term indebtedness which is required (NCGA Statement 1) to be reported as general long-term liabilities of the government. This includes health (\$92.5 million), dental (\$3.3 million), and medicaid benefit claims (\$224.3 million of which \$103.4 million is federally reimbursable) which have been incurred but not been reported.

G. Proprietary Funds/Business-type Activities

Lottery prizes are funded by the purchase of deposit fund contracts which, when matured, will provide amounts sufficient for future payment of installment prizes. Future payment of installment prizes in the amount of \$1.1 billion are recorded as noncurrent liabilities in both the fund financial statements and the government-wide statements.

NOTE 10 - OTHER LIABILITIES

Other liabilities presented in the statement of net assets consists principally of revenue refunds payable to taxpayers (\$712.8 million).

NOTE 11 - FUND BALANCES

A. Reserved - Other

In the fund financial statements, reservations of fund balance classified as "reserved - other" consists principally of legally mandated escrow balances and long-term loans and receivables due from individuals, municipalities, and authorities, that are considered not currently available for expenditure in subsequent accounting periods. In addition, balances have been reserved in the following funds for purposes described below.

General Fund

The \$103.8 million reservation in the General Fund that is considered not currently available for appropriations consists principally of monies set aside to pay claimants whose property has been previously escheated to the State (\$68.6 million), long-term advances, receivables due from individuals, estates, municipalities, railroads and other funds (\$20.4 million), and a portion of bond receipts which is earmarked to pay debt service in the next fiscal year (\$14.8 million).

Fund for Support of Free Public Schools

New Jersey Statutes provide for the establishment of a School Bond Reserve within this fund, in an amount equal to at least one and one-half percent of the aggregate issued and outstanding bonded indebtedness of counties, municipalities, or school districts for school purposes, exclusive of the debt service for bonds as provided by State appropriations. Accordingly, \$84.6 million of this fund balance has been reserved at June 30, 2002.

New Jersey Transportation Trust Fund Authority

In this fund, \$577.8 million has been reserved for the payment of future State transportation system costs.

B. Unreserved

In the fund financial statements, unreserved consists of: designated for continuing appropriations, designated for debt service, designated for unrealized gains, and undesignated.

General Fund

The \$1.2 billion unreserved balance consists of \$944.7 million designated for continuing appropriations, \$3.4 million designated for unrealized gains, and \$292.3 million undesignated.

NOTE 12 - OTHER FINANCING SOURCES/USES – OTHER

The following items were recorded as other financing sources (uses) –other in the fund financial statements (expressed in millions):

	<u>General Fund</u>	<u>Non-Major Funds</u>

Other Financing Sources (Uses) - Other	<u>\$ 1,122.3</u>	<u>\$ --</u>

NOTE 13 - OPERATING LEASES

The State of New Jersey has commitments to lease certain buildings and equipment under arrangements representing operating leases. Future minimum rental commitments for noncancelable operating leases as of June 30, 2002 are as follows (expressed in millions):

<u>Fiscal Year</u>	<u>Amount</u>
2003	\$ 27.1
2004	21.2
2005	18.2
2006	15.7
2007	12.4
2008-2012	<u>34.0</u>
Total Future Minimum Lease Payments	<u>\$ 128.6</u>

NOTE 14 - RETIREMENT SYSTEMS

The State of New Jersey sponsors and administers the following contributory defined benefit public employee retirement systems (retirement systems) covering substantially all state and local government employees:

Consolidated Police and Firemen's Pension Fund (CPFPF)--established in January 1952, under the provisions of N.J.S.A. 43:16 to provide coverage to municipal police and firemen who were appointed prior to July 1, 1944. The fund is a closed system with no active members.

Judicial Retirement System (JRS)--established in June 1973, under the provisions of N.J.S.A. 43:6A to provide coverage to all members of the State judiciary system. Membership is mandatory for such employees with vesting after five years of successive service as a judge and 10 years in the aggregate of public service.

Police and Firemen's Retirement System (PFRS)--established in July 1944, under the provisions of N.J.S.A. 43:16A to provide coverage to substantially all full time county and municipal police or firemen and State firemen appointed after June 30, 1944. Membership is mandatory for such employees with vesting occurring after 10 years of membership.

Prison Officers' Pension Fund (POPF)--established in January 1941, under the provisions of N.J.S.A. 43:7 to provide coverage to various employees of the State penal institutions who were appointed prior to January 1, 1960. The fund is a closed system with no active members. New employees of the State penal institutions are enrolled in the Police and Firemen's Retirement System.

Public Employees' Retirement System (PERS)--established in January 1955, under the provisions of N.J.S.A. 43:15A to provide coverage, including post-retirement health care, to substantially all full time employees of the State or any county, municipality, school district, or public agency provided the employee is not a member of another State-administered retirement system. Membership is mandatory for such employees and vesting occurs after 8 to 10 years of service for pension benefits and 25 years for post-retirement health care coverage.

State Police Retirement System (SPRS)--established in July 1965, under the provisions of N.J.S.A. 53:5A to provide coverage to all uniformed officers and troopers of the State Police in the State. Membership is mandatory and vesting occurs after 10 years of membership.

Teachers' Pension and Annuity Fund (TPAF)--established in January 1955, under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time certified teachers or professional staff of the public school systems in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for post-retirement health care coverage.

Other Pension Funds:

The State established and administers a Supplemental Annuity Collective Trust Fund (SACT) which is available to active members of the State-administered retirement systems to purchase annuities to supplement the guaranteed benefits provided by their retirement system. The state or local governmental employers do not appropriate funds to SACT.

The State also administers the Central Pension Fund (CPF) which is a single-employer noncontributory defined benefit plan for special groups which are not included in other State-administered systems. There are no employees covered by CPF.

The State also administers the Pension Adjustment Fund (PAF) which provides cost of living increases, equal to 60 percent of the change in the average consumer price index, to eligible retirees in all State-sponsored pension systems except SACT. In the CPFPF, POPF, and CPF, the cost of living increases are payable from the State of New Jersey Pension Adjustment Fund which is funded by the State as benefit allowances become payable. The cost of living increases for PFRS, PERS, TPAF, SPRS, and JRS are funded directly by each of the respective systems and are considered in the annual actuarial calculation of the required State contribution for that system.

According to state law, all obligations of each retirement system will be assumed by the State of New Jersey should any retirement system be terminated.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of each of the above systems, funds, and trust. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295.

Basis of Accounting

The financial statements of the Funds are prepared on the accrual basis of accounting. Employer contributions are recognized when payable to the Funds. Benefits or refunds are recognized when due and payable in accordance with the terms of the Funds.

Investment Valuation

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals. Investments that do not have an established market are reported at estimated fair values.

