## CASINO REVENUE FUND

The Casino Revenue Fund (CRF) was established in 1976 with the provision that State revenues derived from casino gambling would be applied solely for the purpose of “providing funding for reductions in property taxes, rental, telephone, gas, electric, and municipal utilities charges of eligible senior citizens and disabled residents of the State in accordance with such formulae as the Legislature shall by law provide.” The Fund’s authorized use was expanded in 1981 to include additional or expanded health services or benefits, transportation services, or benefits to eligible senior and disabled residents.

Total CRF resources of \$274.6 million, including \$400,000 from the Casino Simulcasting Fund, are projected for fiscal 2011. Total CRF resources also include \$12.7 million from three taxes implemented in fiscal 2004. These taxes are: an increase in the casino parking fee from \$2 to \$3, a \$3 per room per day fee on casino hotel rooms, and an 8% tax on multi-casino progressive slot machine revenue. The tax on casino comps put in place in fiscal 2004 expired at the end of fiscal 2009 and no longer produces revenue for the CRF.

Total available CRF resources in fiscal 2011 are forecast to decrease from the fiscal 2010 appropriated amount by \$60.8 million. The most significant contributor to this decrease in revenues is the challenging conditions in the local and national economy. Also contributing to the decrease is competition from new gaming facilities that have opened in neighboring states.

The summary and projection table at the end of this section illustrates CRF revenues and the programs receiving Fund appropriations over the past several years. Some CRF appropriations have been shifted to the General Fund and other funds over the past several fiscal years (see the General Fund Support section of the table).

**STATE APPROPRIATIONS LIMITATION ACT  
(CAP Law)**

The State Appropriations Limitation Act (P.L. 1990, c.94), commonly called the CAP Law, limits the growth of appropriations in the Direct State Services (DSS) section of the Budget, which encompasses the operations of State government. Exempt from the limitation are Grants-in-Aid; State Aid to counties, municipalities, local school districts, and other instrumentalities; federal funds appropriations; Capital Construction and Debt Service; and monies deposited in and expended from the Property Tax Relief Fund, the Casino Control Fund, the Casino Revenue Fund, and the Gubernatorial Elections Fund.

The State may exceed the maximum appropriations if a bill making an appropriation is agreed to by a two-thirds vote of all members of each legislative body.

Under the formula in the law, the maximum appropriation for fiscal year 2011 is computed by multiplying the base year appropriation (fiscal 2010) subject to the percentage limitation by the average three-year growth rate in per capita personal income calculated on a fiscal basis. The fiscal 2011 CAP is calculated using 3.45%.

The calculation results in a maximum increase of \$200.9 million over the fiscal 2010 Adjusted Appropriation or a maximum appropriation of \$6.023 billion for Direct State Services for fiscal 2011. The Governor's recommendation for fiscal 2011, for items under the CAP, is \$5.911 billion, or \$112.4 million under the CAP limit. Data used to compute the appropriation limit are presented in the accompanying tables.

The average per capita personal income for the State and the average percentage change for the last four fiscal years are displayed as follows.

## WORKFORCE

The Fiscal 2011 Budget Recommendation includes funding for 63,532 Executive Branch full-time employees. The State funded component reflects a net decrease of 1,372 employees compared to the beginning of the Christie Administration. Employee reductions are consistent with the layoff provisions of the Memorandum of Agreement between public employee unions and the prior administration. The major reductions include:

- The closure of the Hagedorn Gero–Psychiatric Hospital in the Department of Human Services, resulting in a reduction of 529 employees.
- The elimination of State funding to New Jersey Network effective January 1, 2011 impacts 129 employees. Operations may be continued if a transition to a private not for profit organization occurs during fiscal 2011.
- The reduction of 78 in Transportation is a combination of attrition and reduced services at two rest areas.
- The phase-out of the Woodbridge Residential Treatment Center beginning January 2011 in the Department of Children and Families, which will result in a reduction of 76 employees.
- The closure of the Kearny unit in the Department of Corrections, which will result in a reduction of 73 employees. The department will downsize its central office and consolidate administrative staff which will result in a reduction of 60 employees. An additional 85 staff will be eliminated in recreation, social work, vocational education and other teaching titles.
- The deferral of a State Police recruit class in the Department of Law and Public Safety, which is anticipated to result in a staffing reduction of 100 positions through attrition during fiscal 2011.
- The consolidation of wings within the Juvenile Medium Security Facility in Bordentown and a reconfiguration of staff at the New Jersey Training School in Jamesburg, operated by the Juvenile Justice Commission, resulting in a net reduction of 52 positions.