The State of New Jersey, Department of the Treasury, Division of Investment, issues publicly available financial reports that include the financial statements of the State of New Jersey Cash Management Fund, Common Pension Fund A, Common Pension Fund B, and Common Pension Fund D. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Investment, P.O. Box 290, Trenton, New Jersey 08625-0290.

Significant Legislation

Legislation was passed during the year (P.L.2001, c.353) that provides for an increase in the special veterans' retirement allowance and the ordinary and accidental disability retirement allowances for members of the TPAF and PERS. The special veterans retirement allowance increased from 50% to 54.5% of the member's compensation during the highest-paid year of service. The minimum ordinary disability retirement allowance increased from 40% to 43.6% of final average compensation, and the accidental disability retirement allowance increased from 66.66% to 72.7% of the actual annual compensation at the time of the accident. Existing retirees and beneficiaries are eligible for the increases which were effective October 2001.

Chapter 23, Public Law of 2002 provides early retirement incentive benefits to State employees enrolled in the PERS and TPAF who meet specified age and service requirements and who retire within a specified time period that generally extends from February 1, 2002 to July 1, 2002. The incentive benefits include an additional three years of service credit to employees who are at least 50 years of age with at least 25 years of service credit; State paid health care benefits to employees who are at least 60 years of age with a at least 20 but less than 25 years of service credit; an additional monthly benefit of \$500 per month for 24 months following the date of retirement to employees who are at least 60 years of age with at least 10, but not more than 20 years of service credit; and an additional pension benefit of 3/55 of the compensation upon which the retirement benefit is based to employees who are at least 55 years of age with 25 or more years of service credit and who retire on a veteran's retirement.

Chapter 259, Public Law of 2001 amends the PERS statutes and creates special retirement benefits for members employed as workers compensation judges. PERS members entitled to the new benefits are the Chief Judge, the administrative supervisory judges, the supervisory judges, and the judges of compensation of the Division of Workers' Compensation of the Department of Labor. Those in eligible titles would receive retirement benefits comparable to those provided to members of the Judicial Retirement System. The effective date of this legislation was December 6, 2001.

Chapter 133, Public Law 2001 increased the retirement benefits under service, deferred and early retirement by changing the formula from 1/60 to 1/55 of final compensation for each year of service. This legislation also increased the retirement benefit for veteran members with 35 or more years of service and reduced the age qualification from 60 to 55. Existing retirees and beneficiaries received a comparable percentage increase in their retirement allowances. This benefit enhancement was effective with the November 1, 2001 benefit payments.

Due to the enactment of 1997 legislation, Chapter 114, P.L. 1997 and Chapter 115, P.L. 1997, the State of New Jersey's portion of the unfunded accrued liability under each retirement system was eliminated. In addition, excess valuation assets have been available to fund, in full or in part, the State of New Jersey's normal contribution from 1997 to 2002, excluding the contribution for post-retirement medical benefits in the PERS and TPAF.

Contribution Requirements

The contribution policy is set by laws of the State of New Jersey and, in most retirement systems, contributions are required by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. The various pension funds provide for employee contributions based on percentages ranging from 3.00 percent to 8.50 percent of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in all Funds except the SACT, CPF, and PAF. The actuarially determined employer contribution includes funding for cost-of-living adjustments and noncontributory death benefits in the JRS, PFRS, PERS, SPRS, and TPAF. In the PERS and TPAF, the employer contribution includes funding for post-retirement medical premiums.

During the year ended June 30, 2002 for CPFPF and TPAF, which are cost sharing plans with special funding situations, and for JRS, POPF, and SPRS, which are single employer plans, annual pension cost equals annual required contribution. For PFRS and PERS, which are cost sharing multi-employer defined benefit pension plans, the annual pension cost differs from the annual required contribution due to the enactment of Chapter 114, P.L. 1997.

The annual pension cost for the fiscal year ending June 30, 2002 and related information, including a summary of the significant actuarial methods and assumptions used by the Funds, are presented on the following pages. Note that the assumption regarding post-retirement benefit increases has not been disclosed because post-retirement health care benefits are currently being funded on a modified pay-as-you-go basis and not on an actuarial reserve basis.

NOTE 15 - POST-RETIREMENT MEDICAL BENEFITS

P.L. 1987, c.384 and P.L. 1990, c.6 required the Teachers' Pension and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. As of June 30, 2002, there were 54,493 retirees receiving post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994 with an additional contribution beginning in Fiscal Year 1996 to maintain a medical reserve that increases by one half of one percent of the active State payroll each year.

Commencing on July 1, 1997, State employees attaining 25 years of service credit after this date in a State administered retirement system and those who retire on disability who elect the Traditional Plan shall be subject to premium sharing based on the negotiated contracts.

The State did not make a contribution to the PERS and TPAF in Fiscal Year 2002 toward the cost of post-retirement medical benefits in accordance with P.L. 2002, c.11; which allowed the State to use available reserves in the Post-Retirement Medical Reserve Funds to cover required pay-as-you-go medical premiums. This legislation also suspends in Fiscal Years 2002 and 2003 the additional post retirement medical contribution to increase the fund balance by one half of one percent of active member salaries for the valuation period. State law provides that post retirement medical contributions resume in Fiscal Year 2004 and will be computed to provide an increase in the reserve fund of three fifths of one percent of active member salaries for the valuation period.

P.L. 1977, c.136, provides for the State's General Fund to pay health benefits on a pay-as-you-go basis for all enrolled retired State employees, regardless of retirement date, under two provisions. The first is for State employees whose pensions are based on 25 years or more of credited service (except those who elect a deferred retirement). The second is for retired State employees who are eligible for a disability retirement regardless of years of service. PERS and TPAF retirees are excluded from the provisions set forth in P.L. 1977, c.136 since their health benefits coverage is funded through each of their respective pension fund systems. The State contributed \$34.7 million for 4,567 eligible retired members for Fiscal Year 2002.

The State is also responsible for the cost attributable to P.L. 1992 c.126 which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$42.8 million toward Chapter 126 benefits for 7,604 eligible retired members in Fiscal Year 2002.

P.L. 1997, c.330 provides State paid post-retirement health benefits to qualified retirees of the Police and Firemen's Retirement System and the Consolidated Police and Firemen's Pension Fund and to dependents of qualified retirees. The State is responsible for 80% of the premium for the category of coverage elected by the retiree under the State managed care plan or a health maintenance organization participating in the program, whichever provides the lower charge. The State contributed \$10.5 million in the current year to provide benefits under Chapter 330 to qualified retirees.

NOTE 16 - COMPONENT UNITS

A. Authorities

The accounts of public authorities, private not-for-profit corporations, and similar entities (hereinafter called Authorities) in the accompanying financial statements are derived from their most recently issued annual financial statements. Authorities are legally separate entities that are not operating departments of the State.

The activities of the New Jersey Building Authority and the New Jersey Transportation Trust Fund Authority have been blended into the financial activities of the State as special revenue and debt service funds. All other Authorities have been discretely presented as component units in the State's financial statements in accordance with GASB Statement 14.

The Authorities are managed independently, outside the appropriated budget process, and their powers generally are vested in a governing board. Authorities are established for a variety of purposes for the benefit of the State's citizenry, such as economic development, financing, public transportation, low cost housing, environmental protection, and capital development for health and education. In addition, they are not subject to State constitutional restrictions on the incurrence of debt, which apply to the State itself, and may issue bonds and notes within legislatively authorized amounts.

The Governor, with the approval of the State Senate, appoints the members of the board of most Authorities. Authorities generally submit annual reports to the Governor, the Legislature, and the State Comptroller on their operations and finances accompanied by an independent auditor's report thereon. Authorities also submit to the Governor and the Legislature annual budget information on operations and capital construction. The Governor has from time to time exercised the statutory power to veto actions.

These component units are included in the State's reporting entity because of the significance of their operational or financial relationship with the State. Descriptions of the discretely presented Authorities and addresses from which complete financial statements may be obtained are provided below:

Casino Reinvestment Development Authority (N.J.S.A. 5:12-153)
1014 Atlantic Avenue
Atlantic City, New Jersey 08401
Fiscal Year Ending December 31, 2001

The Authority was created in 1984 to maintain public confidence in the casino gaming industry as a tool of urban redevelopment throughout New Jersey and to directly facilitate the redevelopment of blighted areas by providing eligible projects in which licensees (casinos) can invest. The Authority encourages investment in, or financing of, projects which are made as part of a comprehensive plan to improve blighted areas or are targeted to benefit low through middle income

residents. The Authority is also responsible for promoting the tourist industry in New Jersey, especially in Atlantic County.

**New Jersey Meadowlands Commission (N.J.S.A. 13:17-5)
(Formerly Known as Hackensack Meadowlands Development Commission)

**New Jersey Economic Development Authority (N.J.S.A. 34:1B-4)
36 West State Street
P.O. Box 990
Trenton, New Jersey 08625
Fiscal Year Ending December 31, 2001**

The New Jersey Economic Development Authority, created in 1974 as a public body corporate and politic, is authorized to arrange long-term, low-interest financing, and other forms of assistance to private firms and companies for the purpose of maintaining and expanding employment opportunities and enlarging the tax base of state and local governments in the State of New Jersey.

**New Jersey Educational Facilities Authority (N.J.S.A. 18A:72A-4)
101 College Road East
Princeton, New Jersey 08540-6601
Fiscal Year Ending December 31, 2001**

The New Jersey Educational Facilities Authority was established in 1966 to provide a means for New Jersey public and independent colleges and universities to construct additional facilities through the financial resources of a public authority empowered to sell its debt instruments (bonds, notes, and other obligations). The Authority may finance academic and auxiliary facilities for the public and independent institutions of higher education.

New Jersey Environmental Infrastructure Trust (N.J.S.A. 58:11B-4)
3131 Princeton Pike - Building 6
P. O. Box 440
Trenton, New Jersey 08625
Fiscal Year Ending June 30, 2002

The New Jersey Environmental Infrastructure Trust established in, but not of, the Department of Environmental Protection in 1985, is a body corporate and politic, with corporate succession. The purpose of the Trust is to make loans and guarantee debt incurred by local government units in financing the cost of wastewater treatment system projects.

The Trust may from time to time issue bonds, notes, or other obligations in any principal amounts that the Trust deems necessary, up to an aggregate principal amount of \$600 million, in order to provide sufficient funds to carry out its purpose.

New Jersey Health Care Facilities Financing Authority (N.J.S.A. 26:2I-4)
Station Plaza Bldg. #4
South Clinton and Yard Avenues
P.O. Box 366
Trenton, New Jersey 08625
Fiscal Year Ending December 31, 2001

P.O. Box 540
Trenton, New Jersey 08625-0540
Fiscal Year Ending June 30, 2002

This Authority was established to provide a single agency for the coordination and delivery of student financial assistance in the State of New Jersey. The Authority serves as the Guaranty Agency for the Federal Family Education Loan (FFEL) Program and the issuer of State of New Jersey College Loans to Assist State Students (NJCLASS) supplementary loan program. The authority also administers the State Tuition Aid Grants (TAG), scholarship programs, and the State College Savings Program, known as the New Jersey Better Educational Trust (NJBEST).

New Jersey Highway Authority (N.J.S.A. 27:12B-4)
Executive Offices
Garden State Parkway
Woodbridge, New Jersey 07095
Fiscal Year Ending December 31, 2001

The New Jersey Highway Authority, created in 1952 as a body corporate and politic, is authorized to acquire, construct, operate, and maintain highway projects (specifically the toll portions of the Garden State Parkway) with the provision that the Governor shall have the right to veto any action, except collective bargaining; and that the approval of the Governor and State Treasurer or Comptroller shall be required prior to adoption of any bond resolution or revision of tolls. The Authority has also been responsible for construction and maintenance of the PNC Arts Center.

New Jersey Housing and Mortgage Finance Agency (N.J.S.A. 55:14K-4)
637 South Clinton Avenue
P. O. Box 18550
Trenton, New Jersey 08650-2085
Fiscal Year Ending June 30, 2002

The Housing and Mortgage Finance Agency (HMFA) makes mortgage and improvement loans to nonprofit and limited dividend sponsors for the construction or major rehabilitation of rental apartment housing for low and moderate-income families and senior citizens. In addition to providing financing, the Agency monitors and provides technical support in the planning, construction, and management of all developments in its portfolio. HMFA mortgage loan funds come from the sale of tax-exempt revenue bonds.

In promoting the availability of affordable homeownership financing, the Agency also provides low-interest mortgage and improvement loans to eligible residents throughout the State. Proceeds from the sale of tax-exempt mortgage revenue bonds enable the Agency to finance the purchase and improvement of one to four unit residences.

New Jersey Redevelopment Authority (N.J.S.A 55:19-1)
225 East State Street
P. O. Box 790
Trenton, New Jersey 08625
Fiscal Year Ending December 31, 2001

The New Jersey Redevelopment Authority was created pursuant to Chapter 62 of P.L. 1996, effective July 13, 1996, to provide assistance in the redevelopment and revitalization of New Jersey cities. The Authority is to provide financial, managerial, and technical assistance to persons, firms, or corporations that wish to undertake industrial, commercial, or civic projects within qualified municipalities.