- The merger of the State Museum, State Library, and Thomas Edison College with Rutgers University, resulting in a reduction of 26 State funded employees.
- The elimination of the Office of the Public Advocate, resulting in a reduction of 21 employees. Additionally, the Office of Citizen Relations will be combined with the Governor’s Office of Constituent Relations allowing for a reduction of seven employees. The Office of the Child Advocate will be eliminated because it provides duplicative oversight resulting in a reduction of another 14 employees.

Offsetting these reductions, an increase of 119 State funded positions are needed to meet mandates or for critical program priorities. For example, State funded growth of 39 (and an additional 55 of federally funded growth) is provided to the Department of Children and Families to meet the continuing requirements of the Modified Settlement Agreement. The growth of ten for the Medicaid Inspector General reflects a more aggressive approach to detecting, preventing and prosecuting Medicaid fraud. The Budget assumes \$40 million of State savings resulting from Medicaid fraud and abuse investigations. It is proposed that this Office, together with the Office of the Inspector General, be consolidated into the Office of the State Comptroller (OSC). It is further proposed that the functions of the State Commission of Investigation (SCI) also be absorbed by the OSC. This is reflected in the 43 position reduction of the SCI, an agency within the Legislature.

An increase of 40 for the Public Defender represents the termination of clerical contract services and bringing those services in-house.

Non-State funded positions reflect a net reduction of 52. There is a shift of 183 positions from Law and Public Safety to the Department of Banking and Insurance due to the transfer of the Office of Insurance Fraud Prosecutor. The Motor Vehicle Commission will reduce 43 staff due to agency closures, and the Casino Control Commission will reduce 49 staff by a more efficient deployment of its staff.

**NEW JERSEY TOTAL SPENDING  
DEPARTMENTS, AUTHORITIES AND COLLEGES**

Special Revenue/Trust/Bond Funds account for, respectively: resources legally restricted for specific program purposes; trust fund arrangements for which principal and interest benefit individuals, private organizations, or other governments; resources for the acquisition or construction of major capital facilities for State use.

All Other Funds (Dedicated) represents those revenues, other than federal funds, that are not anticipated as resources to support the annual State budget. Upon receipt, these funds become appropriated and are used for specific programmatic, operational, and administrative activities as authorized in the Appropriations Act.

The list of independent authorities is not exhaustive, but rather reflects only the largest such entities currently in operation. The corresponding revenue information is based on fund sources that uniquely accrue to the authorities and thus exclude any related State appropriations, the latter of which are fully represented in the relevant department above.

Revenues for the authorities listed above primarily consist of those that support the associated operating budgets, namely fees, tolls, taxes, loan repayments, and interest earnings. Bond proceeds for capital projects are not included with the unique exception of the Schools Development Authority, which relies on bonds for nearly all of its costs.

Many of the authorities have fiscal years that end on December 31. In those instances, the financial data in this report reflects calendar year 2009 and 2010 activity in fiscal years 2010 and 2011, respectively.

The Transportation Trust Fund amount includes federal funds and bond proceeds. It does not include federal funds for the NJ Transit Corporation, which receives federal monies directly and not through the State accounting system.

The financial data for the colleges and universities does not include state appropriations for operating aid and fringe benefits which are presented in the appropriate department above, but rather reflects other revenue received by this sector such as tuition and fees, auxiliary services, federal funds and private grants.

\*\* The negative fund balance in fiscal year 2010 is caused primarily by the fact that as a result of the severe economic downturn, benefit payments will significantly exceed contributions and beginning fund balance resulting in the need to borrow from the United States Department of Labor. Under the terms of the American Recovery and Reinvestment Act of 2009, such loans are interest free through December 31, 2010.