New Jersey Sports and Exposition Authority (N.J.S.A. 5:10-4)
50 Route 120
East Rutherford, New Jersey 07073
Fiscal Year Ending December 31, 2001

The New Jersey Sports and Exposition Authority, established in 1971 as a public body corporate and politic with corporate succession, has been responsible for the financing, construction, and management of the Meadowlands Racetrack and Giants Stadium, both of which opened in 1976, and the Continental Airlines Arena which opened in July, 1981. The Authority is charged with the responsibility to own, operate, and build various facilities, located in the State of New Jersey, including the Atlantic City Convention Center Authority, for athletic and entertainment events, trade shows, and other expositions, and is authorized to issue bonds and notes and to provide the terms and security thereof.

New Jersey Transit Corporation (N.J.S.A. 27:25-1)
One Penn Plaza East
Newark, New Jersey 07105
Fiscal Year Ending June 30, 2002

New Jersey Transit Corporation (NJ TRANSIT) was created by the New Jersey Public Transportation Act of 1979 and is empowered to acquire, own, operate, and contract for the operation of public transportation services.

NJ TRANSIT receives operating subsidies principally from the State of New Jersey by legislative appropriation and the Federal Government by defined formula grants under the Urban Mass Transportation Administration (UMTA). These government grants are used to support the operation of public transportation services.

NJ TRANSIT provides these services through the operation of bus and commuter rail subsidiaries. NJ TRANSIT also contracts with several motor bus carriers for certain transportation services. Under these contracts, NJ TRANSIT has the right to set fares and coordinate service levels and schedules. In addition, NJ TRANSIT contracts with the National Railroad Passenger Corporation (Amtrak) for the maintenance of certain NJ TRANSIT rolling stock and the use of Amtrak's northeast corridor, including propulsion costs and the cost of maintaining right-of-way.

New Jersey Turnpike Authority (N.J.S.A. 27:23-3)
P. O. Box 1121
New Brunswick, New Jersey 08903
Fiscal Year Ending December 31, 2001

The New Jersey Turnpike Authority, created as a body corporate and politic by the New Jersey Turnpike Authority Act of 1948, is authorized to construct, maintain, repair, and operate turnpike projects at locations established by law. Furthermore, the Authority may issue turnpike revenue bonds or notes of the Authority, subject to prior approval by the Governor and by either or both the State Treasurer and Comptroller, payable solely from tolls and other revenues of the Authority.

New Jersey Water Supply Authority (N.J.S.A. 58:1B-4)
P. O. Box 5196
Clinton, New Jersey 08809
Fiscal Year Ending June 30, 2002

The New Jersey Water Supply Authority, created in 1981 as a public body corporate and politic, is authorized to acquire, finance, construct, and operate water supply systems. The Authority currently operates and maintains the Delaware and Raritan Canal and the Spruce Run/Round Valley Reservoir water supply system.

The Authority may, upon the request of a municipality, county, the State, or agencies thereof, enter into a contract to provide services for any water system project. All projects undertaken by the Authority shall conform to the recommendations of the New Jersey Statewide Water Supply Plan. Bonds of the Authority may be issued to finance these projects and the debt service on the bonds is payable from the revenues and other funds of the Authority.

South Jersey Port Corporation (N.J.S.A. 12:11A-1)
Second and Beck Streets
Camden, New Jersey 08104
Fiscal Year Ending December 31, 2001

The South Jersey Port Corporation, established as a public body corporate and politic of the State, was created in 1968 by the South Jersey Port Corporation Act. The Act conferred upon the Corporation the powers to establish, acquire, construct, rehabilitate, improve, operate, and maintain marine terminals in the South Jersey Port District, including Mercer, Burlington, Camden, Gloucester, Salem, Cumberland, and Cape May counties. To this end, the Corporation may issue tax-exempt revenue bonds subject to the provisions and restrictions of the Marine Terminal Revenue Bond Resolution adopted November 30, 1970, which mandates the distribution of funds to various Port Corporation funds.

South Jersey Transportation Authority (P.L. 1991, c.252)
Farley Service Plaza
P. O. Box 351
Hammonton, New Jersey 08037
Fiscal Year Ending December 31, 2001

The South Jersey Transportation Authority created in 1992 is authorized and empowered to acquire, construct, maintain, operate, and support expressway and transportation projects including the Atlantic County International Airport. The Authority may issue revenue bonds or notes of the Authority subject to prior approval by the Governor and by either or both the State Treasurer and Comptroller, payable solely from tolls and other revenues of the Authority.

C. Colleges and Universities

Effective July 1, 1987, State colleges, whose revenues and expenditures were previously accounted for in the General Fund of the State of New Jersey, were given autonomous status as a result of Chapters 42 and 88 of Public Law of 1988.

The financial statements of the colleges and universities have been prepared in accordance with Governmental Accounting Standards Board Statement No. 35, "Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities." These component units are included in the State's reporting entity because of the significance of their operational or financial relationships with the State and fiscal dependency on the State. The colleges and universities are funded through State appropriations, tuition, federal grants, and private donations and grants. Because the colleges and universities are similar in nature and function, their statements have been discretely presented in the statement of net assets and the statement of activities. They are presented in two categories, major and nonmajor. This distinction is determined by the relative size of an entity's assets, liabilities, revenues, and expenditures in relation to the total of all the colleges and universities. Except for New Jersey Institute of Technology (NJIT) and Rutgers, The State University of New Jersey (Rutgers), the financial statements do not include the financial activity related to foundations and similar organizations within the colleges and universities. Because of their significant operational and fiscal relationship with the universities, these foundations of NJIT and Rutgers are presented as component units of these universities.

Separately issued independent audited financial statements may be directly obtained from the colleges and universities. Addresses and web-sites of the colleges and universities are presented below:

NOTE 17 - CONTINGENT LIABILITIES

General Fund

At any given time, there are various numbers of tort, contract, and other claims and cases pending against the State, State agencies, and employees, seeking recovery of monetary damages. The majority of these claims have historically proven to be substantially less value than originally claimed. The State does not formally estimate its reserve representing potential exposure for these claims and cases. As of June 30, 2002, the exact amount involved in these legal proceedings is not fully determinable.

Special Revenue Funds

New Jersey Lawyers Fund for Client Protection

Claims of approximately \$16.6 million have been filed against this Fund by individuals and companies seeking reimbursement for losses resulting from the alleged dishonest conduct by members of the Bar of the State of New Jersey. Under present rules and regulations of the Fund, the total maximum amount that may be awarded is \$11.2 million. The ultimate disposition of these claims is not determinable at this time.

New Jersey Spill Compensation Fund

As of June 30, 2002, various claims have been filed against the Fund by third parties for damages caused by spills. These claims have not reached the stage in the judicial process where reasonable amounts have been established, and therefore, are not classified as liabilities under generally accepted accounting principles.

Real Estate Guaranty Fund

Claim payments, as certified by court orders, are made to persons aggrieved by the unlawful practices of real estate brokers or salesmen. As of June 30, 2002, there were various cases pending with a maximum possible exposure to the Fund of approximately \$0.6 million. The ultimate disposition of these claims is not determinable at this time.

Sanitary Landfill Facility Contingency Fund

Various claims totaling approximately \$30.6 million have been filed against this Fund by individuals, local municipalities, and school districts. In addition, there are a number of similar claims for unspecified dollar amounts which are pending. The ultimate disposition of these claims is not determinable at this time.

University of Medicine and Dentistry of New Jersey – Self Insurance Reserve Fund

The State has the ultimate liability for tort and malpractice claims in excess of the resources of the Fund.

Capital Projects Funds

Due to delays in construction and design problems, various claims for damages have been filed with respect to the Special Transportation Fund in the amount of \$15.9 million. Fund management is presently evaluating the claims. There has been no determination as to the ultimate amount for which this Fund will be liable.

Pension and Other Employee Benefits Trust Funds

Police and Firemen’s Retirement System (PFRS)

In this suit, plaintiff seeks to represent a class of persons who applied for and received accidental disability retirement benefits under PFRS prior to April 1, 1991. The class would challenge their omission from recent legislation that provided enhanced retirement benefits only to those people who retired after April 1, 1991. The State is unable at this time to estimate its exposure for this claim.

Federal Programs

Under the terms of various grant awards, expenditures from Federal funds are subject to audit. As of June 30, 2002, audits of expenditures for Fiscal Year 2002 and prior years may not be completed. Disallowances which may result from these audits are not determinable at this time. As of June 30, 2002, it is management's opinion that disallowances, if any, would not be material.

NOTE 18 – SUBSEQUENT EVENTS

Short-term Debt

On July 16, 2002, the State issued \$1.9 billion of a \$2.6 billion authorization in tax and revenue anticipation notes, the aggregate principal to be used to provide effective cash flow management to fund the imbalances that occur in the collection and disbursement of various governmental purposes. The final maturity of these notes is June 12, 2003.

Long-term Debt

On July 30, 2002 the State issued \$395.0 million of general obligation bonds for various, voter-approved purposes which included a tax-exempt series totaling \$367.3 million and a taxable series totaling \$27.7 million. Interest is payable semi-annually on August 1 and February 1 commencing on February 1, 2003. Final maturity for the bonds is August 1, 2022.

On October 2, 2002 the New Jersey Economic Development Authority, in accordance with the Educational Facilities Construction and Financing Act, issued \$600.0 million in school construction bonds for the purpose of partially funding the school facilities construction program. Interest is payable semi-annually on June 15 and December 15, commencing on June 15, 2003. Final maturity on the bonds is June 15, 2027.

On November 20, 2002 the State issued \$300.4 million of state general obligation bonds, refunding bonds, Series J in order to refund various general obligation bonds of the State. Interest is payable semi-annually on January 15 and July 15, commencing on January 15, 2003. Final maturity on the bonds is July 15, 2011.

On November 21, 2002 the New Jersey Educational Facilities Authority, in accordance with the Higher Education Capital Improvement Fund Act, issued \$194.6 million of bonds for the purpose of partially funding building and equipment needs of the State’s public and private higher education institutions. Interest is payable semi-annually on March 1 and September 1, commencing on March 1, 2003. Final maturity on the bonds is September 1, 2022.

On November 26, 2002 the New Jersey Building Authority issued \$275.9 million in bonds, which included \$210.5 million to refund a portion of its 1997 Series bonds. The remainder, \$65.4 million were issued to help construct State Museum projects, the multipurpose State Police facility Troop "C" headquarters and communications center project, and the Ewing Township State Police Office of Emergency Management and emergency operations center project. Interest is payable semi-annually on June 15 and December 15, commencing June 15, 2003. Final maturity on the bonds is December 15, 2022.

**STATE OF NEW JERSEY
GOVERNMENTAL FUNDS
DESCRIPTION OF FUNDS**

SPECIAL REVENUE FUNDS

Alcohol Education, Rehabilitation and Enforcement Fund (N.J.S.A. 54:32C)

Annual deposits of \$11 million are made to this Fund from annual collections of the Alcohol Beverage Excise Tax. The monies collected shall be dedicated as follows: 75 percent to alcohol rehabilitation, 15 percent to enforcement, and 10 percent to education.

Additionally, fees of \$40 paid by persons convicted of operating a motor vehicle under the influence of intoxicating liquor or drugs, are deposited into this Fund to be used for the screening, evaluation, education, and referral of persons who have been convicted of drunk driving.

Atlantic City Parking Fees Fund (P.L. 1993, c.159)

There is imposed by this law a \$2 parking fee per diem for each vehicle parked, garaged, or stored in any casino hotel parking space. These revenues are to be made available to the Casino Reinvestment Development Authority.

Atlantic City Tourism Promotion Fund (P.L. 1991, c.376)

This Fund accounts for revenues collected for fees of \$2 per day for each occupied room in any hotel providing casino gaming and \$1 per day for each occupied room in any other hotel in the eligible municipality. The revenues are collected, certified, and distributed on a monthly basis to the convention center operating authority. Amounts expended by the convention center operating authority are solely for the purpose of promoting tourism, conventions, resorts, and casino gaming.

Beaches and Harbor Fund (P.L. 1977, c.208)

An amount of \$30 million was authorized to research, plan, acquire, develop, construct, and maintain beaches and harbors.

Board of Bar Examiners (R. 1:27B1)

This Fund was established for the purposes of drafting bar essay examination questions, reviewing applications, and preparing, administering, and grading bar examinations. Revenues are generated by payments made by candidates for admission to the Bar of the State of New Jersey. Revenues include examination fees, late fee charges, certificates of good standing, license name changes, and copying fees.

Boarding House Rental Assistance Fund (N.J.S.A. 55:14K-14)

The purpose of this Fund is to finance life safety improvement loans by the New Jersey Housing and Mortgage Finance Agency for the benefit of residents of boarding homes; and to provide a source of repayment for such life safety improvement loans.

Body Armor Replacement Fund (P.L. 1997, c.177)

The Body Armor Replacement Fund is a repository fund for monies provided pursuant to subsection (d) of R.S. 39:5-41 and shall be used exclusively for the purchase of body vests for law enforcement officers and correction officers.

Capital City Redevelopment Loan and Grant Fund (P.L. 1987, c.58)

This Fund was established for the redevelopment and revitalization of the City of Trenton. The State has established a redevelopment corporation operating within the boundaries of the Trenton district, which will plan, coordinate, and promote the public and private development of that district in a manner which enhances the vitality of the Trenton area as a place of commerce, recreation, and culture and as an area which to conduct public business and visit historic sites.

Casino Control Fund (N.J.S.A. 5:12-143)

The Casino Control Fund accounts for fees from the issuance and annual renewal of casino licenses, work permit fees, and other license fees. Appropriations fund the operations of the Casino Control Commission and the Division of Gaming Enforcement.

Casino Revenue Fund (N.J.S.A. 5:12-145)

The Casino Revenue Fund accounts for the tax on gross revenues generated by the casinos. Gross revenue refers to the total of all sums actually received by a licensee from gaming operations, less the total sums paid out as winnings to patrons and a deduction for uncollectible gaming receivables. Appropriations from this Fund must be used for reductions in property taxes, utility charges, and other specified expenses of eligible senior citizens.

Casino Simulcasting Fund (P.L. 1992, c.19)

Casino simulcasting is defined as the simultaneous transmission by picture of running or harness horse races conducted at race tracks to Atlantic City casinos and pari-mutuel wagering at those gambling establishments on the results of those races. A portion of the revenue generated from casino simulcasting is to be deposited into this Fund and shall be used for services to benefit senior citizens.

Casino Simulcasting Special Fund (P.L. 1992, c.19)

Casino simulcasting is defined as the simultaneous transmission by picture of running or harness horse races conducted at race tracks to Atlantic City casinos and pari-mutuel wagering at those gambling establishments on the results of those races. A portion of the revenue generated from casino simulcasting is to be deposited into this Fund and shall be disbursed to the Atlantic City Racetrack, Atlantic City casinos conducting simulcasting, and for other miscellaneous purposes.

Catastrophic Illness in Children Relief Fund (P.L. 1987, c.370)

The purpose of this Fund is to provide assistance to children and their families whose medical expenses due to a child's "catastrophic illness" extend beyond the families' available resources. Revenue is derived from a \$1 annual surcharge per employee for all employers who are subject to the New Jersey Unemployment Compensation Law.

Clean Communities Account Fund (P.L. 1985, c.533)

Revenues are generated from taxes levied on manufacturers, wholesalers, distributors, and retailers of litter-generating products. Monies shall be used to provide grants to eligible municipalities and counties for litter pickup and trash removal programs.

Clean Waters Fund (P.L. 1976, c.92)

An amount of \$120 million was authorized to research, plan, acquire, develop, construct, and maintain water supply and wastewater treatment facilities.

Community Development Bond Fund (P.L. 1981, c.486)

An amount of \$85 million was authorized to capitalize the New Jersey Local Development Financing Fund and to provide support for the revitalization, development, and creation of urban industrial parks in the communities. An amount of \$45 million was allocated to capitalize the New Jersey Local Development Financing Fund; \$30 million was allocated for low-interest loans and grants to counties, municipalities, and other entities for assisting capital construction projects to aid in the revitalization of distressed urban areas and in the promotion of the economic and social development of older central commercial districts of rural and developing communities. The remaining \$10 million was allocated to provide financial assistance for the creation and development of urban industrial parks.

Cultural Centers and Historic Preservation Fund (P.L. 1987, c.265)

An amount of \$100 million was authorized for the purpose of financing the construction and development of cultural centers (\$40 million); the restoration, repair, or rehabilitation of historic structures in the State (\$25 million); and for the purpose of providing for grants and loans to assist municipalities, counties, and other units of local government to acquire and develop lands for recreation and conservation purposes (\$35 million).

1992 Dam Restoration and Clean Waters Trust Fund (P.L. 1992, c.88)

An amount of \$20 million was authorized from the Green Acres, Clean Water, Farmland, and Historic Preservation Bond Act of 1992 to finance dam restoration and inland water projects and loans.

1989 Development Potential Bank Transfer Fund (P.L. 1989, c.183)

Bonds authorized in the amount of \$20 million are to be provided for the acquisition and development rights of land by the State for recreation and conservation purposes.

Developmental Disabilities Waiting List Reduction Fund (P.L. 1994, c.108)

An act authorized the creation of a debt of the State of New Jersey by the issuance of State bonds in the aggregate principal amount of \$160 million for the purpose of planning, construction, reconstruction, development, erection, acquisition, extension, improvement, rehabilitation, and equipping of community based residential facilities for clients on the Developmental Disabilities Waiting List.

Disciplinary Oversight Committee (R. 1:20-2)

This Fund was established for the purpose of performing random audits of the books and records of New Jersey attorneys for compliance with standards established by the Supreme Court of New Jersey. Revenues are generated from annual attorney assessments paid by bar members.

Division of Motor Vehicles Surcharge Fund (P.L. 1994, c.57)

The Fund is comprised of revenues from surcharges and interest for payment to the New Jersey Economic Development Authority's Market Transition Facility Revenue Fund to pay principal and interest on the Market Transition Facility bonds.

Dredging and Containment Facility Fund (P.L. 1996, c.70)

An amount of \$185 million was authorized for the construction of subaqueous pits, the construction of containment facilities, projects related to the decontamination of dredged materials, and dredging projects. Additionally, an amount of \$20 million from bond proceeds was authorized for the purpose of dredging of navigation channels located in the port region.

Drinking Water State Revolving Fund (P.L. 1998, c.84)

This Fund is the depository for the receipt of federal capitalization grants and other funds made available to the State for drinking water projects and set-asides pursuant to the Federal Safe Drinking Water Act.

1996 Economic Development Site Fund (P.L. 1996, c.70)

An amount of \$20 million was authorized for the purchase of real property, equipment, and any building, construction, and miscellaneous site improvements associated with an economic development site.

Emergency Flood Control Fund (P.L. 1978, c.78)

An amount of \$25 million was authorized to acquire, develop, construct, and maintain flood control facilities and for the development of a comprehensive flood control master plan.

Emergency Medical Technician Training Fund (P.L. 1992, c.143)

This Fund was established to annually reimburse any private agency, organization, or entity which is certified by the Commissioner of Health and Senior Services to provide training and testing for volunteer ambulance, first aid, and rescue squad personnel who are seeking emergency medical tech-ambulance and defibrillation intermediate, or who are taking refresher courses or recertification for which that entity is not otherwise reimbursed.

Emergency Services Fund (N.J.S.A. 52:14E-5)

This Fund was established in 1972 to reimburse municipalities or counties for damage or excess costs as a result of an emergency. Payments must be certified by the Governor's Advisory Council and approved by the Governor.

Enterprise Zone Assistance Fund (P.L. 1983, c.303)

The purpose of this Fund is to concentrate the benefits of zone designation and to provide gradual and geographically balanced introduction of such zones. The law is aimed at encouraging the revitalization of some of the State's most distressed urban areas with incidence of poverty and unemployment.

1996 Environmental Cleanup Fund (P.L. 1996, c.70)

An amount of \$70 million was authorized to provide for the remediation of hazardous discharge sites and for the construction of water supply facilities to replace potable water supplies determined to be contaminated or threatened by a discharge.

Farmland Preservation Fund (P.L. 1981, c.276)

An amount of \$50 million was authorized for the purpose of the retention and development of farmland for agricultural use and production.

1989 Farmland Preservation Fund (P.L. 1989, c.183)

An amount of \$50 million was authorized for the purpose of the preservation of farmland for agricultural use and production.

Of this amount, \$150 million was reserved for the improvement of public transportation facilities, \$80 million was reserved for the improvement of county and municipal roads, and \$245 million was reserved for the improvement of State highways.

**STATE OF NEW JERSEY
PROPRIETARY FUNDS
DESCRIPTION OF FUNDS**

Health Benefits Local Government Employers Program Fund (N.J.S.A. 52:14-17.25 et seq.)

This program provides basic health services for employees of Local governments. Employees may enroll in a traditional, point of service (NJ PLUS), or health maintenance organization (HMO) plan. The traditional coverage includes basic and extended hospital benefits, medical-surgical benefits, and major medical benefits but generally does not include preventive or wellness care. An HMO provides employees with a complete coverage including wellness and preventive care for medical services provided by affiliated physicians and hospitals. NJ PLUS is a point of service plan and combines managed care with the option of reimbursement for services performed by out of network physicians, hospitals, or laboratories. An employee or dependent is required to pay a small co-payment when visiting an HMO or NJ PLUS affiliated physician.

Prescription Drug Local Government Employers Program Fund (N.J.S.A. 52:14-17.29)

This program helps meet the cost of drugs prescribed for eligible employees and their dependents for use outside of hospitals, nursing homes, or other institutions. Included are those drugs, which, as required by Federal law, can be dispensed only upon a written prescription ordered by a physician. The program covers the full cost of a prescription item dispensed by a licensed participating pharmacy, less a co-payment charge for each eligible prescription and prescription refill. This plan is provided to local employees whose employers have elected to participate in the State Prescription Drug Program.

State Lottery Fund (N.J.S.A. 5:9-21)

Monies derived from the sale of State lottery tickets are deposited into this Fund. Disbursements are authorized for the payment of prizes to holders of winning lottery tickets and for the administrative expenses of the Division of State Lottery. The balance of funds is paid to the General Fund in support of the amounts annually appropriated for State institutions and for education. The present value of obligations for future installment payments of lottery prizes funded by the purchase of deposit fund contracts are accounted for in this Fund.

Unemployment Compensation Fund (N.J.S.A. 43:21-9a)

This Fund accounts for monies deposited from contributions of employers and employees for unemployment compensation, amounts credited or advances made by the Federal government, and amounts received herein from any other source.

After consideration is given to any claim for refund of overpayment of contributions, the remainder is transferred by the Division of Employment Security to the Treasurer of the United States for credit to the State of New Jersey Unemployment Compensation Fund and held by the Treasurer of the United States in the State of New Jersey Unemployment Trust Fund. Drawdowns against the State of New Jersey Unemployment Trust Fund are made by requests submitted to the Treasurer of the United States by the Division of Employment Security on an as-needed basis, which amounts are transferred back to the Unemployment Compensation Fund and are then disbursed by the Division of Employment Security to persons entitled to receive unemployment benefits.

Any shortfall in the Unemployment Compensation Fund needed to pay benefits is covered by Federal statutes, which authorize advances from the Federal government for unemployment benefits. Such advances are repayable by increased rates on federally taxable wages reported by New Jersey employers, or the advances may be repaid out of the Fund assets at any time by the Governor.

**STATE OF NEW JERSEY
FIDUCIARY FUNDS
DESCRIPTION OF FUNDS**

AGENCY FUNDS

Alternate Benefit Program Fund (N.J.S.A. 18A:66-167 et seq.)

The Alternate Benefit Programs were established for full-time faculty members of public institutions of higher education. All eligible faculty members were permitted to transfer their interests in State retirement systems to these programs. Participants have the option to provide for their pensions through fixed or variable annuities purchased through various carriers as provided for in Chapter 92, P.L. 1995. The minimum contribution by employees is 5 percent of their base salary, and the State will contribute a flat rate of 8 percent of their base salary. Almost immediate vesting is available to those participating in the Alternate Benefit Programs.

Judiciary Bail Fund (R.3:26)

The purpose of this Fund is to serve as a repository for the collection of bail, the return of bail to the surety, and the remittance of associated revenues to the proper governmental agency.

Judiciary Child Support and Paternity Fund (Social Security Act, Title IV-D, as amended)

The purpose of this Fund is to serve as a repository for the collection of child support obligations and the subsequent remittance to the proper recipients.

Judiciary Probation Fund (N.J.S.A. 2C:46-4)

The purpose of this Fund is to serve as a repository for the collection and disbursement of court imposed financial obligations associated with the statewide probation function.

Judiciary Special Civil Fund (R.6)

The purpose of this Fund is to serve as a repository for the collection and disbursement of funds collected by the Special Civil Part of the Superior Court of New Jersey.

Luxury Tax Development Fund (N.J.S.A. 40:48-8.30a(B))

This Fund was established for the deposit of Luxury Tax revenues in excess of statutory requirements. Development funds are dedicated for various housing projects in the City of Atlantic City.

Pension Adjustment Fund (N.J.S.A. 43:3B)

The Fund covers all eligible pensioners of the State-administered retirement systems. This Fund provides cost-of-living allowances for retirees of the pension trust funds. The statutes provide that payments are contingent upon annual appropriation by the Legislature. The Pension Adjustment Fund is funded on a pay-as-you-go basis.

Resource Recovery Investment Tax Fund (P.L. 1985, c.38)

Receipts generated by the investment tax and waste importation tax plus any interest earned thereon, levied upon all owners or operators of sanitary landfill facilities who accept solid waste for disposal, are deposited in this Fund. The revenues are then allocated to counties based on statutory regulations.

Solid Waste Service Tax Fund (P.L. 1985, c.38)

Receipts generated by the solid waste services tax plus any interest earned thereon, levied upon all owners or operators of sanitary landfill facilities who accept solid waste for disposal, are deposited in this Fund. The revenues are then allocated to provide state aid to counties.

Tourism Improvement and Development Act (P.L. 1992, c.165)

This Fund was established for the deposit of tax revenues collected from predominantly tourism related sales, such as the occupancy of every hotel room subject to tax and receipts from the sale of food or drink, except those sold through vending machines. These funds are to be used to fund tourism facility improvements without placing the onus on the permanent residents and businesses.

Wage and Hour Trust Fund (N.J.S.A. 34:11-57)

The Wage and Hour Trust Fund consists of four agency accounts which are used to collect wage settlements from employers who are deemed to have violated one or more, of the various components of the New Jersey Wage and Hour Law; and, to disburse the funds collected to employees who are entitled to receive the wages.

INVESTMENT TRUST FUND

State of New Jersey Cash Management Fund-External Portion (N.J.S.A. 52:18A-90.4)

This is an investment pool to consolidate monies for municipalities, counties, school districts, and any other public body corporate or politic.

PENSION AND OTHER EMPLOYEE BENEFITS TRUST FUNDS

Alternate Benefit Long-Term Disability Fund

This Fund was established on October 1, 1986. It is employer-funded for long-term disability. Benefits will be paid to those members of the Alternate Benefit Programs Fund who have been disabled for two years or more since October 1, 1986.

Central Pension Fund

This Fund administers a series of noncontributory pension acts. No reserves are established for the payment of retirement benefits. These benefits are funded on a pay-as-you-go basis in accordance with the governing statute and the rules and regulations of the State House Commission.

Consolidated Police and Firemen's Pension Fund (N.J.S.A. 43:16)

This Fund was established to place 212 local police and firemen pension funds on an actuarial basis. The membership consists of policemen and firemen appointed prior to July 1, 1944. The liabilities of these local funds were shared: two-thirds by the participating counties and municipalities and one-third by the State.

Judicial Retirement System (N.J.S.A. 43:6A)

This system provides pension benefits to members of the State Judiciary. The system is maintained on an actuarial reserve basis.

New Jersey State Employees' Deferred Compensation Plan (N.J.S.A. 52:18A-164)

This Fund represents the activity of the deferred compensation plan by which amounts contributed by participating employees are invested through various investment options. Included in the Fund are those amounts contributed by participants through payroll withholding, plus investment earnings and appreciation in asset values related to those monies.

Police and Firemen's Retirement System (N.J.S.A. 43:16A)

All police and firemen, appointed after June 1944 in municipalities where local police and firemen pension funds existed or where this system was adopted by referendum or resolution, are required to become members of this system. Certain State and county employees are also covered. Employer obligations are paid by the local employers and the State. This Fund is maintained on an actuarial reserve basis.

Prison Officers' Pension Fund (N.J.S.A. 43:7)

This is a closed system for certain employees of State penal institutions and is funded on a pay-as-you-go basis.

Public Employees' Retirement System (N.J.S.A. 43:15A)

Most public employees in New Jersey, not required to become members of another contributory retirement program, are required to enroll in this system. The retirement benefits of this system are coordinated, but not integrated, with social security. This Fund is maintained on an actuarial reserve basis.

State Police Retirement System (N.J.S.A. 53:5A)

This system was created in July 1965 as successor to the State Police Retirement and Benevolent Fund. All uniformed officers and troopers of the Division of State Police in the New Jersey Department of Law and Public Safety are required to enroll. This system is maintained on an actuarial reserve basis.

Supplemental Annuity Collective Trust (N.J.S.A. 52:18A-110)

Any active, contributing member of the several State-administered retirement systems may enroll in this program. Members agree to make voluntary additional contributions through their pension funds to purchase variable retirement annuities in order to supplement the benefits provided by their basic system. Some employers agree to purchase tax-sheltered annuities for the same purpose for certain eligible public employees.

Teachers' Pension and Annuity Fund (N.J.S.A. 18A-66)

Most employees in every school district in the State and in the county vocational schools, as well as certain employees in the State Department of Education, are members of this system. The system of retirement benefits is coordinated, but not integrated, with social security. The Fund is maintained on an actuarial reserve basis.

PRIVATE PURPOSE TRUST FUNDS

Insurance Annuity Trust Fund (Superior Court of New Jersey, Law Division, Morris County, Docket No. L-081390-83)

This Fund was established to account for deposits made by Western National Life Insurance Company or its assignees on behalf of the State of New Jersey resulting from a lawsuit filed against the State.

Motor Vehicle Security Responsibility Fund (N.J.S.A. 39:6-30.1)

Security deposits made by motorists not having the required minimum motor vehicle insurance coverage in the State, who have been involved in a motor vehicle accident resulting in bodily injury or death and/or property damage, are recorded in this Fund. The deposits may be disbursed in satisfaction of judgments rendered or returned to the motorist upon release of liability.

Unclaimed County Deposits Trust Fund (P.L. 1992, c.173)

All monies received as unclaimed county deposits shall be deposited in the Fund. Each year 75 percent of the deposits received from a respective county shall be paid to that county. The remaining portion shall be retained in the Fund and used to pay claims duly presented and allowed and all expenses and costs incurred by the State of New Jersey.

Unclaimed Insurance Payments on Deposit Accounts Fund

The Unclaimed Deposits Amendment Act of 1993 (UDAA) controls the disposition of unclaimed insurance payments on deposit accounts for insured depository institutions which are placed into receivership after July 28, 1993. Pursuant to the UDAA, unclaimed insurance deposits are placed into this Fund and held for ten years. Payments will be made to the owner upon determining that such individual or entity is the rightful owner of such funds. At the end of the ten-year period, any remaining deposits will be forwarded to the Federal Deposit Insurance Corporation (FDIC).

CALCULATION OF LEGAL DEBT LIMITS

The State Constitution provides that the Legislature shall not create a debt or liability in any fiscal year which, together with any previous debts or liabilities, shall exceed one percent of total appropriations for that fiscal year unless the same shall be authorized by a law for some single object or been submitted to the people at a general election and has been approved by a majority of voters. These Constitutional Provisions do not apply to the creation of debt for purposes of war or to repel invasion, suppress insurrection, or to meet emergencies caused by disaster or act of God (Article VIII, Section 2, par. 3).

All general obligation bonded debt in New Jersey is entered into as a result of successful referenda. As the table below illustrates, the debt margin as defined in the Constitution would prohibit any other method of creation of such debt and liability.

MISCELLANEOUS STATISTICAL DATA

In 1787, New Jersey became the third state to ratify the U.S. Constitution.

The State Constitution was adopted on July 2, 1776, subsequently superceded by the State Constitution of 1844 and the current Constitution which was ratified by the State's voters on November 4, 1947.

The State Constitution establishes a bicameral legislature which meets in annual sessions in Trenton, the State capital. Members of the State Senate are elected to terms of four years, except for the election following a decennial census, in which case the term is two years. The members of the General Assembly are elected to two-year terms. The Governor is elected to a term of four years.

The area of the State, 7,418.8 square miles, ranks it fifth smallest in size. The estimated population as of July 1, 2001 was 8,484,000 making New Jersey the ninth largest state in population, and the most populated of all the states, with an average of 1,144 people per square mile.

The higher education system in New Jersey includes 24 private colleges, 19 community colleges, as well as the following State institutions:

- The College of New Jersey
- Thomas Edison State College
- Kean University
- Montclair State University
- New Jersey City University
- New Jersey Institute of Technology
- The William Paterson University of New Jersey
- Ramapo College of New Jersey
- Rowan University
- Rutgers, The State University of New Jersey
- The Richard Stockton College of New Jersey
- University of Medicine and Dentistry of New Jersey
